Fun Show May Indicate Market Direction Heritage Auction To Offer Rare Gold

The last part of December has been quiet in the sight-unseen, certified rare coin market. This is normal for this time of year, as dealers and collectors take a holiday break from numismatics. Naturally, Bidding activity has greatly **diminished**, as dealers take vacations and concentrate their attentions to family and friends. However, this is not written to alarm you, because we fully expect this type of activity at this time. Historically, we know that the market will come to life as the new year begins. Even though the sight-unseen market has hit a lull, most dealers believe that as 1998 begins, Bids will flourish. Probably, these Bids will continue to follow the same course they took in 1997. They believe that demand for collector coins and rare date, no-problem coins will continue with the same fervor it had in 1997. Dealers need to fill their customer want lists and towards that effort, need to buy as many quality coins as they can. This means that dealers should be very busy during the first major show of 1998, the Florida United Numismatists Show. This show will be held Jan. 7th-10th in Orlando, FL. This show is said to be a **bellwether** show because it attracts hundreds of dealers and thousands of collectors each year. It also is a good indication of the new year. The activity and interest in this show usually gives analysts the direction the coin market may take for 1998. In any case, dealers have the opportunity to shop around and buy coins that they need for their inventories and customers. Similarly, they use this show to reduce the number of items and material that have been on the shelf too long. Dealers are always in search of fresh material and the FUN Show, like other major national shows, can provide these opportunities.

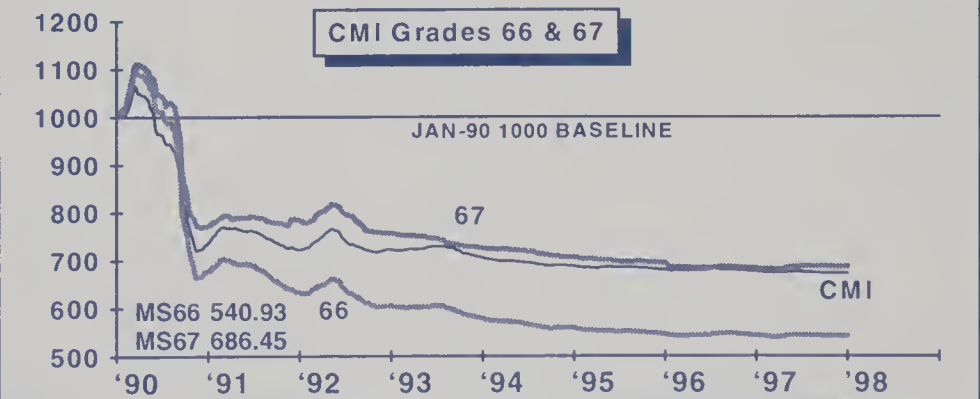

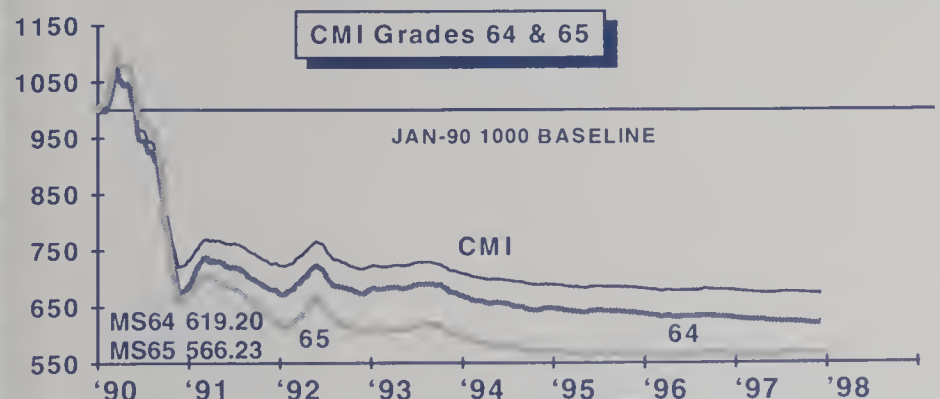

One of these opportunities may come via public auction. The Heritage auction will be held in conjunction with the FUN Show. The sale will feature the Donald H. Carter Collection of rare Gold coins. However, there are many additional consignments from the Andrews-Kohinoor, Churchill and

O'Connell collections. In all, there are nearly 3,200 lots of United States and World coins and paper money. The auction will offer a large selection of certified Proof Gold Coins. But, there are plenty of certified key and semi-key dates throughout the sale. Dealers will have ample time to review their want lists and look at lots. Dealers like to hit a home run at auction and with more than 3,000 lots up for grabs, they may get that chance. In any event, it appears that 1998 will begin with a lot of activity. The following list is just some of the many highlights from the 1998 Heritage FUN Sale.

DATE	DENOMINATION	GRADE
1794	Liberty Cap Half Cent	NGC63B
1914-D	Lincoln Cent	PCGS65R

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CCDn, albeit, on a sight basis.

ATTENTION ALL COIN DEALERS, WHEELER DEALERS... AND COLLECTORS, TOO! THERE'S SOME MONEY WAITING FOR YOU IN FLORIDA

Spectrum Numismatics, the number one buyer of rare coins in this country, desperately needs your coins. Spectrum will do anything within reason to acquire those coins including:

- **Cash On The Spot!** In 1997, we spent over \$70,000,000 purchasing rare coins from dealers and collectors. A lot of people claim to pay top prices but **Spectrum** puts its money where its mouth is and we offer immediate payment.
- **Finder's Fees.** If you bump into a deal and don't want to get involved, you can still make money by helping **Spectrum** purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, **Spectrum paid \$3,028,173** in finder's fees and commissions.
- **Trades.** We're willing to consider any reasonable trade that allows us to acquire the coins we need to satisfy our coin-hungry clients. If you'd like to trade your rare coins for bullion, other rare coins, or just about anything, there's a high probability that we can arrange a transaction that meets your needs.
- **Financing.** **Spectrum** has money and needs coins. If you have coins and need money, **Spectrum** has numerous financing packages to help you.

DO IT FOR THE MONEY!

It's easy to do business with Spectrum

FUN Show Appears Promising As New Year Begins

Demand Forces High Premiums For Gold Coins

The sight-unseen market begins 1998 the same way it closed out 1997, with dealers cautiously issuing Bids for coins they desperately need for their inventories and their customer want lists. Dealers know that buying coins, sight-unseen can sometimes be surprising because each coin is unique no matter what its grade. Dealers also know that there are many ingredients that make up the total grade of any rare coin. Therefore, if a dealer buys a coin sight-unseen that is premium quality for the grade, it's a bonus. Dealers are very anxious to obtain premium quality rare coins. These coins are usually given this attribute because of their outstanding eye appeal for the grade. Sometimes, the coin has a superior strike or more luster than normally seen for the grade. Many dealers are looking to add these coins to their inventory and don't mind paying a premium to obtain them. Collectors are certainly willing to pay more as well to obtain these coins.

Even as we write this article, dealers throughout the country have gathered in Orlando to attend the Florida United Numismatists Show in Florida Jan 7th-10th. This is one of the largest and most important coin shows held each year. It's important because of the large number of dealers in attendance as well as the high quality of the merchandise on the bourse. Dealers will be actively buying and selling numismatic coins and hopefully locating coins on their customer want lists. A show of this caliber is a veritable breeding ground for key and semi-key dates as dealers from all over the country bring their latest acquisitions. Dealers know that their customers have an insatiable appetite for this material. Dealers attending this show have many certified coins in their dealer display cases. It is a tremendous opportunity for dealers to browse and familiarize themselves with each other's inventory. Dealers anticipate a strong market for 1998 and look for the FUN Show to be the start. We will report more about the FUN Show activity in our next CCDN issue.

Heritage Numismatic Auctions, Inc., of Dallas will conduct the FUN Show Bullet Sale on January 10th. The Bullet Sale, held in conjunction with

the FUN Show, features more than 700 lots of certified rare coins. The sale begins with Half Cents and culminates with coins of Hawaii. Some highlights from this Bullet Sale include: a Professional Coin Grading Service Mint State 64 Red and Brown 1855 Braided Hair Half Cent; a Numismatic Guaranty Corporation MS-62 Brown 1817 15 Stars Coronet Large Cent; an NGC MS-65 Brown 1864 2-Cent Coin, Small Motto variety; a PCGS VF-35 1797 16 Star, Draped Bust Half Dime; a PCGS MS-65 FH 1927-D Standing Liberty Quarter; a PCGS MS-64 1918-S Walking Liberty Half Dollar; and a PCGS EF-40 1875-S Coronet \$5 Gold Coin.

We begin 1998 with premiums for U.S. gold coins at a very high level. Dealers have observed the strong demand for gold coins during the latter months of 1997. However, for collectors, they are experiencing the automobile equivalent of sticker shock. Many collector/investors believe that now is a good time to buy common date gold coins. They say this because it appears that gold bullion has finally found a bottom. However, they are very surprised at the high premiums above bullion being asked for certified, MS-60 and MS-61 gold coins. Thus, the decision to buy common date \$20 Coronet and Saint-Gaudens Gold Coins must be weighed with buying bullion coins. The premiums for the common date Uncirculated Double Eagles are substantially more than the cost of bullion coins. For example, an MS-60 1904 Coronet \$20 Gold Coin has a sight-unseen Bid of \$420. For \$20 Saint-Gaudens Gold Coins, sight-unseen Bids for MS-60 common dates are at \$415. With the price of gold bullion at approximately \$290 per ounce, the premium is \$130 and \$125 respectively for the numismatic gold coins. When you consider 1-ounce bullion gold coins sell for \$305 per coin, the savings or lack there of can be substantial. A similar scenario is taking place for common date Coronet \$10 Gold Coins. Consequently, the numismatic premium for these common date gold coins is a testament to the value assigned by the market for numismatic coins verses bullion related coins. Strong demand is behind these premiums and this demand continues to keep premiums high.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

MARKET STRENGTH CONTINUES BUYERS FOCUS ON AUCTIONS & "BIG-TICKETS"

ACTIVITY

... across the market

by Kevin Bolger

The collectible paper money market continues to be a bright spot in an otherwise listless numismatic marketplace. The November National and World Paper Money Convention was a sell-out. The bourse for Krause Publications' February 24-26 Chicago Paper Money Exposition sold out in early December, and has a waiting list of 15 dealers waiting space. One market bourse trader commented upon the relative ease for difficult convention sponsors have in filling their bourse areas. While coin shows have tended to shrink in size over the past five years (some quite considerably), this has not been the case in the paper money area. Not only are established dealers continuing to return, but new entrants are also supporting the paper money specialty event.

Buyers continue to display strong interest in auctions. As mentioned here in the past, it is not unusual to see individuals, reluctant to make a purchase from a dealer in a private transaction, actually pay more for a comparable item at auction. Because of the inherent subjectivity of grading, and the fact that grading opinions and abilities vary widely even among recognized professionals, many buyers seem to need the assurance of rules provided by the auction process. This is the auction assurance of knowing that someone else — the party they are bidding against — shares their opinion of an item's value. That the winning bid of \$2,000 resulted in a note from someone else who felt it was nice enough to be worth \$1,950. In a private transaction, without the other buyers present in the auction arena, this additional confirmation of value is lacking. The fear then is that the \$2,000 item may only be worth perhaps \$1,000 to the next buyer.

This general attitude of buyers who behave quite aggressively at auction and just as timidly in private transactions, has resulted in a two-tiered market. The same material, more often than not, will sell for a higher price at auction than in a private transaction. In addition, material offered at auction is far more liquid and typically sells, rather than languishing in a display case for an extended period. As a principal in Currency Auctions of America, this is a process I constantly note.

LARGE SIZE TYPE NOTES

This is one of the strongest areas in numismatics and shows every sign of remaining that way. Prices are moving up for all conditions of material from VG to Gem. In addition, buyers are seeking notes in all price ranges. The most expensive notes, those rare pieces typically selling above \$10,000, are especially strong. A whole new group of buyers for this kind of material has become active in the past two to three years. The market here had previously been quite thin, and dealers were often frustrated that an

item which ought to be worth more, based on its rarity, would sell for a disappointingly low number — simply because there were so few buyers for such rarities. That situation has been completely reversed today, as a growing number of buyers, such as numismatists to match their interests, have entered the field. These buyers realize that if they miss a note in one of these auctions, such an item may not become available to them again for years, ever.

SMALL SIZE TYPE NOTES

Interest here remains in the specialty areas, i.e., scarce color notes, error blocks, misprints, etc. Buyers are attracted by the fact that a bit of study and knowledge can be quite handsomely rewarded. The differences between a rare and common piece can be as simple as a prefix letter in the serial number or a single digit in a back plate number. Students of Small Type will often have greater knowledge of these nuances than a selling dealer and may often cherry pick a bargain as a result. Prices of type material remain quite stable and can be expected to do so because of large quantities available.

FRACTIONAL CURRENCY

The Martin Gengerke Collection, the only complete original 18 size Fractional collection yet formed, is being offered for sale on January 12-13 in Orlando, Florida, by Currency Auctions of America. The collection contains numerous 19mm condition and ultra scarce high outgrowth rare pieces. Its sale will reduce current values for Fractional.

NATIONAL BANK NOTES

Like the large type market, Nationals are attracting a growing body of collectors not afraid to spend "serious" money to acquire items needed for their collections. One attraction offered by Nationals is the considerable challenge presented by the task of forming a distinguished collection. The surviving population of notes from many banks constitutes only a tiny handful of pieces, with some banks still awaiting the appearance of a discovery piece. Despite this, notes of banks that exist in tiny quantities can be typically acquired (when found) for a few thousand dollars at most, and in many instances for less than \$1,000. These dual factors, the challenge of a quest and relatively low prices in relation to rarity — can be expected to continue to stimulate interest in Nationals.

MISCELLANEOUS

Stocks and Bonds, Obsolete Notes and Confederate material continue to enjoy the same strong demand as in the recent past.

AUCTIONS

Buyers will have much to choose from in the coming months. Currency Auctions of America will hold a 2,500+ lot sale in Orlando in January. R.M. Smythe and Company will hold a significant Stock and Bond sale in conjunction with its Lancaster, Pennsylvania, stock and bond convention later that month. Lyn Knight will hold a major sale February 25-26 in conjunction with the inaugural Chicago Paper Money Exposition.

The Greensheet reports the national currency market on a monthly basis.

MAKE THE GRADE

Learn how you can "Make The Grade" with *The Official Guide to Coin Grading and Counterfeit Detection*

PCGS set the highest standard in the industry for grading rare coins over the last twelve years. During these years of grading millions of coins, we learned that you—the collectors, dealers and general public—wanted more specific information about PCGS grading standards and counterfeit coins.

As an answer to your requests, PCGS brought the top numismatic and rare coin experts together and set a new standard in coin grading and counterfeit detection. Once again revolutionizing the rare coin industry, PCGS makes this information available to you in a newly released landmark reference book called *The Official Guide to Coin Grading and Counterfeit Detection*. This book provides an unparalleled standard of reference for established numismatists as well as for people just entering the coin world.

PCGS revolutionizes the current standards of coin grading with pioneering concepts, definitive grading parameters, and state-of-the-art technology. This book gives you precise descriptions of PCGS grading standards, including the first published grading standards for all eleven Mint State and Proof grades. You will also receive expert guidance on detecting counterfeit coins. The diagnostics in this section are easy to see and understand. The combination of the numismatic expertise along with detailed descriptions provide you with incomparable grading standards that are not subject to wide interpretation.

This landmark reference work is 324 pages and large format (8-1/2" x 11"). It contains an unprecedented 48 pages of spectacular full color illustrations and 547 black and white photographs, all of them produced by state-of-the-art digital imaging of coins from the Professional Coin Grading Service (PCGS) grading and counterfeit detection research archives.

Since it's what you know that really counts in coins, you can build your knowledge bank by ordering *The Official Guide to Coin Grading and Counterfeit Detection* today. This book, published by Random House, is available from PCGS by phone, mail order, or on the PCGS website at www.pcg.com.

PCGS – There Is A Difference!

YES! I want a copy of *The Official Guide to Coin Grading and Counterfeit Detection* for \$29.95, plus \$4 shipping & handling. Rush my order today.

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 3

January 16, 1998

Single copy price \$4.00

Strength Of FUN Pervades Sight-Unseen Market Heritage Auctions Rare Date Gold Coins

The sight-unseen rare coin market is alive and well, according to most dealers we spoke to at the Florida United Numismatists Show and public auction. These sentiments were echoed by dealers in Orlando, Jan. 7th-10th, as they actively tried to buy rare coins for their inventory and customer want lists. Dealers agreed that the demand that existed for coins in the sight-unseen market in 1997, is still present in 1998. The FUN Show was very **successful and satisfying** for dealers. Most believe the market is hot. Dealers believe that a positive sight-seen coin market will carry over to the sight-unseen market. Obviously, little has changed on the demand side of the equation, as dealers continue to seek rare coins. As always, dealers hope that the coins will be attractive and that they will agree with the grade issued by the professional grading service. Dealers know that many of the coins they receive will be average for the grade, but that's OK. That is because dealers have customers presently waiting for coins. So if a coin is found, a transaction is imminent. In many instances, the prominent key dates of the 19th and 20th century popular series are at the forefront of this demand. FUN provided dealers with an excellent opportunity to check the inventories of hundreds of other dealers for specific dates. In one example, a dealer was trying to buy a 1916-D Mercury Dime. Specifically, he needed a coin that grades MS-65 with Full Bands on the reverse. He also wanted it to be a slabbed example, graded and certified by either NGC or PCGS. However, even though he had hundreds of dealers to ask, he was finding it difficult to succeed. Again, availability continues to be a problem.

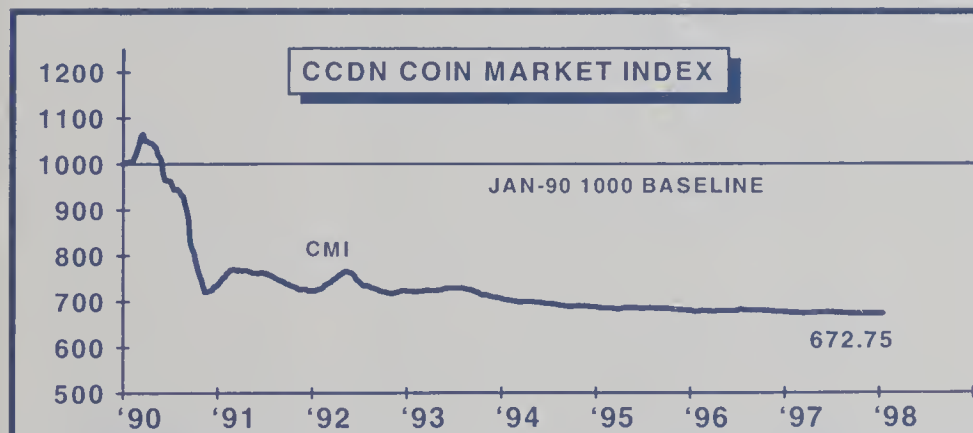

Demand is strong in many areas of the market. Dealers are actively buying San Francisco Mint semi-key and key date Lincoln Cents. Apparently, there are many serious collectors pursuing these coins. Still, the PCGS and NGC population reports indicate why many dealers are finding the pickings to be very slim. Color is important. The strongest demand is seen for MS-64 and MS-65 Red coins. It's tough to find gem, full red Lincoln Cents. And acquiring the scarce semi-keys and keys are especially challenging for collectors and frustrating for dealers. Collectors want coins that have nice, even red color with a minute number of spots. Of course, they would prefer specimens with no spots. Some of the dates dealers have had to increase Bids to buy include, 1924-D and 1926-S. The 1926-S is nearly impossible to locate in MS-65R and that's why dealers would love to obtain an MS-64R example. Other areas where sight-unseen Bidding has continued solid is Indian Cents, Buffalo Nickels, Mercury Dimes, Walking Liberty Half Dollars and Morgan Dollars. In most cases, dealers continue to Bid for specific dates and grades that customers are ready to buy. Dealers want coins

that are at least average for the grade, but will gladly pay more for coins that possess nice eye appeal.

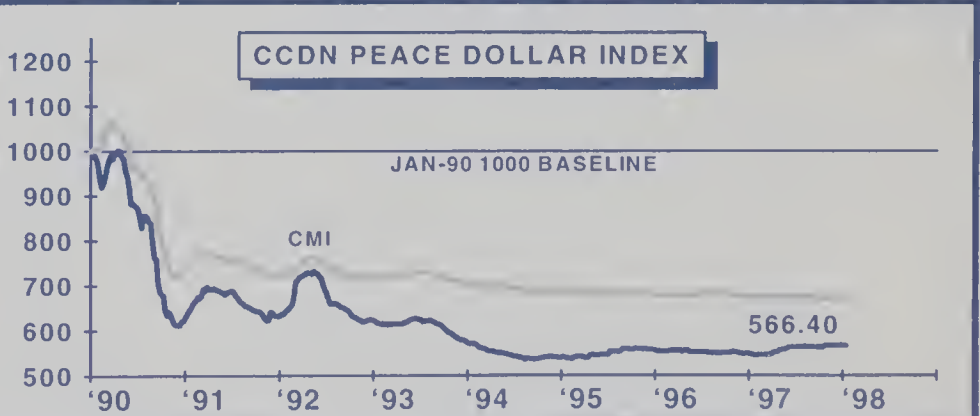

Heritage Numismatic Auctions of Dallas conducted the FUN Bullet and Signature Sales. The Bullet Sale was held Jan 10th, featured approximately 700 lots and realized \$423,842. A few highlights include a PCGS MS-63 1914/3 Buffalo Nickel at \$3,410; a PCGS AU-58 1889-CC Morgan Dollar sold for \$5,060; and an NGC AU-58 1801 Capped Bust \$10 Gold coin brought \$6,050.

The Heritage Signature Sale was held in conjunction with the FUN Show and realized more than \$10.2 million featuring nearly 3,200 lots. The auction was held Jan. 7-9th. Key and semi-key dates of all series did well. Rare date Gold Coins were very strong, fueled by the Donald H. Carter collection. The auction room was crowded with strong Bidding competition pushing prices above the levels many dealers had hoped to pay. In all, the results suggest that the demand for coins and a strong coin market is very much evident today. The following are just a few of the many certified highlights of the three-day sale.

DATE	DENOMINATION	GRADE	PRICE REALIZED

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest national y reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET STRENGTH CONTINUES BUYERS FOCUS ON AUCTIONS & "BIG TICKETS"

ACTIVITY

across the market

by Kevin Bailey

The collectible paper money market continues to be a bright spot, can otherwise a hoisting market. The National Numismatic and World Paper Money Convention here was a sell-out. The Numismatic Publications, February 24-26, Chicago Paper Money Exposition will start in early December and have a waiting list of dealers waiting space. One market barometer seldom commented upon is the relative ease or difficulty of moving up more have in the field. While, at shows have tended to shrink in size over the past five years, some quite modestly, this has not been the case in the paper money area. Not only are established dealers continuing to thrive, but new entrants are also supporting the paper money specialty.

Buyers continue to display strong interest in auctions. As mentioned here in the past, it's not unusual to see individuals reluctant to make a purchase from a dealer in a private transaction actually pay more for a comparable item at auction. Because of the inherent subjectivity of grading, and the fact that grading opinions and abilities vary widely even among recognized professionals, many buyers seem to need the assurance of the grading process. This is the auction advantage, knowing that someone else, the party they are bidding against, shares their opinion of an item's value. That the winning bid of \$4,000 for a note from someone else who felt it was not enough to be worth \$1,950 in a private transaction without the other buyers present at the auction arena, this additional confirmation of value is lacking the fear that the \$2,000 item may only be worth perhaps \$1,000 to the next buyer.

The general attitude of buyers who behave quite aggressively at auction and are timid in private transactions has resulted in a two-tiered market. The same material, more often than not, will sell for a higher price at auction than in a private transaction. In addition, material offered at auction is far more liquid and typically sells, rather than languishing in a display case for an extended period. As a principal in Currency Auctions of America, this is a process I consistently note.

LARGE SIZE TYPE NOTES

This is one of the strongest areas in numismatics and shows every sign of remaining that way. Prices are moving up for all conditions of material from VG to Gem. In addition, buyers are seeking notes in all price ranges. The most expensive notes, those rare pieces typically selling above \$10,000, are especially strong. A whole new group of buyers for this kind of material has become active in the past two to three years. The market here had previously been quite thin and dealers were often frustrated that an

interested buyer remains, especially if they are a collector, and are buyers looking for a specific item. That is, they are not simply interested in the item, but they are interested in the item's history. They are not simply interested in the item's history, but they are interested in the item's history.

SMALL SIZE TYPE NOTES

Interest here remains, especially if they are a collector, and are buyers looking for a specific item. That is, they are not simply interested in the item, but they are interested in the item's history. They are not simply interested in the item's history, but they are interested in the item's history.

FRACTIONAL CURRENCY

The Martin Gemmy Collection, the only complete fractional currency collection of interest, is being offered for sale in January 1995. It includes a number of rare items, including a 1/2 cent note, which is a very rare item.

NATIONAL BANK NOTES

The National Bank Note market is an attractive growing body of collectors not afraid to spend serious money to acquire them, needed for their collections. One attraction offered by National Bank Notes is the considerable challenge presented by the task of finding a distinguished collection. The surviving population of notes from many banks constitutes only a tiny handful of pieces with some banks still awaiting the appearance of a discovery piece.

Despite this, many notes, or banks that exist in large quantities, are being actively acquired, often for a few thousand dollars at most, and in many instances for less than \$1,000. These days, the challenge of acquisition and relatively low prices in relation to rarity can be expected to continue to stimulate interest in National Bank Notes.

MISCELLANEOUS

Stocks and Bonds, Unredeemed Notes and Underscored material continue to enjoy the same strong demand as in the recent past.

AUCTIONS

Buyers will have much to choose from in the coming months. Currency Auctions of America will hold a 2,500 lot sale in February in January. R.M. Smythe and Company will hold a significant stock and bond sale in conjunction with its January 1995 Pennsylvania, stock and bond convention later that month. In March, the inaugural Chicago Paper Money Exposition

The world's most important coins are consistently graded by NGC.

At NGC, we've been consistently grading some of the world's most renowned coins. Like the unique "EB on breast" Garrett/Parrino Brasher Doubloon, the magnificent PF-66 Eliasberg/Parrino 1913 Liberty Head Nickel, or the remarkable Eliasberg/Spectrum 1884 Trade Dollar. Not to mention many other important coins from the Eliasberg, Byron Reed, and Trompeter collections. And, the complete Overton collection. This is to name just a few examples.

While we are grading more of the world's finest coins, we are also grading more coins than ever, now averaging 38,000 coins per month. Still, big numbers mean less to us than our efforts to ensure that each coin is graded accurately, consistently, and impartially.

This is why NGC is endorsed by the ANA as its official grading service, and why we're the grading service of choice for more of the world's finest collections, and the world's finest coins, like yours. It's also why we have the largest dealers network, at 1,250-plus member dealers.

You can also count on more of our innovative leadership in services that meet the needs of the hobby and the professions. NGC was first to offer Economy service, World Coin grading, PreScreen service, a security hologram, and the PhotoProof full-color digital imaging and presentation service. Count on NGC to continue innovating as we move into the next millennium.

When it matters to you that your coins are graded with lasting accuracy, choose NGC... the consistent choice for certifying the world's most important coins, like yours.

Market Continues To Forge Ahead With Increasing Bids Morgan Dollars, Proof Gold and Mercury Dimes In Demand

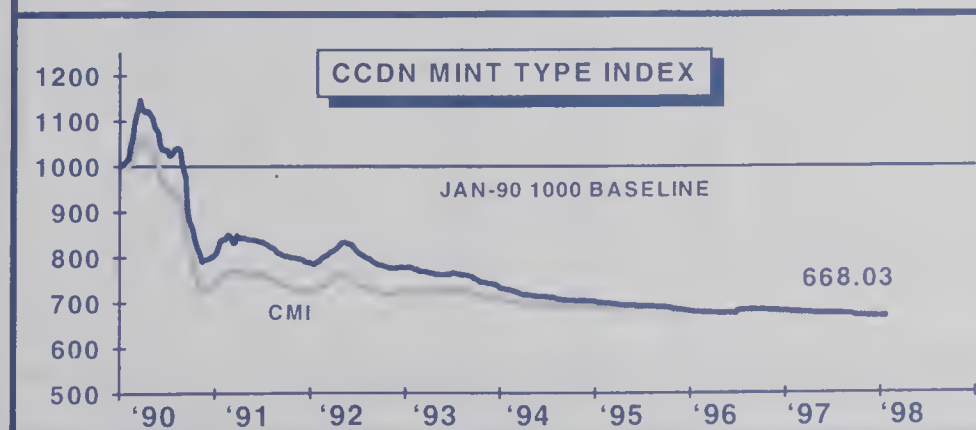

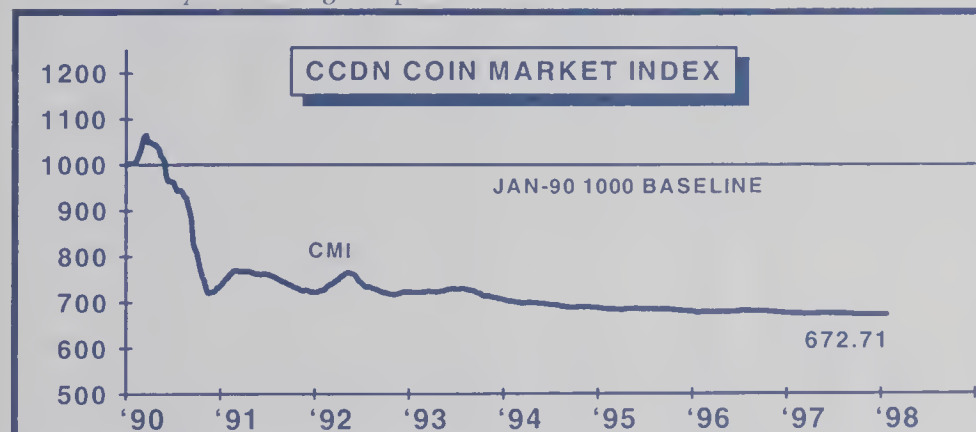

The rare coin market is doing very well. Many coin dealers agree that the market outlook for 1998 is good. Actually, many dealers are rather optimistic about this year's market. We recognized the signs during the Florida United Numismatists Show in Orlando and we hear it from the many telephone conversations with dealers following the big show. Dealers believe that 1998 will be an up year for rare coins and that 1999 will be even better. One area of the market, Morgan Dollars, that realized strong demand and solid prices in 1997, is continuing the same trend this year. Collector demand is forcing dealers to **raise their Bids** to acquire specific dates for their customers. However, just raising the Bid doesn't necessarily produce a favorable result. At least one dealer has informed us that he raised his Bids on better date Morgan Dollars. He issued about 150 or so new, higher Bids hoping to acquire some better dates. His Bids were higher than the current Bids listed in Bluesheet. Unfortunately, this action only produced 3-4 coins. This dealer was very surprised. Usually, when he issues this quantity of higher Bids, he expects to be hit on many of his Bids, making him wonder if he's made a mistake and that he's buried. Consequently, the lack of sellers makes him believe that the market must be very strong.

We also believe this to be the case. As optimism pervades the 1998 rare coin market, dealers are more reluctant to sell their quality, better date examples. They understand that the market is on an upswing and dealers are demanding even higher prices for their coins. Also, dealers know how tough it is to replace the quality coins they have obtained, especially in a rising market. Although this scenario may cause added frustration for some dealers, an increasing market usually translates into a greater number of sales and business. Low-population Morgan Dollars are certainly in demand. We have monitored their activity on the teletype and from public auction sales and after analysis, reported this information to our readers. Yet, there seems to be a shortage of these "scarce" dates when it comes to satisfying the current demand. Maybe the higher prices will force some more on the market.

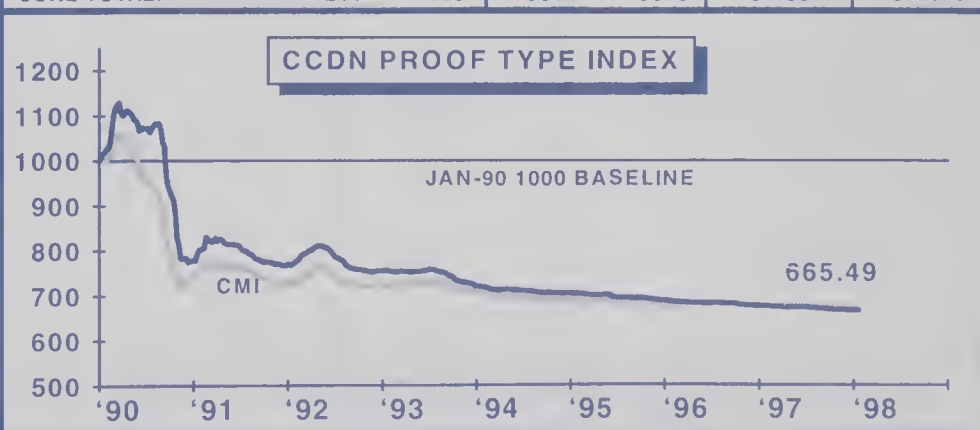

However, it is not only the rare dates that are experiencing demand and increasing prices. Common dates are increasing as well. The Jan. 16th, Bluesheet had over 100 increases for Morgan Dollars. Many of these increases were for coins grading from MS-61 through MS-65. Some of the dates that have increased lately include a 1878 8 Tail Feathers; 1878 7/8 Tail Feathers, strong reverse; 1878 7 Tail Feathers, reverse of 1879; 1878-CC; 1879-S reverse of 1878; 1882-CC; 1885-S; 1886-O; and 1886-S.

The sight-unseen market is improving in other areas as well. Dealers are increasing their Bids for Proof Gold Type coins and Mercury Dimes. Walking Liberty Half Dollars, Gold Commemoratives and Silver Commemoratives continue to be soft, as minus signs continue to outpace the plus signs. Proof Gold continues to be a hot area, experiencing strong dealer demand. It appears that the demand is strongest for grades Pr63, Pr64, Pr65 and Pr66 Gold Coins. Demand and increasing Bids has been occurring in \$2.50 Coronet Gold Coins, \$3 Indian Gold Coins, \$4 Flowing Hair Stella's, \$5 Indian and Liberty designs, \$10 Liberty and Indian designs and \$20 Saint-Gaudens coins. Buyers are looking for attractive coins with brilliant reflective surfaces. All Proof gold coins have relatively small mintages. This makes them an attractive commodity for collectors that have an eye on return-on-investment.

Mercury Dimes have experienced a small number of plus signs. Buyers are still selective, demanding nicely struck examples with brilliant white or attractively toned surfaces. Examples with Full Split Bands appear to realize the greatest amount of demand. Coins that are very well struck have little difficulty in finding a new home. A few dates that have increasing Bids in MS-65FB and MS-66FB include 1930 and 1931. A few late dates have sustained several plus signs in the MS-67FB column. Keep in mind that these plus signs are higher Bids for coins that are sight-unseen. Also, dealers are willing to pay more for coins that are better than average for the grades. Some of these late dates include Denver Mints from 1940, 1941, 1942, 1943 and 1944.

NGC

Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

[illegible]

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trade from *wholesale* trading information and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded coins. The *Lowest Asking Price* is exercised due diligence presently there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied warranty on the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that the market value is the same at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade specimen may display a lower Market level than a lower grade specimen due to limited sell information. **Listing Policy:** During the thirty days prior to publication we track the lowest sales of a coin in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stamant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; "-" a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

PCG, DMPL, and NGC DPL Bids are for fully Deep Mirror Prostatectomy. Bids for PCG, PL, and NGC, PL, Bids will be listed monthly in a supplemental insert. CDN (Gressheim) Bids have always represented fully deep mirror prostatectomy specimens.

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Both for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Gresheet) Bids have always represented bulk, deep mirror prooflike specimens.

Save Money
On Postage!
We will Pre-Sort your
Mailing Labels to get
You the Best Rate

Mail to Dealers It's Easy!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

1997 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only \$325 - well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class - Zip Code order or Presorted for Third Class - Basic Bulk Rate mailings (you can save more than \$425 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

the COIN DEALER Newsletter family of publications

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Borderline or Average, It Makes A Big Difference Market Still Doing Well

Since the inception of certified grading, we have seen thousands and thousands of certified coins. Over the last ten years, hundreds, if not thousands of these coins, may be considered borderline coins. This means that the grade listed on the holder may not be its final grade. It may be so close to the next grade that reasonable arguments could be made for raising the grade. These coins are usually advertised as premium quality or high-end coins. It's not uncommon for dealers to sell these coins for a price that's over Bid or for another dealer to pay above Bid. The trick is finding the PQ coins before they are marked that way.

As many of you know, some dealers make a very good living by searching out these PQ coins. Once bought, they resubmit them in hopes of receiving the next higher grade. This is also how many coins are purchased at auctions, such as the Eliasberg and Pittman Sales; the coins are "raw" and sometimes described very conservatively. Due to the proximity of dealers during lot viewing and auction, personalized codes are used to describe the perceived quality of each coin. The conservative nature of "named" auctions usually create very active bidding, as the ultimate buyer hopes for an even higher grade than anticipated after submission to one of the grading services. It takes a sharp "eye" to identify these coins; the margin for error is very great if you do not happen to notice an almost **undetectable** hairline or other mark. However, there are many dealers who are capable of doing this since they have **honed** their grading skills by seeing thousands and thousands of coins.

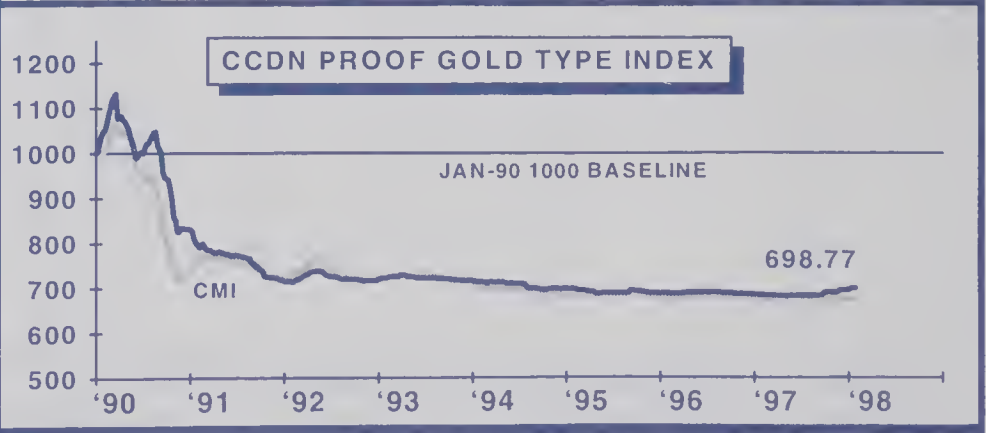

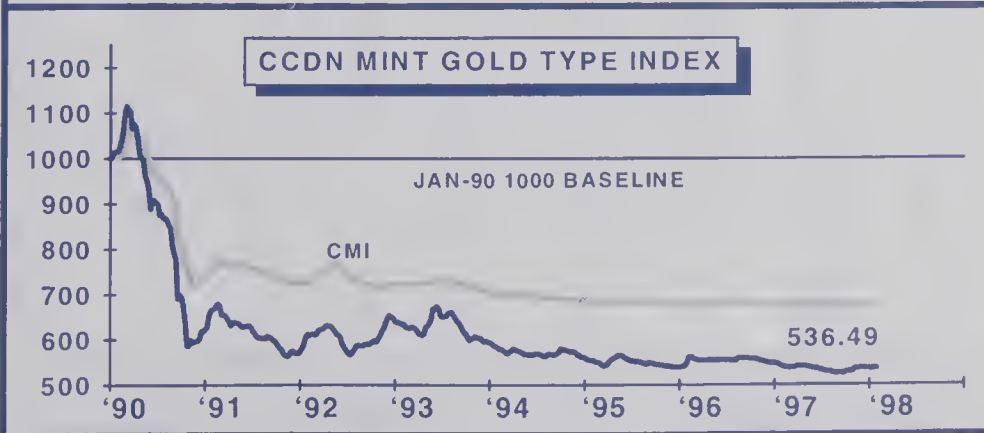

At the past FUN Show, we were reminded that there are just as many, if not more, collectors who do the very same thing. They have taught themselves the many intricacies of grading within each series. They have done this by educating themselves through courses offered by the ANA and grading books that address the specifics of grade by date and denomination. They begin by identifying those coins that will give them the greatest opportunity for financial success. They search for coins that have rather large spreads between

grades. They locate the issues that are certified at the lower of the two grades, but could arguably be the higher grade. If the spreads are wide enough, they will pay as much as two times the lower Bid level, as long as it does not go above the price of the next highest grade. Warning! As a novice, do not try this. Errors can certainly prove costly, but remember, even many of the experts make mistakes. You must be an experienced numismatist. You must be proficient in grading. The expert collector may resubmit the coin several times before finally receiving the grade he or she desires. We have seen this repeatedly. So, it is not just the dealers who are capable of making big "hits" on grading nuances; even the specialized collector, who has taken the time to educate himself, can make substantial profits by trading coins with eye appeal. Finally, there is a further point to bear in mind about sight-unseen Bid prices. In many cases, the sight-unseen Bids are low and sometimes extremely low relative to its current value; however, **"nice coins ain't cheap and cheap coins ain't nice."**

With this said, the market for sight-unseen coins continues at the same steady pace it has been trading over the last several weeks. Demand for coins is growing and this puts pressure on the current supply. Dealers have said that they need "stuff." You cannot make a profit on a coin until you have one to sell. The upcoming Long Beach Show is foremost on the minds of dealers. Sure, many dealers use this and other shows to buy coins, but sales and generating new customers become an important secondary consideration. Morgan and Peace Dollars continue to sustain plus signs. The Mint State and Proof Type market are also displaying a scattering of plus signs. Bids are numerous and some dealers are being enticed to raise their Bid levels to obtain coins. Turnover is still the name of the game as dealers work on tighter margins. Dealers would rather accept a smaller profit and move on to another opportunity. The need to cut down the time a coin remains in one's inventory is an important consideration. Overall, the market is healthy.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

ATTENTION ALL COIN DEALERS, WHEELER DEALERS... AND COLLECTORS, TOO! THERE'S SOME MONEY WAITING FOR YOU IN LONG BEACH

Spectrum Numismatics, the premier buyer of rare coins in this country, desperately needs your Uncirculated pre-1950 coins. Spectrum will do anything within reason to acquire these coins including:

- **Cash On The Spot!** In 1997, we spent millions and millions of dollars purchasing rare coins from dealers and collectors. A lot of people claim to pay top prices but **Spectrum** puts its money where its mouth is and we offer immediate payment.
- **Finder's Fees.** If you bump into a deal and don't want to get involved, you can still make money by helping **Spectrum** purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, **Spectrum** paid **\$3,065,845** in finder's fees and commissions.
- **Trades.** We're willing to consider any reasonable trade that allows us to acquire the coins we need to satisfy our coin-hungry clients. If you'd like to trade your rare coins for bullion, other rare coins, or just about anything, there's a high probability that we can arrange a transaction that meets your needs.
- **Funding.** **Spectrum** has money and needs coins. If you have coins and need money, **Spectrum** has numerous financing packages for you.

DO IT FOR THE MONEY!

It's easy to do business with Spectrum

Morgan Dollar Consolidation Leads Sight-Unseen Market Market Healthy As Long Beach Show Nears

The sight-unseen market posted another positive performance this week as plus signs continue to outnumber the minus signs. Dealers are preparing for the February Long Beach Show, confident that the market is very healthy. Still, the sight-unseen market is most conservative as Bidders cautiously test the waters. They want to be in a good position; one that does not allow them to get caught holding a less than average quality coin for the grade. Dealers are also astute enough to realize that care packages will not be full of premium quality coins. It would be nice if that happened, but dealers aren't naïve enough to believe that it will. Still, sometimes these packages can produce a bonus. These bonus's can be in the form of scarce varieties, doubled dies or a rare die state. It pays to check for varieties, as some dealers we know cashed in on last years discovery of the 1914/3 Buffalo Nickel.

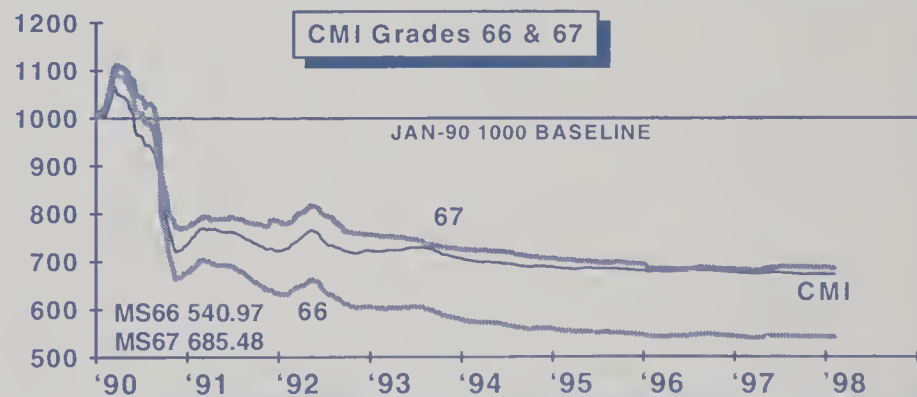

Demand is still strong for Morgan Dollars, even though some common dates are declining. After weeks of increases, supporting sight-unseen Bids are far out numbering the few weaker issues. Dealers are looking to buy many dates within this long series but want their coins to exhibit attractive, lustrous surfaces. Of course, key and semi-key dates continue to **monopolize the demand**, but we have also seen some increases in a few common dates as well. It is important to remember that many of the dates that are unchanged continue to receive a lot of interest from supporting Bids at current levels. According to dealers, many collectors are working on Morgan and Peace Dollar sets by date and Mint. Consequently, dealers are trying to acquire as many of these dates as they can to satisfy this demand. Even dealers that don't specialize in Morgan Dollars are not adverse to adding several examples to their inventories. These dealers understand the value in offering key and semi-key date Morgan and Peace Dollars. It's almost a no-lose proposition for them. A few examples of the dates that have been the object of their attention includes: an MS-63 1879-CC; an MS-63 1879-CC Capped Die; an MS-61 or MS-62 1884-S; an MS-63 or MS-64 1883-S; an MS-62 1894 and 1894-O; and, any Uncirculated 1901. Many certified Dollars

appear at public auctions throughout the year, giving dealers ample opportunity to locate those specific dates for their customers or fulfilling their inventory needs. Sure, the key dates appear with less frequency, but with the exception of two or three dates, they can be found in a reasonable amount of time.

Mercury Dimes have perked up this past week. We are beginning to see a greater number of plus signs in this popular series. Dealers know that collectors enjoy the **affordability** of these 90 percent silver dimes. For a relatively small amount of money, dealers can offer high-grade, full strike examples. Since many of the late dates are so reasonable, collectors enjoy the challenge of completing the series even though some of the key dates are rather costly. Actually, some serious collectors are looking for the 1916-D in MS-65 Split Bands. Dealers have found that it isn't easy to locate one, even if they are prepared to pay strong money for an attractive specimen. The plus signs are finding their way to coins that grade MS-66 and MS-66 Split Band and higher. As we wrote, dealers and collectors can purchase the higher grades of this series for a reasonable amount. Consequently, dealers are demanding specimens that possess full Split Bands. Also, dealers prefer coins that are brilliant white or have attractive toning with very lustrous surfaces. Additional strength in the sight-unseen market has occurred among Proof and Mint State Type coins. The Type market is active as dealers maintain long lists of customers who collect by Type. Type collectors are picky, desiring coins that have some degree of rarity instead of the usual most common date of the series, the standard definition of Type. Silver Commemoratives remain soft, as prices languish at current levels. It appears that the current high-grade supply of Commemoratives continue to overhang the market, providing continuing pressure on price. It may create an excellent opportunity for dealers to add some Commems to their inventory, providing that their inventory isn't already saturated with Commemoratives.

DESPERATELY WANTED FOR CASH

Due to the tremendous response to our "Box of 20" investment plan and our 10% repurchase program we are in desperate need of additional coins. If you have Finest Known, Key Dates in Gem, or a Special Collection, please give us a call and get top dollar immediately. If your material meets our standards, we will pay "all the money." So, if you are in the mood to sell and have really nice material, don't delay...call Jay today.

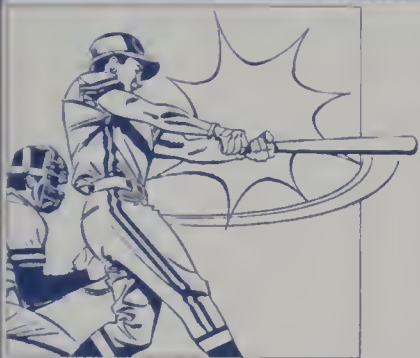

GREAT COINS FOR SALE

If you're not in the selling mode but rather interested in purchasing some really "Great Coins," look over the listing below. Each coin was hand selected and meets our strict criteria for success. Also, every coin qualifies for our repurchase program. For those of you who have not heard, "The Mint" will repurchase any coin we sell at 10% below your purchase price based on the Certified Coin Dealer Newsletter index (The Blue Sheet). Call for complete details.

WIN - WIN TRADE

So, you're not in the mood to Buy or Sell... consider Trading Up to the right coins. Think about it, you've already invested the money, and most likely your

holdings have not performed all that well. When was the last time you looked at your holdings and felt real pride of ownership, and felt comfortable with your investment? Well, maybe now is the time to get on the right track without spending additional funds...Let's talk about trading into a couple of "Killer" coins with real "Home Run" potential, a few years from now you will be so glad you did.

For more amazing rarities visit us on the web at www.JP-TheMint.com

Sight-Unseen Bids Active And Strong Increased Activity At Long Beach

The bulk of the sight-unseen activity continues to point to the Morgan Dollars. However, other series are beginning to attract some of this activity. The Mercury Dimes are experiencing several plus signs this week. Demand is highly focused with increasing Bids targeting the Mint State 65 Full Band grading category. It appears that much of this demand, supported by strong sight-unseen Bids are hoping to acquire Dimes from 1925-30. **Philadelphia Mint** Dimes are the number one need, according to the Bidding. However, 1929-D, 1929-S and 1930-S also have increasing Bids. Looking at the Mercury Dimes as a series, dealers are still filling customer want lists for the key and semi-key dates. Dealers know that collectors are always interested in upgrading their sets. Therefore, they are always looking to buy a better date and condition Dime at a show or public auction. The encouraging, early activity at the February Long Beach Show could benefit both dealer and collector. When it comes to Mercury Dimes, the 1916-D, 1921, 1921-D, 1942/1, and 1942/1-D are the staple. These key dates, bread-and-butter Dimes seem to always be in demand. As the pick-up in Dimes continues, the same can not be said for Buffalo Nickels and Walking Liberty Half Dollars. This does not mean that prices are declining. It just means that dealers are not increasing their sight-unseen Bids for these coins. Still, dealers are posting many supporting Bids for key dates in these two series. These supporting Bids represent a considerable amount of strength for the Buffalo Nickels and the Walking Liberty Halves. Finally, dealers are not actively discounting either of these series. The main reason is that both series have been and continue to be extremely popular with collectors.

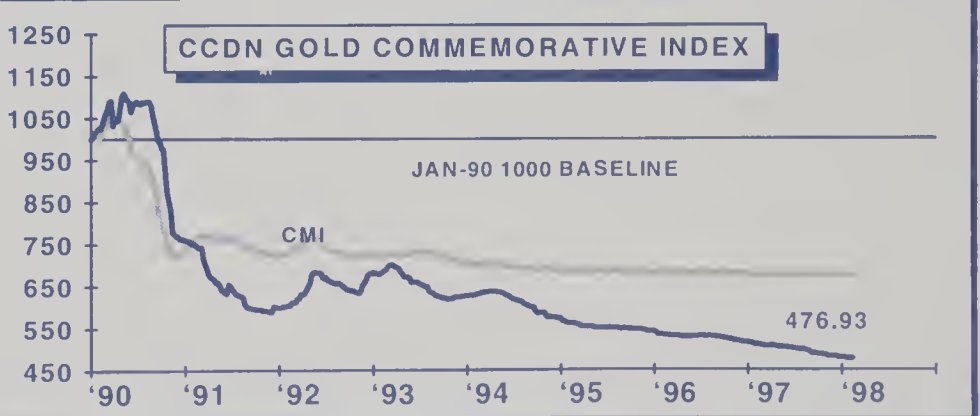

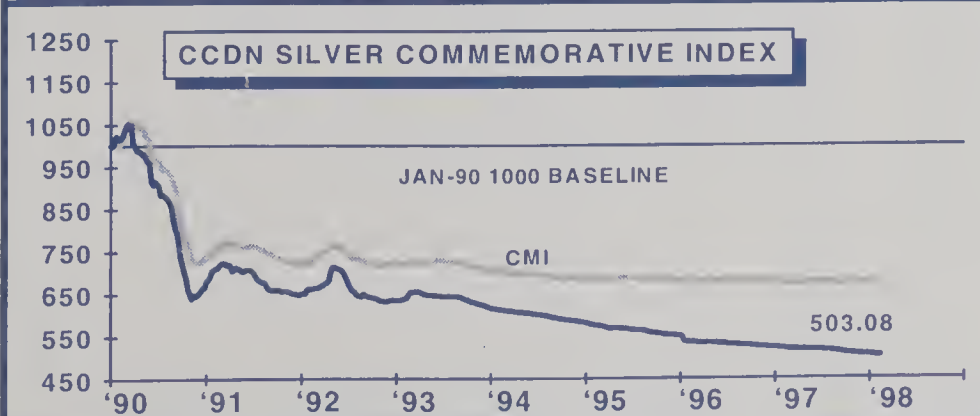

When it comes to hot areas of the sight-unseen market, the Dollars tend to **grab the spotlight**. More specifically, the Morgan Dollars are receiving increasing and supporting dealer Bids. The common date Morgan Dollars are realizing consistently strong Bids by dealers. Their sight-unseen Bids are occurring with regularity for the grades MS-61, MS-62 and MS-63. Among the many common dates enjoying this support includes 1878-S, 1879, 1880, 1881-S, 1882, 1884-O, and 1885-O. The Carson City Mint Dollars is receiving a lot

of attention from dealers. This Mint has been a long favorite of the collectors because many possess exceptional luster and strike. Also, this Mint has a historical tie-in with the colorful and rugged wild west. Supporting Bids have been very strong for the slightly better 1885-CC in MS-61, MS-62 and MS-63. Additional strength has taken place in 1890-CC and 1891-CC. Again, sight-unseen Bidding is most strong in MS-61 and MS-62, however, a higher Bidder has appeared for the 1891-CC in MS-65. San Francisco Mint Dollars are the most sought-after Dollars, according to sight-unseen Bidding. Many of these issues are the better dates of the series. Dates such as 1885-1889-S, and 1897-1901-S have attracted strong Bidding by dealers. In one example, a dealer increased the Bid by \$50 to \$1,950, hoping to buy a scarce 1887-S in MS-65 condition. Some rare New Orleans Dollars have captured the interest of Bidders as well. The better date 1903-O and 1903-S is demanded in grades from MS-61 through MS-65. Dealers know that even in the lower Uncirculated grades, these dates are head-and-shoulders above many other dates of the series. The 1903-S receives Bids over \$2,000, even in MS-61 condition. The Peace Dollars are relatively quiet. Bids are steady with support heaviest among the key dates.

The Type Coins are generating interest and demand. The sight-unseen Bidding for some issues has been robust. The High Relief \$20 Saint-Gaudens are experiencing strong Bids. Some dealers are even willing to post strong, five-figure sight-unseen Bids for High Relief's in MS-65 and MS-66 condition. Gold coins of all denominations are in demand. Bidding for Mint State Gold coins is active and strong. Coronet and Indian Head \$2.50, \$5 and \$10 Gold coins are bringing important supporting Bids along with some increasing Bids. Gold Dollars have been steady with strength aiming at the Type II issues. But, it's not only the Gold coins that are bringing the strong Bids. Common date Two-Cent pieces are needed in Proof 65 Rcd condition. The need is so great that Bid has increased by \$50, sight-unseen to \$1,250. The Type market is one of the healthiest segments of the entire rare coin market.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective with less reflectivity than the design master. Bids for P/L's are usually much lower than for DMPL's, but command some premium for non-P/L strikes

HOW TO GET THE CASH NOW!

The rare coin market performed very well in the past two years. Perhaps you've read about the many new price records set during the past few years. Perhaps you've attended recent rare coin auctions and witnessed for yourself the healthy prices that top quality U.S. coins now fetch. Perhaps you've attended a major coin show and noticed the hot and heavy action. The fact is that rare coins are selling very, very well. **THE BEST TIME TO SELL COINS IS WHEN YOU HAVE A WILLING BUYER.** And if you have rare coins that you've been thinking of selling, you now have a lot of willing buyers for those coins. Now is the time for you to get the cash!

The real question is where do you get the most cash. There is one firm that consistently pays the most for top quality pre-1950 U.S. rare coins. In the rare coin market, **Spectrum Numismatics** truly is the *King of Cash*. Here are the facts:

1. Last year, one firm in this country spent more money buying premier rare coins than any other rare coin firm. That firm was **Spectrum Numismatics**.
2. Last year, an 1804 Silver dollar sold at public auction for \$1,815,000, a new world's record for a rare coin. The buyer for the coin – **Spectrum Numismatics**.
3. Last year, **Spectrum Numismatics** paid \$3,065,845 in commissions and finder's fees to other dealers and individuals just to help **Spectrum Numismatics** buy the rare coins they needed!

Everybody says they pay top dollar, but the facts of the numismatic marketplace show that **Spectrum Numismatics** is the top buyer. Coin sellers, both dealers and collectors, are basically well informed. And these well informed sellers gravitate towards the highest buy prices. Coin sellers go where they can get the most cash for their coins. And most coin sellers realize they get the most cash for their coins from the rare coin market's *King of Cash*, **Spectrum Numismatics**.

Why does **Spectrum Numismatics** pay more than any other dealer for top quality pre-1950 U.S. rare coins? What's the catch? There's actually no catch at all, it's just a wise business decision. **Spectrum** is one of the largest coin dealerships in the world and has lots of coin hungry clients. **Spectrum** literally must either buy your coins or lose its clients. That's why **Spectrum** will pay outrageously high prices for your coins and that's why they make it so easy for you to get the cash.

IT'S EASY TO DO BUSINESS WITH THE KING OF CASH

If you have rare coins you want to sell and you want to sell them for absolutely top dollar, you'll be delighted to know how easy it is to do business with **Spectrum Numismatics**. You'll also be pleasantly surprised at the ultra quick turn around for your coin shipments and the swift **Spectrum** payment. And you can choose payment in either the form of either a **Spectrum** "Rocket" check or an immediate bank wire.

The time to get the cash is now. Call **Spectrum Numismatics** today. Call collect. Tell them you want to talk to the *King of Cash*.

Coin Market Is Getting Hotter

Lee Collection Of Morgan Dollars Changes Hands

The sight-unseen rare coin market is benefiting from the continued, improving sight-seen market. The strength of this market was demonstrated by the activity and demand that we observed during the Feb. 12-15th Long Beach Show. Dealers are actively pursuing coins of all denominations. Most dealers believe that the current **upswing is broad-based**, as collectors are actively buying coins from many series. Dealers reported strong sales before, during and after the show. Still, the sight-unseen market is not quite as strong as the sight-seen market. Several series are still laboring as dealers are reluctant to post higher Bids. Many dealers are moving cautiously, entering Bids they believe to be safe.

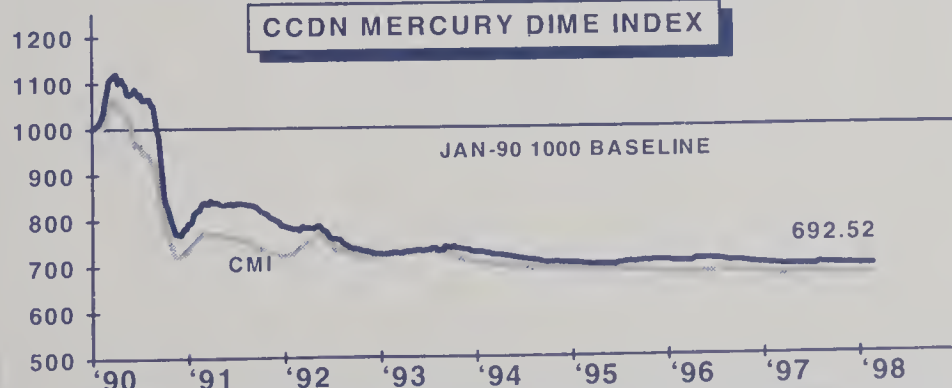

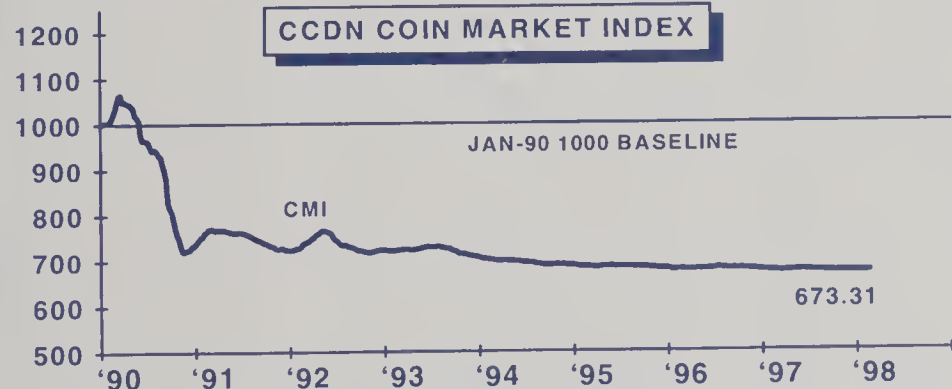

The soft areas of the sight-unseen market continue to be plagued by a glut of coins. This seems to be the case with the Silver Commemoratives. Most Commems have survived in Mint State condition. Understandably, many examples are available in the upper Mint State grades. This is because Commems were saved as collector items. Special care was taken to keep them protected from scratches, nicks or fingerprints. They were also not used in commerce, as the Walking Liberty Half Dollars were plentiful. Dealers are issuing sight-unseen Bids for Commems but strong Bids are the exception rather than the usual occurrence. We are occasionally seeing more sight-unseen Bids for circulated, XF and AU Commems. Dealers believe that current levels are attractive and they hope their Bids will be successful. They also are Bidding solidly for MS-60 Commems.

One area where dealers have thrown caution to the wind is the \$20 Coronet Gold market. Today's demand for \$20 Liberty Gold is very strong, as well heeled customers continue to accumulate these large, attractive gold coins. Several dealers are active Bidders for them, hoping to find the better dates that have the low population numbers. One dealer has increased his sight-unseen Bids for many dates, common and scarce. Remember, increased Bids do not always translate into successful hits. Many of these scarce \$20 Liberty's are extremely difficult to find, especially when the quality demanded is high. It is not easy locating specific, scarce dates in MS-62 and better condition. Unfortu-

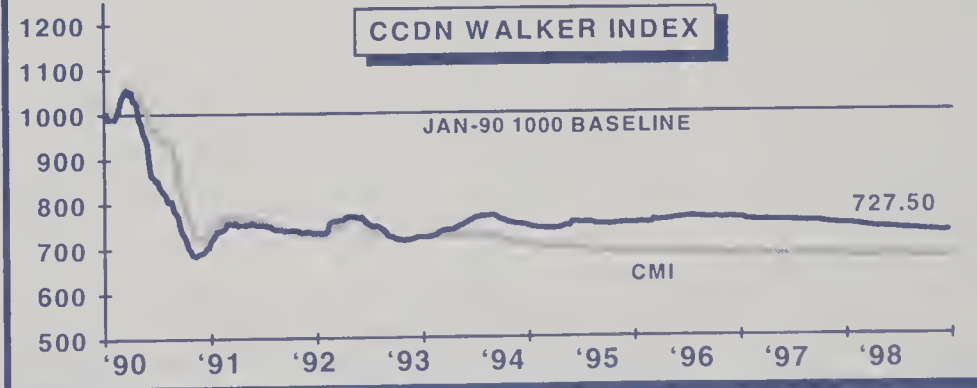

nately, many \$20 Liberty's were banged up as they came in contact with other \$20 Gold coins or just other coins. Gold is a soft metal and easily damaged. Dealers are also finding it difficult to find the "so-called" common dates in MS-63 and better condition. Apparently, some astute dealers understand this as they try to shake a few loose by increasing their Bid.

Proof Silver Type coins are experiencing strong sight-unseen and sight-seen demand. Dealers are actively increasing their Bids for Proof 65 and better Seated Liberty and Barber coins. Customers are quite fussy when it comes to large Proof Silver Type coins. They usually want coins that are brilliant white in color. However, they will accept a toned example if it is attractively or lightly toned. When toned, collectors want light coins because of their pleasing appearance and eye appeal.

One transaction that's sure to shake-up the certified coin market took place before the Long Beach Show. In a private sale, the finest known Morgan Dollar set, the Jack Lee collection of business strikes, prooflikes and Deep Mirror Prooflikes changed hands. Most of the coins sold on or about Feb. 9th in Long Beach, CA. However, there are a few coins from the set still pending. The multi-million dollar deal was consummated after involving several dealers. Big priced coins are hot. Laurie Sperber with Legend Numismatics from Lincroft, N.J., bought all the prooflike and DMPL's from the Lee collection. Her portion of the collection consisted of 91 coins that were all graded and slabbed by PCGS. The majority are the finest known for their date, often exhibiting brilliant, white surfaces. William E. Spcars of Estero, FL, bought the majority of the business strikes. Again, many are the finest known for their date and all are graded and certified by PCGS. Jay Parrino's The Mint, Kansas City, MO., has bought four of the super keys of the Morgan series from the Lee collection. These include the 1884-S in MS68; 1889-CC in MS68; 1893-S in MS-67 and the 1895-O in MS67. He is presently negotiating on six additional key dates. There is considerable strength in the present coin market and as this demand increases, dealers are finding it more difficult to replace the rarities that they are currently selling.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

GOLD COMMEMORATIVES				CCDn does not buy/sell any coins whatsoever. CCDn will not recommend any particular dealers. Bid prices are represented as authentic to the CCDn, nevertheless, CCDn implies no guarantee whatsoever

MAKE THE GRADE

Learn how you can "Make The Grade" with *The Official Guide to Coin Grading and Counterfeit Detection*

PCGS set the highest standard in the industry for grading rare coins over the last twelve years. During these years of grading millions of coins, we learned that you—the collectors, dealers and general public—wanted more specific information about PCGS grading standards and counterfeit coins.

As an answer to your requests, PCGS brought the top numismatic and rare coin experts together and set a new standard in coin grading and counterfeit detection. Once again revolutionizing the rare coin industry, PCGS makes this information available to you in a newly released landmark reference book called *The Official Guide to Coin Grading and Counterfeit Detection*. This book provides an unparalleled standard of reference for established numismatists as well as for people just entering the coin world.

PCGS revolutionizes the current standards of coin grading with pioneering concepts, definitive grading parameters, and state-of-the-art technology. This book gives you precise descriptions of PCGS grading standards, including the first published grading standards for all eleven Mint State and Proof grades. You will also receive expert guidance on detecting counterfeit coins. The diagnostics in this section are easy to see and understand. The combination of the numismatic expertise along with detailed descriptions provide you with incomparable grading standards that are not subject to wide interpretation.

This landmark reference work is 324 pages and large format (8-1/2" x 11"). It contains an unprecedented 48 pages of spectacular full color illustrations and 547 black and white photographs, all of them produced by state-of-the-art digital imaging of coins from the Professional Coin Grading Service (PCGS) grading and counterfeit detection research archives.

Since it's what you know that really counts in coins, you can build your knowledge bank by ordering *The Official Guide to Coin Grading and Counterfeit Detection* today. This book, published by Random House, is available from PCGS by phone, mail order, or on the PCGS website at www.pcg.com.

PCGS – There Is A Difference!

YES! I want a copy of *The Official Guide to Coin Grading and Counterfeit Detection* for \$29.95, plus \$4 shipping & handling. Rush my order today.

National Gold Exchange

- Has the largest inventory of generic & rare date gold coins.
- Has the largest inventory of common & rare date silver dollars.
- Has a large inventory of quality type coins.

additionally... National Gold Exchange

- Will make buy / sell spreads on generic gold coins.
- Will make sight unseen or sight seen offers on all US gold coins.
- Is interested in buying all US regular issue and territorial coins.

National Gold Exchange offers....

- A knowledgeable staff of professional numismatists.
- Full color photos (Numisphotos) of any of the better coins in our inventory. We can also produce Numisphotos of coins in your inventory.
- Convenient payment terms.

National Gold Exchange is one of the leading importers of gold from Europe. With sales of over \$100,000,000 in 1997, we are proving to be the best company to contact when you need quality rare coins.

VOLUME 10 NUMBER 1 JANUARY 1995

MARKET STRENGTH CONTINUES BUYERS FOCUS ON AUCTIONS & "BIG-TICKETS"

ACTIVITY

... across the market

by Kevin Foley

The volatile paper money market continues to be a bright spot in an otherwise lackluster numismatic marketplace. The November National and World Paper Money Convention was a sell-out. The bourse for Kansas Publications February 24-26 Chicago Paper Money Exposition sold out in early December, and has a waiting list of 15 dealers waiting space. One market barometer seldom commented upon is the relative ease for difficulty of acquisition. Spots have been in filling their bourse areas. While coin shows have tended to shrink in size over the past five years (some quite considerably), this has not been the case in the paper money area. Not only are established dealers continuing to return, but new entrants are also supporting the paper money specialty events.

Buyers continue to display strong interest in auctions. As mentioned here in the past, it is not unusual to see individuals reluctant to make a purchase from a dealer in a private transaction actually pay even more for a comparable item at auction. Because of the inherent subjectivity of grading, and the fact that grading opinions and abilities vary widely even among recognized professionals, many buyers seem to need the assurance of a sale provided by the auction process. This is the auction assurance of knowing that someone else, the party they are bidding against, shares their opinion of an item's value that the winning bid of \$2,000 (wrested a note from someone else who felt it was nice enough to be worth \$1,000) in a private transaction, without the other buyers present in the auction arena, this additional confirmation of value is lacking. The fear then is that the \$2,000 item may only be worth perhaps \$1,000 to the next buyer.

This general attitude of buyers who behave quite aggressively at auction and not as timidly in private transactions has resulted in a two-tiered market. The same material, more often than not, will sell for a higher price at auction than in a private transaction. In addition, material offered at auction is far more liquid and typically sells rather than languishing in a display case for an extended period. As a principal in Currency Auctions of America, this is a process I constantly note.

LARGE SIZE TYPE NOTES

This is one of the strongest areas in numismatics and shows every sign of remaining that way. Prices are moving up for all conditions of material from VG to Gem. In addition, buyers are seeking notes in all price ranges. The most expensive notes, those rare pieces typically selling above \$10,000 are especially strong. A whole new group of buyers for this kind of material has become active in the past two to three years. The market here had previously been quite thin.

Item which caught the month more, based on all prices, were set for a disappointingly low number. Simply because there were a few buyers for such rarities. That of a set has been completely reversed today, as a growing number of buyers with resources to match their interests have entered the field. These buyers realize that if they miss a note to one of their competitors, such an item may not become available to them again for years to come.

SMALL SIZE TYPE NOTES

Interest here remains in the specialty areas of "small size" notes, rarest bi-colors, etc. Buyers are attracted by the fact that a bit of study and knowledge can be quite handsomely rewarded. The differences between a rare and common piece can be as simple as a prefix letter in the serial number or a single digit in a back plate number. Students of "small type" will often have greater knowledge of these nuances than a selling dealer and may often "berry pick" a bargain as a result. Prices of type material remain quite stable and can be expected to do so because of large quantities available.

FRACTIONAL CURRENCY

The Martin Geringer collection is the only complete regular issue fractional collection yet formed, is being offered for sale on January 8-9 in Orlando, Florida by Currency Auctions of America. The collection contains numerous premium condition and ultra scarce to outright rare pieces. Its sale will redefine current values for fractional.

NATIONAL BANK NOTES

In the large type market, National Bank Notes are attracting bids of collectors not afraid to spend serious money to acquire items needed for their collections. One attraction offered by National Bank Notes is the considerable challenge presented by the task of forming a distinguished collection. The surviving population of notes from many banks constitutes only a tiny handful of pieces, with some banks still awaiting the appearance of a discovery piece. Despite this, notes on bank that exist in tiny quantities can be typically acquired (even found) for a few thousand dollars at most, and in many instances for less than \$1,000. These dual factors, the challenge of acquisition and relatively low prices in relation to rarity, can be expected to continue to stimulate interest in National Bank Notes.

MISCELLANEOUS

Stocks and Bonds, Obsolete Notes and Confederate material continue to enjoy the same strong demand as in the recent past.

AUCTIONS

Buyers will have much to choose from in the coming months. Currency Auctions of America will hold a 2,500 lot sale in Orlando in January. R.M. Smythe and Company will hold a significant Stock and Bond sale in conjunction with its Lancaster, Pennsylvania, stock and bond convention later that month. Lyn Knight will hold a major sale February 25-26 in conjunction with the inaugural Chicago Paper Money Exposition.

Two Brasher Doubloons Change Hands

Coin Market Continues To Strengthen

The rare coin market is receiving a considerable amount of attention from the public these days. Investors in the equity markets have taken some profits. As they begin to comprehend the magnitude of their newly discovered wealth, they want to buy the things that they have always wanted, but could not afford. It is this scenario that has helped the rare coin market realize some record setting prices along with many increasing Bids. Dealers are issuing sight-unseen Bids on a regular basis. Dealers know that they have many customer want lists that need to be filled and so they post these Bids to secure some of the coins they need. Of course, they do not always expect to be successful with all their Bids because they often issue conservative Bids. These Bids are offered to allow their profit margin to be enhanced. The truth is that there is a **desperate need** for collector coins. Dealers have indicated that their inventories are being depleted in this rapidly changing coin market. They are finding the task of replacing coins to be a most difficult proposition. When collections appear on the market, dealers are put in direct competition with other astute dealers.

The demand for coins continues unabated as February comes to a close. However, February has been a spectacular month for rare coins. The coin market has benefited greatly from strong demand and noteworthy transactions. In two private sales, both varieties of the famous 1787 Brasher Doubloon changed hands. The sales involved the unique variety that features the EB Hallmark of Ephraim Brasher, premier New York silver and goldsmith, on the eagle's breast on the reverse. This specimen has been authenticated and certified by NGC as an XF45. However, this circulated example realized a record price that approached the \$3 million plateau. The other is the Yale University specimen with the EB punched on the wing. This specimen is authenticated and certified by NGC as an AU55 example. Its sale was around the \$1 million barrier. The sales of both coins were handled by Jay Parrino with The Mint, LLC from Kansas City, MO. By private treaty, the coins were

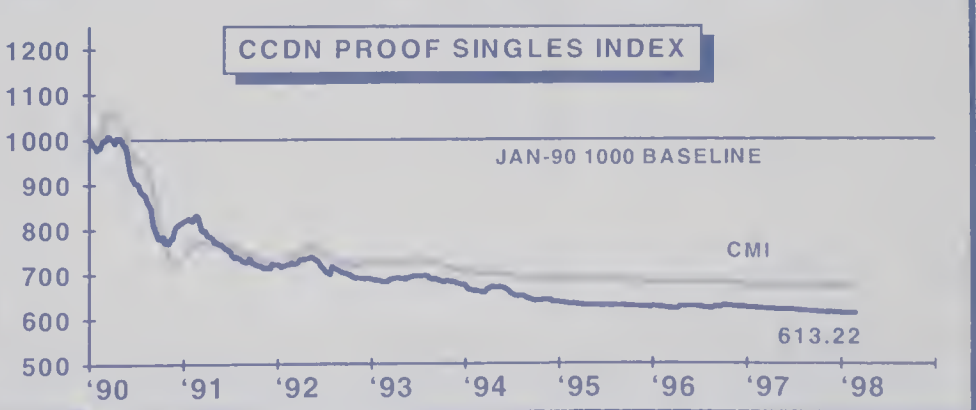

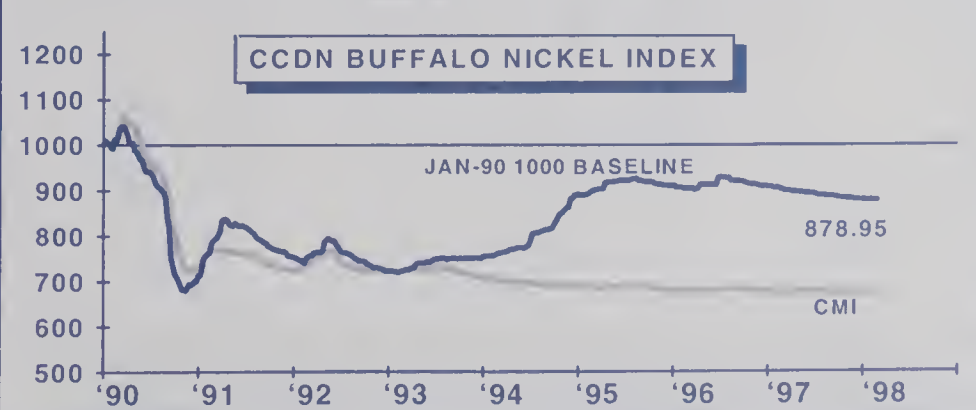

sold to Al C. Adams, Jr., President of Al Adams Rare Coins, Inc., who in turn sold them to the Gold Rush Gallery Collection in Georgia, where they reside today. Therefore, this is the second time that both varieties of the Brasher Doubloon are in a single collection.

February also featured the sale of the famous Jack Lee collection of Morgan Dollars, considered to be finest set of Morgan Dollars ever assembled. Again, dealers increased their Bids to acquire rarities that became available on the market. Dealers tell us that they have plenty of customers waiting to buy the key and semi-key dates. So when they become available from their dealer, collectors battle one another to buy these coins. Many times, collectors ask their dealer to have "first shot" at the rarity. For dealers, it's tough to try to please all their customers. There just aren't enough coins to satisfy everyone. Dealers say that many Morgan Dollars are needed due to collector demand. The difficulty dealers are experiencing is finding specific dates.

The following are some of the more difficult to locate dates from the Morgan series. The 1878, Rev of '79; 1879-CC, it's hard to find a nice Uncirculated example; 1879-S, Rev '78; 1879-O and 1882 in higher grades; 1882-O/S; 1882-O; 1883-S, nearly impossible to find a nice one because they come very baggy; 1884-S in all grades; 1885-S in MS64 and better; 1887/6-O, one of the most difficult dates; 1886-O in all grades; 1886-S in MS64 and better; 1887-O in MS64; 1888-S; 1889-CC, especially tough to find above MS-64; 1890-CC, usually found baggy; 1890-O and 1892 in MS64 and better; 1891-O and 1892-O in MS65 and better; 1892-CC in MS-65; 1892-S and 1893-S, the stoppers with many collectors owning AU's and MS60's; 1893, more difficult than first imagined; 1893-CC in MS65; 1893-O in all grades, MS63 and MS64 sell in an instant; 1894, always tough but especially in MS65; and, the 1895-O and S in all grades. It's easy to see why dealers experience frustration trying to find the coins that their customers want. It's also easy to see why prices for the better dates continue to realize strong Bids.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through a careful study of market activity including the highest non-asked sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of an unsupported high Bid or by Asks or Trades which are above or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guarantee that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually sold at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin may display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

North American Collectibles Association

Do it right the first time!

Insurance protection for your numismatic inventory requires only one major decision-talk to the insurance professionals at North American Collectibles Association first.

Proven Track Record

16 years of experience in providing insurance for coin dealers.

Coverage to Fit Your Needs

Each coverage option available through NACA has been developed to respond to the specific needs of coin dealers.

Service, Service, Service,

It is the name of the game, and Barb Wingo has been on the front line of this one for many years.

Prompt Handling of Claims

Claims receive prompt investigation and response.

NACA Members Have Volume Buying Power

- Save \$1,000s on Federal Express shipments.
- Discount on Safes & Vaults.

2316 Carrollton Road,
Westminster, MD 21157

Barbara D. Wingo, Program Manager

FAX (410) 857-5259

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

All prices are sight-unseen dealer-to-dealer Bids. Bid prices are for the most common date yielding each issue. Bids dated for issues that trade infrequently are the last known.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or Dealer sight-seen trades can be expected to occur at substantially higher levels in many cases.

INTRODUCING

www.NGCcoin.com

the premier site for an exhilarating
numismatic experience.

Visit *www.NGCcoin.com* and you'll discover the web's newest "must-bookmark" site for viewing magnificent coin images and their storied pasts.

Plus, you'll learn how coin grading developed and how coins are graded at NGC. You'll find details about the many NGC services and grading tiers, and find NGC authorized member dealers who can assist you in having your coins graded or submitted for NGC's PHOTO PROOF presentation service. Convenient access is also

provided to NGC's customer service department, by e-mail.

Best of all, each day you'll find a new coin displayed in stunning, bright color with all the nuances of its romantic history revealed.

Count on *NGCcoin.com* for the best in innovations that today's Internet technology can provide. Visit often, because *NGCcoin.com* is frequently updated to provide a new, exhilarating numismatic experience while you're surfing the web.

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 10

March 6, 1998

Single copy price \$4.00

Type, Gold and Dollars Attract Bidders Availability Is The Biggest Problem Facing Dealers

The sight-unseen rare coin market is not only doing very well, but it is gaining momentum. Dealers tell us that the demand for coins is increasing. It is increasing to the point that dealers are facing difficult problems trying to accommodate their customers. Dealers say that their customers want coins that are reasonable. They are willing to accept coin's sight-unseen, slabbed by the grading services as long as they do not get something that's a real surprise. If a coin has a **blatant or severe mark** that has somehow overlooked by one of the grading services, it becomes less salable. However, buyers expect their dealers to inform them about any nasty hits or marks on the coin before they ship it to them. Dealers are careful when buying coins. They try not to buy a coin that has the potential of becoming a problem. They do not make money if the coin remains in their inventory for a considerable amount of time. Also, they do not appreciate tying up funds that could be better spent elsewhere. However, the biggest problem facing dealers today is the availability issue. Dealers are in desperate need of fresh material. They need coins for their customer demand as well as their depleted inventories. They are traveling to more shows, around-the-country in search of material. Their travels are taking them to some smaller, less known shows. They hope that these shows will offer some assistance to their problems. Unfortunately, even the smaller shows are not enough to satisfy this demand. Nice coins are selling quickly and the **temptation to resell** the coin wholesale for a small profit is great. However, many dealers are taking these coins home for resale to their customers.

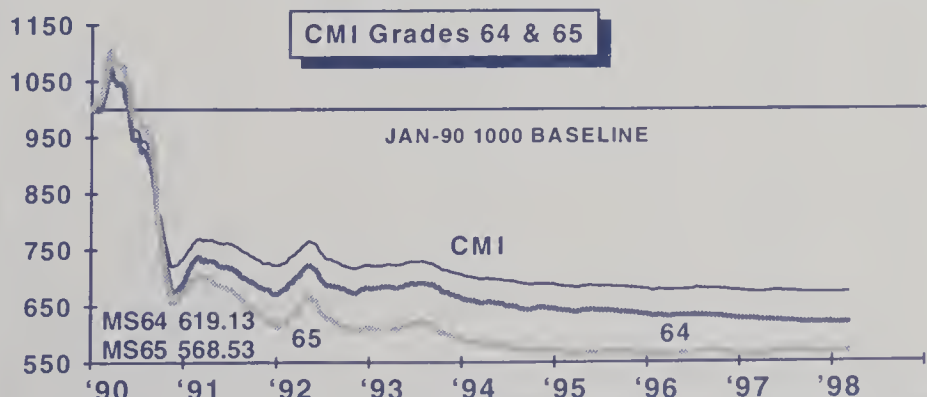

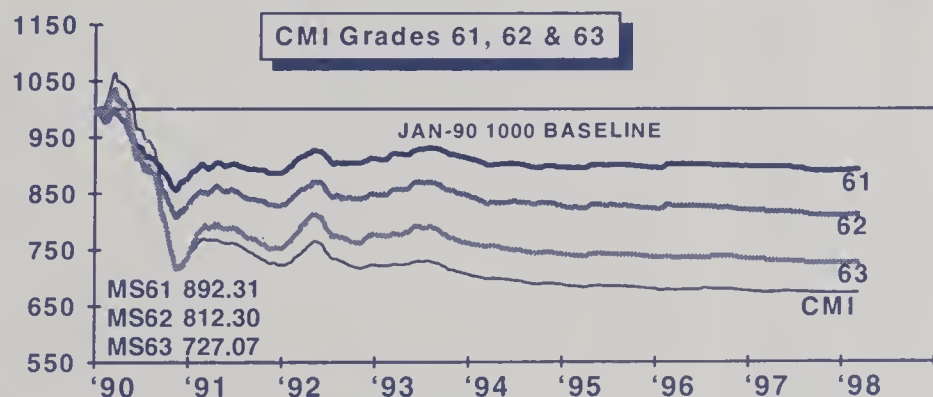

Gold is one area that is particularly hot in sight-unseen trading. Dealers tell us that generic Gold in all denominations is very strong in Mint State 60 through MS-62 grades. The most sought-after denominations are the \$5, \$10 and \$20 Gold series. Collectors want the Coronet, Indian Head and Saint-Gaudens designs. They want quantities of many dates. Dealers could be completing many deals if they can only obtain the coins. Dealers say that they have several customers eager to buy common date Gold coins in quantity. It is not only the common dates that's attracting all the attention. Demand for Charlotte and Dahlonega Mint Gold coins are very salable at current levels. Again, the availability problem is the culprit. Carson City and New Orleans Mint scarce date Gold coins are equally strong. If

dealers can locate the dates that their customers need, the sale becomes imminent. Philadelphia and San Francisco Mint Gold coins are receiving the least demand. However, high quality examples are realizing increasing Bids, especially for \$20 Liberty's and Saint-Gaudens. The demand for coins is so strong that an increasing number of coins are selling on the Internet. It has been reported that common date \$10 Indian Gold coins has been somewhat of a favorite.

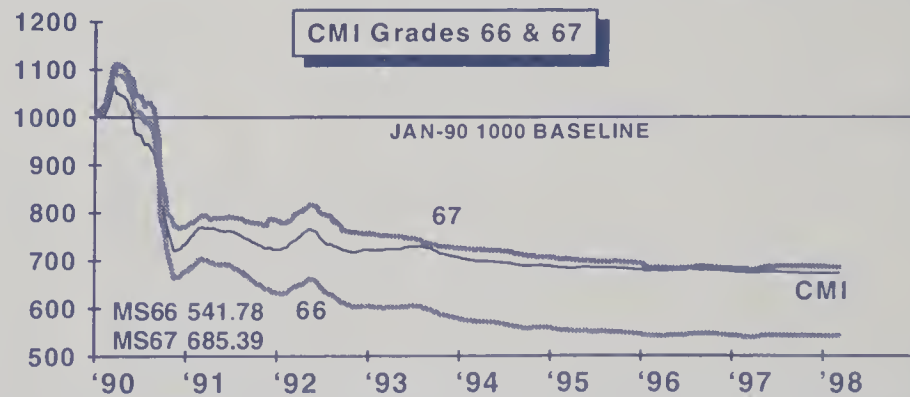

The Proof Type market is doing very well in the sight-unseen market. Exceptional strength has been observed in the Seated Liberty and Barber series. The strongest portion among these series is for the larger denomination coins. Quarter, Half Dollars and Dollars are currently the most popular. According to dealers, the Quarters are OK but the Halves and Dollars have been great. However, dealers say that there has been some demand and transactions occurring within the Seated Liberty Half Dime and Dime series. Mint State Type is also doing very well. Many supporting Bids have been issued for Uncirculated Type coins. Dealers are posting more and more Bids because their need for coins continues to grow.

Stack's will conduct a public auction on March 11-12th in New York City. Among the more than 2,000 lots, many certified coins will become available for dealers and collectors. The following is just some of the highlights:

DATE:	DENOMINATION:	GRADE:
1877	Indian Head Cent	NGC64B

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 11

March 13, 1998

Single copy price \$4.00

Sight-Unseen Market Realizing Strong Bids ANA Auction Provides Needed Material

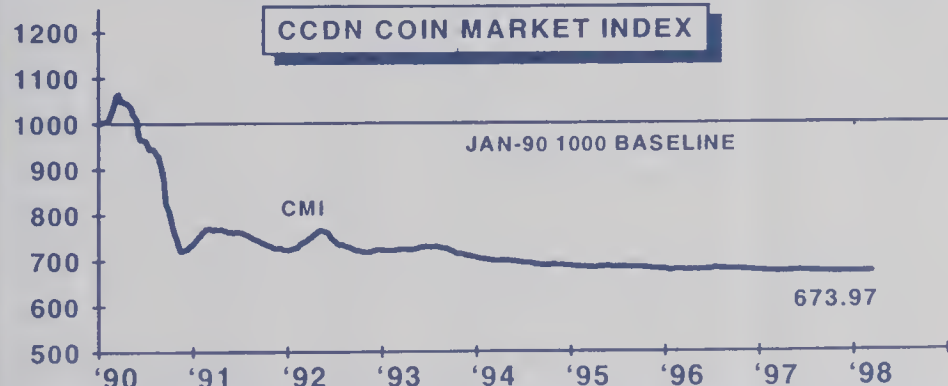

Bids by dealers are holding steady to increasing for sight-unseen coins. These Bids are continuously monitored to find the pulse of the market for certified rare coins. Lately, we have noticed an increasing number of Bids by dealers. An increasing number of Bids means that either more dealers are participating or the dealers that have been participating are posting a greater number of Bids. It all adds up to the strong need for rare coins. Dealers tell us that the demand for coins is very strong because of two reasons. First, the collector base is increasing because more people are getting interested in the coin market. In part, the strong economy has allowed many people the opportunity to become more frivolous and care-free with their extra disposable income. They want to enjoy themselves and are doing so by buying rare dates that they have always wanted when they were younger. They also want to buy certified rare coins. However, an even stronger influence to the market is that existing collectors are increasing their demands for coins. They want to upgrade the coins already in their collection as well as add to the scope of their collection.

The sight-unseen market is healthy for Morgan and Peace Dollars, Type coins, and Gold. Bids for Dollars have maintained their aggressive nature forcing prices higher. Dealers are looking to buy key and semi-key dates but Bids are also numerous for many common dates. With Dollars like any other coins, dealers are happy to receive coins that are reasonable for the grade. They are not looking for, or expect a coin to be graded higher than it is listed by the grading service. But, they do not want a coin that is clearly overgraded. Dealers want to provide their customers with material that will not only satisfy them, but keep them interested in buying more coins. Demand for Type coins is still very strong. The strongest demand seems to be for the larger denomination coins such as the Half Dollar and the Dollar. Bust, Liberty Seated and Barber coins are attracting Bidders in a big way. Dealers tell us that collectors are looking for coins that are relatively clean for the grade. They do not want coins that are darkly toned and they do not want coins that have unsightly scratches or other serious distracting imperfections. They just want coins they feel proud to own and show. Of course, even though Type collectors are happy to buy common dates, they are willing to pay a little more for a coin that is a bit more rare. The market for Gold continues to be very strong. Dealers have increased the number

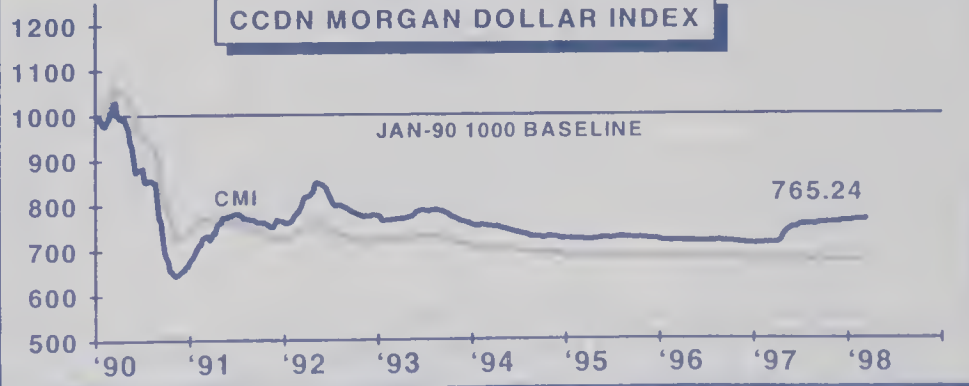

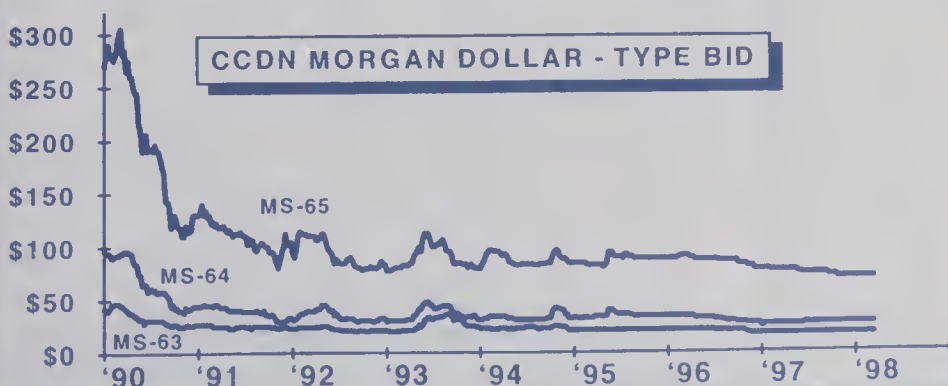

and the amount of their Bids because of strong collector demand. Dealers say that they have many customers just looking to acquire quantities of all denominations of Gold. The difficulty for dealers is availability. The buyers prefer certified coins. Demand is very strong for coins that grade from MS-60 through MS-63. While buyers wish to pay a small premium above bullion value, they are more realistic and understand the difference between bullion Gold and numismatic Gold.

One way dealers could solve the availability problem is by attending the March 18-22nd ANA National Money Show in Cincinnati. This is one of the largest shows of the year and activity is expected to be great as dealers look to buy "stuff." Heritage will conduct the ANA auction that will feature Part III of the Donald H. Carter Collection of rare-date Gold. The following are some of the many highlights from the nearly 1,800 lot, two-session sale to be held March 19-20 at the Cincinnati Convention Center.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are lower or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MAKE THE GRADE

Learn how you can "Make The Grade" with *The Official Guide to Coin Grading and Counterfeit Detection*

PCGS set the highest standard in the industry for grading rare coins over the last twelve years. During these years of grading millions of coins, we learned that you—the collectors, dealers and general public—wanted more specific information about PCGS grading standards and counterfeit coins.

As an answer to your requests, PCGS brought the top numismatic and rare coin experts together and set a new standard in coin grading and counterfeit detection. Once again revolutionizing the rare coin industry, PCGS makes this information available to you in a newly released landmark reference book called *The Official Guide to Coin Grading and Counterfeit Detection*. This book provides an unparalleled standard of reference for established numismatists as well as for people just entering the coin world.

PCGS revolutionizes the current standards of coin grading with pioneering concepts, definitive grading parameters, and state-of-the-art technology. This book gives you precise descriptions of PCGS grading standards, including the first published grading standards for all eleven Mint State and Proof grades. You will also receive expert guidance on detecting counterfeit coins. The diagnostics in this section are easy to see and understand. The combination of the numismatic expertise along with detailed descriptions provide you with incomparable grading standards that are not subject to wide interpretation.

This landmark reference work is 324 pages and large format (8-1/2" x 11"). It contains an unprecedented 48 pages of spectacular full color illustrations and 547 black and white photographs, all of them produced by state-of-the-art digital imaging of coins from the Professional Coin Grading Service (PCGS) grading and counterfeit detection research archives.

Since it's what you know that really counts in coins, you can build your knowledge bank by ordering *The Official Guide to Coin Grading and Counterfeit Detection* today. This book, published by Random House, is available from PCGS by phone, mail order, or on the PCGS website at www.pcg.com.

PCGS – There Is A Difference!

YES! I want a copy of *The Official Guide to Coin Grading and Counterfeit Detection* for \$29.95, plus \$4 shipping & handling. Rush my order today.

ATTENTION ALL COIN DEALERS, WHEELER DEALERS... AND COLLECTORS, TOO! THERE'S SOME MONEY WAITING FOR YOU IN CINCINNATI

Spectrum Numismatics, the premier buyer of rare coins in this country, desperately needs your Uncirculated pre-1950 coins. Spectrum will do anything within reason to acquire these coins including:

- **Cash On The Spot!** In 1997, we spent millions and millions of dollars purchasing rare coins from dealers and collectors. A lot of people claim to pay top prices but **Spectrum** puts its money where its mouth is and we offer immediate payment.
- **Finder's Fees.** If you bump into a deal and don't want to get involved, you can still make money by helping **Spectrum** purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, **Spectrum paid \$3,065,845** in finder's fees and commissions.
- **Trades.** We're willing to consider any reasonable trade that allows us to acquire the coins we need to satisfy our coin-hungry clients. If you'd like to trade your rare coins for bullion, other rare coins, or just about anything, there's a high probability that we can arrange a transaction that meets your needs.
- **Funding.** **Spectrum** has money and needs coins. If you have coins and need money, **Spectrum** has numerous financing packages for you.

DO IT FOR THE MONEY!

It's easy to do business with Spectrum

Each day hundreds of collectors and dealers decide which grading service to use for certifying their important coins.

More often they choose NGC.

For accurate and consistent grading choose the leader in third party certification. That's NGC.

For more information about NGC, including our innovative Photo Proof and Variety Plus services contact one of the 1,300-plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963) *newsletter*

Vol. XIII No. 12 March 20, 1998 Single copy price \$4.00

ANA Money Show Doesn't Diminish Sight-Unseen Bidding Bowers Boys Town Auction Realizes Strong Prices

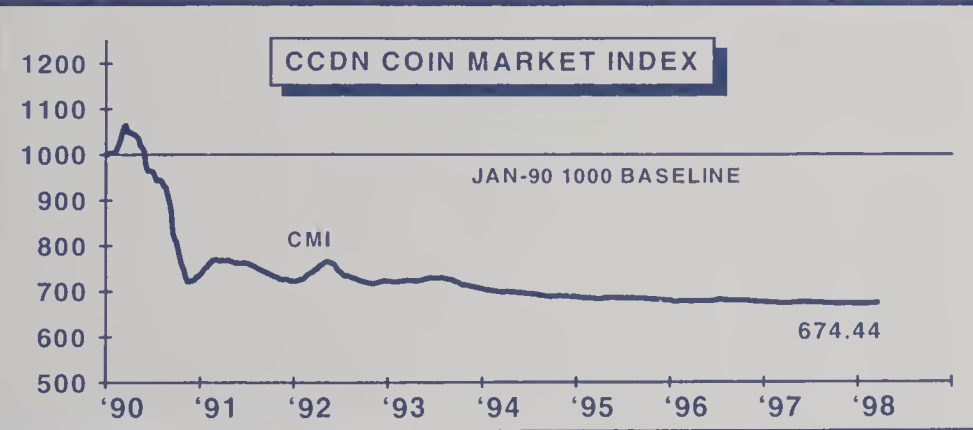

Dealer Bids for sight-unseen coins continue to flourish. We notice that Bidding for coins on the dealer networks has become more aggressive. The strongest demand is zeroing in for coins that are reasonable for the grade. Dealers are very pleased to have their Bids hit because they usually have a home for that coin. Unfortunately the supply of nice material is still very much depleted, causing dealers to further increase their Bids. Dealers know that to remain price competitive they need to be more daring. Despite the obstacles facing them, dealers remain resolute in their purpose. Consequently, they remain optimistic in the face of the availability problem. They are hopeful that upcoming small, and major shows will provide them with the coins that they badly need. Even though the March 19-21 American Numismatic Association's National Money Show is currently in progress, dealers attending this show are still issuing sight-unseen Bids for coins on the networks. Because the need is so great and because most dealers believe that the rare coin market is only in the infancy of a major bull market, greater expectations have pervaded the marketplace. Many of these expectations have been borne by adjusting to the strong prices realized at public auctions. Also, the strong sight-seen Bidding on the dealer networks combined with the many plus signs appearing on the *Bluesheet* help dealers to perceive a strong market. Most importantly, these plus signs are appearing with greater frequency in many diverse segments of the coin market.

Where is this sight-unseen strength and how long will it continue? Currently, the strongest Bids are for Dollars, Gold and Type coins. But, we also notice that the number of Dealer supporting Bids is strengthening. One thing that is easy to overlook is the number of increasing under-bidders. Yet, these Bids are a definite sign of a strengthening and healthy market. Bids of this kind can cause other dealers to react by increasing their Bid. The result of this activity can lead to a net, higher sight-unseen Bid for a particular coin. This is only one facet of the market activity that we monitor regularly. When we add this facet to the overall equation, the healthy market conclusion is easily reached. Many dealers believe that we are only in the beginning stages of a bull market. They expect this trend to continue through 1998. Certainly, the demand for Gold will gain momentum as the price of Gold bullion moves above the base it has been forming, according to analysts. A strong economy and general prosperity will help to add fuel to the rally. However, the biggest boost

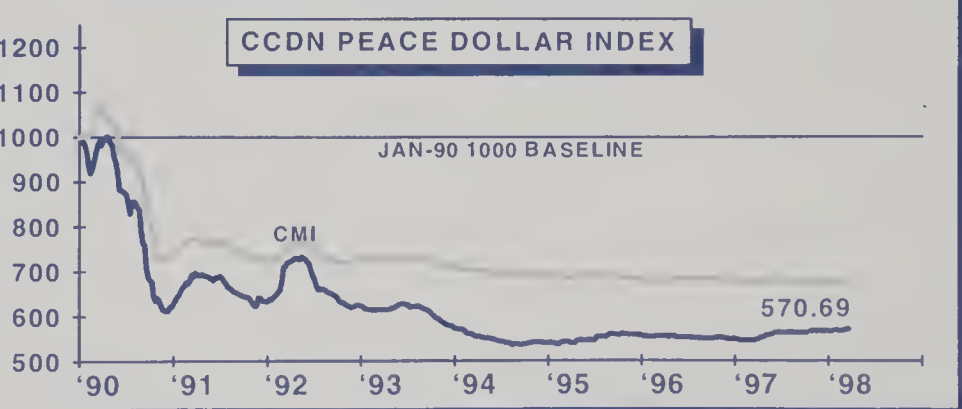

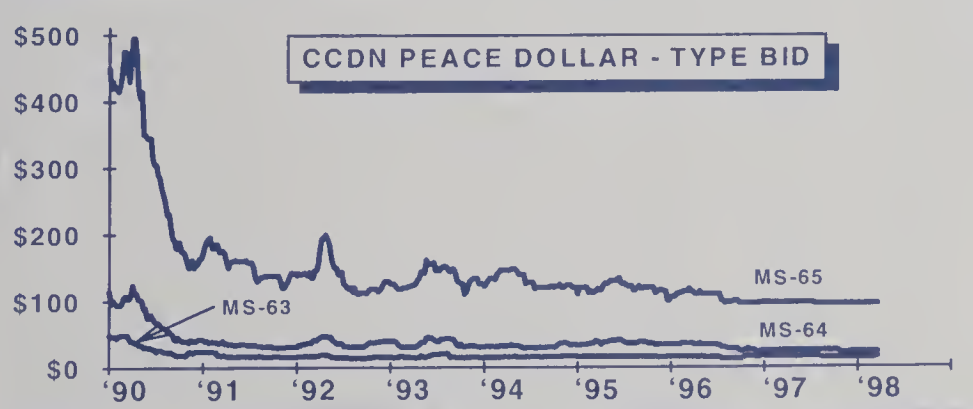

to this market is its burgeoning collector base. This base of collectors is more sophisticated and active today than we have seen in a long time. They know what they want and are willing to Bid high to get it. That's why dealers are very busy at the ANA in Cincinnati and expect a similar scenario for future shows.

Strong results were realized during the March 5-7th Boys Town Collection auction in Baltimore. This sale, conducted by Bowers and Mcena featured many quality, certified coins. Some of the many highlights include:

DATE	DENOMINATION	GRADE	PRICE REALIZED

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

HOW TO GET THE CASH NOW!

The rare coin market performed very well in the past two years. Perhaps you've read about the many new price records set during the past few years. Perhaps you've attended recent rare coin auctions and witnessed for yourself the healthy prices that top quality U.S. coins now fetch. Perhaps you've attended a major coin show and noticed the hot and heavy action. The fact is that rare coins are selling very, very well. **THE BEST TIME TO SELL COINS IS WHEN YOU HAVE A WILLING BUYER.** And if you have rare coins that you've been thinking of selling, you now have a lot of willing buyers for those coins. Now is the time for you to get the cash!

The real question is where do you get the most cash. There is one firm that consistently pays the most for top quality pre-1950 U.S. rare coins. In the rare coin market, **Spectrum Numismatics** truly is the *King of Cash*. Here are the facts:

1. Last year, one firm in this country spent more money buying premier rare coins than any other rare coin firm. That firm was **Spectrum Numismatics**.
2. Last year, an 1804 Silver dollar sold at public auction for \$1,815,000, a new world's record for a rare coin. The buyer for the coin – **Spectrum Numismatics**.
3. Last year, **Spectrum Numismatics** paid \$3,065,845 in commissions and finder's fees to other dealers and individuals just to help **Spectrum Numismatics** buy the rare coins they needed!

Everybody says they pay top dollar, but the facts of the numismatic marketplace show that **Spectrum Numismatics** is the top buyer. Coin sellers, both dealers and collectors, are basically well informed. And these well informed sellers gravitate towards the highest buy prices. Coin sellers go where they can get the most cash for their coins. And most coin sellers realize they get the most cash for their coins from the rare coin market's *King of Cash*, **Spectrum Numismatics**.

Why does **Spectrum Numismatics** pay more than any other dealer for top quality pre-1950 U.S. rare coins? What's the catch? There's actually no catch at all, it's just a wise business decision. **Spectrum** is one of the largest coin dealerships in the world and has lots of coin hungry clients. **Spectrum** literally must either buy your coins or lose its clients. That's why **Spectrum** will pay outrageously high prices for your coins and that's why they make it so easy for you to get the cash.

IT'S EASY TO DO BUSINESS WITH THE KING OF CASH

If you have rare coins you want to sell and you want to sell them for absolutely top dollar, you'll be delighted to know how easy it is to do business with **Spectrum Numismatics**. You'll also be pleasantly surprised at the ultra quick turn around for your coin shipments and the swift **Spectrum** payment. And you can choose payment in either the form of either a **Spectrum** "Rocket" check or an immediate bank wire.

The time to get the cash is now. **Call Spectrum Numismatics** today. Call collect. Tell them you want to talk to the *King of Cash*.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 13

March 27, 1998

Single copy price \$4.00

Dealers At ANA Impressed With Sight-Unseen Market Capped Bust Quarter Claims \$71,500 At Stack's Auction

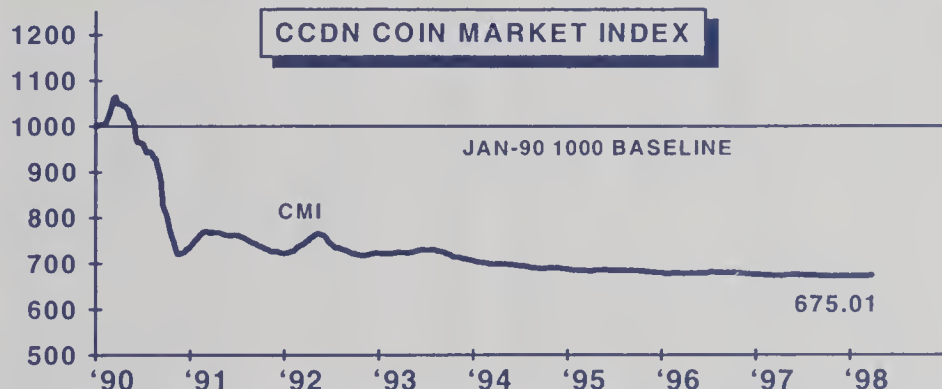

Everybody in numismatics knows how strong the sight-seen market has been in 1998. Bids have increased across-the-board in many series. Dealers are even being forced to pay the Ask price. In some cases, they pay above Ask to acquire the coins that they need for their customers. However, the sight-unseen market has also been gaining in strength and momentum. Just look at all the plus signs! Dealers have increased their sight-unseen Bids on the dealer networks. Many of these remarks were offered during the American Numismatic Association's National Money Show in Cincinnati. As we have seen in the sight-seen market, the sight-unseen demand for Morgan Dollars, Type and Gold has lead the way. Of course, the hope of most dealers when buying coins sight-unseen is that there be no surprises. Dealers expect to receive coins that are average for the grade. They do not mind buying coins that are slightly below average. They are elated to receive coins that are premium quality for the grade or slightly above average. However, they frown when they open their mail and invent a darkly toned coin or an obvious mistake in grading. So with the ground rules in place, dealers have stepped-up to the plate, posting strong Bids for sight-unseen rare coins.

Dealers need coins to satisfy their customers. Keep in mind that today's collectors are interested in coins that are scarce. They are looking for the low-population coins in most series and denominations. They like coins that are well struck, possessing a considerable amount of original Mint luster. Collectors want coins that are brilliant white. They tend to gravitate towards these coins and the Morgan Dollar surge is receiving a huge portion of this demand. Bids for Dollars are amazingly strong. The Bids are increasing in number and intensity. But, dealers are very selective in their needs. Because many key and semi-key dates adorn dealer's customer want lists, these are coins that receive the majority of the Bids. Those are precisely the coins that dealers are trying to secure for their clients. In many cases, these clients are in the process of completing partial and complete collections. They need specific dates and Mint marks and want them in grades that will closely match the rest of their collection. Carson City Mint Morgan Dollars are realizing exceptional demand. This demand stems from collectors working on "CC" sets. There are many tough dates throughout the Morgan series and "the right coin" is difficult for dealers to find.

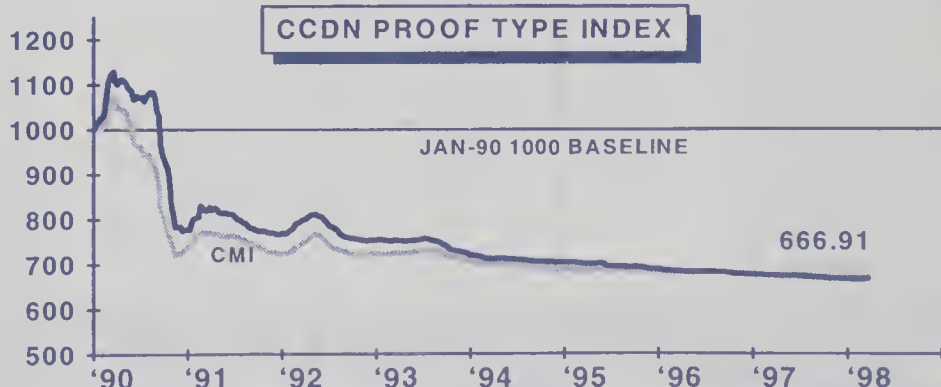

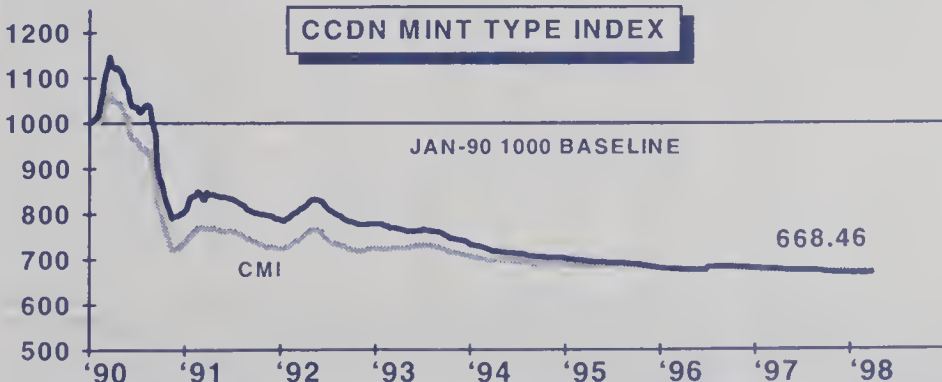

Like the Dollar Market, dealers have increased their sight-unseen Bids for Gold and Type coins. Still, there are some similarities. Again, dealers want "the right coins" for their customers. For Silver and Gold coins, those that are fully lustrous and virtually spot-free are preferred. Strike is important to collectors so dealers are careful to buy coins that are well struck. Rare dates or coins that have low mintages compared to other coins in the series are very much sought-after. Dealers know that low-pop coins are easy and ready sellers so they do not mind paying more to get them. This is very true of the rare date Gold market where Charlotte and Dahlonega Mint coins are experiencing strong demand. These coins are very salable in Extremely Fine and better condition. Most collectors are happy to obtain a nice About Uncirculated specimen. They prefer a coin that is fairly well struck with some original Mint luster remaining on the surfaces. The need is greatest for the \$2.50 and \$5 denominations. However, there is some demand for Charlotte and Dahlonega Mint \$1 Gold. The problem facing most dealers today is availability. This problem is mainly focused on the availability of the right coin with the right look. Many coins are available on the market today, but unfortunately, not enough of them are the right coin.

Stack's conducted an auction March 11-12th in New York that realized more than \$2.3 million. Strong Bidding led to many highlights. (See inset)

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks. sell list, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Each day hundreds of collectors and dealers decide which grading service to use for certifying their important coins.

More often they choose NGC.

For accurate and consistent grading choose the leader in third party certification. That's NGC.

For more information about NGC, including our innovative Photo Proof and Variety Plus services contact one of the 1,300-plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the Bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

WANTS TO BUY YOUR CLASSICS

The market for Classic, Keys Dates, and Finest Knowns is **RED HOT!** During the last few months our inventory has been depleted to its lowest point in years. We are in desperate need of quality material. If you have a great collection or a single great rarity, please give us a call. We have ready and willing buyers and will pay the last dollar for the right material. Offers are quick and payment is immediate. So if you have quality U.S. coins, currency, or Canadian rarities for sale, call us today.....**we are the high buyer.**

Below are a few examples. If the coins meet our criteria we will send immediate payment, no stories, no hassles, no excuses. Also interested in all Famous and Classic material. Please consider **The Mint** when time comes to sell.

Thanks
Jay

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 14

April 3, 1998

Single copy price \$4.00

First Quarter Results Strong For Sight-Unseen Coins

Heritage ANA Sale Realizes Strong Prices

After many impressive gains, the first quarter results of 1998 are in the books. Dealers know that the sight-seen coin market is doing exceptionally well but they may be a bit surprised by how well the sight-unseen market is doing. The sight-unseen market for U.S. rare coins has performed admirably well this year. According to the Certified Coin Market Index (CCMI), many series and denominations that we list each week in the "Bluesheet" have increased since January 1. In some cases, the increase has been rather substantial and is a pleasant change from past declines. The CCMI statistics reiterate the areas of the coin market that we have reported as doing well throughout 1998 as well as some surprises.

SINCE JANUARY 1998	APR-98	Change
CCDN COIN MARKET INDEX:	675.60	+ 2.96
SILVER COMMEMS	502.35	— 3.62
GOLD COMMEMS	476.91	— 2.18

BUFFALO NICKELS	880.95	+ 1.59
MERCURY DIMES	698.42	+ 5.51
WALKER HALVES	727.19	— 2.38
PROOF SINGLES	613.85	+ 0.57
PL MORGANS	605.37	+ 1.59
EARLY GOLD	904.52	N/C
BETTER DATE	873.69	+ 7.37
MATTE PROOF	729.03	— 0.15
STANDING LIB 25c	607.49	+ 4.32
FRANKLIN HALVES	477.90	— 0.04
SAINT-GAUDENS	809.37	+ 6.52

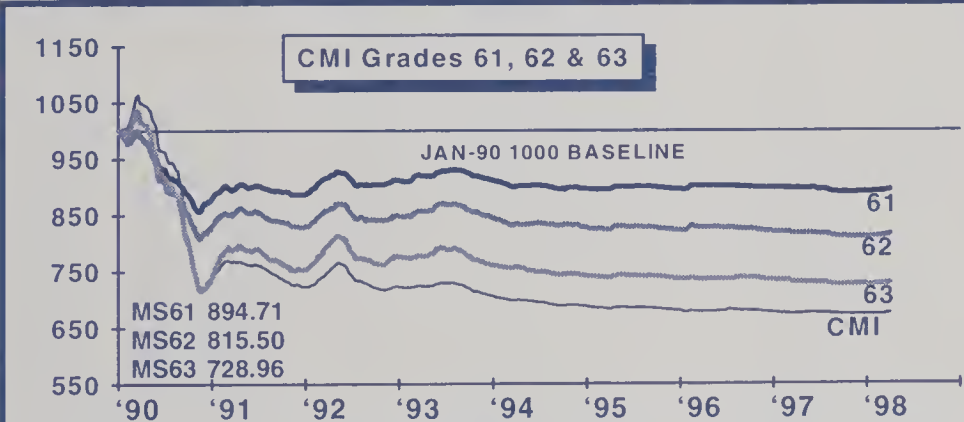

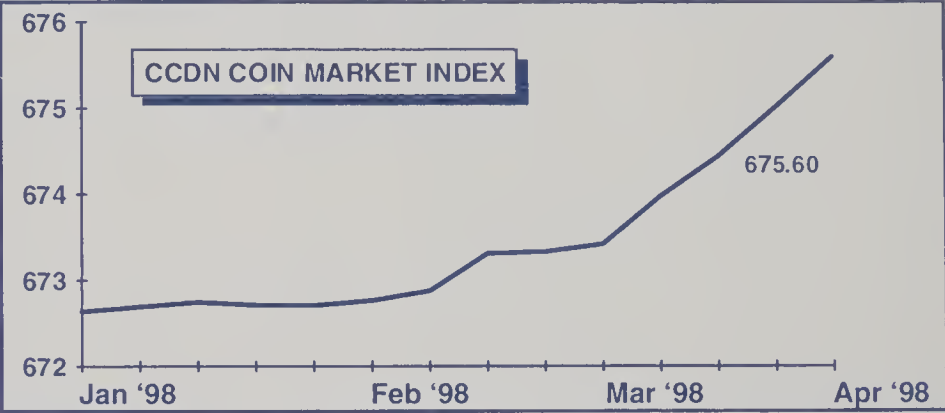

DATE	DENOMINATION	GRADE	PRICE REALIZED
1856	Flying Eagle Cent	NGC MS-64	\$12,650
1924-S	Buffalo Nickel	PCGS MS-65	\$8,050
1832	Capped Bust Dime	NGC MS-67	\$14,950
1900-S	Barber Quarter	PCGS MS-66	\$5,462
1926-S	Standing Liberty Quarter	NGC MS-65FH	\$9,775
1825	Capped Bust Half Dollar	NGC MS-67	\$16,675
1889-CC	Morgan Dollar	NGC MS-64DMPL	\$30,475
1861-D	\$1 Indian Head	NGC MS-60	\$23,000
1875	\$3 Indian Princess	NGC Pr-64	\$82,250
1833	\$5 Capped Head	PCGS AU-53	\$32,200
1795	\$10 Capped Bust, 9 Leaves	PCGS MS-61	\$178,500
1854-O	\$20 Coronet	NGC EF-45	\$39,100
1886	\$20 Coronet	PCGS MS-61	\$35,075

As expected, strong results have been achieved in Morgan Dollars, Mint State Gold Type, Proof Gold Type and the Better Date segment. Additionally, expected weakness was prevalent among Silver Commems, Gold Commems and Walking Liberty Half Dollars. But surprisingly, strong increases have been realized among Standing Liberty Quarters, Saint-Gaudens and Peace Dollars. The overall Certified Coin Market Index is up 2.96 points. You can see by the graph that the market is increasing rather precipitously in March. The current bull market is broad-based, as increases are occurring in a greater num-

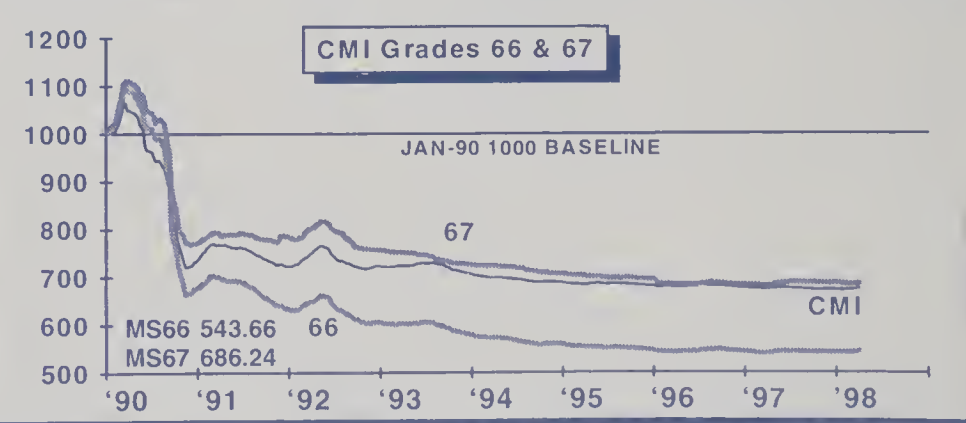

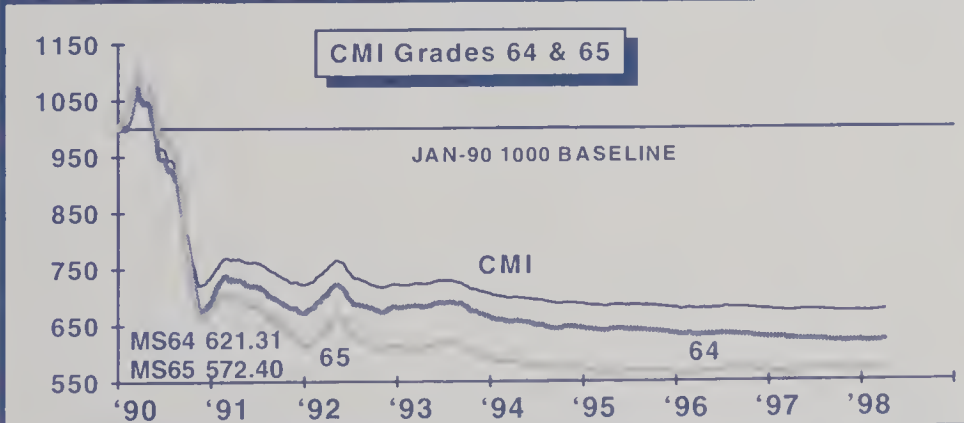

ber of series. Sure, the rare dates are the main focus of the rally but common dates have also shown some promise.

The largest increase was turned in by Mint State Gold Type. During the latter portion of 1997, MS Gold Type was advancing as strong dealer Bids pushed prices higher. It looks as if the early portion of 1998 is a continuation of this rally. The demand for Gold is very strong in the face of virtually stagnant Gold bullion prices. Dealers tell us that the demand for Gold by their customers is powerful. They have many customers want lists and these buyers are looking to obtain quantities. Mint State Gold is not easily available in the quantities needed and so dealers are forced to increase their Bids when supplies are found. Overall, the index shows the strength exhibited in the sight-unseen market. Looking at that graph the trend for the rest of the year appears to be favorable.

The American Numismatic Association's National Money Sale was conducted by Heritage in Cincinnati March 19-20th. The Dallas based company auction realized \$4.320 million. The sale brought strong Bidding from dealers and collectors. Rare date Gold, DMPL's, Proof and Mint State Morgan Dollars, Peace Dollars and Type brought strong prices. See inset for a few of the many highlights.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these bid levels. Certain sight-seen trades can be expected to occur at substantially higher levels in many cases.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 15

April 10, 1998

Single copy price \$4.00

Plus Signs Increase In 1998 First West Coast Expo Bullet Sale

The certified market for sight-unseen coins has continued to prosper. It is following in the footsteps of the sight-seen market in many respects. The market is being driven for two important reasons. First, dealers are in serious need of material. They need "fresh material" that will satisfy their growing and lengthy customers want lists. During the past twelve months, dealer inventories have been depleting. The nice quality and interesting rare coins have become quick sellers. In many cases, dealers have the potential of multiple sales if they have the coins. Collectors have been buying rare dates and low-population coins at an accelerated rate. They are buying key dates, semi-key dates, condition rarities and no-problem, fully lustrous, white coins. As these coins are bought, they are removed from the market for an undeterminably amount of time. Second, supply decreases exacerbating the situation. As more and more coins are removed from the active mix the supply dwindles and existing levels of demand force prices to increase. Dealers look to

replenish their inventories while continuing their quest to satisfy their customer needs. This is the situation that many dealers face today. Shows and auctions have become the battle ground as dealers vie for coins. When the sale of a coin becomes easier than the purchase of one, the strength of the market becomes crystal clear.

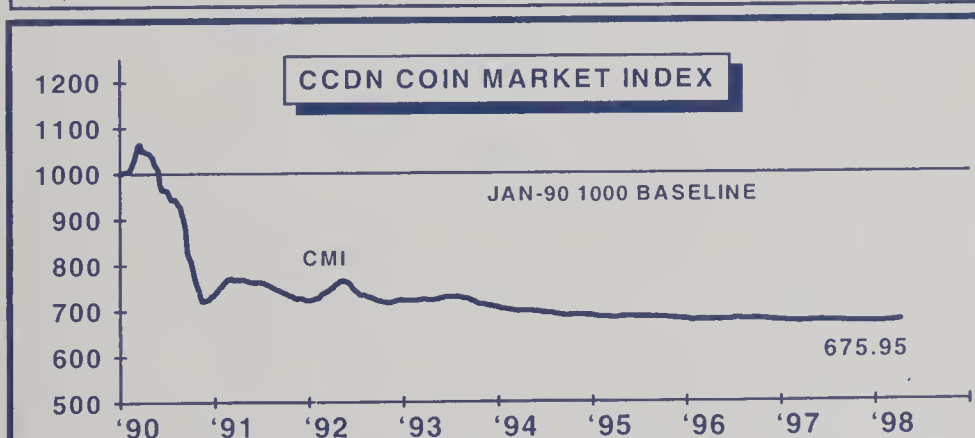

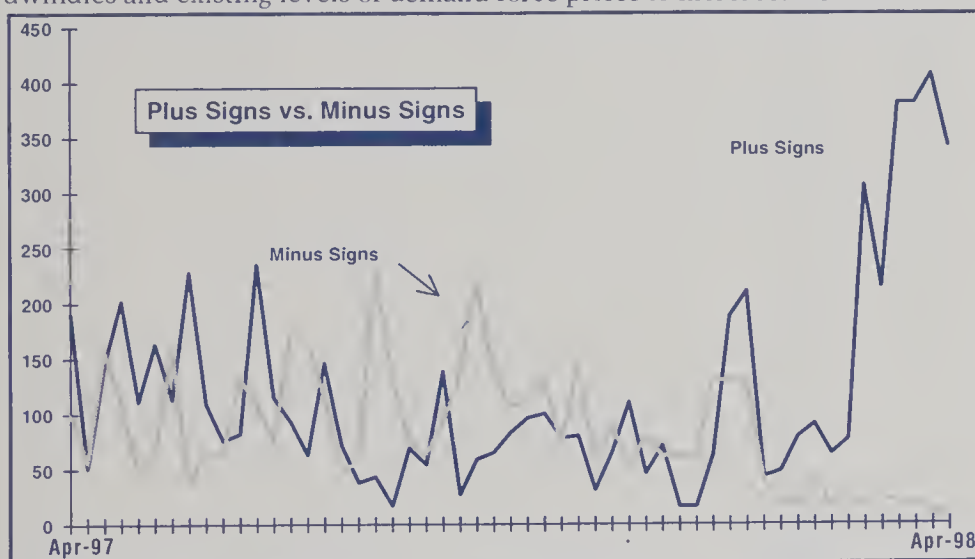

Last week we showed the sight-unseen market movement by chart and graph for the first quarter of 1998. We indicated that the strength of this market was being dominated by Morgan Dollars, Peace Dollars, Mint State Gold Type, Proof Gold Type, Proof Type, Mercury Dimes, Better Dates, Standing Liberty Quarters and \$20 Saint-Gaudens. This trend appears to be continuing. Activity regularly monitored on the dealer networks have **further validated this trend**. This week, we offer more insight to the strength of the market with the plus and minus graph. This graph indicates the total number of increases and decreases every week for a year. Since April 11, 1997, you can see how the number of plus signs have been increasing. By January 1998, the number of plus signs exceeded the number of minus signs. Then, there was an explosion on the plus side. The market got very hot and the gap between the number of

plus signs and minus signs widened. Also, take note of the small number of minus signs.

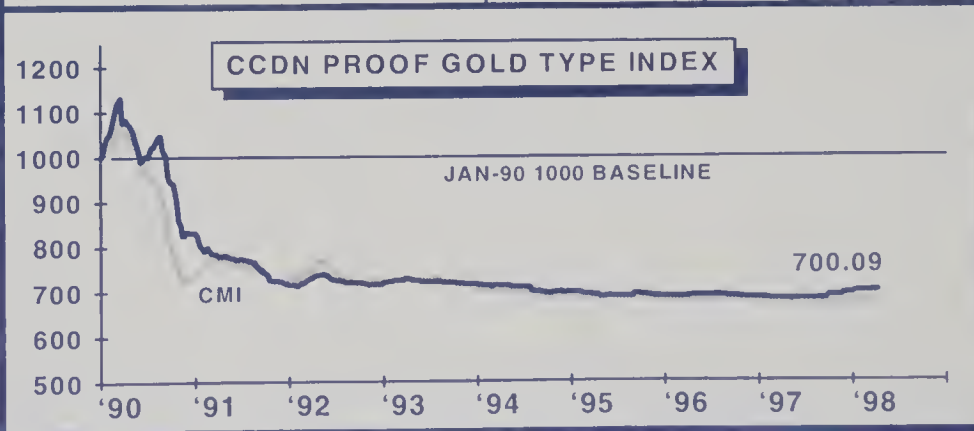

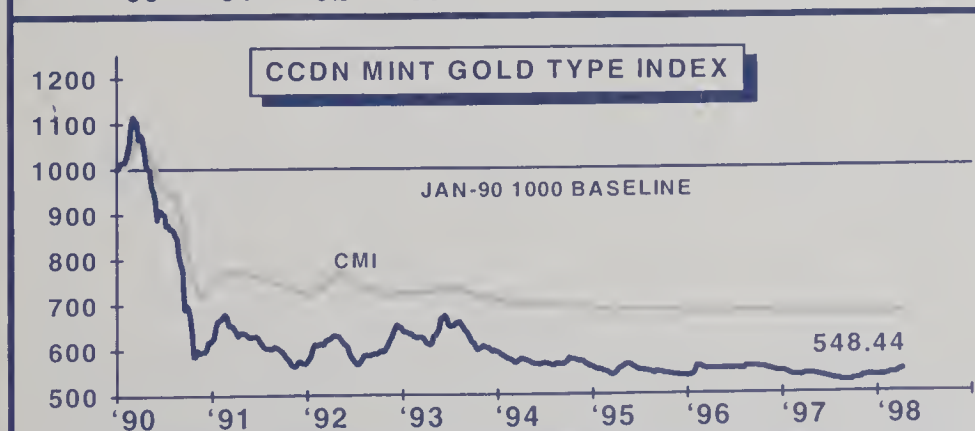

There is not much discounting occurring in this market today. Dealers are more reluctant to sell coins below current levels because of the replacement factor.

Heritage conducted a Bullet Auction of certified rare coins at the 1998 Buena Park Coin & Collectibles Show in California. The chart above shows some of the highlights from the nearly \$300,000 sale.

Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC

Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

ATTENTION ALL COIN DEALERS, WHEELER DEALERS... AND COLLECTORS, TOO! THERE'S SOME MONEY WAITING FOR YOU IN MILWAUKEE

Spectrum Numismatics, the premier buyer of rare coins in this country, desperately needs your Uncirculated pre-1950 coins. Spectrum will do anything within reason to acquire these coins including:

- **Cash On The Spot!** In 1997, we spent millions and millions of dollars purchasing rare coins from dealers and collectors. A lot of people claim to pay top prices but **Spectrum** puts its money where its mouth is and we offer immediate payment.
- **Finder's Fees.** If you bump into a deal and don't want to get involved, you can still make money by helping **Spectrum** purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, **Spectrum paid \$3,065,845** in finder's fees and commissions.
- **Trades.** We're willing to consider any reasonable trade that allows us to acquire the coins we need to satisfy our coin-hungry clients. If you'd like to trade your rare coins for bullion, other rare coins, or just about anything, there's a high probability that we can arrange a transaction that meets your needs.
- **Funding.** **Spectrum** has money and needs coins. If you have coins and need money, **Spectrum** has numerous financing packages for you.

DO IT FOR THE MONEY!

It's easy to do business with Spectrum

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

INTRODUCING

www.NGCcoin.com

the premier site for an exhilarating
numismatic experience.

Visit *www.NGCcoin.com* and you'll discover the web's newest "must-bookmark" site for viewing magnificent coin images and their storied pasts.

Plus, you'll learn how coin grading developed and how coins are graded at NGC. You'll find details about the many NGC services and grading tiers, and find NGC authorized member dealers who can assist you in having your coins graded or submitted for NGC's PHOTO PROOF presentation service. Convenient access is also

provided to NGC's customer service department, by e-mail.

Best of all, each day you'll find a new coin displayed in stunning, bright color with all the nuances of its romantic history revealed.

Count on *NGCcoin.com* for the best in innovations that today's Internet technology can provide. Visit often, because *NGCcoin.com* is frequently updated to provide a new, exhilarating numismatic experience while you're surfing the web.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

OFFER YOUR CLIENTS THE OPPORTUNITY TO PROFIT FROM PLATINUM

PLATINUM GUILD INTERNATIONAL CAN HELP YOU.

Why Platinum?

You want to offer investments that can make money for both you and your clients. Worldwide platinum demand has risen 73% over the last decade. Meanwhile, supplies are limited: The only major platinum producers are South Africa and Russia. Platinum offers the traditional benefits of a precious metals investment, plus unique profit potential due to its irreplaceable industrial applications and scarce supply. And, as of January 1, 1998 platinum bullion coins and bars are eligible for inclusion in Individual Retirement Accounts.

What is Platinum Guild International (PGI)?

PGI is an international trade association dedicated to creating awareness of platinum as a dynamic investment opportunity. This is accomplished through coordinated public relations, marketing and advertising campaigns as well as investment seminars.

How can PGI help you?

If you are already actively marketing platinum coins and bars, we can help you increase sales. If you wish to begin selling platinum PGI can help you implement a targeted platinum marketing program. Because PGI is available to assist your marketing efforts, your cost of doing business may decline.

PGI offers the following:

- Full color marketing materials
- Timely market information
- Special market updates and comprehensive research reports
- Weekly platinum investment newsletter you can send to clients
- Daily market commentary
- Platinum Video Information

PGI IS YOUR MARKETING RESOURCE.

Morgan Dollars and \$20 Saint-Gaudens Strong Transitional Half Dime On The Auction Block

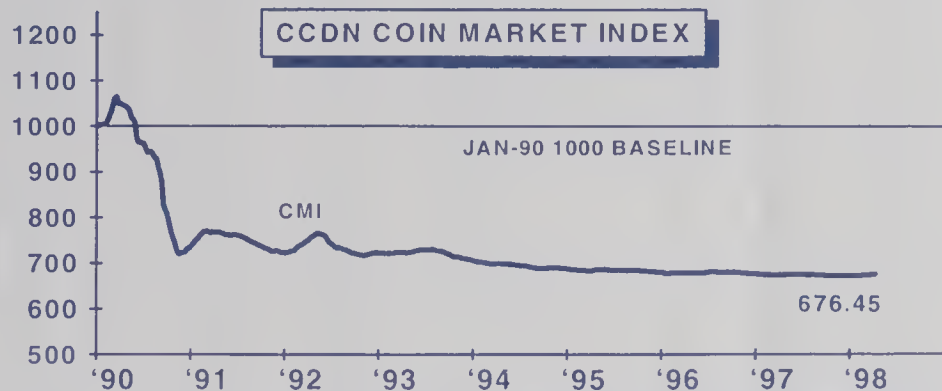

When you look at the Morgan Dollar chart this week, you will notice that the number of plus listed is less than previous weeks. Is this a sign of sight-unseen market weakness or declining interest? Hardly! The market for sight-unseen Morgan Dollars is as strong this week as we have seen it anytime this year. Plenty of coin dealers are posting **strong supporting Bids** for Dollars. Repeatedly, we have seen strong Bids for key and semi-key date Dollars. Demand for these dates stems from the solid customer base that exists for Morgan Dollars. These collectors are actively pursuing collections of Dollars. Some are building specific sets such as Carson City or Deep Mirror Prooflike Dollars. Others are even more ambitious, building complete date and Mint sets in About Uncirculated and better condition. Regardless, the need for Morgan's is the reason that Bids have remained strong. It is why the market is so good and why the support for the increased levels has been sustained. We have especially noticed very strong supporting Bids for the better dates grading Mint State 65. Apparently, many collectors must be looking for gem quality Dollars. However, many dates throughout the Morgan series are tough to locate in gem Uncirculated condition. Some of the dates receiving this support include 1878 7/8 Tail Feathers, strong Tail Feathers; 1878 7 Tail Feather, reverse of 1879; 1887/6-O; 1888-S; 1889-O; 1890-CC; 1891-O; 1893; 1896-S; and, 1901-S. It is easy to why these coins are among those dates needed by collectors. However, the availability of these dates makes satisfying customers demands a difficult task for dealers. Dealers still tell us that buyers are very selective. They want coins that are well struck. They prefer brilliant white, lustrous coins but are happy to accept a lightly toned, original example. Besides the better dates, we have noticed increases in generic Dollars in MS-63, MS-64, MS-65, MS-66 and MS-67. Dealers are trying to accumulate nice examples and find it necessary to increase their Bids to be successful.

Another segment of the sight-unseen market that continues to do well is Gold. Dealers are in desperate need of Gold at and above current levels. They have a growing list of customers trying to obtain various denominations and grades in quantity. As the price of Gold bullion increases, currently trading around the \$307 per ounce level, the need becomes even greater. Dealers are trying their best to accommodate collectors but finding it difficult to locate the Gold they need in quantity. Demand for Gold is in all grades from the lower circulated grades to MS-

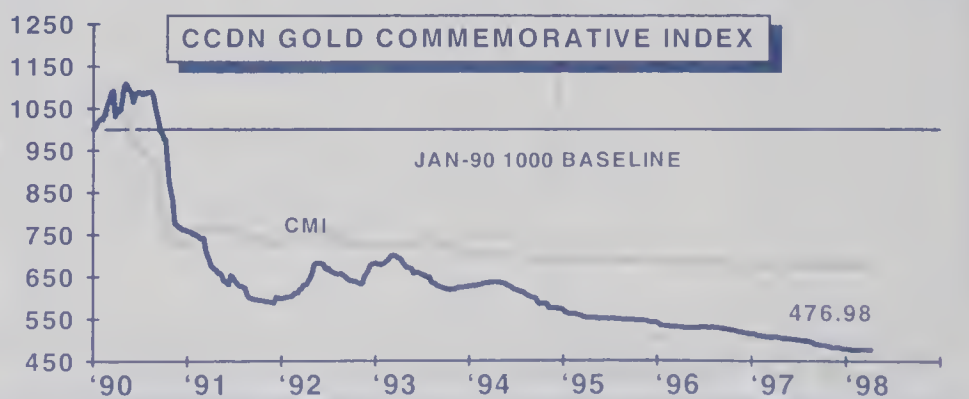

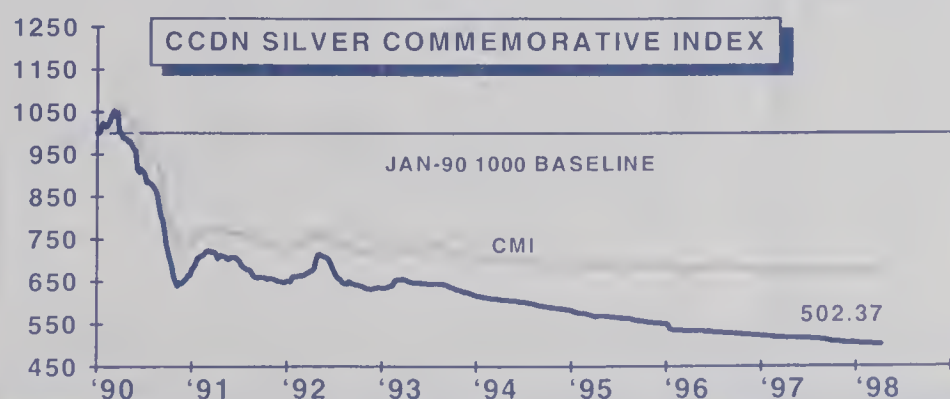

65 and better. They are looking for coins that are lustrous and are relatively problem-free. Because Gold is a soft metal, it has the tendency to get more than its share of rim dings when it encounters other Gold coins. Dealers have increased their Bids for \$20 Saint-Gaudens. You will see **many plus signs** this week in the Saint-Gaudens chart. These increases are due to the increase in bullion and because demand for rare dates in specific grades is very strong. Scarce dates such as 1908-D No Motto in MS-64; 1908-S in MS-61; 1912 in MS-64; 1925-D and 1925-S in MS-61 and MS-62 are highly sought-after by dealers. This is response to their customer want lists. It is apparent that several collectors are working on date sets of Saint-Gaudens.

Stack's will conduct an auction May 5-6th featuring Colonial, U.S. Gold coins and Patterns. The sale, held in New York will include more than 1,300 lots. Some of the certified highlights include:

The Certified Coin Dealer Newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services of termite through careful study of market activity and the highest reported sight-unseen Bids. Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupportive Bid. Bids, Asks, Trades, which are below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealer, and may vary according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

CIRCULATION & ADVERTISING Betty Morris

6 Months-\$65, 1 Year-\$117, 2 Years-\$193

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN "alt" on a sight basis.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Proof Like coins. Bids for PCGS PL and NGC PL coins will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully minted coins.

Join The PCGS Collectors Club

You'll Get Direct Grading Privileges from PCGS, 3 Free PCGS Collector Publications and Free Grading

PCGS now has a program which enables everyone to have easier access to PCGS grading and provide all rare coin enthusiasts with important marketplace information. The program is in the form of a membership organization...The PCGS Collectors Club.

Designed to provide you with more valuable marketplace information, more grading services, and more benefits than have ever been available before, the major components of PCGS Collectors Club membership are as follows:

Direct Grading Submissions To PCGS

Until now, if you wanted to submit your coins to PCGS for grading you did so through an authorized dealer. Since the dealers can help you screen and process your submissions, this is a good system and we still encourage everyone to use the PCGS Authorized Dealer Network for their submissions. However, some people either aren't close to an authorized dealer or simply want to do it themselves. If you're in either of those categories and prefer to deal directly with PCGS, you can now do so as a member of the PCGS Collectors Club.

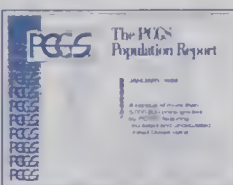

\$100 Worth Of Free PCGS Grading

As a special, get acquainted with PCGS grading offer, all members of the PCGS Collectors Club receive *four* FREE grading submissions from PCGS (a \$100 value). That's right! If you're a PCGS Collectors Club member, PCGS will grade *four* of your coins for FREE.

The PCGS Market Report

The *PCGS Market Report* is a quarterly newsletter packed with prime market information and cutting-edge numismatic research. Every issue of the *PCGS Market Report* contains articles by: Q. David Bowers, the most famous coin dealer of all-time; PCGS President Rick Montgomery, the top counterfeit detection expert in the world; rare coin research expert John Dannreuther; a guest article by one of the market's major dealers; and rare coin expert David Hall.

The PCGS Population Report

The monthly *PCGS Population Report* is one of the most important publications in the rare coin market. The "Pop Report" is a complete census of the more than 5,000,000 coins that have been graded by PCGS. This report is the best way to compare the relative rarity of important coins. All members of the PCGS Collectors Club will receive a copy of the quarterly issue of the *PCGS Population Report*.

SPECIAL BONUS: The PCGS Guide to Collecting U.S. Coins

The *PCGS Guide to Collecting United States Coins 1792-1964*, which doubles as a checklist, allows those who collect coins within a series as well as by type to immediately identify the pieces they have, as well as the pieces they need to complete their collection. Get this guide today to help organize, track, and identify your ever expanding collection of United States coins.

An Incredible Offer For You From PCGS

PCGS is offering a one year membership in the new PCGS Collectors Club for the unbelievably low price of only \$99! Here are the benefits you receive as a member:

1. Four (4) free grading submissions...\$100 value!
2. One year subscription to the quarterly *PCGS Market Report*...\$97 value!
3. Free copy of the *PCGS Quarterly Population Report*...\$19 value!
4. The *PCGS Guide to Collecting United States Coins*...\$10 value!

That's a total value of \$226.....All for only \$99!

In addition, all club members will be able to send their coins directly to PCGS for grading. The only people who will have this direct access to PCGS grading are PCGS Authorized Dealers and members of the PCGS Collectors Club. PCGS will not accept grading submissions from any other source. Besides \$226 worth of valuable information and services and direct access to PCGS grading, there will be additional grading specials including free grading offers to all PCGS Collectors Club members.

PCGS Expands List of Services to Club Members

As a PCGS Collectors Club member, you may submit coins through any of the following services:

- | | | |
|--------------------------|--------------------|--------------------|
| 1. Super Express Service | 2. Express Service | 3. Regular Service |
| 4. Modern Service | 5. Crossover | 6. World Service |
| 7. Reholder Service | | |

The first five services have been available to members since the club's inception. However, due to high demand from our members, we have recently added the World Service and Reholder Service. World Service provides club members with the opportunity to have PCGS grade any struck foreign coins made since 1700 (from countries recognized by PCGS). Reholder Service offers members the benefit of having any PCGS coin reholdered for only \$5 per holder.

Services are offered based on turnaround time and other factors such as the coin's origin and mint date, or coins that have already been graded by other third-party grading services. All services offered are backed by the PCGS Guarantee of Grade and Authenticity.

It's Easy To Join The PCGS Collectors Club

You can call PCGS toll free at (800) 447-8848 or use this coupon to join. You will immediately be sent membership materials to start submitting your coins. In your kit, you will also receive your copy of the *PCGS Market Report*, the *PCGS Population Report*, and the *PCGS Guide to Collecting United States Coins 1792-1964*. CALL OR WRITE TODAY! Please note: For easier processing, we ask that you send the four coins for free grading all at one time. However, you have up to one year to submit them.

The Standard For The Rare Coin Industry

PCGS is the largest and most respected coin grading service in the world. Since 1986, PCGS has graded over 5,137,039 coins. That's more than all the other grading services combined.

PCGS – There Is A Difference!

YES! I want to join the PCGS Collectors Club. I understand as a member of the PCGS Collectors Club, I will be able to send my coins directly to PCGS for grading. I also understand that as an introductory offer I will be able to send four (4) coins in for free grading; receive a one year subscription to the quarterly *PCGS Market Report*; and a free copy of the quarterly *PCGS Population Report* and a copy of the *PCGS Guide to Collecting United States Coins 1792-1964*.

IF YOU HAVE COINS TO SELL

YOU'LL BE HAPPY TO KNOW THAT THERE IS A LOT OF CASH IN CALIFORNIA AND MOST OF IT IS AT SPECTRUM NUMISMATICS!

Spectrum Numismatics, one of the largest buyers of rare coins in this country, desperately needs your coins. Whether it's a \$2,000,000 1804 Dollar, or a \$30 common date Morgan Dollar, Spectrum desperately needs to buy all of your coins. The *King of Cash* must spend over one million dollars per week to satisfy its coin hungry clients. In fact, lately, there have been many days when Spectrum's customers have purchased more than half a million dollars worth of coins in a single day! The *King of Cash* has no choice. Spectrum must buy your coins or lose its customers. That's why Spectrum can treat you like no other coin company can. That's why you can sell your coins to the *King of Cash* and then smile all the way to the bank.

HERE'S WHAT YOU WILL GET FROM THE KING OF CASH

Every time you sell coins to Spectrum Numismatics, you can be sure you will receive the following:

1. The absolute highest possible price for your coins. Spectrum must buy your coins to keep its clients satisfied. Nobody pays more than the *King of Cash*!
2. Immediate payment. Spectrum Numismatics is one of the best financed rare coin companies in history. The *King of Cash* can pay you on the spot, wire your bank, or Federal Express you a check.
3. Spectrum wants to buy your uncirculated pre-1950 coins. That's why our name is Spectrum, we buy it all. Spectrum's diverse mix of world-class numismatists are experts in all types of coins.
4. If you bump into a deal and don't want to get involved, you can still make money by helping Spectrum purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, Spectrum paid \$3,065,845 in finder's fees and commissions!

DO IT FOR THE MONEY!!

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (714) 955-1250, to get your piece of the action and your share of the cash!

Call collect and tell them you want to talk to the *King of Cash*.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Sight-Unseen Market Active With Increasing Bids Bowers Montgomery Auction To Offer Gold

The rare coin market continues to shine in 1998. Dealers have been very pleased with the interest and activity level in the market. The number of transactions occurring between dealers has also increased this year. Dealers have found themselves in the position of increasing their Bid for coins each week. Dealers have reported that they are finding it quite tough to buy coins that they need for their customers. The sight-unseen market is a definite sign of the overall prosperity that abounds in the rare coin market. The need for coins is so great that dealers find themselves increasing their Bids, sight-unseen hoping to buy "stuff" to offer to their customers.

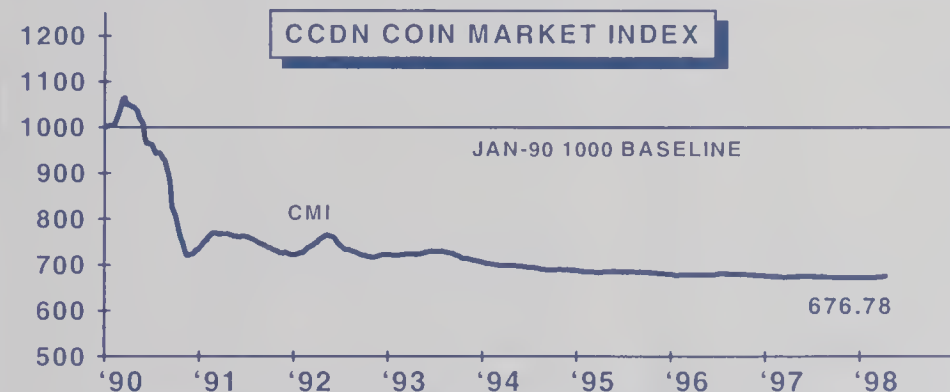

This week's activity in the sight-unseen market is a continuation of the upturn that the coin market has enjoyed throughout the early portion of 1998. Again, Morgan Dollars have captured the attention of Bidders. The number of plus signs in this popular series is far ahead of the few minus signs. Looking at the series, we find plus signs dominating the MS-65 grading category. The market is telling us that dealers need gem quality Dollars for their customers. It also suggests that Dollars of this quality may be in short supply, making it necessary to increase Bid. Dealers hope to shake some coins loose at the new, higher Bid levels. Otherwise, Bids may increase even further in the weeks to come. As we look at the MS-65 plus signs for Dollars, it becomes apparent that the current demand is very diverse. Bidders are willing to buy the common dates as well as the more scarce key and semi-keys. The bottom line is that dealers are looking for quality Morgan Dollars.

The Peace Dollar series continues to lag behind the Morgan Dollars, both in demand and in the number of plus signs. However, we have noticed selected, increased Bids for some Peace Dollars. Similar to the sight-seen market, the Silver Commemorative's have been rather quiet. We have noticed some dealers willing to increase Bids, but only to fill an order and satisfy a customer. Like Morgan Dollars, we have seen an increase in the Bids for MS-65 Buffalo Nickels. Dealers are looking for specific dates for their customers and find it necessary to increase their Bids to satisfy this need. There seems to be strong interest in the tough Denver Mint Nickels.

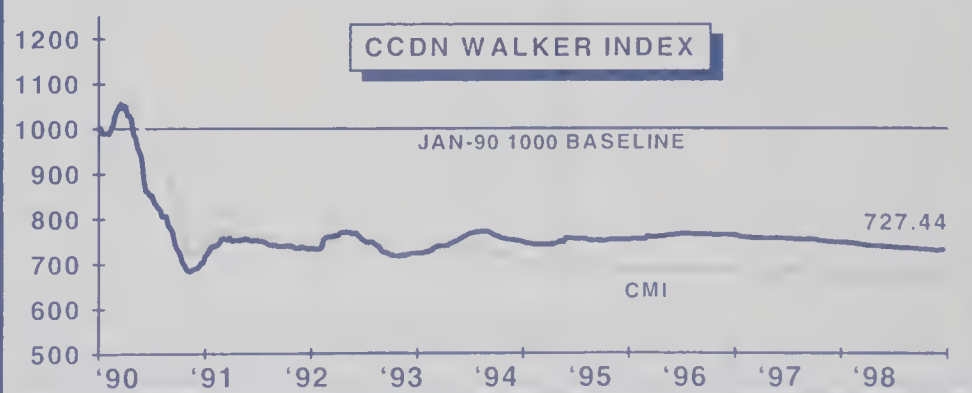

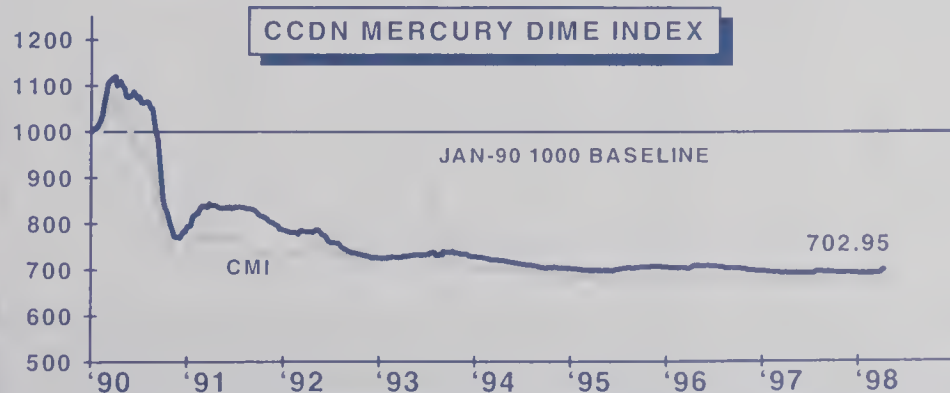

Consequently, dealers have posted strong Bids, sight-unseen hoping to buy no-problem, well-struck examples. Some of the dates currently in demand in grades MS-64 and MS-65 include 1913-D Type 2, 1918-D, 1919-D, 1920-D, 1924-D, 1925-D, 1926-D and 1927-D. Type has also maintained its desirability in the sight-unseen market. We have monitored dealers as they have increased Bids for Mint State and Proof Type coins. Generally, they are looking for MS-63 and better quality coins. They prefer brilliant, white examples but will buy original and attractive, lightly toned coins.

Bowers and Merena will conduct a public auction of the Montgomery Collection, featuring a complete collection of Dahlgren Mint Gold coins. The more than 1,600 lot auction will be held May 10-11th, in New York. See our table for a list of some of the many highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading service. It is intended through its publication to provide the coin collector with the most current sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lower market and the support of high Bids. The CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly their responsibility according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

[illegible]

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading information and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded items. The Publisher exercises due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guarantee that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it is as accurate as the prices at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin may be at a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy** During the thirty days prior to publication, we track the lowest sales related price for the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Last appearing last month; "ot" - Trade older than 2 months; " " a blank for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

VarietyPlus...

Consistent Grading Standards *plus* Accurate Attribution

Desirable NGC Attribution

Full, accurate attribution information is prominently displayed, so sellers get a more complete description and buyers a confident purchase.

Environmental Protection

The recognized leadership of NGC's safety holder is a great way to begin protecting your collection from many environmental hazards.

Consistent, Accurate Grading

Consistent, accurate grading, the hallmark of NGC certification, is appreciated and respected by thousands of dealers and collectors worldwide.

Peace of Mind

Security measures like our barcode, coin ID, tamper-evident and stackable holder, security hologram, and other measures provide greater security for your variety coins.

Precision Design

Our pliable, chemically inert inserts are designed to tolerances so precise that we must gently bend the insert to place your coin inside, snug and secure from rattling.

\$5 for NGC Attribution

The VarietyPlus fee is just \$20, including NGC grading and variety attribution in a 21-working-day turnaround. For coins valued over \$1,000, or for faster turnaround, select one of our quicker grading tiers and just add \$5 per coin for the VarietyPlus attribution.

"I like NGC's variety attribution and grading service for 'Top 100' coins because my coins have the VAM variety and the 'Top 100' name right on the label. I feel confident my valued coins will be protected in NGC holders well into the future, and when it comes time to sell, I believe NGC VarietyPlus holders will attract a greater number of potential buyers."

Michael S. Fey, Ph.D.

co-author, *The Top 100 Morgan Dollar Varieties, The VAM Keys*

For more information about NGC, including our innovative PHOTO PROOF and VarietyPlus services, contact one of the 1,300-plus NGC dealers near you, or call **1-800-NGC-COIN (642-2646)**.

VarietyPlus by NGC now certifies & grades all these varieties!

- Half cents by **Breen** half cent numbers (from his Half Cent Encyclopedia);
- Large cents by **Sheldon & Newcomb** numbers;
- Half dimes (1794-1837) by **Valentine** numbers;
- Dimes (1796-1837) by **John Reich** numbers;
- Quarter dollars (1796-1838) by **Browning** numbers;
- Half dollars (1794-1836) by **Overton** numbers;
- Silver dollars (1794-1804) by **Bowers/Borckardt** numbers;
- Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only)
- All varieties in **The Cherryplickers' Guide** and **The Cherryplickers' Top 150** (except ones designated by the authors as "low interest");
- All varieties in the **"Red Book"** (A Guide Book of United States Coins)

Please note that the masthead in the 1990 Letter for the 1991 volume of the *Journal* is the first time the journal has ever issued two issues in a year. But let's first consider what happened in the years leading up to this.

[illegible]

Prices are for the most common date. Better rates are usually found many months in advance of the most common issues listed herein. Back issues often cannot be traded, although some may be. Please inquire.

IF YOU HAVE COINS TO SELL

**YOU'LL BE HAPPY TO KNOW THAT THERE IS A LOT OF
CASH IN CALIFORNIA AND MOST OF IT IS AT
SPECTRUM NUMISMATICS!**

Spectrum Numismatics, one of the largest buyers of rare coins in this country, desperately needs your coins. Whether it's a \$2,000,000 1804 Dollar, or a \$30 common date Morgan Dollar, Spectrum desperately needs to buy all of your coins. The *King of Cash* must spend over one million dollars per week to satisfy its coin hungry clients. In fact, lately, there have been many days when Spectrum's customers have purchased more than half a million dollars worth of coins in a single day! The *King of Cash* has no choice. Spectrum must buy your coins or lose its customers. That's why Spectrum can treat you like no other coin company can. That's why you can sell your coins to the *King of Cash* and then smile all the way to the bank.

HERE'S WHAT YOU WILL GET FROM THE *KING OF CASH*

Every time you sell coins to Spectrum Numismatics, you can be sure you will receive the following:

1. The absolute highest possible price for your coins. Spectrum must buy your coins to keep its clients satisfied. Nobody pays more than the *King of Cash*!
2. Immediate payment. Spectrum Numismatics is one of the best financed rare coin companies in history. The *King of Cash* can pay you on the spot, wire your bank, or Federal Express you a check.
3. Spectrum wants to buy your uncirculated pre-1950 coins. That's why our name is Spectrum, we buy it all. Spectrum's diverse mix of world-class numismatists are experts in all types of coins.
4. If you bump into a deal and don't want to get involved, you can still make money by helping Spectrum purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, Spectrum paid \$3,065,845 in finder's fees and commissions!

DO IT FOR THE MONEY!!

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (714) 955-1250, to get your piece of the action and your share of the cash!

Call collect and tell them you want to talk to the *King of Cash*.

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 18

May 1, 1998

Single copy price \$4.00

Demand Forces Increased Sight-Unseen Bids Pittman Auction Waits In The Wings

The April sight-unseen, certified rare coin market is ending where it began in January with increasing dealer Bids. Dealers are currently very optimistic about the coin market. Most dealers that we spoke to had a successful Central States Show in Milwaukee. They were pleased with the dealer-to-dealer activity throughout the Show's duration. The Show, held April 23-26, also included a Heritage Central States Bullet Sale on April 24, an auction that realized nearly \$400,000. Dealers are actively looking to buy coins for their customers and inventory. The demand for attractive, quality and rare coins is overtaking the current supply of this material. Many dealers believe that the market is in **serious need** of fresh material. They say that there are plenty of collectors willing to buy coins at current levels. However, these buyers are very picky and want coins that are interesting. Consequently, dealers continue to post strong Bids for coins in the sight-seen market and have done the same in the sight-unseen market.

We have noticed a considerable number of plus signs throughout the sight-unseen market. Morgan Dollars, in particular, have continued to generate strong interest from dealers. The sale of the Jack Lee Collection helped to add fuel to the fire. The addition of these high quality coins have provided an opportunity for dealers to acquire rare dates in high grade. Many of these coins are among the finest known for their date. The excitement of these coins and their availability on the market helped bring out much underlying demand. Dealers have tried to keep up with this demand but it not easy locating coins that have extremely low populations. Still, dealers have managed to assist collectors by helping them understand the rarity and striking characteristics of Morgan Dollars by date. The demand for high quality Morgan Dollars is also evident for high grade Prooflike and Deep Mirror Prooflike specimens. However, the demand for lesser quality Dollars is also present. We have seen examples of this demand as dealers increase their Bids for common and rare

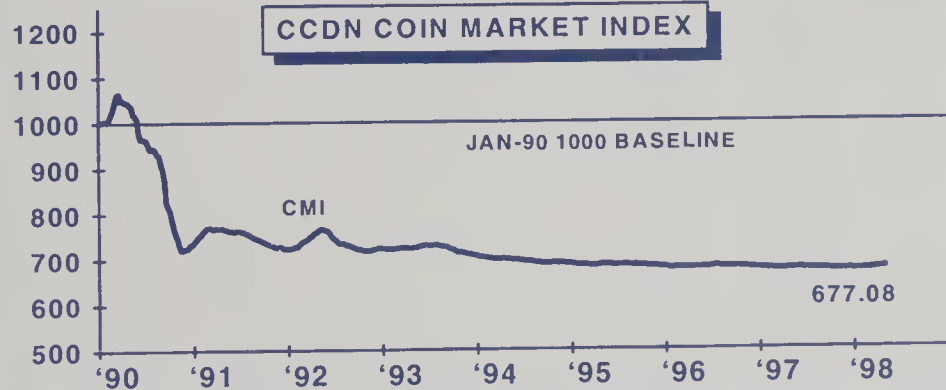

date Carson City coins. It has also occurred among the semi-keys grading MS-61 through MS-63.

We expect May to be a carbon copy of the previous four months of 1998. Surely, May will offer dealers a large dose of fresh material that they are seeking. That's because Part Two of the John Jay Pittman Collection will hit the auction block. The sale will be conducted by David Akers on May 20-21 in Baltimore. Part Two will feature many superb quality examples beginning with Bust, Seated Liberty, Barber and Standing Liberty Quarters. There is also a nice selection of Flowing Hair, Draped Bust, Capped Bust, Seated Liberty, Barber and Walking Liberty Half Dollars. Dollars are represented by high grade examples of Draped Bust, Seated Liberty, Trade and Morgan. Part Two also has some original Proof Sets, as we saw in Part One. Among the sets is an 1845 Proof Set consisting of ten coins from Half Cent to \$10 Gold. It is being sold in

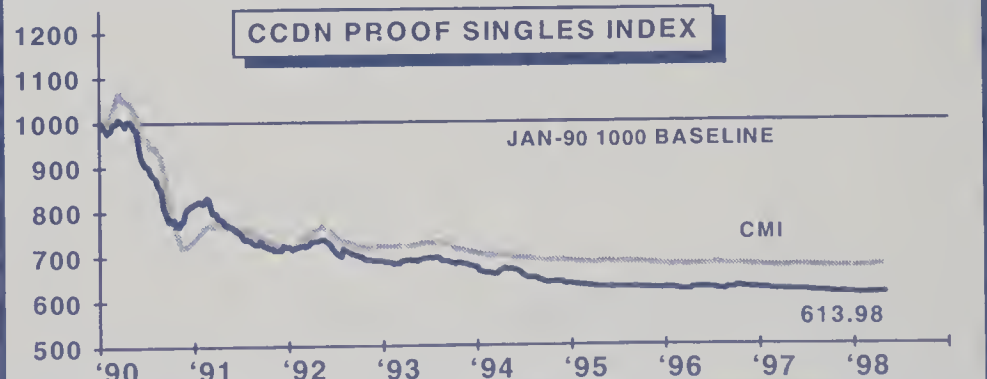

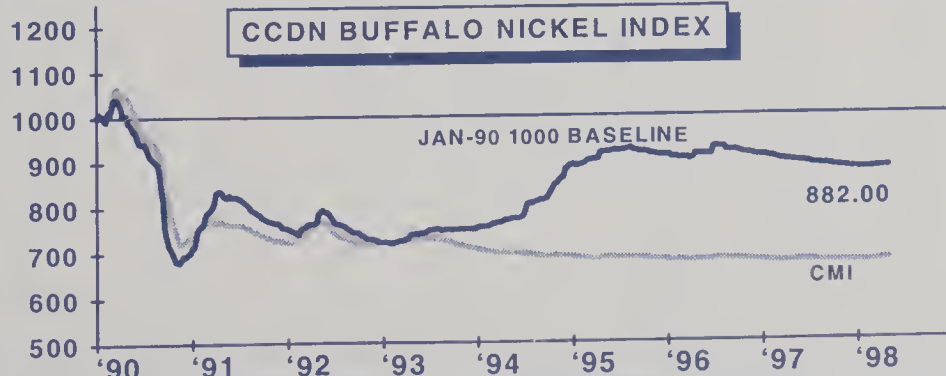

its original burgundy Morocco leather covered wooden case. A fine selection of Gold will undoubtedly stir Bidders. In all, the Pittman Collection offers fresh material of quality and rarity.

Akers is also auctioning the Dr. Thaine B. Price Collection and Dr. Robert C. Wynsen Collection on May 19. Both collections feature many outstanding coins. We have included some of them in the chart to the left. A rare coin market that is clamoring for exciting material should be pleased to see these coins hit the market.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

All Time HIGH

1997/98 CDN GRAPH BOOK SERIES Get Yours!

PROOF GOLD TYPE

NEW!

Graphs cover the Types as listed on Page 3 of the CDN Monthly Supplement in grades: PR60, PR63, PR64, PR65.

PEACE DOLLAR

NEW!

Graphs cover every issue as listed on Page 6 of the weekly CDN, in grades: VG, FINE, VF, XF, AU, MS63, MS64, MS65, MS66 & MS67.

GOLD COMMEMORATIVE

NEW!

Graphs cover all Gold Commems as listed on Page 2 of the weekly CDN, in grades: XF, AU, MS60, MS63, MS64, MS65, & MS66.

UNC MORGAN DOLLAR

NEW!

Graphs cover every issue as listed on Page 6 of the weekly CDN, in grades: MS60, MS63, MS64, MS65, MS66 & MS67.

CIRC MORGAN DOLLAR

NEW!

Graphs cover every issue as listed on Page 6 of the weekly CDN, in grades: VG, FINE, VF, XF & AU.

DMPL MORGAN DOLLAR

NEW!

Graphs cover every issue as listed on Page 7 of the weekly CDN, in grades: DMPL-63, DMPL-64 & DMPL-65.

PROOF TYPE

UPDATED

Graphs cover the Types as listed on Page 10 of the weekly CDN, in grades: PR60, PR63, PR64 & PR65.

MINT STATE TYPE

UPDATED

Graphs cover the Types as listed on Page 9 of the weekly CDN, in grades: AU50, MS60, MS63, MS64 & MS65.

SILVER COMMEMORATIVE

UPDATED

Graphs cover Bid levels for the classic Silver Commems listed on Page 2 in the weekly CDN, in grades: XF, AU, MS60, MS63, MS64, MS65 & MS66.

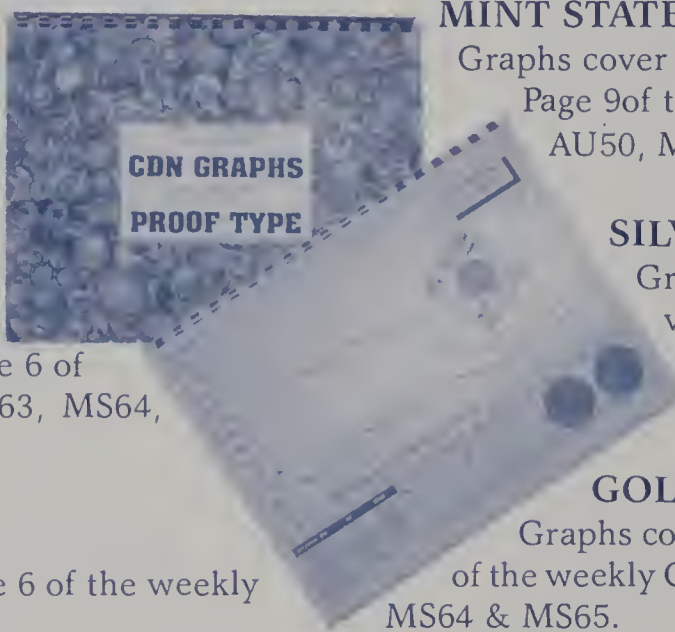

GOLD TYPE

UPDATED

Graphs cover the Types as listed on the Front Page of the weekly CDN, in grades: VF, XF, AU, MS60, MS63, MS64 & MS65.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 19

May 8, 1998

Single copy price \$4.00

Market Heat Continues

Stack's & New World Sales Realize Strong Prices

The bull market continues to forge ahead in May. Strong activity is apparent at shows, auctions and on the dealer networks. The plus signs continue to outnumber the minus signs each week. We continue to monitor increased sight-unseen Bids by dealers. It appears that the need for coins outweighs the worry and concern about receiving a low-end or marginal coin for the grade. Rather, dealers are just thrilled to obtain the coins that they need to fill their customer want lists. The bull market demand is beginning to diversify. We have seen **spirited Bidding** among Walking Liberty Half Dollars in the sight-unseen market. Walkers have been relatively quiet throughout 1998 but signs of life are definitely beginning to appear. Dealers have increased their Bids for common date Walkers in MS-63 and MS-64 condition. They are looking for coins that are generally well struck with brilliant, white and lustrous surfaces. Sight-unseen Bidding has also increased for Proof Gold. Proof Gold is generally regarded as the upper echelon of the rare coin market. Consequently, there must be a significant amount of money chasing rare coins these days. Of course, Bids are still increasing for Morgan and Peace Dollars. Dealers are still trying to obtain the dates that their customers want but are finding the task to be extremely difficult. As rare dates are placed in collections and the supply of interesting coins leaves the market for an indefinite amount of time putting added pressure on price.

Several dealers have reported having a very successful Arizona Coin Expo. The Show, held in Phoenix April 29 thru May 2 has received excellent reviews. Most dealers said that the Show exceeded their expectations. There was a fair amount of public in attendance buying and selling coins to dealers. Retail sales were brisk as were dealer's wholesale buying. Indian Head Cents were selling in Arizona. One dealer reported the sale of many MS-65RB and MS-66RB Cents. However other denominations were in demand as well. Key dates continue to be actively traded. The popular 1932-D and 1932-S Washington Quarters traded hands at the Show. The overriding general feeling by dealers is that the market is positive and there appears to be new money entering the market. The strong demand continues for key date Gold. Dealers tell us that branch Mint Gold has been very impressive. Demand is strongest for Charlotte, Dahlonega, Carson City Gold. However, rare date Philadelphia, New Orleans and San Francisco coins are also receiving a considerable amount of attention from buyers.

James McCarthy with New World Rarities from Bohemia, New York conducted an auction in conjunction with Arizona Show. The Pacific Coast Collection featured

just under 190 lots and realized more than \$1.5 million. Some of the auctions' highlights are included.

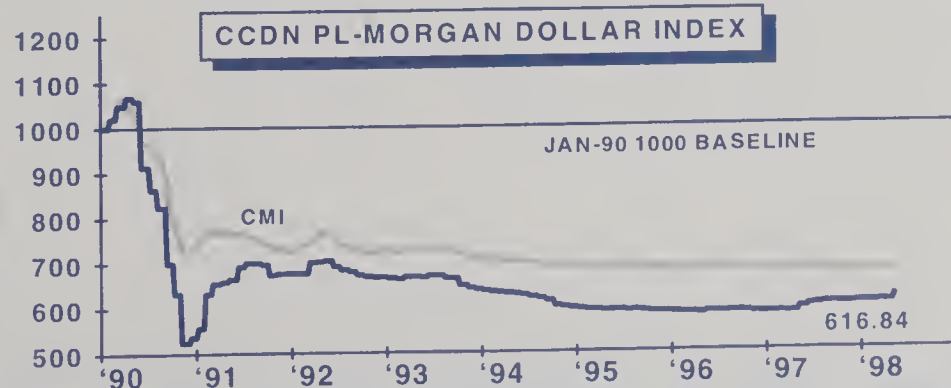

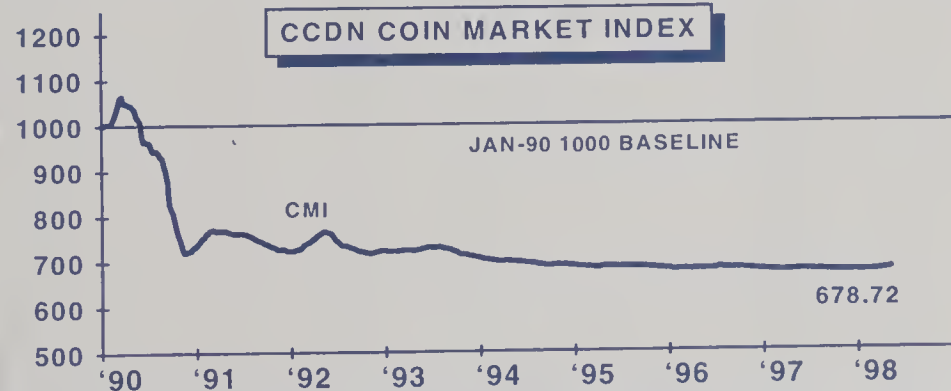

NEW WORLD RARITIES AUCTION

DATE	DENOMINATION	GRADE	PRICE REALIZED
1885-CC	Morgan Dollar	NGC MS68	\$13,200
1855	\$1 Indian Head, Type II	PCGS MS66	\$90,750

1807	\$2.50 Capped Bust	NGC MS63	\$68,750
1808	\$2.50 Capped Bust	NGC MS61	\$45,100
1878	\$3 Indian Princess	PCGS MS66	\$28,050
1879	\$4 Flowing Hair, Stella	NGC PR64	\$72,600
1795	\$5 Capped Bust, Small Eagle	PCGS MS61	\$47,300
1861	\$5 Coronet	NGC PR64	\$38,500
1803	\$10 Capped Bust	NGC MS64	\$93,500

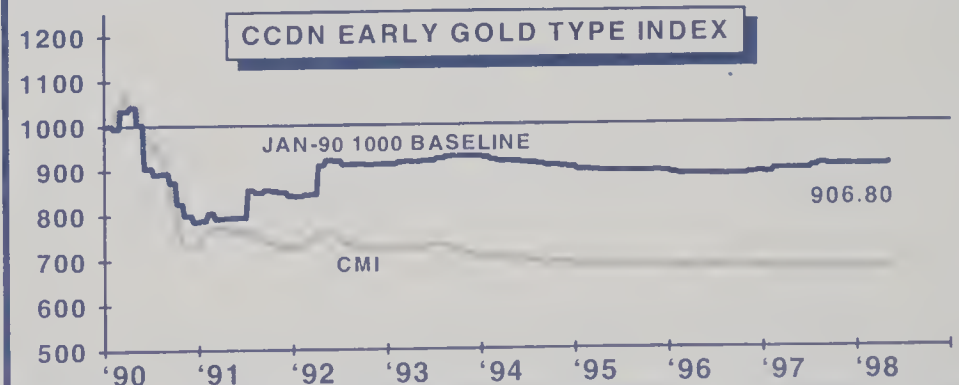

In another auction, Stack's of New York conducted a sale featuring more than 1,300 lots. The auction held May 5-6 realized approximately \$2.7 million and included selections from the Reed Hawn, Wesley Miller and Dr. Alfred Globus Collections. Strong Bidding characterized the sale as both dealers and collectors participated. See the chart for a few of the many highlights.

Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC

Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

VarietyPlus...

Consistent Grading Standards *plus* Accurate Attribution

Desirable NGC Attribution

Full, accurate attribution information is prominently displayed, so sellers get a more complete description and buyers a confident purchase.

Environmental Protection

The recognized leadership of NGC's safety holder is a great way to begin protecting your collection from many environmental hazards.

Consistent, Accurate Grading

Consistent, accurate grading, the hallmark of NGC certification, is appreciated and respected by thousands of dealers and collectors worldwide.

Peace of Mind

Security measures like our barcode, coin ID, tamper-evident and stackable holder, security hologram, and other measures provide greater security for your variety coins.

Precision Design

Our pliable, chemically inert inserts are designed to tolerances so precise that we must gently bend the insert to place your coin inside, snug and secure from rattling.

\$5 for NGC Attribution

The VarietyPlus fee is just \$20, including NGC grading and variety attribution in a 21-working-day turnaround. For coins valued over \$1,000, or for faster turnaround, select one of our quicker grading tiers and just add \$5 per coin for the VarietyPlus attribution.

"I like NGC's variety attribution and grading service for 'Top 100' coins because my coins have the VAM variety and the 'Top 100' name right on the label. I feel confident my valued coins will be protected in NGC holders well into the future, and when it comes time to sell, I believe NGC VarietyPlus holders will attract a greater number of potential buyers."

Michael S. Fey, Ph.D.

co-author, *The Top 100 Morgan Dollar Varieties, The VAM Keys*

VarietyPlus by NGC now certifies & grades all these varieties!

- Half cents by **Breen** half cent numbers (from his Half Cent Encyclopedia);
- Large cents by **Sheldon & Newcomb** numbers;
- Half dimes (1794-1837) by **Valentine** numbers;
- Dimes (1796-1837) by **John Reich** numbers;
- Quarter dollars (1796-1838) by **Browning** numbers;
- Half dollars (1794-1836) by **Overton** numbers;
- Silver dollars (1794-1804) by **Bowers/Borckardt** numbers;
- Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only)
- All varieties in **The Cherrypickers' Guide** and **The Cherrypickers' Top 150** (except ones designated by the authors as "low interest");
- All varieties in the **"Red Book"** (A Guide Book of United States Coins)

For more information about NGC, including our innovative PHOTO PROOF and VarietyPlus services, contact one of the 1,300-plus NGC dealers near you, or call **1-800-NGC-COIN (642-2646)**.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be sold reflective with less reflective than the top normal Proof Dollars.
Bids for P.L.'s are usually much lower than for DMPL's but cannot be sold for non-P.L. strikes.

ATTENTION ALL COIN DEALERS, WHEELER DEALERS... AND COLLECTORS, TOO! THERE'S SOME MONEY WAITING FOR YOU IN LONG BEACH

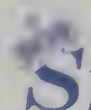

Spectrum Numismatics, the premier buyer of rare coins in this country, desperately needs your Uncirculated pre-1950 coins. Spectrum will do anything within reason to acquire these coins including:

- **Cash On The Spot!** In 1997, we spent millions and millions of dollars purchasing rare coins from dealers and collectors. A lot of people claim to pay top prices but **Spectrum** puts its money where its mouth is and we offer immediate payment.
- **Finder's Fees.** If you bump into a deal and don't want to get involved, you can still make money by helping **Spectrum** purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, **Spectrum** paid **\$3,065,845** in finder's fees and commissions.
- **Trades.** We're willing to consider any reasonable trade that allows us to acquire the coins we need to satisfy our coin-hungry clients. If you'd like to trade your rare coins for bullion, other rare coins, or just about anything, there's a high probability that we can arrange a transaction that meets your needs.
- **Funding.** **Spectrum** has money and needs coins. If you have coins and need money, **Spectrum** has numerous financing packages for you.

DO IT FOR THE MONEY!

It's easy to do business with Spectrum

Bids Increase For Gold, Standing Liberty Quarters Dahlonge Gold Strong At Bowers & Merena Auction

As dealers become more optimistic about the market, inevitably so does their Bids for rare coins. Show after show and auction after auction we see signs of a strong market. The same is true for the electronic dealer networks. These networks have indicated considerable market strength each week. This strength is seen in many forms but mainly by the supporting and increasing Bids by dealers. This is especially true for high quality rare coins certified by the professional grading services as Mint State 65 and Proof 65 and better. Gold has always been a leading indicator of the rare coin market and the current demand for these coins is great. Strong sight-unseen Bidding for Gold coins has been very evident throughout this bull market. There has been increasing activity by dealers for the \$20 Saint-Gaudens series. We have observed strong Bidding for common date and scarce dated \$20 Saint-Gaudens. Many dealers have customer want lists for Saints by date and condition. These collectors are not only trying to complete sets but looking to up-grade specific dates in the process. Despite the failure of Gold bullion prices to increase significantly above the \$300 per ounce level, Bids have increased for common date \$20 Saint-Gaudens in MS61 and better condition. Sight-unseen Bids for rare date \$20 Saint-Gaudens is also evident. Dealers are looking to buy low population dates and place them with their customers. Many dealers tell us that collectors are actively adding these double eagles to their date and Type collections. Another area that is showing a considerable amount of interest by dealers is the Standing Liberty Quarters. Sight-unseen Bids for common date Quarters have sharply increased in MS64, MS64FH, MS65 and MS65FH. Like the Gold, dealers are heading for quality. The Bids are usually for coins that have lustrous, white surfaces. Dealers often look for coins that are well struck and possess a pleasing degree of eye appeal. The key dates of the series continue to be very popular. However, availability of several of the dates with Full Heads is **very problematic** for dealers. Mint State 65 and better Morgan Dollars are badly needed by dealers. Consequently, they have again increased their sight-unseen Bids hoping to attract some of the dates that they need for their customers. Deep Mirror Prooflike and Prooflike Morgan Dollars are receiving increasing Bids as well. Dealers have many customers for DMPL and PL Dollars. Unfortunately, many

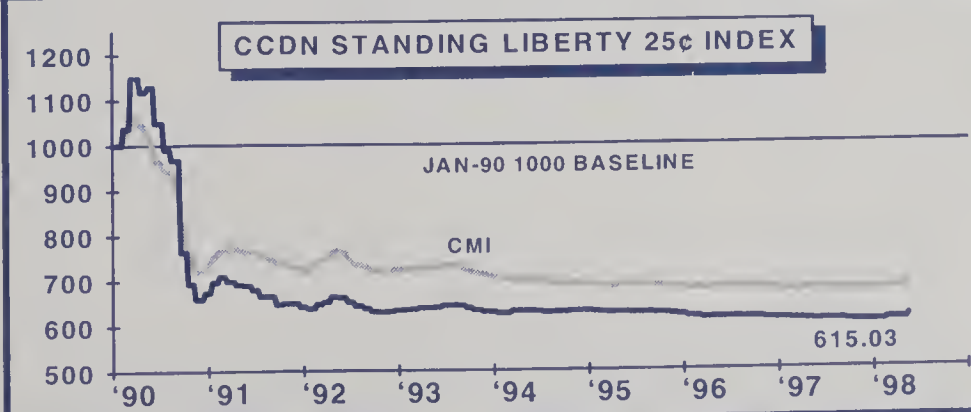

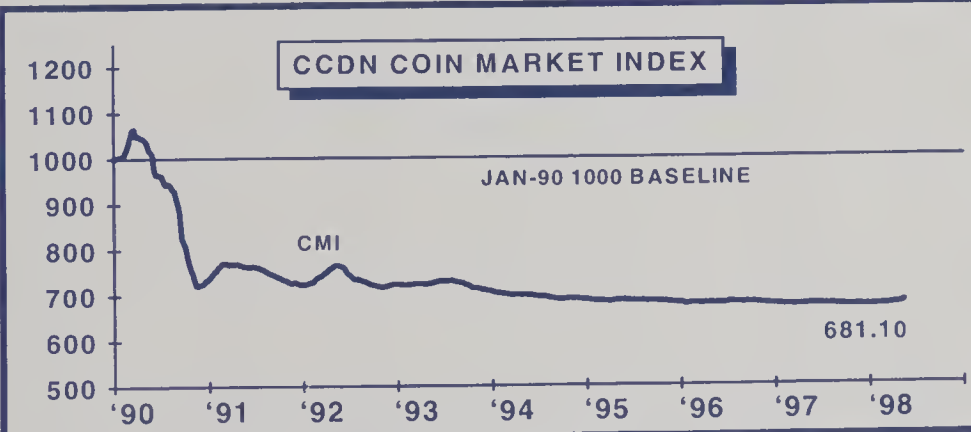

dates are difficult to locate in DMPL and so Bids continue to increase. However when transactions are taking place among DMPL issues, dealers are paying strong money for these coins.

Strong Bidding for Dahlonge Mint Gold highlighted the Montgomery Collection auction by Bowers and Merena. The combination of rarity and quality of many Gold coins sent prices realized **soaring**. In all, the May 10-11 New York sale featuring nearly 1,500 lots realized a little over \$2.8 million. We have included some of the many certified highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Higher volume = Lower prices

With this in mind you can understand how,

National Gold Exchange,

America's Gold & Silver wholesaler,
with over \$100,000,000 in sales in 1997,
has the best prices on Rare Coins.

Additionally, **National Gold Exchange** has the largest available inventory of Rare Coins for you to select from, at the best prices.

Just a few examples:

1935	5¢	PCGS	MS67	\$ 2100	1861	G\$1	NGC	MS65	\$ 3100
1845	25¢	NGC	MS64	\$ 2000	1915	\$2.5	NGC	MS65	\$ 3450
1892-O	50¢	NGC	MS65	\$ 3950	1859	\$3	NGC	MS63	\$ 7200
1892-O	S\$1	NGC	MS65	\$ 4250	1843	\$5	NGC	MS64	\$19500
1898-O	S\$1	PCGS	MS67	\$ 1950	1901	\$5	NGC	PR67	\$71000
1924	S\$1	PCGS	MS67	\$ 5400	1932	\$10	NGC	MS66	\$ 8500
1905	L&C	PCGS	MS66	\$22000	1924-D	\$20	PCGS	MS64	\$13500

When buying Rare Coins, please consider the company with the largest inventory at the lowest prices.

YOU BE THE EXPERT

Learn how you can "Make The Grade" with *The Official Guide to Coin Grading and Counterfeit Detection*

PCGS set the highest standard in the industry for grading rare coins over the last twelve years. During these years of grading millions of coins, we learned that you—the collectors, dealers and general public—wanted more specific information about PCGS grading standards and counterfeit coins.

As an answer to your requests, PCGS brought the top numismatic and rare coin experts together and set a new standard in coin grading and counterfeit detection. Once again revolutionizing the rare coin industry, PCGS makes this information available to you in a newly released landmark reference book called *The Official Guide to Coin Grading and Counterfeit Detection*. This book provides an unparalleled standard of reference for established numismatists as well as for people just entering the coin world.

PCGS revolutionizes the current standards of coin grading with pioneering concepts, definitive grading parameters, and state-of-the-art technology. This book gives you precise descriptions of PCGS grading standards, including the first published grading standards for all eleven Mint State and Proof grades. You will also receive expert guidance on detecting counterfeit coins. The diagnostics in this section are easy to see and understand. The combination of the numismatic expertise along with detailed descriptions provide you with incomparable grading standards that are not subject to wide interpretation.

This landmark reference work is 324 pages and large format (8-1/2" x 11"). It contains an unprecedented 48 pages of spectacular full color illustrations and 547 black and white photographs, all of them produced by state-of-the-art digital imaging of coins from the Professional Coin Grading Service (PCGS) grading and counterfeit detection research archives.

Since it's what you know that really counts in coins, you can build your knowledge bank by ordering *The Official Guide to Coin Grading and Counterfeit Detection* today. This book, published by Random House, is available from PCGS by phone, mail order, or on the PCGS website at www.pcg.com.

PCGS – There Is A Difference!

YES! I want a copy of *The Official Guide to Coin Grading and Counterfeit Detection* for \$29.95, plus \$4 shipping & handling. Rush my order today.

Proof & Mint State Type Lead Sight-Unseen Market Dealers Eye Long Beach Show

This is a very busy time of year for coin dealers. It is a time when a number of auctions are taking place around the country. Strong results have already been seen at auctions conducted by Bowers and Merena, Stack's, and New World Rarities. The bidding at these sales has been characterized as frenzied, at times. In most cases, the attendance has been very strong with many Bidders participating on each lot. Competition is keen as dealers and collectors battle each other for quality coins. The demand for rare dates in quality condition is omnipresent throughout the auction room. As this is being written, many dealers are in Baltimore for Part Two of the John Jay Pittman Collection auction. This has been a much anticipated sale and dealers expect the prices realized to be very strong. Those dealers and collectors that are not present in Baltimore are probably calling in sight-unseen Bids. As we saw in Part I, the quality of the Pittman coins is quite good. Besides the Pittman sale by David Akers, Superior and Heritage have early June auctions scheduled. The Heritage sale will be in conjunction with the Long Beach Coin & Collectible Expo. The June 4-6 Expo is usually anticipated by dealers as being one of the more active and productive coin shows each year.

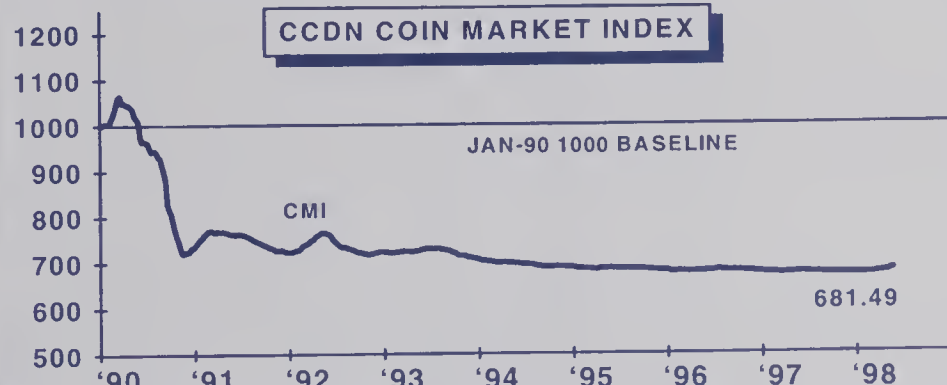

All this activity and market optimism mean that dealers are more willing to increase their Bids, sight-unseen for coins. That's just what we are experiencing in the sight-unseen market today. Dealers have been posting increased Bids for Morgan Dollars, Peace Dollars, Mint Type, Proof Type, Gold and Silver Commemoratives. **Proof Type** is currently the strongest segment of the sight-unseen market. Dealers are increasing their Bids weekly for Proof Type of all denominations. We have noticed that the bulk of the activity is for coins grading Proof 65-67. Dealers are bidding for brilliant, original and lustrous coins. They are also looking to buy attractively toned Proof Type. However, dealers are only looking for lightly toned, original examples. Liberty Seated and Barber Proof coins are popular right now, especially the Dimes through Dollars. However, demand is also prevalent for Lincoln Cent, Half Dimes and Gold. The strength of the Proof Type market is easily seen by looking at the increases in Bid for

some Proof Gold issues. **Proof Gold** is hot and dealers are willing to increase Bids, even sight-unseen to be successful. Bids are increasing for PR64 and better Gold in all denominations. There also seems to be a lot of supporting Bids for PR63 Gold. Strong dealer Bids for Mint State Type is appearing with greater frequency this week. We have also noticed many plus signs in the Silver Commem series. Dealers have increased their Bids for MS-65 and better Commems. Dealers may view the current price levels for Commems as an excellent value. In each case, dealers are looking for coins that are average for the grade. This is what they expect when they Bid sight-unseen. They just do not want to be surprised with a coin that is, obviously a problem. Still, the sight-unseen market is very strong. This has been the trend throughout 1998 and this activity only seems to be increasing.

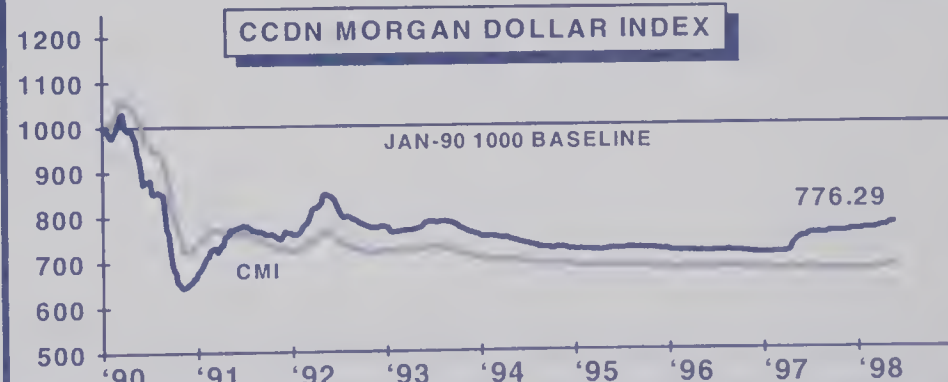

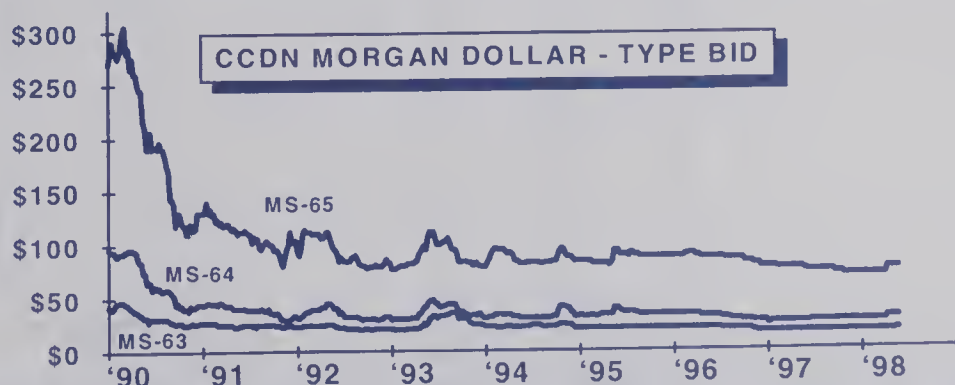

Stack's will conduct an auction in New York on June 9-10. The sale will

feature some selections from the collections of Wesley A. Miller and Dr. Alfred R. Globus. It will also include some coins from the Museum of Connecticut History. There are more than 2,000 lots in all and we have listed a few of the certified United States coins among the many highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks. All list coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL Bidders will be listed monthly in a supplemental insert: CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Each day hundreds of collectors and dealers decide which grading service to use for certifying their important coins.

More often they choose NGC.

For accurate and consistent grading choose the leader in third party certification. That's NGC.

For more information about NGC, including our innovative Photo Proof and Variety Plus services contact one of the 1,300-plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Pittman and Price Auctions Drive Market Strong Bidding For Proof Gold, Mercury Dimes

The sight-unseen market is consolidating. We continue to see strong supporting Bids in Dollars and Uncirculated Type. However, the number of plus signs found in these series is less than in previous weeks. This does not mean that these segments of the market are soft. On the contrary, these areas still are among the market leaders. Proof Type continues to be very hot. There is a number of plus signs appearing in this week's chart. The same is true for Proof Gold Type. Dealers are not shy about Bidding strong money sight-unseen for these high priced rarities. Another area of market strength for sight-unseen Bidding is the Mercury Dimes. We have seen quite a few plus signs this week for MS65FB and MS66FB Dimes. Dealers are actively pursuing these Dimes for their customers.

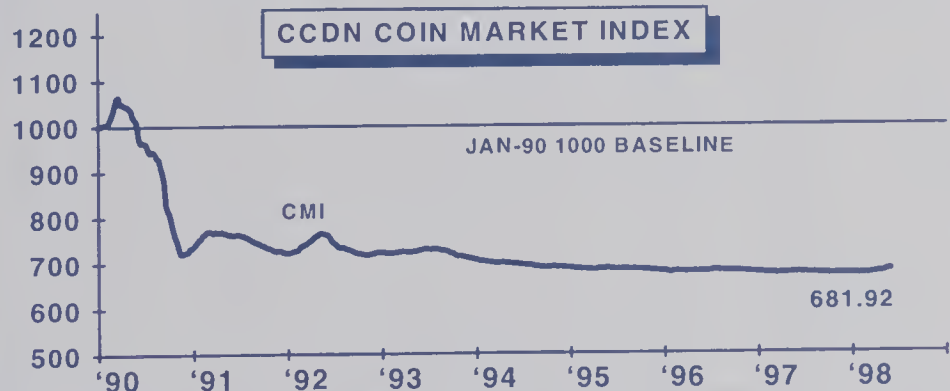

Powerfully strong Bidding and interest characterized the Dr. Thaine B. Price, Dr. Robert C. Wynsen and John Jay Pittman Collection auctions. The three auctions were conducted by David W. Akers on May 19-21 in Baltimore. The three sale totals brought an incredible \$19,245,844. There seems to be a lot of money available for rare coins and Paper Money these days. The timing could not be better. This is a time when dealers and collectors are hungry for fresh material. The need for quality, rare coins is very great. Undoubtedly, a considerable amount of funds for rare coins has become available. Probably a large portion of these funds originated from the profits realized from our equity markets. As the bull stock market pauses for a correction, funds become available. In essence, big money is buying coins. A record price per lot at public auction was established during the Price Collection sale. There was only 213 lots totaling \$6,178,507. This translates to more than \$29,000 per lot. These auctions offered dealers and collectors a little bit of everything.

Of course, Part Two of the Pittman Collection auction highlighted the three sales. There was a very strong Mail Bid associated with the Pittman offering. The 870 lot auction realized a two session total of \$12,203,510. The Pittman sale began with Quarters and ended with \$10 Gold. However, there was some original, early Proof Sets as well. It would be impossible to list all the highlights so we included a few major ones. A Gem Proof 1837 Capped Bust Quarter brought \$121,000; a Choice Proof 1853 Liberty Seated Quarter, Arrows and Rays sold for \$99,000; a Very Choice Proof 1839 Liberty Seated Half Dollar, Drapery at Elbow claimed

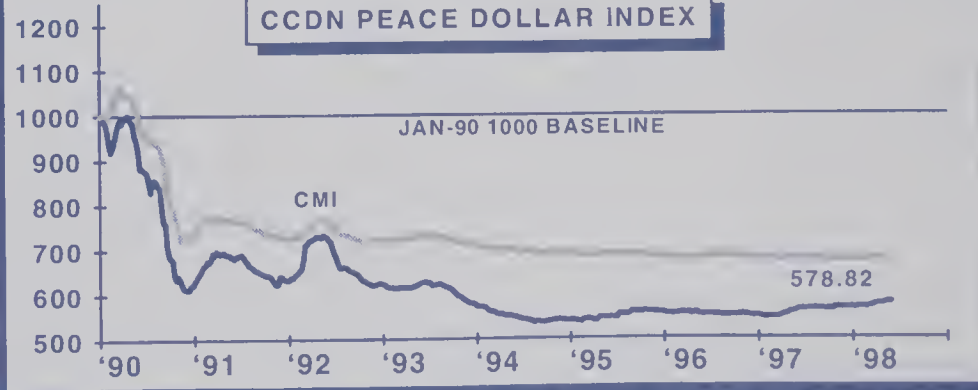

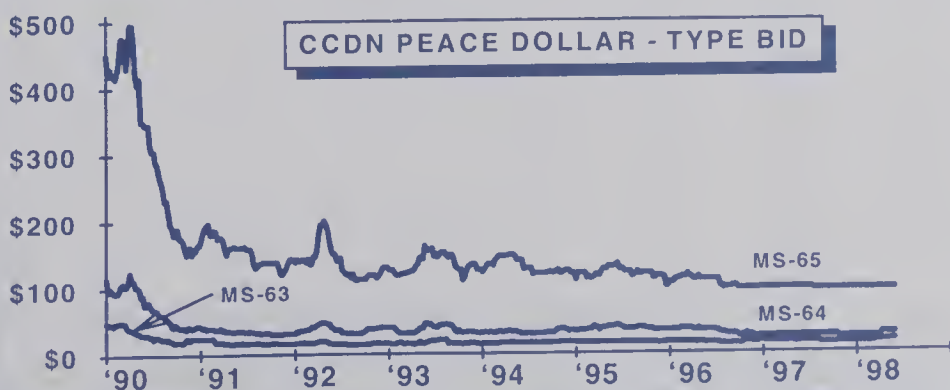

\$132,000; a Proof 1834 \$2.50 Classic Head realized \$176,000; a Gem Proof 1835 \$5 Classic Head sold for \$264,000; and, a Choice Proof 1838 \$10 Coronet brought \$550,000.

The following highlights are from the combined sales of the Dr. Price and Dr. Wynsen Collections. The prices realized for these two collections total more than \$7 million. The Dr. Price Collection featured Indian Head \$2.50, \$5 and \$10 Gold; \$20 Saint-Gaudens; and Barber Half Dollars. The Dr. Wynsen Collection included coins from Half Cents through Double Eagles.

Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest national/v reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

CERTIFIED COIN DEALER newsletter

Published Weekly • Division of CDN Inc

Dept. CCDn P.O. Box 7949 • TORRANCE, CA 90504

http://www.greysheet.com • greysheet@msn.com

Enlosed is my check/M.O. for the amount of \$_____

Please start sending me the Certified Coin Dealer newsletter for

☐ 6 Months \$65.00 ☐ 1 Year \$117.00 ☐ 2 Years \$193.00

Name _____

Address _____

City _____ State _____ Zip _____

COMMEMORATIVES														Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

DO IT FOR THE MONEY!

WHY THE KING OF CASH

(OFTEN IMITATED, BUT NEVER OUTBID!)

**DESPERATELY NEEDS TO PAY YOU
OUTRAGEOUS PRICES FOR YOUR COINS...**

When it's time to sell your coins, there's only one question that needs to be answered.

- It doesn't matter who's the largest company.
- It doesn't matter who has the biggest inventory of coins.
- It doesn't matter whether your coins are sold at auction, directly to a dealer, or a combination of the two.

THE BOTTOM LINE IS HOW MUCH MONEY YOU PUT IN YOUR BACK POCKET!

The only question that needs to be answered is, "How can you sell your coins for the maximum amount possible while maintaining the highest possible comfort level in the speed of sale and payment procedure?"

In the United States rare coin market the answer to that question is very simple. Time and time again, at both public auction and in direct dealings, Spectrum Numismatics pays absolute top dollar for coins while buying the broadest possible types of material... everything from million dollar rarities to ten dollar generic coins. And nobody pays faster than Spectrum.

SPECTRUM MUST PAY YOU MORE THAN ANYONE ELSE.

Here's the secret, when it comes to buying your coins. Spectrum has no choice. Spectrum needs to spend a minimum of \$6,000,000 per month to satisfy its coin-hungry clients. Spectrum must either buy your coins or lose their clients. That's why Spectrum can pay you more than any other rare coin dealer. There's no catch. The reason is as simple as that. If Spectrum wants to stay in business, it must be one of the top buyers of United States rare coins, in all price ranges.

TOP BUYING POWER - THE ABILITY OF A FIRM TO BUY ALL OF YOUR COINS

It can be easy to sell one or two coins. It can be easy to sell your highest grade coins or your rare coins. It's a bit more complicated to sell all of your coins. The major mistake that most collectors make when disposing of their collection is they don't ask enough money for their great coins and they ask too much money for their mediocre coins. They usually sell their great coins immediately and are stuck with the bottom of the barrel. What makes sense is to sell to a firm who needs a broad base of coins. A firm that's comfortable buying a coin for \$100,000 or \$10. Spectrum is willing to buy virtually any pre-1950 Uncirculated U.S. Coin.

When you deal with Spectrum Numismatics, you can take comfort in the fact that you are selling to the absolute top buyer for rarities and someone who will buy all of your coins in all price ranges. But there's a lot more.

WHAT'S IN IT FOR YOU

When you sell coins to Spectrum Numismatics you get the following benefits every time:

- 1. Absolute top dollar for your coins.** This is not a shallow claim. The facts clearly show that Spectrum Numismatics is the number one buyer for rare coins.
- 2. Ultra fast payment.** Spectrum Numismatics can pay you any way you choose...you can have a check, you can have a bank wire, you can deliver the coins, or you can mail them. Any way you want to handle the transaction is O.K. with Spectrum and will be handled as quickly as you desire.
- 3. Ultra efficient service aimed to make it as easy as possible for you to sell your coins.** If you would like a Spectrum buyer to visit you at your convenience, all you have to do is call Spectrum collect any weekday and talk to one of our buyers. In fact, Spectrum is so desperate to buy your coins, we'll even pay the price of your shipping the coins - whether or not you decide to sell them to Spectrum.

It's Easy To Do Business With The King Of Cash

**IF YOU WANT TO SELL YOUR COINS FOR ABSOLUTELY TOP DOLLAR, PICK UP THE PHONE NOW AND
CALL 714-955-1250. CALL COLLECT AND TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 23

June 5, 1998

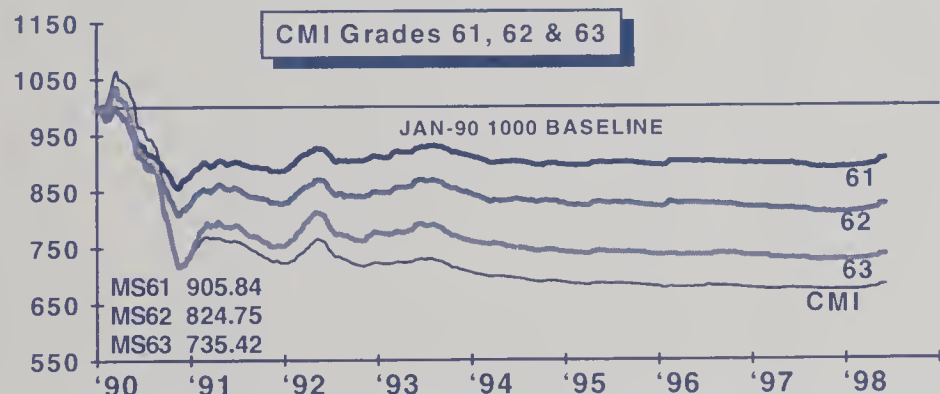

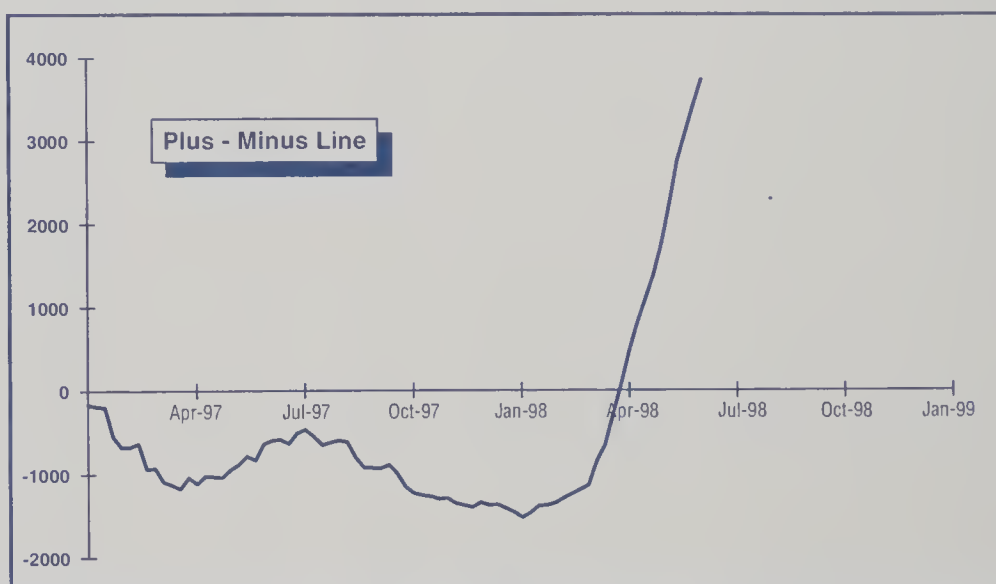

Single copy price \$4.00

Core Totals Indicate Positive Market Sight-Unseen Market Very Strong In 1998

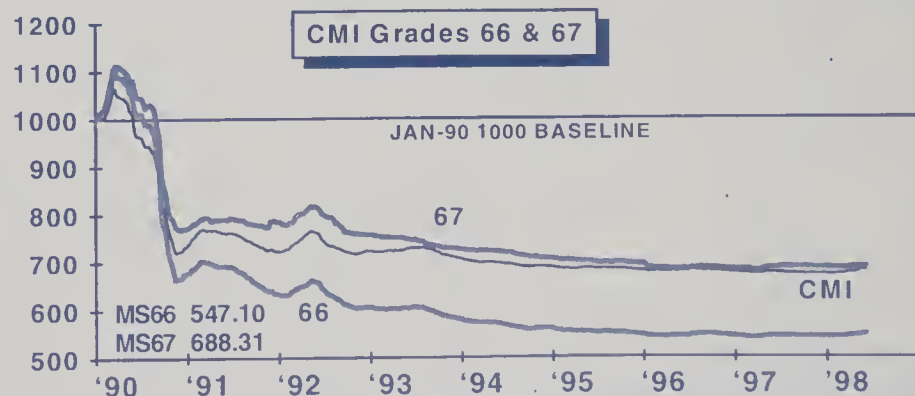

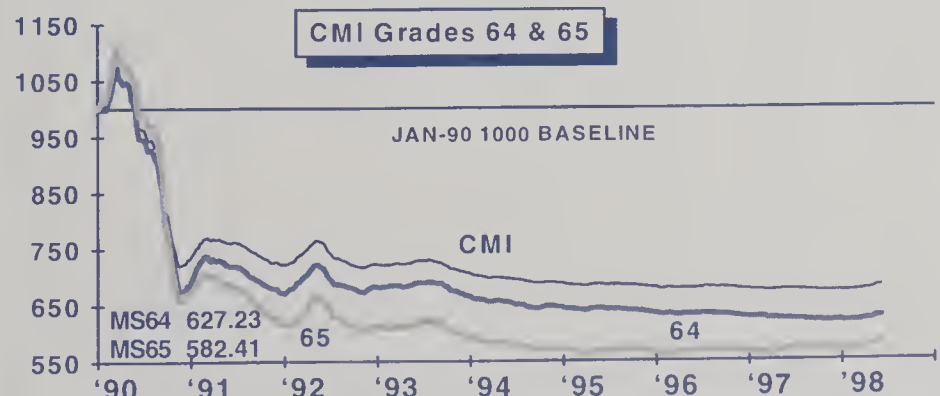

The market for sight-unseen, certified rare coins is very strong today. This is also true for the sight-seen market. Many dealers are looking to buy specific dates for their customers. Often, these customers want the third-party grading opinion and the authentication insurance they receive from the professional grading services. During the first five months of 1998, we have seen many scarce and quality coins hit the market through public auction. Naturally we expect the higher quality and rarer coins to wind up in slabs. That has been the trend throughout the 1990s. As old-time collections become available to new collectors, raw coins are increasingly sent to the grading services. It will be interesting to see how many Price and Pittman coins become encapsulated. Dealers have bid strong money for these coins. Many have done so with high expectations. Grade is important and can mean the difference between a successful purchase and being buried. We are sure that many of these coins will begin to surface in their new holders. As they do, some of these coins are traded sight-seen while others become part of the sight-unseen market. We have seen an increasing number of plus signs this year for coins that trade sight-unseen. This has been especially true for Morgan Dollars, Mint State Type, Proof Type and Mint State Gold. However other series and denominations have also participated in this demand.

Each week on the front page of the *Bluesheet*, we list the **plus and minus count** for 12 categories of coins. These numbers help dealers and collectors to measure the strength or weakness of the current market. This information allows you to target specific areas of the market such as Gold Commemoratives. However, a broader view of the market encompassing the twelve categories can be obtained by looking at the **CORE TOTALS**. These core statistics indicate the total number of plus and minus signs found in all 12 categories that we track. It also lists the total number of coins tracked in all the categories at 10,074. Finally, the total number of coins in all categories that are unchanged is available. By analyzing these numbers, dealers can quickly determine an indication of market activity and direction. The **Plus - Minus Line** graph depicts a cumulative running total of the summation of plus and minus signs each week since Jan. 1997. As you can see, there has been an **explosion** on the **plus side** in 1998. It is a case where the number of plus signs far outnumbers the minus signs for many of the categories that we track. Besides the four categories we mentioned earlier in this article, Proof Gold Type, Proof Singles and Mercury Dimes have also had a positive affect on the core totals. This week the trend is the same as plus signs continue to dominate the minus signs. As we have seen in past weeks, Morgan Dollars, Mint State Type, Mint State Gold and Proof Type have done well. However, Proof Gold Type,

Buffalo Nickels, Walking Liberty Half Dollars and Proof Singles contributed. The strength in the Morgan Dollar series is most noticeable in the MS65 grading category. Dealers are increasing their bids for these coins almost weekly. Apparently, there continues to be an imbalance in the supply and demand for specific dates in the gcm category. Until demand is satisfied, we expect to see continued upward pressure on price and consequently, more plus signs. A similar scenario exists in the Mint State Type and Proof Type categories. Dealers are willing to increase their sight-unseen bids for Type. They tell us that the number of collectors working on Type sets is increasing. Also, many Type collectors are looking to upgrade their coins. Dealers are constantly trying to find specimens that their customers want. Since the hunt has been becoming more difficult, dealers are willing to pay more to buy the coins as they become available.

PLUS / MINUS COUNT	PLUS	MINUS	TOTALS	STEADY	% STEADY	CMI
Silver Commemoratives	2	1	1330	1327	99.77%	502.94

Jay Parrino's

THE MINT, LLC

AMERICA'S LEADER IN CLASSIC RARITIES

BUYING: We are in constant need of great coins, currency, and world class collections. WE WILL NOT BE OUT-BID ON MATERIAL WE NEED.

SELLING: Over \$50,000,000.00 of numismatic treasures available. Our Inventory is in a league of it's own. See our full page ads exclusively in Numismatic News or visit our WEB Page... You'll be amazed!

TRADING: We welcome ALL trades, have interest-free in house financing, and exclusive 10% Re-Purchase program to assure you will have a ready and willing buyer when the time comes to sell. Call for complete details.

CONSIGN: We will take your material on a consignment basis for as little as 5%. Your coins will be offered to our select customer base, featured on our Web Site, and listed in our ads. In short, they will receive maximum exposure.

Whether Buying, Selling, Trading, or Consigning, you will receive the best guidance my 40+ years has to offer. You will deal directly with me and not a middleman. I look forward to your call.

*Thanks,
Jay*

DO IT FOR THE MONEY!

WHY THE KING OF CASH

(OFTEN IMITATED, BUT NEVER OUTBID!)

**DESPERATELY NEEDS TO PAY YOU
OUTRAGEOUS PRICES FOR YOUR COINS...**

When it's time to sell your coins, there's only one question that needs to be answered.

- It doesn't matter who's the largest company.
- It doesn't matter who has the biggest inventory of coins.
- It doesn't matter whether your coins are sold at auction, directly to a dealer, or a combination of the two.

THE BOTTOM LINE IS HOW MUCH MONEY YOU PUT IN YOUR BACK POCKET!

The only question that needs to be answered is, "How can you sell your coins for the maximum amount possible while maintaining the highest possible comfort level in the speed of sale and payment procedure?"

In the United States rare coin market the answer to that question is very simple. Time and time again, at both public auction and in direct dealings, Spectrum Numismatics pays absolute top dollar for coins while buying the broadest possible types of material... everything from million dollar rarities to ten dollar generic coins. And nobody pays faster than Spectrum.

SPECTRUM MUST PAY YOU MORE THAN ANYONE ELSE.

Here's the secret, when it comes to buying your coins. Spectrum has no choice. Spectrum needs to spend a minimum of \$6,000,000 per month to satisfy its coin-hungry clients. Spectrum must either buy your coins or lose their clients. That's why Spectrum can pay you more than any other rare coin dealer. There's no catch. The reason is as simple as that. If Spectrum wants to stay in business, it must be one of the top buyers of United States rare coins, in all price ranges.

TOP BUYING POWER - THE ABILITY OF A FIRM TO BUY ALL OF YOUR COINS

It can be easy to sell one or two coins. It can be easy to sell your highest grade coins or your rare coins. It's a bit more complicated to sell all of your coins. The major mistake that most collectors make when disposing of their collection is they don't ask enough money for their great coins and they ask too much money for their mediocre coins. They usually sell their great coins immediately and are stuck with the bottom of the barrel. What makes sense is to sell to a firm who needs a broad base of coins. A firm that's comfortable buying a coin for \$100,000 or \$10. Spectrum is willing to buy virtually any pre-1950 Uncirculated U.S. Coin.

When you deal with Spectrum Numismatics, you can take comfort in the fact that you are selling to the absolute top buyer for rarities and someone who will buy all of your coins in all price ranges. But there's a lot more.

WHAT'S IN IT FOR YOU

When you sell coins to Spectrum Numismatics you get the following benefits every time:

- 1. Absolute top dollar for your coins.** This is not a shallow claim. The facts clearly show that Spectrum Numismatics is the number one buyer for rare coins.
- 2. Ultra fast payment.** Spectrum Numismatics can pay you any way you choose...you can have a check, you can have a bank wire, you can deliver the coins, or you can mail them. Any way you want to handle the transaction is O.K. with Spectrum and will be handled as quickly as you desire.
- 3. Ultra efficient service aimed to make it as easy as possible for you to sell your coins.** If you would like a Spectrum buyer to visit you at your convenience, all you have to do is call Spectrum collect any weekday and talk to one of our buyers. In fact, Spectrum is so desperate to buy your coins, we'll even pay the price of your shipping the coins - whether or not you decide to sell them to Spectrum.

It's Easy To Do Business With The King Of Cash

**IF YOU WANT TO SELL YOUR COINS FOR ABSOLUTELY TOP DOLLAR, PICK UP THE PHONE NOW AND
CALL 714-955-1250. CALL COLLECT AND TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 24

June 12, 1998

Single copy price \$4.00

Active Sight-Unseen Market Strong Prices at Heritage Signature and Superior Auctions

The sight-unseen market is still very strong. Indications about this market are formulated by monitoring the dealer activity on the electronic networks. Dealers are posting strong Bids for many coins in many grades. They also offer sight-unseen Bids between dealers on the telephone and FAX. While we continue to see many strong supporting Bids and increasing Bids, we have noticed **some resistance** this week. Some dealers believe that the number of increasing Bids that have been occurring week after week is bound to slow and consolidate. Consequently, we have noticed some dealers selling some common date Morgan Dollars at and below current Bid. A market that has increased as much as the 1998 rare coin market has is only ripe for a **minor** correction. We are not saying that these sales represent a

market correction. However, some dealers have decided to part with some coins at current levels. The bull market has **not** ended. Strong Bids are still being offered in many series for many coins. We have seen many increasing Bids for select denominations, dates and grades. Here are a few examples from this week's activity. Washington Quarters are realizing in-

HERITAGE DATE	DENOMINATION	GRADE	PRICE REALIZED
1794	Liberty Cap Half Cent	PCGS AU50	\$ 4,600
1872	Indian Head Cent	PCGS MS64R	\$16,675
1865	3-Cent Silver	NGC PR67	\$ 7,590
1867	Shield Nickel, Rays	PCGS PR62	\$18,975
1829	Capped Bust Dime	NGC MS67	\$16,675
1854	Liberty Seated Quarter, Arrows	NGC MS66	\$47,150
1898	Barber Quarter	NGC PR67	\$12,075
1918/7-S	Standing Liberty Quarter	PCGS MS63	\$20,412
1831	Capped Bust Half Dollar	PCGS MS65	\$13,800
1868	Liberty Seated Half Dollar	NGC PR68	\$26,450
1879-CC	Morgan Dollar	PCGS MS64	\$ 6,900
1895-O	Morgan Dollar	NGC MS60 DMPL	\$13,225
1915-S	\$50 Pan-Pac Commem, Rd	NGC MS64	\$49,450
1915-S	\$50 Pan-Pac Commem, Oct	NGC MS64	\$49,450
1858	\$1 Indian	PCGS MS67	\$20,700
1796	\$2.50 Capped Bust, No Stars	PCGS XF40	\$34,500
1808	\$2.50 Capped Draped Bust	PCGS AU58	\$35,650
1863	\$3 Indian	PCGS MS66	\$49,450
1879	\$4 Flowing Hair Stella	NGC PR64 Cameo	\$61,900
1818	\$5 Capped Head, STATESOF	NGC MS63	\$40,250
1861	\$5 Coronet	NGC MS65	\$28,750
1796	\$10 Capped Bust	PCGS AU55	\$33,350
1799	\$10 Capped Bust, Lg Stars	NGC MS62	\$81,700
1907	\$20 Saint-Gaudens, High Relief	PCGS MS65	\$76,200

creasing Bids. These increases are most noticeable for the early dates of the series. Strong demand has helped increase the Bids for the key date Washington Quarters in Gem MS-65 condition. The popular dates, of course are the 1932-D and 1932-S. Key dates from the Lincoln Cent, Indian Head Cents, Mercury Dimes, Morgan Dollars and Peace Dollar series are performing extremely well. Rare date Gold coins are currently very hot. Buyers are not afraid to offer very strong Bids to get the coins that they need for their collections. Many of these coins and dates were among the most requested by dealers at the Long Beach Show.

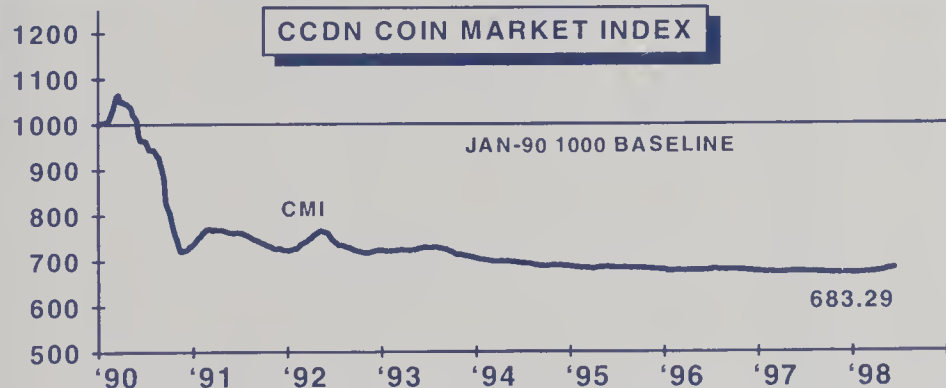

Auctions have played a major role this year. These sales have offered the market what it most longs for — original material. Superior Stamp & Coin held a 2,540 lot sale on June 1-2. There was strong dealer and collector Bidding throughout the sale. The auction totaled \$4.114 million. We have included some of the many highlights.

Heritage conducted a Bullet Sale and Signature Auction in conjunction with the Long Beach Expo. The Signature Sale realized more than \$4.3 million

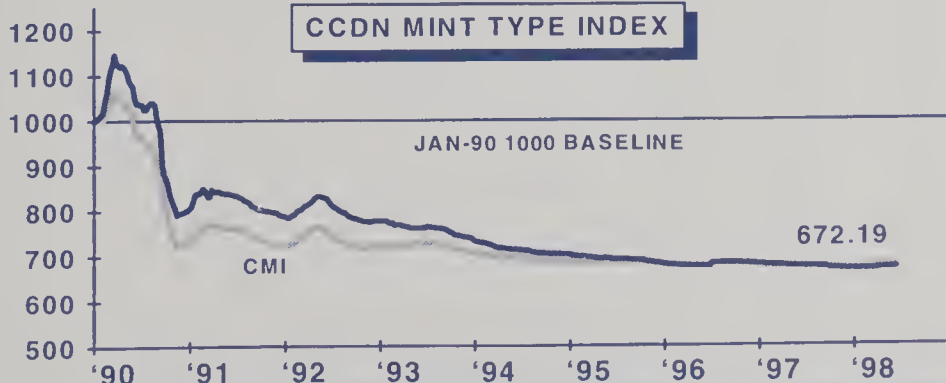

and the Bullet brought over \$425 thousand. Strong Bidding characterized both sales. Dealers report that the prices realized were very solid. The following are some of the many highlights of the Signature Sale held June 4-5. This sale included more than 2,100 lots.

SUPERIOR DATE	DENOMINATION	GRADE	PRICE REALIZED
1858	Flying Eagle Cent, Large Letters	NGC PR66	\$36,300
1804	Draped Bust Dime, 14 Stars	PCGS AU50	\$30,800
1875-CC	Liberty Seated 20-Cent	PCGS MS65	\$ 8,800
1927-S	Standing Liberty Quarter	PCGS MS66	\$ 8,085
1796	Draped Bust Dollar	NGC AU55	\$ 7,700
1903-S	Morgan Dollar	NGC MS67	\$20,900
1921	Peace Dollar	NGC PR64	\$11,550
1854	\$1 Indian, Type 2	PCGS MS64	\$37,400
1859-C	\$1 Indian	PCGS AU58	\$ 8,800
1895	\$2.50 Coronet	NGC MS67	\$12,650
1854-D	\$3 Indian	NGC XF45	\$15,950
1834	\$5 Classic Head, N.M., Pl 4	NGC MS65	\$41,800
1873	\$10 Coronet	NGC AU55	\$27,500
1875	\$10 Coronet	NGC PR45	\$46,200
1879-CC	\$10 Coronet	NGC AU53	\$19,800
1920-S	\$10 Indian Head	NGC MS63	\$35,750
1860-O	\$20 Coronet	PCGS AU58	\$35,200
1925-S	\$20 Saint-Gaudens	PCGS MS63	\$17,500

Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

YOU BE THE EXPERT

Learn how you can "Make The Grade" with *The Official Guide to Coin Grading and Counterfeit Detection*

PCGS set the highest standard in the industry for grading rare coins over the last twelve years. During these years of grading millions of coins, we learned that you—the collectors, dealers and general public—wanted more specific information about PCGS grading standards and counterfeit coins.

As an answer to your requests, PCGS brought the top numismatic and rare coin experts together and set a new standard in coin grading and counterfeit detection. Once again revolutionizing the rare coin industry, PCGS makes this information available to you in a newly released landmark reference book called *The Official Guide to Coin Grading and Counterfeit Detection*. This book provides an unparalleled standard of reference for established numismatists as well as for people just entering the coin world.

PCGS revolutionizes the current standards of coin grading with pioneering concepts, definitive grading parameters, and state-of-the-art technology. This book gives you precise descriptions of PCGS grading standards, including the first published grading standards for all eleven Mint State and Proof grades. You will also receive expert guidance on detecting counterfeit coins. The diagnostics in this section are easy to see and understand. The combination of the numismatic expertise along with detailed descriptions provide you with incomparable grading standards that are not subject to wide interpretation.

This landmark reference work is 324 pages and large format (8-1/2" x 11"). It contains an unprecedented 48 pages of spectacular full color illustrations and 547 black and white photographs, all of them produced by state-of-the-art digital imaging of coins from the Professional Coin Grading Service (PCGS) grading and counterfeit detection research archives.

Since it's what you know that really counts in coins, you can build your knowledge bank by ordering *The Official Guide to Coin Grading and Counterfeit Detection* today. This book, published by Random House, is available from PCGS by phone, mail order, or on the PCGS website at www.pcg.com.

PCGS — There Is A Difference!

YES! I want a copy of *The Official Guide to Coin Grading and Counterfeit Detection* for \$29.95, plus \$4 shipping & handling. Rush my order today.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Proof-like. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

Tells why more people

are turning to **PCI**

- ☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Clearer sight-seen trades can be expected to occur at substantially higher levels in many cases.

Beauty is in the "eye" of the holder.

If you buy the coin, not just a holder then consider buying coins certified by the leading third party certification company. That's NGC.

Since its inception, NGC has urged the business and the hobby to "buy the coin" and not just what's on a holder. Why? Because, like you, we believe coins should be a passion as much as, or more than, a business.

NGC is committed to assuring that coins educated buyers most want to purchase are the coins in NGC holders. You buy NGC certified coins because you find the coins appealing. Then you have the added assurance that your instincts were right when you see the NGC certification, with its consistent and accurate grade.

NGC is the leading third-party grading service thanks to your support. And each day more collectors and dealers agree that one grading service continually offer the best overall value in products and services, while delivering a consistent and accurate grading standard they can count on.

coined at Salt Lake City from newly-mined California gold, this Mormon five-dollar piece, featuring the "all-seeing eye," is a rare uncirculated specimen, graded by NGC as MS-61.

www.NGCcoin.com

That's NGC.

Consistently grading more of the world's finest coins, like yours.

For more information about NGC, including our innovative PHOTO PROOF and VarietyPlus services, contact one of the 1,300-plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

Rare Coin Prices Jump Stack's June Sale Active

Just when you think the rare coin market is due for a respite, demand from dealer Bids tells a different story. Today's market is very **resilient**. It appears that there is much life left to this bull market. The sight-unseen market is especially strong. We are observing strong dealer Bids for coins in many areas of the coin market. This demand is fueled primarily by collectors, the end consumers of rare coins. Dealers have been servicing these collectors in many ways. They advise them how to pursue their hobby. They help direct them by establishing goals and developing their objectives. Collectors rely on the dealer's experience to choose a path that is economically feasible as well as being realistic. Dealers have told us that their customers have very **ambitious** goals. They are looking for coins that are interesting and expensive. They understand rarity and condition. They want to add the difficult varieties and low-mintage dates to their collection. Locating specific dates in specific grades is no easy task. Dealers may spend years searching for the right coin. Also, finding the specimen is no guarantee that it could be bought at a price that is satisfactory to the collector. Often, we have monitored the explosion in prices that takes place when big name auctions hit the market. In 1998, the John Jay Pittman Collection has been the catalyst. Rare coins can often jump in price by percentages usually unheard of in other markets. It is not uncommon to see prices jump 20 percent or more since it last traded. We have seen specific rare dates in high grade make their initial appearance at public auction. Regardless, demand for the date has been building for years. When the auction lot is called, the Bidding battle ensues. Record prices have become commonplace at these sales. A good analogy can be found by looking at our financial markets. In the stock market, there are exceptions and situations that can mimic a very rare date becoming available after years of being unavailable to the market. Imagine what happens to the price of a stock that has had its trading halted. If the pending news is good, when the stock reopens it may be several dollars higher than the last trade. In the rare coin market, years of being unavailable to collectors make the situation primed for a jump in price.

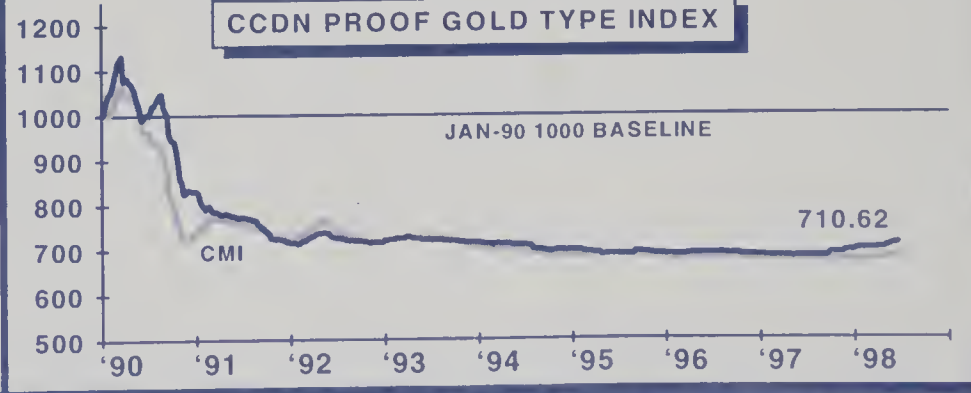

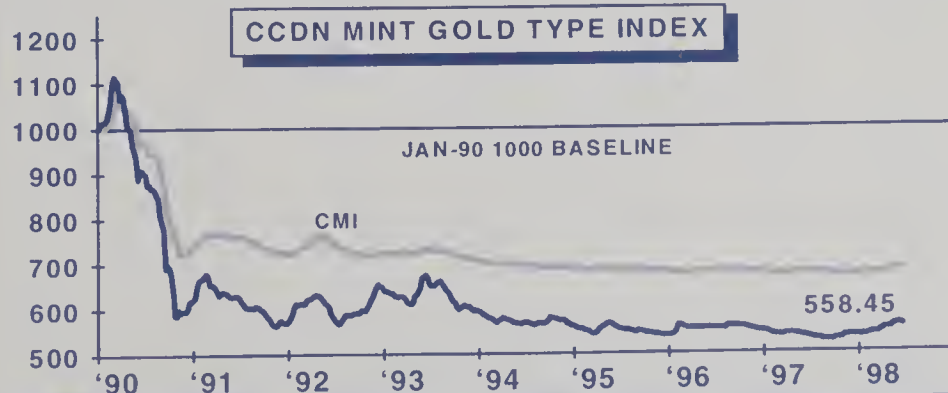

In the sight-unseen market, Bids are increasing in a wide sector of the coin market. Morgan Dollars are realizing very strong Bids for MS-65 coins. Franklin Half Dollar, \$20 Saint-Gaudens, Proof and Uncirculated Type and Gold has been terrific. The need for coins far out weighs the concerns about Bidding sight-unseen. Dealers are not looking for premium quality at each grade level. Of course, they would be more than happy to buy those coins. Still, they would be equally happy to receive average quality coins at each grade level. Therefore, the sight-unseen market is active and robust. Dealers hope that this market can supply them with the coins they need.

Stack's conducted a public auction June 9-10 in New York. The sale featured selections from the Wesley A. Miller, Dr. Alfred R. Globus and the Museum of Connecticut History collections. The sale produced active and strong Bidding during the U.S. portion of the auction. The sale totaled more than \$2 million. We have listed a few of the many highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

"Great Site!"

"Great site! I visited every page and was very pleased. I especially liked the 'Did You Know?' selections."

Paul Simonetti, Heritage Rare Coin Galleries

"Valuable Tool"

"NGC's web site is a valuable tool for collectors. The wide range of resources and articles are certain to stimulate, inform, and educate. Great job!"

Kathleen Duncan, Pinnacle Rarities

"Bull's Eye!"

"NGC has hit the bull's eye with its web site! Their site is thoughtful, educational, and thoroughly enjoyable. Their attention to detail, particularly along the lines of consumer protection, is to be commended."

Frank Greenberg, Delaware Valley Rare Coin Company, Inc.

"First-Rate"

"The NGC web-site is a first-rate introduction to NGC and its services while showcasing the things that make rare coins an exciting hobby."

Keith M. Zaner, the Coin Dealer Newsletter

"Another Big Step"

"Your web site is another big step forward in accessible collector resources, superb images, and numismatic history, reflecting the quality we're accustomed to in NGC's grading and hobby services"

Anthony Swiatek, Minerva Coin and Jewelry Limited

Availability — Key To Higher Sight-Unseen Bids Walkers And Mercury Dimes Participate

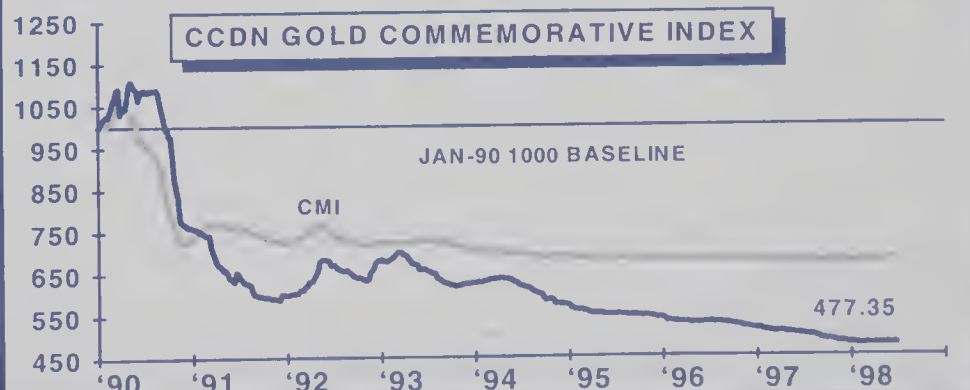

The sight-unseen market is still experiencing strong supporting Bids from dealers. The strength of this market is predicated by dealers receiving honestly graded coins at each specific grading level. Dealers remind us that the coins do not have to be premium quality for the grade. Coins that are believed to be average for the grade will suffice in many instances. Still, dealers are willing to increase their Bids for coins that are above average. Those coins that possess a high degree of eye appeal and pizzazz realize even more money. Currently, the biggest obstacle facing most dealers is found on the buy side of the equation. Dealers need material, plain and simple. Their customers' want lists have increased throughout 1998 and acquiring specific dates and grades is the primary concern of most dealers. Morgan Dollar collectors are plentiful these days. Many of these collectors are working on sets and trying to upgrade their collections when possible. Because it's a long series, there are many key and semi-key dates to locate in a grade that fits nicely into the collection. Dealers are helping their customers to locate dates that are within their budget. Collector/investors that possess deep pockets have the problem of availability. They want to obtain a high quality set of Morgan Dollars but do not want to wait a lifetime to complete their collection. Consequently, dealers may suggest that they settle for some coins of lesser quality to finish in a reasonable amount of time. Dealers have instructed those collector/investors that are looking for Prooflike and Deep Mirror Prooflike specimens that they are facing a **difficult road**. It is difficult to locate many of the key and semi-key dates in PL and DMPL. Often, many of these coins are totally unobtainable while others have populations that are less than ten coins for the grade. When the opportunity avails itself and a specimen becomes available, there is usually a heated auction battle taking place. Since there are so many collector/investors that are chasing the same rarities, only the highest Bidder can be successful. This week, we have seen a continuation of

increasing dealer Bids for Dollars. Obviously, many of the previous increased, sight-unseen Bids went unfulfilled. Therefore, dealers believe that it is necessary to increase their Bids hoping to improve their chances at success.

Mint State and Proof Type is another area of the sight-unseen market to generate strong Bidding by dealers. They are constantly looking for nice, original coins to place with their customers. Buyers are looking for attractive coins that are fully lustrous with a high amount of eye appeal. The strongest Bids have been posted for Type grading PR64 and MS64 and higher. Of course, those coins that are slightly more scarce than the most common dates are also snapped up as well. Gold coins have become the staple diet of many a collector. Dealers that have inventories filled with Gold coins have had little problems selling those coins. Common date Gold collectors are interested in many dates in quantity. Although the price of Gold bullion languishes below the \$300 per ounce level, strong Bids are keeping Gold Type at a premium. Activity in the sight-unseen market is also taking place in the Walking Liberty Half Dollar market. Strong sight-unseen Bids have been posted for many early key and semi-key dates. These aggressive Bids are offered hoping to obtain the dates that they need for their customers. Dealers are looking to obtain low population, **extremely high quality** coins that grade MS-67. Some collector/investors are trying to complete sets of Walkers. Others would be very satisfied with one or two attractive specimens. A few of the dates demanded in MS67 condition include 1917-D Obverse; 1917-D Reverse; 1918-D; 1918-S; 1919-D; 1919-S; 1920-D; 1920-S; 1921; 1921-D; 1921-S; 1923-S; 1927-S; 1928-S; 1929-D; and, 1935-D. Besides Walkers, we are also seeing some scattered plus signs in the Buffalo Nickel and Mercury Dime series. Proof Singles are also trading more actively while generating a few plus signs along the way. Demand for Proof 64 and better coins are receiving the majority of the activity.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest national y reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, all listed on Low Asks and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "a" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

DO IT FOR THE MONEY!

WHY THE KING OF CASH

(OFTEN IMITATED, BUT NEVER OUTBID!)

**DESPERATELY NEEDS TO PAY YOU
OUTRAGEOUS PRICES FOR YOUR COINS...**

When it's time to sell your coins, there's only one question that needs to be answered.

- It doesn't matter who's the largest company.
- It doesn't matter who has the biggest inventory of coins.
- It doesn't matter whether your coins are sold at auction, directly to a dealer, or a combination of the two.

THE BOTTOM LINE IS HOW MUCH MONEY YOU PUT IN YOUR BACK POCKET!

The only question that needs to be answered is, "How can you sell your coins for the maximum amount possible while maintaining the highest possible comfort level in the speed of sale and payment procedure?"

In the United States rare coin market the answer to that question is very simple. Time and time again, at both public auction and in direct dealings, Spectrum Numismatics pays absolute top dollar for coins while buying the broadest possible types of material... everything from million dollar rarities to ten dollar generic coins. And nobody pays faster than Spectrum.

SPECTRUM MUST PAY YOU MORE THAN ANYONE ELSE.

Here's the secret, when it comes to buying your coins. Spectrum has no choice. Spectrum needs to spend a minimum of \$6,000,000 per month to satisfy its coin-hungry clients. Spectrum must either buy your coins or lose their clients. That's why Spectrum can pay you more than any other rare coin dealer. There's no catch. The reason is as simple as that. If Spectrum wants to stay in business, it must be one of the top buyers of United States rare coins, in all price ranges.

TOP BUYING POWER - THE ABILITY OF A FIRM TO BUY ALL OF YOUR COINS

It can be easy to sell one or two coins. It can be easy to sell your highest grade coins or your rare coins. It's a bit more complicated to sell all of your coins. The major mistake that most collectors make when disposing of their collection is they don't ask enough money for their great coins and they ask too much money for their mediocre coins. They usually sell their great coins immediately and are stuck with the bottom of the barrel. What makes sense is to sell to a firm who needs a broad base of coins. A firm that's comfortable buying a coin for \$100,000 or \$10. Spectrum is willing to buy virtually any pre-1950 Uncirculated U.S. Coin.

When you deal with Spectrum Numismatics, you can take comfort in the fact that you are selling to the absolute top buyer for rarities and someone who will buy all of your coins in all price ranges. But there's a lot more.

WHAT'S IN IT FOR YOU

When you sell coins to Spectrum Numismatics you get the following benefits every time:

1. Absolute top dollar for your coins. This is not a shallow claim. The facts clearly show that Spectrum Numismatics is the number one buyer for rare coins.

2. Ultra fast payment. Spectrum Numismatics can pay you any way you choose...you can have a check, you can have a bank wire, you can deliver the coins, or you can mail them. Any way you want to handle the transaction is O.K. with Spectrum and will be handled as quickly as you desire.

3. Ultra efficient service aimed to make it as easy as possible for you to sell your coins. If you would like a Spectrum buyer to visit you at your convenience, all you have to do is call Spectrum collect any weekday and talk to one of our buyers. In fact, Spectrum is so desperate to buy your coins, we'll even pay the price of your shipping the coins - whether or not you decide to sell them to Spectrum.

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XIII No. 27

July 3, 1998

Single copy price \$4.00

Certified Coin Market Still Sparkling

Active Sight-Unseen Market As July Begins

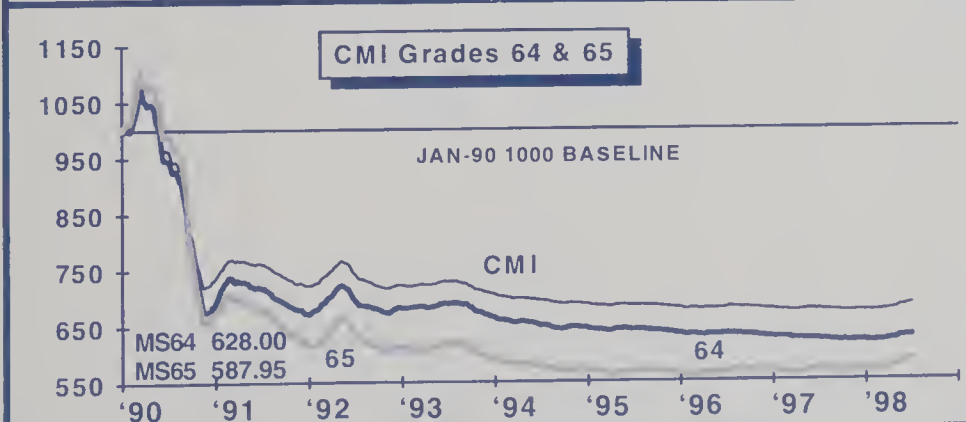

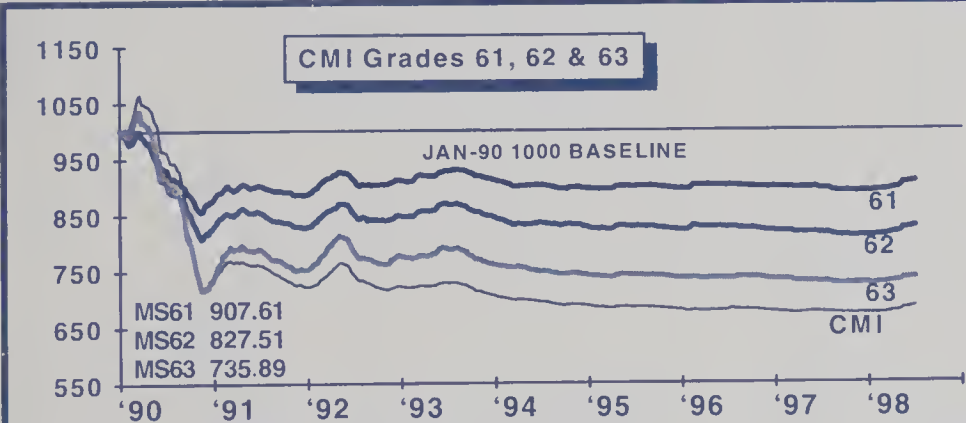

The first six months of 1998 proves to be a good one for the Certified Coin Market Index. All but two indices are showing **positive gains**. We are especially surprised at the market strength when you consider that these statistics only represent one half of 1998. The overall Certified Coin Market Index, from January 2 to July 3, jumped 12.68 points. Individual series and categories did even better. Saint-Gaudens \$20 Gold is firmly in the number one position with a 34.58 point increase. We have seen key and semi-key dates of this popular Gold series command increasing Bids from dealers. Apparently several collectors and or investors are working on complete sets. Other areas of the market that performed well during the first half of the year include Better Dates; Walking Liberty Halves; Mint Gold Type; Morgan Dollars; Mercury Dimes; Proof Gold Type; Peace Dollars Proof Type; and PL Morgans. Within the last few weeks, dealers have **sharply** increased their sight-unseen Bids for high-grade Walking Liberty Half Dollars. We are told that a few collectors/investors are trying to complete an outstanding quality set. The only weaknesses that we see in 1998 are the Commemoratives. Both the Silver and the Gold Commems have posted declines since January 2.

The market for sight-unseen coins was mixed this past week. This is probably to be expected as the past few months have sustained many increasing Bids. We continue to observe a moderate amount of activity. This activity is seen in many forms. Dealers are Bidding sight-unseen on the electronic dealer networks. They are hoping that other dealers on the network will hit their Bids. These Bids are forthcoming because the dealers need specific dates and Type coins for their customers. However, this is not the only target of their strong demand. They also need to buy coins for their inventory. Dealer inventories have been depleted during the first half of 1998 as collectors and or investors are buying coins at a rapid pace. Dealers know the importance of maintaining an attractive and interesting supply of rare coins. Rare coin companies and individual dealers that have a large number of coins in their inventory are in a better position to service their customers. It also puts them in a good position to attract new customers as well. Another way activity is being generated is by the fixed price list. Dealers regularly supply other dealers with their inventory selections. These wholesale lists are either sent by FAX, E-mail or by regular mail. Often, sight-unseen and sight-seen transactions occur by this route.

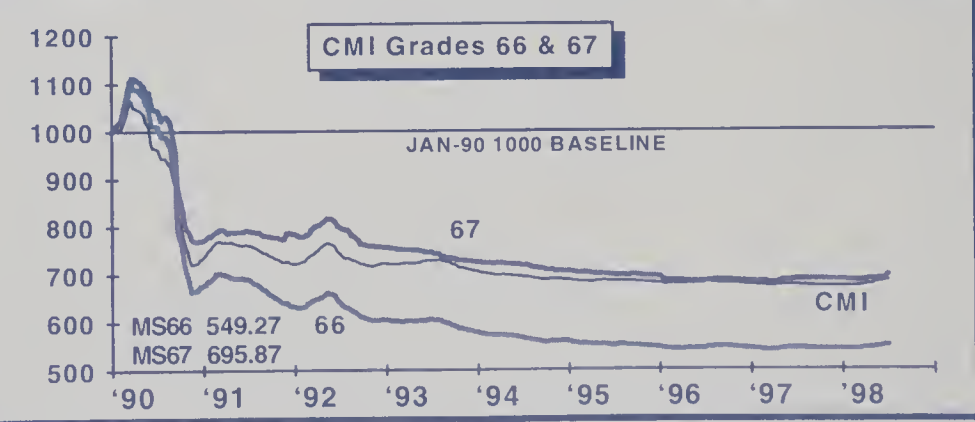

Many dealers are comfortable buying and selling coins in this manner. Dealers are familiar with each other's grading abilities and they know what to expect before the coin arrives.

The Morgan Dollar series continues to generate its share of the market activity. Dealers have reported many transactions taking place around the country. We have seen Bids increasing in a wide range of dates throughout the series. The primary target of these Bids is for MS65 and MS66 graded coins. White, lustrous cartwheels are most often preferred. However, attractively and lightly, original toned specimens are being bought. Dealers are willing to increase their Bids because the old Bids were not successfully providing them with coins. Some of the many dates needed in MS64 and MS65 condition are 1878 8TF; 1878 7TF Reverse of 1878; 1878-CC; 1879; 1881-O; 1885-CC; 1891-CC; 1892; and, 1921-D. The San Francisco Mint Morgan Dollars have also been on fire. Dealers appear to be increasing their Bids for these Dollars in all grades. A sample of the dates generating increasing Bids include 1885-S; 1889-1891-S; 1898-S; 1899-S; and, 1921-S. Besides all the increasing Bids, strong Bids are being observed for many Morgan and Peace Dollars.

BUYING OR SELLING HIGH-GRADE U.S. RARITIES? CALL PINNACLE RARITIES TODAY!

WHY?

Here are a few reasons hundreds of dealers and collectors call us every day:

- We pay stronger prices because we service the end collectors.
- We work on lower percentages than our competitors.
- We are aggressive at pursuing the coins you need.
- We make every transaction simple and easy. Trades are welcome. Financing is available.

SOME OF THE THE SPECIFIC RARITIES WE'VE SOLD IN JUNE 1998

- Δ 1896 \$20 Liberty PCGS PR-67 (The only PR-67 in the series!)
- Δ 1824 Capped Bust 50¢ NGC MS-68 (The only MS-68 in the series!)
- Δ 1907 Rolled Edge \$10 PCGS MS-66
- Δ 1909-S VDB 1¢ PCGS MS-67RD
- Δ 1903-S \$10 Liberty PCGS MS-67
- Δ 1941-S Walking Liberty 50¢ PCGS MS-67 (Pop. 1)
- Δ 1916-D Walking Liberty 50¢ PCGS MS-67 (Pop. 1)

SOME OF THE COINS PINNACLE PURCHASED FROM THE THAINE B. PRICE COLECTION:

1908-D No Motto \$10 Indian
1908-S \$10 Indian
1912-S \$10 Indian
1916-S \$10 Indian

1925-S \$20 Saint Gaudens
1926-S \$20 Saint Gaudens
1927-S \$20 Saint Gaudens

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 28

July 10, 1998

Single copy price \$4.00

Many Areas Doing Well In Sight-Unseen Market Kingswood Auction Realizes \$1.329 Million

Robust Bidding in the sight-unseen market has characterized the beginning few weeks in July. Dealers are optimistic and are not hesitating to increase Bid for specific dates and coins that they need for their customers. These Bids are occurring in many areas of the sight-unseen market. Dealers are willing to increase Bids for coins that they have not seen. They are willing to do this because they are in desperate need of rare coins. Also, it may be an indication that dealers are gaining more confidence with the opinion offered by the grading services. Another reason for the increased demand is probably directly related to the needs of collector/investors. Regardless, the sight-unseen market is benefiting from strong dealer Bids. These increases are raising the base level of dated rare coins. Some areas of the market that are doing well include Morgan Dollars, prooflike Morgan Dollars, Early Gold Type and Better Date coins.

Prooflike Morgan Dollars have realized increased Dealer Bids. According to some dealers, Prooflike Morgan Dollars have been undervalued for their rarity and desirability. We have seen the sight-unseen Bids increase for common date Prooflikes to \$110. Most dealers are holding firm at \$40 for any Prooflikes that grade MS-64. Some of the better date Prooflikes are benefiting as well. Stronger Bids have been the target of an 1894-S in MS65PL and an 1898-O in MS64PL. Weakness was also seen for an 1879-O in MS64PL and an 1888 in MS65PL. Overall, Prooflike Morgan Dollars are beginning to gain more respect.

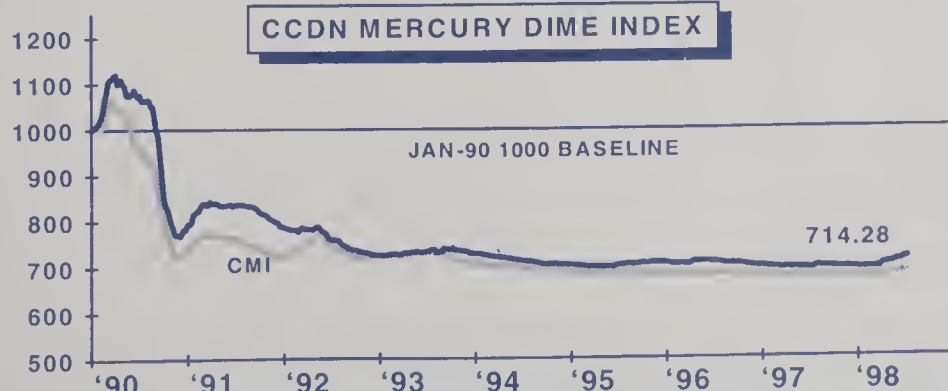

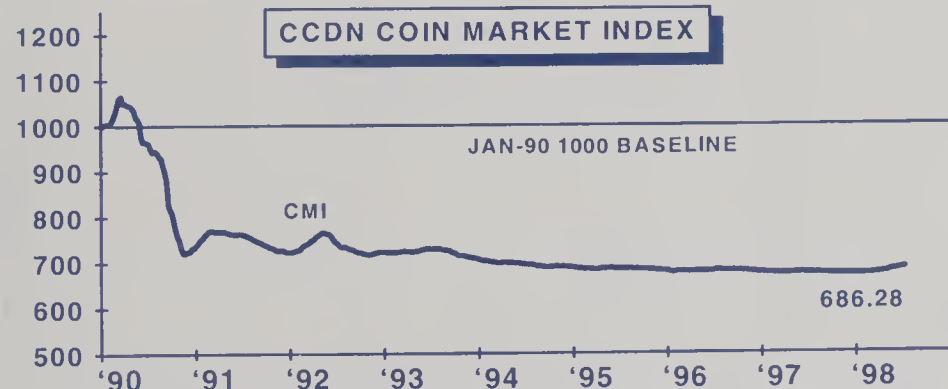

Early Gold Type is a specialized area of numismatics. The savvy collector/investor is keen to this area of the hobby. Buyers of these coins often have deep pockets and are willing to pay big bucks for a single coin. Dealers have long known the value and scarcity of early Gold Type. This is usually an area of the market that grabs headlines at public auction or from a private transaction. Dealers tell us that collector/investor demand is increasing for this segment of the market. Consequently, dealers are looking to add some of these coins to their inventories. Also, they may be looking to acquire some examples that are listed on their preferred customer want lists. We have monitored increased sight-unseen Bids for several denominations and Types. The \$2.50 Quarter Eagles are in strong dealer demand. We have seen increased Bids for

Capped Bust, Stars 1796-1807 in AU58. Also, increased Bids are noted for AU58, MS61 and MS62 Capped Head, Small Planchet Quarter Eagles. Classic Head Quarter Eagles are up as well. Bidding has increased for AU58 and MS61 specimens. Half Eagles are also doing well. Bids for \$5 Draped Bust, Large and Small Eagle coins are increasing. Some interest is also seen among the 1829-34 Small Planchet and 1834-38 Classic Head \$5 coins. Finally, Capped Bust, Heraldic Eagle \$10 Gold Type is up in AU58, MS61 and MS62.

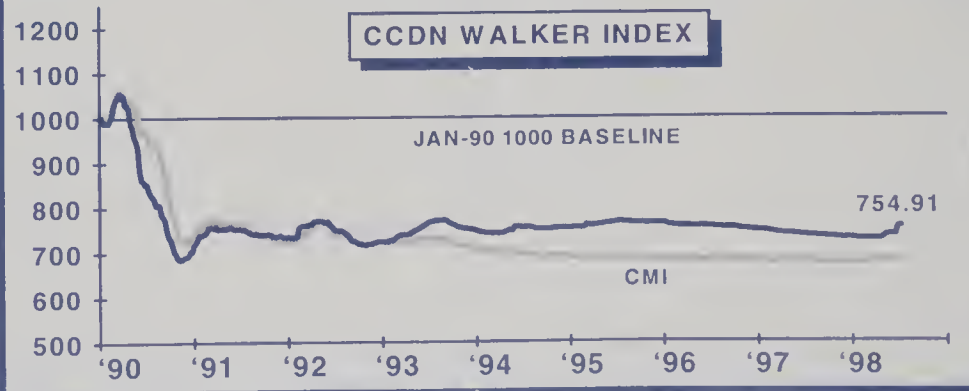

We see early date Washington Quarter Bids jumping significantly. A 20 percent spike was achieved for an MS66 1939-S. Many of these dates you would expect to realize strong Bids while some may surprise you. Dealers are looking for gem quality coins and are willing to increase their Bids to fill orders. They are looking to buy MS65 and MS66 graded coins. They most often want coins that are brilliant white with lustrous surfaces and exhibit strong eye appeal. Some of the dates in strong demand include: 1932, 1932-D, 1932-S, 1935, 1935-S, 1937, 1937-D, 1937-S, 1938, 1938-S, 1939, 1939-D and 1940-D.

Kingswood Coin Auctions conducted a June 17-18 sale of nearly 900 lots. The auction realized more than \$1.3 million. Strong Bidding was responsible for solid prices throughout the sale. Some of the many highlights are listed.

DATE	DENOMINATION	GRADE	PRICE REALIZED
1805	Draped Bust Dime	PCGS MS65	\$24,750

Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC

Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror P/L dollars. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The gold coins in this chart trade very infrequently. These are the last known Bids.

Bids for Lincoln Cents are for full red specimens in MS64 and higher.

Matte Proof Cent Bids for grades of PR64 and better are for full red cents. PR63 and lower Bids are for Red and Brown cents; See Proof Type Coins page for Type Bids in all colors.

YOU BE THE EXPERT

Learn how you can "Make The Grade" with *The Official Guide to Coin Grading and Counterfeit Detection*

PCGS set the highest standard in the industry for grading rare coins over the last twelve years. During these years of grading millions of coins, we learned that you—the collectors, dealers and general public—wanted more specific information about PCGS grading standards and counterfeit coins.

As an answer to your requests, PCGS brought the top numismatic and rare coin experts together and set a new standard in coin grading and counterfeit detection. Once again revolutionizing the rare coin industry, PCGS makes this information available to you in a newly released landmark reference book called *The Official Guide to Coin Grading and Counterfeit Detection*. This book provides an unparalleled standard of reference for established numismatists as well as for people just entering the coin world.

PCGS revolutionizes the current standards of coin grading with pioneering concepts, definitive grading parameters, and state-of-the-art technology. This book gives you precise descriptions of PCGS grading standards, including the first published grading standards for all eleven Mint State and Proof grades. You will also receive expert guidance on detecting counterfeit coins. The diagnostics in this section are easy to see and understand. The combination of the numismatic expertise along with detailed descriptions provide you with incomparable grading standards that are not subject to wide interpretation.

This landmark reference work is 324 pages and large format (8-1/2" x 11"). It contains an unprecedented 48 pages of spectacular full color illustrations and 547 black and white photographs, all of them produced by state-of-the-art digital imaging of coins from the Professional Coin Grading Service (PCGS) grading and counterfeit detection research archives.

Since it's what you know that really counts in coins, you can build your knowledge bank by ordering *The Official Guide to Coin Grading and Counterfeit Detection* today. This book, published by Random House, is available from PCGS by phone, mail order, or on the PCGS website at www.pcg.com.

PCGS – There Is A Difference!

YES! I want a copy of *The Official Guide to Coin Grading and Counterfeit Detection* for \$29.95, plus \$4 shipping & handling. Rush my order today.

VarietyPlus...

Consistent Grading Standards *plus* Accurate Attribution

Desirable NGC Attribution

Full, accurate attribution information is prominently displayed, so sellers get a more complete description and buyers a confident purchase.

Environmental Protection

The recognized leadership of NGC's safety holder is a great way to begin protecting your collection from many environmental hazards.

Consistent, Accurate Grading

Consistent, accurate grading, the hallmark of NGC certification, is appreciated and respected by thousands of dealers and collectors worldwide.

Peace of Mind

Security measures like our barcode, coin ID, tamper-evident and stackable holder, security hologram, and other measures provide greater security for your variety coins.

Precision Design

Our pliable, chemically inert inserts are designed to tolerances so precise that we must gently bend the insert to place your coin inside, snug and secure from rattling.

\$5 for NGC Attribution

The VarietyPlus fee is just \$20, including NGC grading and variety attribution in a 21-working-day turnaround. For coins valued over \$1,000, or for faster turnaround, select one of our quicker grading tiers and just add \$5 per coin for the VarietyPlus attribution.

"I like NGC's variety attribution and grading service for 'Top 100' coins because my coins have the VAM variety and the 'Top 100' name right on the label. I feel confident my valued coins will be protected in NGC holders well into the future, and when it comes time to sell, I believe NGC VarietyPlus holders will attract a greater number of potential buyers."

Michael S. Fey, Ph.D.

co-author, *The Top 100 Morgan Dollar Varieties, The VAM Keys*

For more information about NGC, including our innovative PHOTO PROOF and VarietyPlus services, contact one of the 1,300 plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

VarietyPlus by NGC now certifies & grades all these varieties!

- Half cents by **Breen** half cent numbers (from his Half Cent Encyclopedia);
- Large cents by **Sheldon & Newcomb** numbers;
- Half dimes (1794-1837) by **Valentine** numbers;
- Dimes (1796-1837) by **John Reich** numbers;
- Quarter dollars (1796-1838) by **Browning** numbers;
- Half dollars (1794-1836) by **Overton** numbers;
- Silver dollars (1794-1804) by **Bowers/Borckardt** numbers;
- Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only)
- All varieties in **The Cherrypickers' Guide** and **The Cherrypickers' Top 150** (except ones designated by the authors as "low interest");
- All varieties in the **"Red Book"** (A Guide Book of United States Coins)

Summer Finds Hot Sight-Unseen Market Rare Gold Highlights Bowers and Merena Sale

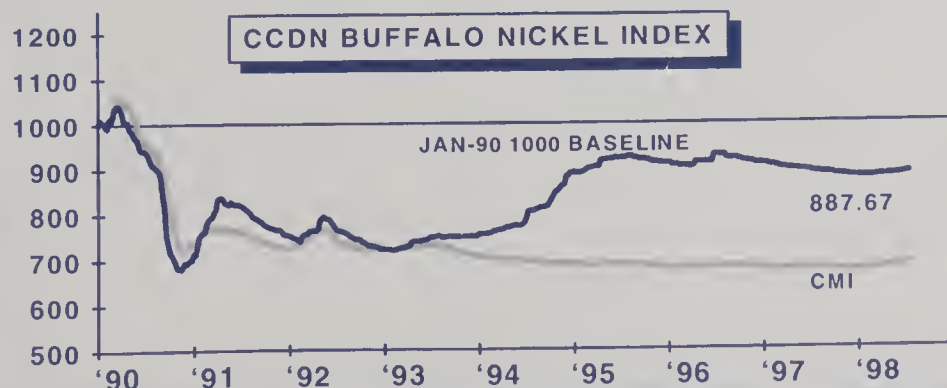

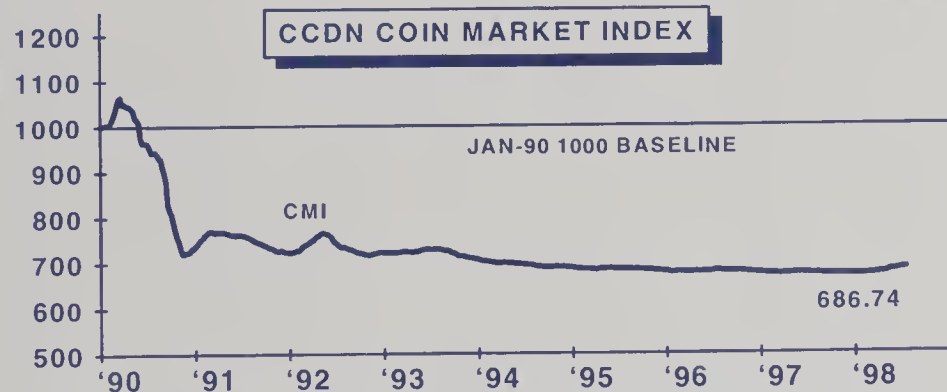

Summertime and hot weather have hit the nation. Like the weather, the torrid rare coin market finds dealers willing to offer strong Bids for sight-unseen coins. Dealers continue to increase their Bids for coins currently on their customers' want lists. These dealers know their customers and are willing to increase the ante in order to satisfy their needs. Increasing Bids are not goals of dealers. They need coins and are willing to do what ever it takes to satisfy that need. They generally know what to expect when buying in the sight-unseen market. Consequently, that is why dealers tend to Bid conservatively at each grade level. However, we have noticed a surprising trend being established throughout the first half of 1998. Dealers have been steadily increasing their Bids for sight-unseen coins. Usually at this time of year, the activity level in the market is a bit sluggish as collectors and dealers take time out for summer vacations. This respite is usually seen in the sight-seen as well as the sight-unseen market. There are many reasons for the slowdown. Most often, dealers believe it is a prudent time to get away before the usually active major convention market resumes. Dealers want a chance to be with their families before they hit the road to attend the American Numismatic Association's annual summer convention and auction. Still, it seems as though the summertime has not slowed down many dealers. We still see moderately active Bidding on the electronic dealer networks. This strong activity for sight-seen rare coins have spilled over to the sight-unseen side as well.

We see many series and denominations doing well. Strong demand has filtered down into many areas of the market. Much of this widespread demand has been fueled by the continued strength of the U.S. economy. The attractive, low inflation rate combined with low unemployment statistics and relatively low interest rates offer an excellent opportunity for collector/investors to enter the rare coin market. Dealers are aware of the favorable economic climate for selling rare coins. They especially notice this when they try to replenish their inventory. Availability has been, and continues to be, a problem facing many dealers today. There just is not enough of the "right" coins necessary to complete transactions. For example, one dealer jumped the Bid to \$40,000 for an NGC or PCGS MS67 1911 \$20 Saint-Gaudens. Obviously, they need coins to supply their customers. Unfortunately, many collectors and collector/investors are buying coins and taking them off the market for an indefinite amount of time. Returning the coins to the mainstream is necessary to sustain a healthy market. If the

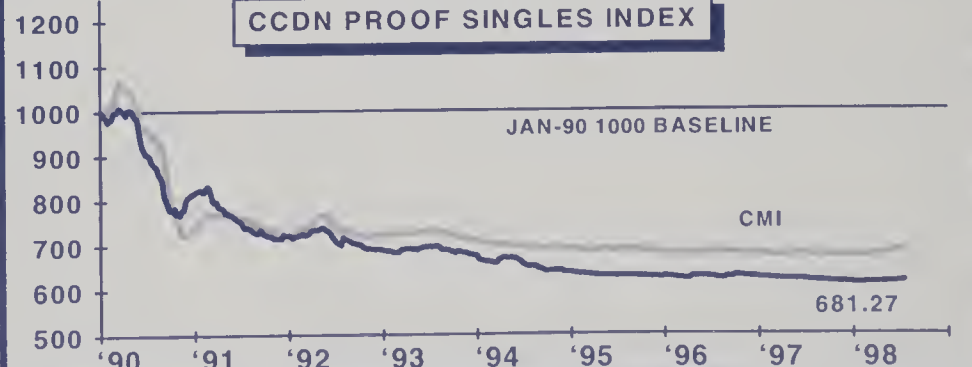

situation is exacerbated by severe supply problems, the potential exists for price to increase substantially. This same scenario may hold true if the collector base expands at a rapid rate. If a combination of these factors exists, that would be explosive.

Bowers and Merena will conduct The Rarities Sale on Aug. 3 in Portland, Or. The auction will include many coins of all denominations. However, it will be highlighted by a complete collection of Coronet Carson City \$20 Gold and a selection of Proof Gold. There are more than 600 lots including a the Morris Evans Collection of Pattern coins. A few of the many certified highlights are listed.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES															Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Each day hundreds of collectors and dealers decide which grading service to use for certifying their important coins.

More often they choose NGC.

For accurate and consistent grading choose the leader in third party certification. That's NGC.

For more information about NGC, including our innovative Photo Proof and Variety Plus services contact one of the 1,300-plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at **PCI** have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...*guaranteed!!*

Portland ANA Offers Rarities In Auction Strong Sight-Unseen Market Continues

The sight-unseen market is very active with dealers trying to buy coins for their inventories and customers. Morgan Dollars, Proof and Uncirculated Type are leading this market to higher ground. Dealers are constantly looking for coins. The demand for coins has heightened because of an increase in exposure through the media. We are seeing new coin collectors and investors. Many of these new buyers are doing well financially. The huge profits made in the financial markets has allowed more individuals to diversify some of their funds into other areas. The hobby has benefited from this scenario and will probably continue to benefit for some time.

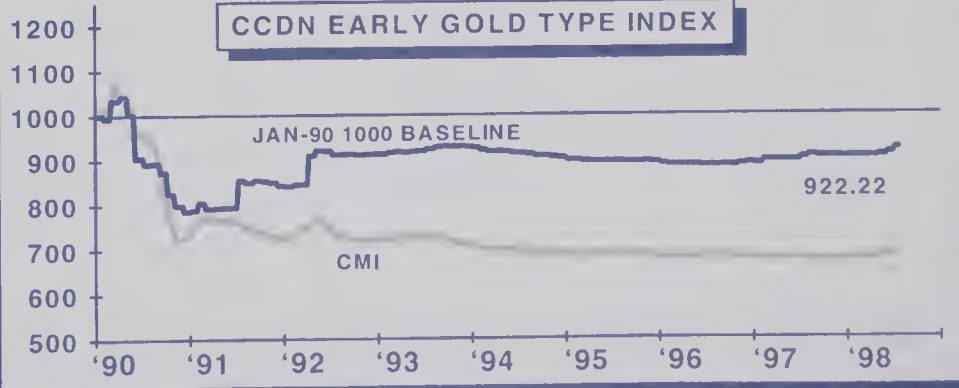

Besides Dollars, we are seeing more plus signs occurring for Proof Gold Type; Gold and Silver Commemoratives; Buffalo Nickels; Mercury Dimes; Proof Singles; and, select Walking Liberty Half Dollars. Proof Gold is extremely hot. Dealers are actively trying to accumulate coins from the Type 3 Gold Dollars to \$20 Saint-Gaudens. Most often, dealers want to buy Proof 64 and better condition specimens. There appears to be many serious collector/investors out there demanding these giants of numismatics. The \$2.50 Coronet and Indian Head denomination are very strong. The value of this denomination is increasing in Proof 64, PR65, PR66 and PR67. Dealers are looking for coins that are very well struck with deep mirrors. They also want coins that are relatively free of carbon spots that are problematic with Proof Gold issues. The \$5 Coronet and \$5 Indian Head are also attracting a lot of interest. Collector/investors with deep pockets are also buying the \$10 and \$20 denomination Proof Gold coins.

Dealers and collectors are looking forward to the 1998 summer American Numismatic Association's annual convention. This year, the ANA will take its show to the West Coast in Portland, OR. They are eager to attend what is shaping up to be a super show. We expect that this year's ANA Show and auctions to be active and satisfying for the market. We believe this to be true if the market follows the same course it has been on since January. Heritage will conduct the ANA auctions, beginning with their Signature Sale and concluding with a Bullet Auction. This 3,271 lot Signature auction should provide something for everyone. This sale features the Green Mountain Collection; the Peerless Collection; the Riverly Collection of Silver Dollars; the Hugh Courteol Collection, Part I; the Lynch Collection of U.S. Patterns; the Amberg Collection of U.S. Patterns; the Dr. Brian Baldwin Type Collection; and, the Estate of Louis Stirling. Each of these collections features a specialty. The auction will contain a little of everything. There are key dates and rarities throughout the sale. We have picked out just a small sample of the many certified highlights to be found in this year's ANA summer auction.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market based on monitoring Low Asks or Last Trades from *wholesale* trading networks. *eff* indicates *eff* and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might drop to a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols. "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

PCGS DMP1 and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert - CDN (*Greysheet*). Bids have always represented fully deep mirror prooflike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

.....PRICES ARE INDICATIONS ONLY.....CALL FOR ALL TRADES.....

ATTENTION ALL COIN DEALERS, WHEELER DEALERS... AND COLLECTORS, TOO! THERE'S SOME MONEY WAITING FOR YOU IN PORTLAND

Spectrum Numismatics, the premier buyer of rare coins in this country, desperately needs your Uncirculated pre-1950 coins. Spectrum will do anything within reason to acquire these coins including:

- **Cash On The Spot!** In 1997, we spent millions and millions of dollars purchasing rare coins from dealers and collectors. A lot of people claim to pay top prices but **Spectrum** puts its money where its mouth is and we offer immediate payment.
- **Finder's Fees.** If you bump into a deal and don't want to get involved, you can still make money by helping **Spectrum** purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, **Spectrum paid \$3,065,845** in finder's fees and commissions.
- **Trades.** We're willing to consider any reasonable trade that allows us to acquire the coins we need to satisfy our coin-hungry clients. If you'd like to trade your rare coins for bullion, other rare coins, or just about anything, there's a high probability that we can arrange a transaction that meets your needs.
- **Funding.** **Spectrum** has money and needs coins. If you have coins and need money, **Spectrum** has numerous financing packages for you.

DO IT FOR THE MONEY!

It's easy to do business with Spectrum

Inventory Selections

ANOTHER GEM 1864 SMALL MOTTO TWO CENT PIECE PCGS PROOF-65 RED BROWN

Only 100 examples of this rare two-cent piece were struck in proof for 1864, and just a small percentage of these were of the small motto variety. Sharply rendered in every detail, this beautiful coin is one of 12-15 pieces known, by the estimate of Walter Breen. Its entire obverse is highly reflective, probably a result of being struck twice (typical for proof coins). Light speckles of golden brown appear throughout this otherwise mint red specimen, adding an antique charm to what is undoubtedly a magnificent example. This impressive coin is among the finest pieces known.

\$55,000.00

THE BEAUTIFUL 1856 FLYING EAGLE CENT PCGS PROOF-66

While not especially rare in lesser grades, the 1856 Flying Eagle Cent are very scarce in gem condition, whether as proof or currency strikings. The splendid proof specimen presented here is among the very finest known and is an outstanding coin in all respects. While even proofs of this date are not always fully struck, this lovely cent is needle sharp. Its surfaces are free of spots and other blemishes, while its fields are quite brilliant and reflective. Pale russet toning is just barely evident over bright, amber surfaces.

\$40,000.00

A SECOND GEM 1796 DRAPED BUST, SMALL EAGLE DIME PCGS MINT STATE-65

Only a few mint state examples of the 1796 dime have survived to the present time, and the wonderful specimen offered here is certainly among the finest. Its virtues include a good overall strike and surfaces which are free of all but the tiniest marks. This lovely coin is untoned, permitting a fuller enjoyment of its rich luster. It is a true gem.

A prominent die break is evident to the left of the date, a poignant reminder that the Mint's craftsmen were burdened with poor quality steel from which to strike coins. Viewed today, such historic memento from America's rugged youth.

\$55,000.00

THE SUPREMELY RARE 1911-D INDIAN HALF EAGLE PCGS MINT STATE-64

In his important 1988 reference book on modern U.S. gold coins, noted authority David Akers remarked on the 1911-D Denver Mint half eagle that "This issue may well be the prime among all 20th-century United States gold coin issues in MS-64 or better condition." A mere 72,500 examples were coined, and Akers estimated that no more than 30 survive in all grades of mint state! This wonderful specimen is well struck throughout and possesses rich luster that is alternately frosty and satiny. A coin for the finest collection, it is a significant rarity.

\$69,500.00

THE VERY RARE 1915-S INDIAN HALF EAGLE NGC MINT STATE-64

Apathy toward 20th Century UNITED STATES gold coins finally disappeared during the 1940s, and the collecting of the Indian Half Eagle series is now widespread and quite avidly pursued. Such activity has revealed the rarity of the 1915-S issue in mint state, while choice pieces have proved to be nearly unobtainable. Indeed, author and gold specialist David Akers described this date as "one of the major rarities of the series."

This wonderful specimen is among the finer pieces extant. Its surfaces are clean and delightfully frosty. As an 'S' Mint issue, its strike is typically good at the center and a bit soft around the peripheries. A low-mintage issue (154,000) this rare and very attractive coin offers everything that the discriminating collector could desire.

\$55,000.00

THE RARE GEM 1855 GOLD DOLLAR PCGS MINT STATE-65

With the gold dollar's importance diminished by the return of silver coins in 1853, far fewer were needed. Only 758,269 examples were coined at the Philadelphia Mint in 1855. Combined with this type's tendency to come poorly struck and preserved, it has led to gem specimens of the 1855 gold dollar being significant rarities.

This glorious specimen has everything that the connoisseur of rare coins could desire. Well struck, it also displays rich and frosty luster which is entirely unbroken. Its surfaces are pristine, and both sides have acquired very subtle touches of light orange toning. This is an extraordinary Type 2 gold dollar.

\$70,000.00

THE EXTREMELY RARE PROOF 1867 WITH-RAYS SHIELD NICKEL PCGS PROOF-65

The copper-nickel five-cent piece was introduced in 1866, and it bore upon its obverse an ornate shield. The reverse featured a large numeral 5 surrounded by 13 rays and stars. These coins did not strike well, and to address this problem the rays were omitted early in 1867. Only a small number of nickels were minted that year bearing the rays, and the proofs are extreme rarities, with an estimate 12-15 known.

This gem specimen of the 1867 proof five-cent piece with rays is one of the finer surviving examples. It exhibits an absolute full strike, with all details sharp and bold. A charming cameo impression. Its devices are lightly frosted and contrast pleasingly with its brilliant, reflecting fields. This specimen is untoned, revealing its pristine loveliness to full advantage. A brief moment of numismatic history captured forever, this gem proof is indeed a rare treasure.

\$85,000.00

THE VERY RARE 1918/7-D BUFFALO NICKEL PCGS MINT STATE-64

The popularity of collecting this series by date and mint did not become widespread until the 1930s, just as production of this coin type was ending. It was about that time that an amazing variety was discovered. Collectors noticed that a very small number of the 1918 nickels from the Denver Mint were overdates, a numeral 7 appearing clearly underneath the 8!

It was already too late to harvest more than a couple dozen mint state examples, as nearly all had gone into circulation and become worn or even lost altogether. Given the generally poor quality of 1916-D nickels, it is not surprising that very few nice choice specimens of this overdate are known. The beautiful coin presented here is certainly among the finest known. It is highly lustrous and boldly struck, with particularly sharp delineation between the 7 and the 8. Exhibiting a light veil of golden toning, it possesses outstanding eye appeal and is worthy of the very finest collection.

\$55,000.00

THE EXTREMELY RARE 1911-S INDIAN HALF EAGLE NGC MINT STATE-65

In 1911 the San Francisco Mint produced a generous 1,416,000 half eagles. Despite this relatively high figure, mint state examples are by no means plentiful, since there were virtually no collectors of this series by date and mint. The situation has changed dramatically in recent years, and nowadays hundreds or even thousands of collectors seek to own a complete set of this series.

Gem specimens of the 1911-S half eagle are important rarities, with perhaps fewer than a dozen known. This impressive gem has everything a discriminating collector could desire. Well struck overall, it displays wonderful satiny luster and exceptionally clean surfaces. Adding to its already considerable appeal is a boldly double-punched mintmark letter 'S' on the reverse. This splendid rarity would enhance the prestige of even the finest collection.

\$59,500.00

THE GEM 1916-D MERCURY DIME NGC MINT STATE-66 FULL BANDS

A scarce coin since its inception, the 1916-D dime has alluded most collectors for generations. The key issue to completing this series by date and mint, the 1916-D has become the holy grail for collectors of Mercury Dimes. Mint state examples are especially prized. While some were indeed preserved as the first of their type, the low mintage of this issue precluded their being preserved in quantity.

The wonderful specimen presented here is among the finest known. Ablaze with dazzling, frosty luster, this quality is made all the more enjoyable by a complete absence of toning. This lovely specimen is quite fully struck, as noted by the designation "FB" in its grade, an abbreviation for full bands. Whether as the crowning achievement in a complete set of Mercury Dimes or as stand-alone rarity, this amazing coin would be a highlight in most any collection.

\$47,500.00

THE MINT never forgets what their clients have purchased. When a new collection of the highest order is being formed, dealers and collectors around the world know to contact us. When a special coin is held by one of our investors, we, in turn, contact him or her. This is one of the many reasons why some of our clients have purchased coins from us for over 40 years.

DMPL Morgan's Realize Increased Interest Key Date Rarities In Strong Demand

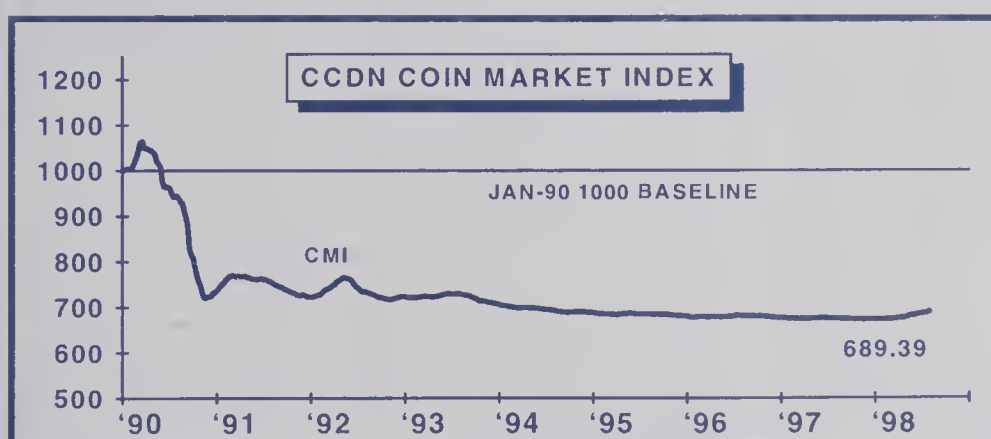

Dealers continue to be strong buyers for coins on the sight-unseen market. Their needs are as diverse as their customer's interests. To be able to satisfy their customer demands, dealers are forced to offer more money for the coins they so desperately need. Inventory levels have dwindled so dealers may not be happy with the number of, and quality of, the coins they maintain. Therefore, they look to add or replace coins in their inventory on a regular basis. All this demand has a strong tendency to create many plus signs. Consequently, that's what the result of this activity means. Dealers like buying coins in the sight-unseen market for several reasons. Foremost, they can expect a coin to be average or below average for the grade. That is why their offers are less than generally seen in the sight-seen market. Sometimes, they are surprised by the attractive quality of the coin. In this case, they are very happy to be the beneficiary of a bargain. When the need for coins is very strong, the **easiest** and **quickest** way to buy coins are in the sight-unseen market. However, just because the dealers have increased the amount they are able and willing to pay is no guarantee that their orders will be fulfilled. That is why dealers must be patient and repeat their offers. This gives them a greater chance to complete a transaction.

The Morgan Dollar series still enjoys strong sight-unseen prosperity. We continue to monitor many buyers for Dollars. Transactions are occurring with regular frequency. Dealers are strong buyers and have been paying increasing amounts for Morgan and Peace Dollars. They are strong buyers because dealers believe that many of these dates are truly undervalued at current levels. They are also buying key and semi-key dates when they become available. However, it is commonplace to see the common dates and those that are slightly better than common trade as regularly. Remember, a transaction is a two-way street. There are many dealers that are selling Dollars in this market as well. However, these transactions are being completed at higher levels. This is a strong testament to the powerful demand.

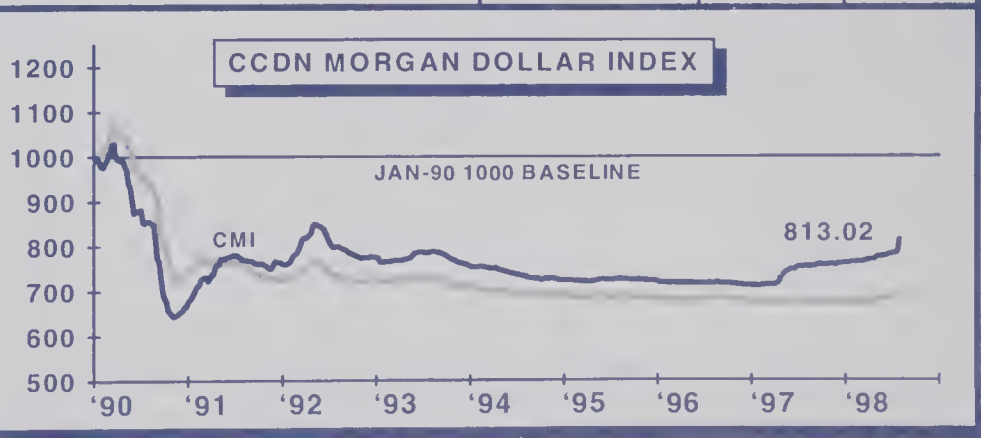

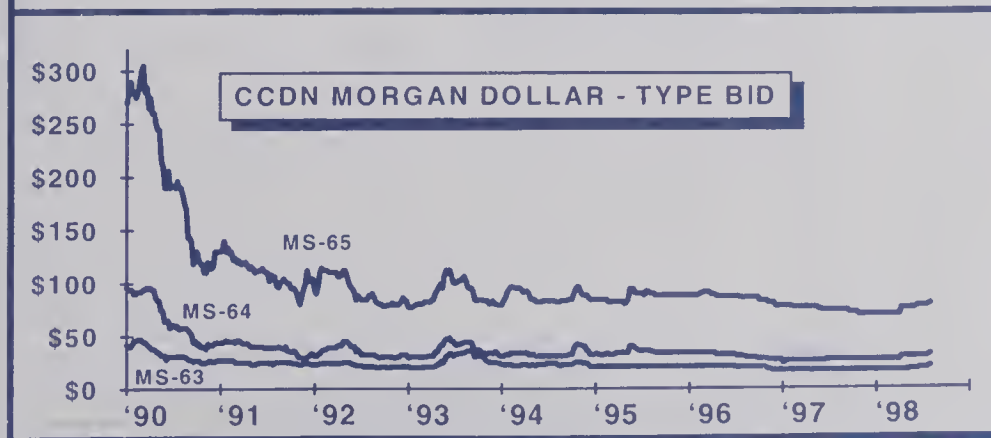

Deep Mirror Prooflike Morgan Dollars are very hot. We have seen strong demand in the sight-seen market and we see a similar pattern taking shape in the sight-unseen market. What could have **triggered** this DMPL interest? Strong increases for regular business strike Morgans may have forced the issue. When the value of a regular Mint State 64 Dollar approaches the value of an MS-64DMPL example of the same date, demand has a strong tendency to shift in favor of the MS-64DMPL. Thus this corrects the undervalued DMPL to a level more commensurate with its rarity and desirability.

Sight-unseen MS64DMPL and MS65DMPL Morgan's jumped virtually, across-the-board. Many of these dates are extremely rare in this outstanding level of preservation. Collectors love Morgan Dollars that exhibit deep mirror surfaces. Many collectors of Dollars are looking to upgrade their sets by buying a Deep Mirror Prooflike example, even if it is in the same grade.

The following are some examples of DMPL's that had a large change in the sight-unseen market this week. The MS64DMPL 1878 8 Tail Feathers jumped to \$900 for a PCGS slabbed coin and \$850 for an NGC. We know that a regular MS64 business strike 1878 8 Tail Feathers variety without Deep Mirror Prooflike surfaces has a current NGC Bid of \$138 and a PCGS Bid of \$132. Therefore, there is a considerable premium added to buy an example in the same grade with Deep Mirror Prooflike surfaces. An MS65DMPL 1878 7 Tail Feathers, reverse of 1879 had a strong move. An NGC example is Bid at \$5,950 while a PCGS specimen now has a \$6,300 Bid. Other MS65DMPL dates in demand includes 1878 7/8 Tail Feathers (Strong Strike); 1882; 1885-S; 1886-S; 1887-S; 1888; 1888-O; 1888-S; 1889; 1889-O; 1889-S; and, 1893. Buyers of these Dollars are looking for coins with brilliant, white luster and deep watery fields. Dealers would be pleased to buy just one example at these new levels. However, they would be very happy to buy more than one of each date. Availability is still a problem for dealers.

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert CDN (Greysheet). Bids have always represented fully Deep Mirror Prooflike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client of sight-seen trades can be expected to occur at substantially higher levels in many cases.

ANA Influences Sight-Unseen Market

Gold Shines At Rarities Sale

As expected, we are seeing less activity for sight-unseen coins this week. However, we expect this quirk in the market to be brief. That is because many dealers have been busy making the necessary preparations to be in Portland, OR for the ANA. Consequently, they have been unable to offer the usual number of live, sight-unseen Bids. However, we have seen some activity in the sight-unseen market despite the interruption.

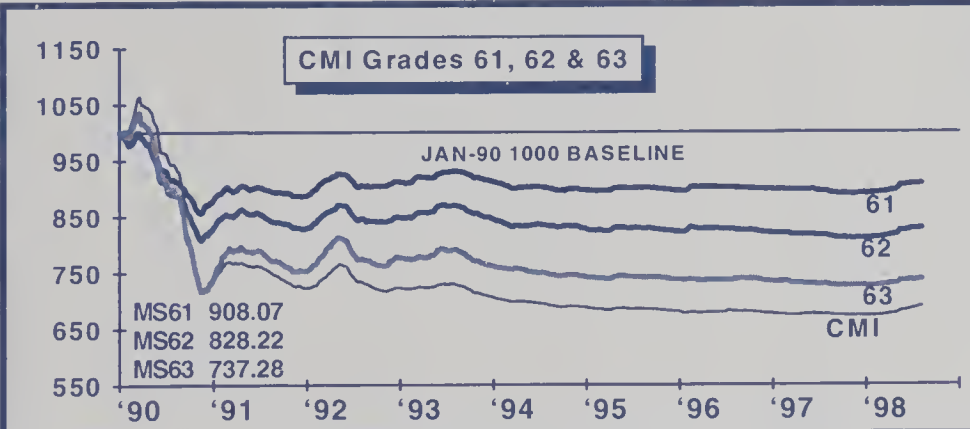

A large number of dealers are in attendance for the ANA's annual summer convention. Dealers from all over the country often use this venue to display unusual or rare dates that they have obtained throughout the year. More importantly, they have come to the ANA to buy coins for their customers. Throughout the year, dealers keep a running customer want lists. These lists usually contain many coins that are extremely difficult to locate through normal business. Dealers are hopeful that the ANA bourse may contain several opportunities for them to acquire those much needed dates. Although you may be unaware, there are some sight-unseen transactions that take place at the ANA. We have seen dealers buy BU Rolls of many denominations without examining each coin in the roll. Also, some dealers enjoy the element of surprise by bidding sight-unseen for bags of low-grade, circulated 19th and 20th century popular series.

Besides the bourse, another avenue for dealers to explore during the ANA festivities are the public auctions. The ANA Sale, by Heritage is usually one of the more spectacular auctions held during the year. Many collectors as well as dealers sell rare coins in this sale. That is because attendance during ANA auctions is often very good with many participating floor Bidders. Collectors and collector/investors also travel to the ANA to participate at auction. It is also an excellent opportunity for these collectors to meet many dealers. It also gives them a chance to find dealers that may specialize in the area of numismatics that most interest them. Keep in mind that these ANA auctions begin with the vast majority of mail Bidders having already submitted their Bids. Often, these Bids are sight-unseen. The Bids offered are sometimes based solely by the description of the coin in the catalog. However, there may be the opinion of a third party grading service as well.

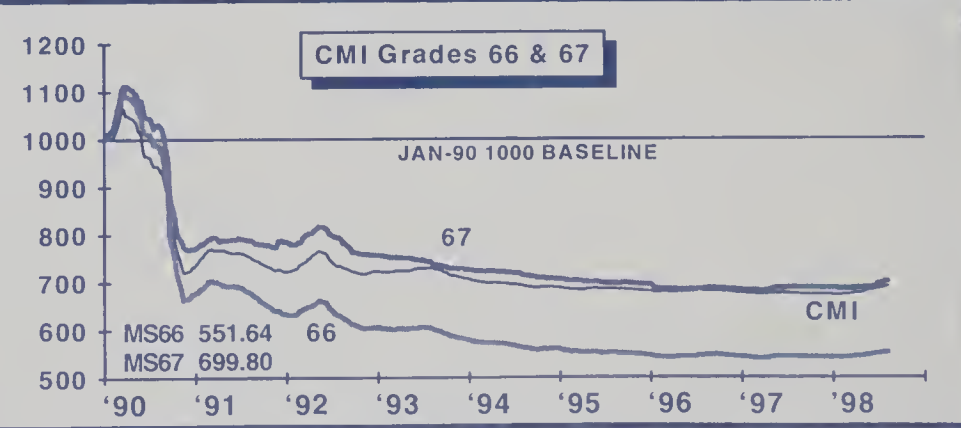

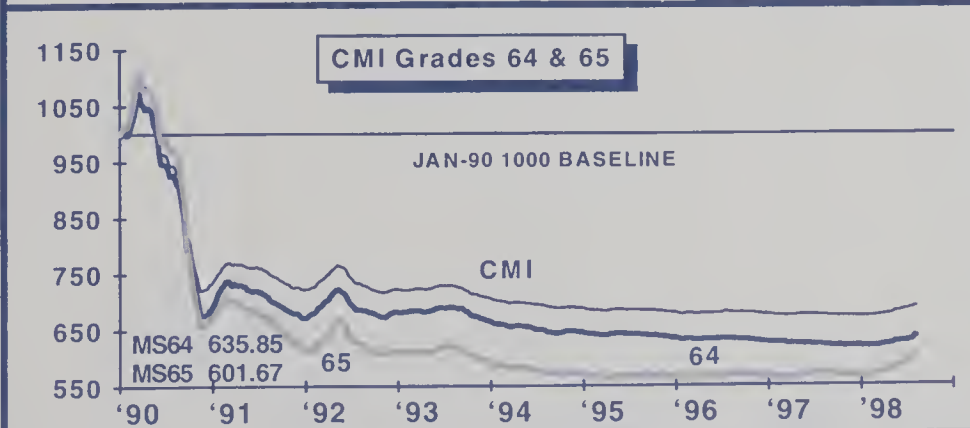

The 1998 sight-unseen market has seen more than just the low-end graded coins trading hands. Dealers have displayed a significant interest for many rare coins that grade in the upper circulated category. They have been strong Bidders for coins in the Mint State and Proof range too. We have seen dealers looking to buy Mint State and Proof Type coins for their customers through the sight-unseen market. We also know that there have been many transactions taking place in this segment of the market. Type has been in very strong demand by collectors. Dealers are trying to satisfy this demand as quickly as possible. Often, the sight-unseen market allows them to find a coin, buy a coin and sell the coin in only a few days. Besides Type, we are seeing increasing activity for Dollars, Buffalo Nickels, Proof Singles and Commemoratives. Yes, Commems are beginning to attract Bidders at current levels. Demand is increasing for Silver and Gold Commems. The strongest demand is occurring in the **upper** Mint State grades. We are seeing some activity for MS65 and MS66 Commems.

The Rarities Sale, conducted by Bowers and Merena was held Aug 3rd in Portland. Highlighted by rare date Gold, Commemoratives and Patterns this auction realized strong Bidding from the dealers and collectors in attendance. This sale featured approximately 600 lots that brought over \$4.467 million. We have included a few of the many highlights from this sale.

DATE	DENOMINATION	GRADE	PRICE REALIZED
1801	Draped Bust Half Dime	NGC MS67	\$112,500

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

DO IT FOR THE MONEY!

**WHY THE KING OF CASH
(OFTEN IMITATED, BUT NEVER OUTBID!)
DESPERATELY NEEDS TO PAY YOU
OUTRAGEOUS PRICES FOR YOUR COINS...**

When it's time to sell your coins, there's only one question that needs to be answered.

- It doesn't matter who's the largest company.
- It doesn't matter who has the biggest inventory of coins.
- It doesn't matter whether your coins are sold at auction, directly to a dealer, or a combination of the two.

THE BOTTOM LINE IS HOW MUCH MONEY YOU PUT IN YOUR BACK POCKET!

The only question that needs to be answered is, "How can you sell your coins for the maximum amount possible while maintaining the highest possible comfort level in the speed of sale and payment procedure?"

In the United States rare coin market the answer to that question is very simple. Time and time again, at both public auction and in direct dealings, Spectrum Numismatics pays absolute top dollar for coins while buying the broadest possible types of material... everything from million dollar rarities to ten dollar generic coins. And nobody pays faster than Spectrum.

SPECTRUM MUST PAY YOU MORE THAN ANYONE ELSE.

Here's the secret, when it comes to buying your coins. Spectrum has no choice. Spectrum needs to spend a minimum of \$6,000,000 per month to satisfy its coin-hungry clients. Spectrum must either buy your coins or lose their clients. That's why Spectrum can pay you more than any other rare coin dealer. There's no catch. The reason is as simple as that. If Spectrum wants to stay in business, it must be one of the top buyers of United States rare coins, in all price ranges.

TOP BUYING POWER - THE ABILITY OF A FIRM TO BUY ALL OF YOUR COINS

It can be easy to sell one or two coins. It can be easy to sell your highest grade coins or your rare coins. It's a bit more complicated to sell all of your coins. The major mistake that most collectors make when disposing of their collection is they don't ask enough money for their great coins and they ask too much money for their mediocre coins. They usually sell their great coins immediately and are stuck with the bottom of the barrel. What makes sense is to sell to a firm who needs a broad base of coins. A firm that's comfortable buying a coin for \$100,000 or \$10. Spectrum is willing to buy virtually any pre-1950 Uncirculated U.S. Coin.

When you deal with Spectrum Numismatics, you can take comfort in the fact that you are selling to the absolute top buyer for rarities and someone who will buy all of your coins in all price ranges. But there's a lot more.

WHAT'S IN IT FOR YOU

When you sell coins to Spectrum Numismatics you get the following benefits every time:

1. Absolute top dollar for your coins. This is not a shallow claim. The facts clearly show that Spectrum Numismatics is the number one buyer for rare coins.

2. Ultra fast payment. Spectrum Numismatics can pay you any way you choose...you can have a check, you can have a bank wire, you can deliver the coins, or you can mail them. Any way you want to handle the transaction is O.K. with Spectrum and will be handled as quickly as you desire.

3. Ultra efficient service aimed to make it as easy as possible for you to sell your coins. If you would like a Spectrum buyer to visit you at your convenience, all you have to do is call Spectrum collect any weekday and talk to one of our buyers. In fact, Spectrum is so desperate to buy your coins, we'll even pay the price of your shipping the coins - whether or not you decide to sell them to Spectrum.

It's Easy To Do Business With The King Of Cash

**IF YOU WANT TO SELL YOUR COINS FOR ABSOLUTELY TOP DOLLAR, PICK UP THE PHONE NOW AND
CALL 714-955-1250. CALL COLLECT AND TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

WALKING LIBERTY HALVES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 33

August 14, 1998

Single copy price \$4.00

Sight-Unseen Market Active ANA Auction Realizes Over \$12 Million

Dealers are very encouraged with the activity and demand level in the rare coin market. These opinions were expressed to us during the American Numismatic Association's annual summer convention in Portland. The five day show brought dealers together from all around the United States. In addition, many collectors traveled to Oregon to attend the meetings and peruse dealer's inventories for coins that they need for their collection. Dealers know that the opportunity to gain new customers are present during large shows. That is because these shows are held in a geographic area that's different from the traveling dealer. For the dealer, it is a tremendous opportunity to renew friendships and buy coins. Buying coins at major coin shows usually receives top priority for many dealers.

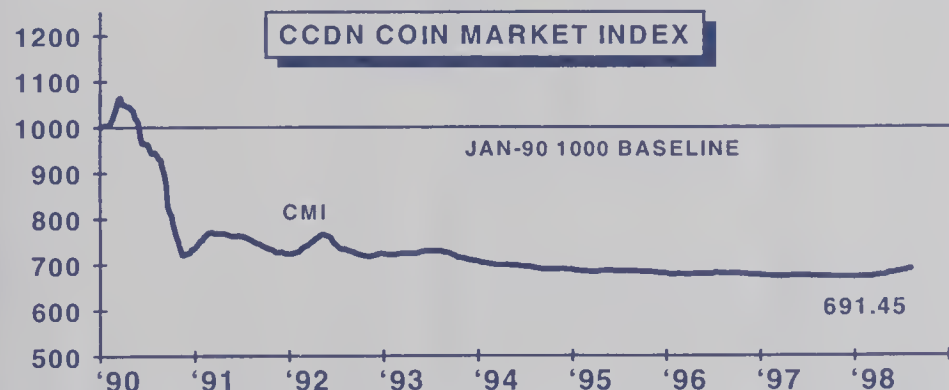

The dealers that we spoke with were very pleased with the activity level during ANA week. They also were happy with the amount of business taking place. Most dealers said that the show lived up to its high expectations. For several dealers, the show surpassed those high expectations. Dealers have said that the market is strong in many areas. The sight-unseen market has not really hit the summer doldrums. Rather, it has continued to generate strong Bids for coins. The need for coins outweighs the risk of acquiring coins on a sight-unseen basis. Many dealers are increasing their offers to buy sight-seen coins. Immediately, they also increase the amount that they are willing to pay for sight-unseen coins. In one example, a dealer has increased demand for key and semi-key date Mercury Dimes. He is looking for top quality. The grades requested are MS66FB and MS67FB. The dates needed are among the toughest of the entire series. Still, he is willing to offer very strong money for specific dates sight-seen. Also, he is willing to offer a generous amount for the same dates sight-unseen. Besides Mercury Dimes, select better date Washington Quarters and early Gold Type are experiencing dealer interest. Many dealers believe that several dates in the Washington Quarter series are undervalued. Dealers are willing to buy those dates today, before the rest of the market recognizes this disparity. Morgan and Peace Dollars is another area of the sight-unseen market that generates strong demand. We continue to see steady increases for select dates throughout both series. Prooflike Morgans are generating some interest for common dates. However, we are seeing weakness for some select semi-key dates.

The precious metals are flirting near short term lows. As we write, Gold bullion is trading just above the \$380 level. Naturally, Bids for some common date Gold

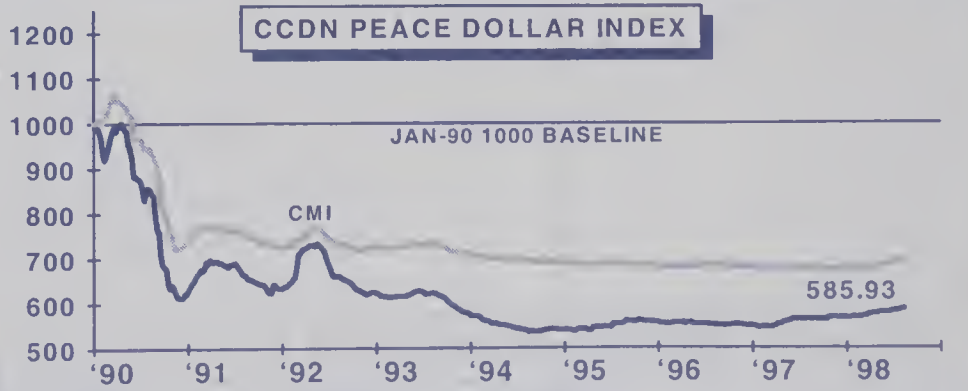

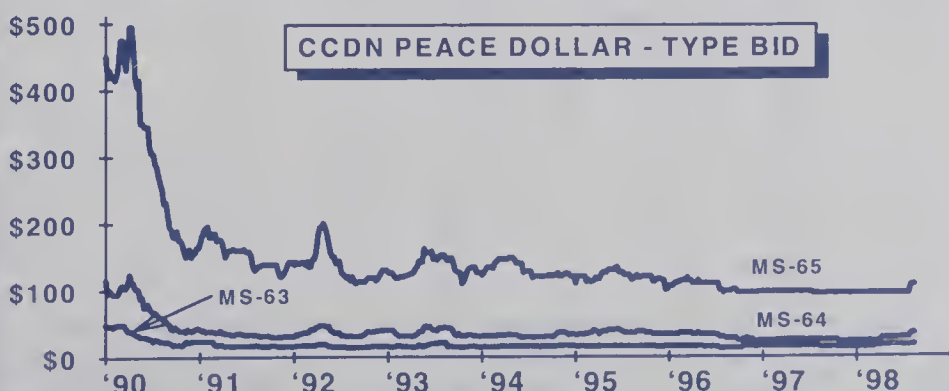

coins have declined. However, the collector demand for Gold remains strong. We see that high premiums continue to be paid for circulated and Uncirculated common date numismatic Gold of all denominations. Type coin demand is strong. Collectors are buy Proof Type and Mint State Type. Dealers have had some success buying these coins sight-unseen. Buffalo Nickels, Walking Liberty Half Dollars and Silver Commemoratives are generating strong interest. Dealers know that these coins represent good value at current levels. They are popular among collectors and easy to sell.

The ANA Signature Sale was conducted by Heritage. The 3,271 lot auction was held in conjunction with the ANA Aug 5-7 in Portland. Strong bidding throughout forced prices higher for rarities of all denominations. We have included some of the many highlights from that sale. The auction realized \$12.389 million.

Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC

Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

WANTS TO BUY YOUR CLASSICS

The market for Classic, Keys Dates, and Finest Knowns is **RED HOT!** During the last few months our inventory has been depleted to its lowest point in years. We are in desperate need of quality material. If you have a great collection or a single great rarity, please give us a call. We have ready and willing buyers and will pay the last dollar for the right material. Offers are quick and payment is immediate. So if you have quality U.S. coins, currency, or Canadian rarities for sale, call us today....**we are the high buyer.**

Below are a few examples. If the coins meet our criteria we will send immediate payment, no stories, no hassles, no excuses. Also interested in all Famous and Classic material. Please consider **The Mint** when time comes to sell.

Thanks
Jay

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep mirror Proof coins. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

TANGIBLE INVESTMENTS OF AMERICA IS BUYING

Certified *and* Uncertified Rare Coins

WE ARE AMERICA'S TOP BUYER!

In fact, since 1977 we have purchased over **\$500 Million** worth of rare coins. In addition to our impeccable reputation in the industry, and exemplary credentials, we have maintained a **seven-figure debt free net worth** which insures speedy transactions and financial stability. Since we are the nation's most aggressive buyer, you are assured of receiving **the highest possible prices** for your rare coins.

WE ARE THE NUMBER "ONE" BUYER AT VIRTUALLY EVERY MAJOR AUCTION

#1 at Apostrophe Auctions '88, '89 & '90
Spending over \$1 Million at each sale!

#1 at Stack's 55th Anniversary Sale
Spending in excess of \$1 Million!

#1 at Superior Galleries Mendelssohn Sale
Spending in excess of \$1 Million!

#1 at Superior Galleries Trompeter Sale
Spending \$3/4 of a Million!

#1 at Stack's Floyd Starr Sale
Spending nearly \$1.5 Million!

One of the top buyers at the Eliasberg Sale
Spending nearly \$2 Million!
*Close to 10% of the **entire** sale.*

ADDITIONALLY, WE ARE THE "TOP" PRIVATE PARTY BUYER!

When great collections are privately offered for sale, our name is always at the **top of the list** of dealers to contact. We purchased the following major collections, just to name a few.

* The Jasper Roberson Collection
We paid Over \$1 Million

* The Clifford-Kagin San Francisco Mint Collection
We paid Over \$2 Million!

* The Connoisseur Collection
We paid Over \$2.5 Million!

As you can plainly see, we are very serious buyers who would also like to purchase your coins. **We always pay the highest possible prices when acquiring the coins we need.**

WE DESPERATELY NEED TO PURCHASE THE FOLLOWING RARE COINS NOW!

- * **ALL** Proof Gold & Early Gold
- * **ALL** Rare Date & Territorial Gold
- * **ALL** \$4 Stellas & Gold Patterns
- * **ALL** \$50 Pan Pacs AU - MS66
- * **ALL** Proof & Mint State Type Coins
Silver - Copper & Nickel
18th-19th & 20th Century
- * **ALL** Scarce - Rare & Key Dates
- * **ALL** Original Morgan & Peace Dollars
Bags - Rolls & Singles

If you have rare coins that you're interested in selling ... **it will pay off handsomely if you contact us first!** Additionally, should you know of someone who has coins for sale, introduce us, **We pay generous finders fees.**

We're not only the **TOP BUYER** of rare coins, but we also publish the industry's "**TOP**" **newsletter ...THE INSIDER'S ADVANTAGE!** It is the most timely and informative publication of its kind, *written by America's most successful coin trader, Sil DiGenova.* Each issue provides the reader with sound, actionable strategies as well as specific buy/sell recommendations. And it's yours for the asking. If you would like to receive a **free six-month trial subscription**, fill out the coupon below or call our office today!

VarietyPlus...

Consistent Grading Standards *plus* Accurate Attribution

Desirable NGC Attribution

Full, accurate attribution information is prominently displayed, so sellers get a more complete description and buyers a confident purchase.

Environmental Protection

The recognized leadership of NGC's safety holder is a great way to begin protecting your collection from many environmental hazards.

Consistent, Accurate Grading

Consistent, accurate grading, the hallmark of NGC certification, is appreciated and respected by thousands of dealers and collectors worldwide.

Peace of Mind

Security measures like our barcode, coin ID, tamper-evident and stackable holder, security hologram, and other measures provide greater security for your variety coins.

Precision Design

Our pliable, chemically inert inserts are designed to tolerances so precise that we must gently bend the insert to place your coin inside, snug and secure from rattling.

\$5 for NGC Attribution

The VarietyPlus fee is just \$20, including NGC grading and variety attribution in a 21-working-day turnaround. For coins valued over \$1,000, or for faster turnaround, select one of our quicker grading tiers and just add \$5 per coin for the VarietyPlus attribution.

"I like NGC's variety attribution and grading service for 'Top 100' coins because my coins have the VAM variety and the 'Top 100' name right on the label. I feel confident my valued coins will be protected in NGC holders well into the future, and when it comes time to sell, I believe NGC VarietyPlus holders will attract a greater number of potential buyers."

Michael S. Fey, Ph.D.

co-author, *The Top 100 Morgan Dollar Varieties, The VAM Keys*

VarietyPlus by NGC now certifies & grades all these varieties!

- Half cents by **Breen** half cent numbers (from his Half Cent Encyclopedia);
- Large cents by **Sheldon & Newcomb** numbers;
- Half dimes (1794-1837) by **Valentine** numbers;
- Dimes (1796-1837) by **John Reich** numbers;
- Quarter dollars (1796-1838) by **Browning** numbers;
- Half dollars (1794-1836) by **Overton** numbers;
- Silver dollars (1794-1804) by **Bowers/Borckardt** numbers;
- Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only)
- All varieties in **The Cherrypickers' Guide** and **The Cherrypickers' Top 150** (except ones designated by the authors as "low interest");
- All varieties in the **"Red Book"** (A Guide Book of United States Coins)

For more information about NGC, including our innovative PHOTO PROOF and VarietyPlus services, contact one of the 1,300-plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

CERTIFIED COIN DEALER

Rare Date Saint-Gaudens Gold Is In Demand Dollars Still Attracting Bidders

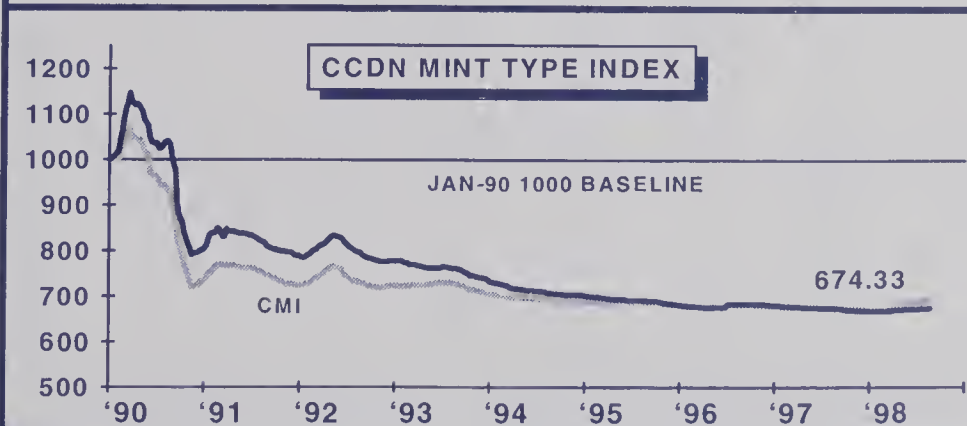

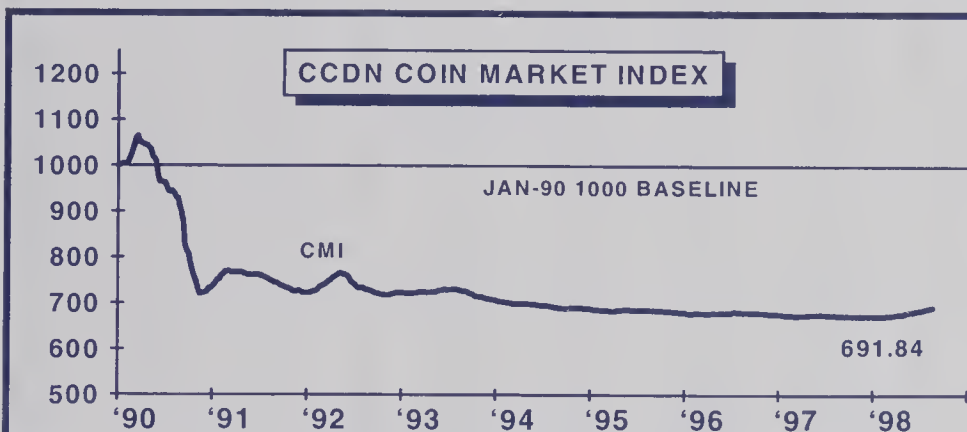

Everybody knows how strong the Morgan and Peace Dollar markets are for sight-unseen coins. We have seen dealers increasing the amount they are willing to pay for Dollars, sight-unseen nearly every week. The main reason is that they need coins to supply their customer want lists. However, they are also facing a depleted inventory that needs to be increased. Today, the demand for coins outweighs the available supply. Until this situation changes, dealers will probably continue to increase their Bids.

We are also noticing a considerable amount of activity in the \$20 Saint-Gaudens market for sight-unseen and sight-seen coins. Interestingly, one portion of the series is increasing while the other is decreasing in price. Obviously, the weakness in the price of Gold bullion has accounted for some of the negative sentiment for common date Saints. As of this writing, Gold is languishing at the \$283 per ounce level. To say that Gold is in the doldrums would be an understatement. However, the premium that low-grade Uncirculated, common date Saint-Gaudens trade above bullion value is substantial. Interestingly, we have seen some declines in the MS63-MS66 common dates. However, MS61-MS62 coins have held their value.

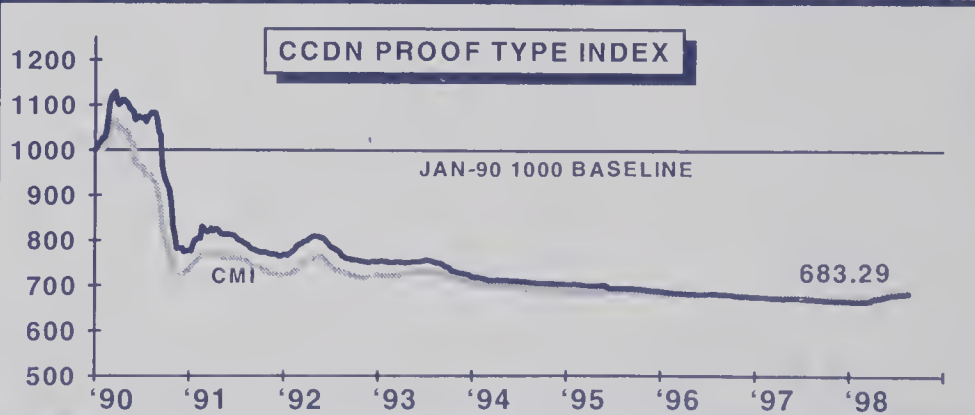

The real demand for \$20 Saint-Gaudens is seen among the **scarce and rare** dates of the series. Dealers tell us that they have several customers building sets of Saints. This can be a formidable challenge for any collector. It takes a lot of patience and money to complete a set of Saints. Because, there are many dates in this series that are real stoppers to most collectors. Just imagine trying to buy a 1920-S, 1921 or 1927-D. Even in the lowest Uncirculated grades, it takes five and six-figure amounts to acquire one of these rarities. Yet, those are not the only tough dates of the series. The 1907 High Relief; 1908-S; 1909/8; 1909-D; 1913-S; 1924-D; 1924-S; 1925-D; 1925-S; 1926-D; 1926-S; 1927-S; 1929; 1930-S; 1931; 1931-D; and,

1932 are all very **expensive** and **elusive** coins. This is especially true if you want to acquire an example in MS63 or better condition. However, there are many other dates in the series that are also difficult to locate in gem MS65 condition. One example of this phenomenon is the date 1920. While it is relatively common in MS61-MS63, above MS64 it becomes an extremely elusive date. The challenges seem endless.

We have noticed the sight-unseen Bids increasing for some of the key and semi-key dates. High Relief's are increasing in MS61 and MS62 grades. In the higher Mint State grades, High Relief's have been steady as a rock. We see some life in MS63 and MS64 1908 With Motto Saints. There is a rather large price gap between MS64 and MS65. Therefore, it is understandable that buyers are willing to increase the amount they are willing to pay for an MS64 example. We notice that dealers have been expressing interest in the dates 1920; 1922-S; 1924-S; 1925-D; and, 1926-D. One dealer chose to jump the sight-unseen Bid for 1920's in MS65. It is an aggressive move to try to buy an example of this key date. Usually, this kind of coin only appears at public auction. When it does, it almost always attracts dealers and collectors willing to Bid strong money. Many of the late-date Denver and San Francisco Mint Saints are scarce. We are seeing dealers increasing their Bid for MS61 and MS62 1925-D and 1926-D coins. These dates become extremely costly above these grade levels. Also, many of the dates struck from 1929-1932 never made it to all the banks. Consequently, these Gold coins went back to the Mint and the melting pot. This was a result of a 1933 law that prohibited Americans from private ownership of Gold. That is why you can just about **throw away** the original Mintage statistics for these late dates in the Saint-Gaudens series. In the case of the 1933, none of the 445,000 were officially released to the public. Those that did get out are illegal to own and may be confiscated by Federal officials.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

IF YOU HAVE COINS TO SELL

See us at the
Long Beach Show
Table # 512

YOU'LL BE HAPPY TO KNOW THAT THERE IS A LOT OF CASH IN CALIFORNIA AND MOST OF IT IS AT SPECTRUM NUMISMATICS!

Spectrum Numismatics, one of the largest buyers of rare coins in this country, desperately needs your coins. Whether it's a \$2,000,000 1804 Dollar, or a \$30 common date Morgan Dollar, Spectrum desperately needs to buy all of your coins. The *King of Cash* must spend over one million dollars per week to satisfy its coin hungry clients. In fact, lately, there have been many days when Spectrum's customers have purchased more than half a million dollars worth of coins in a single day! The *King of Cash* has no choice. Spectrum must buy your coins or lose its customers. That's why Spectrum can treat you like no other coin company can. That's why you can sell your coins to the *King of Cash* and then smile all the way to the bank.

HERE'S WHAT YOU WILL GET FROM THE KING OF CASH

Every time you sell coins to Spectrum Numismatics, you can be sure you will receive the following:

1. The absolute highest possible price for your coins. Spectrum must buy your coins to keep its clients satisfied. Nobody pays more than the *King of Cash*!
2. Immediate payment. Spectrum Numismatics is one of the best financed rare coin companies in history. The *King of Cash* can pay you on the spot, wire your bank, or Federal Express you a check.
3. Spectrum wants to buy your uncirculated pre-1950 coins. That's why our name is Spectrum, we buy it all. Spectrum's diverse mix of world-class numismatists are experts in all types of coins.
4. If you bump into a deal and don't want to get involved, you can still make money by helping Spectrum purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, Spectrum paid \$3,065,845 in finder's fees and commissions!

DO IT FOR THE MONEY!!

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (714) 955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the *King of Cash*.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Commems and Common Date Dollars Strong Sight-Unseen Coins Gaining Respect

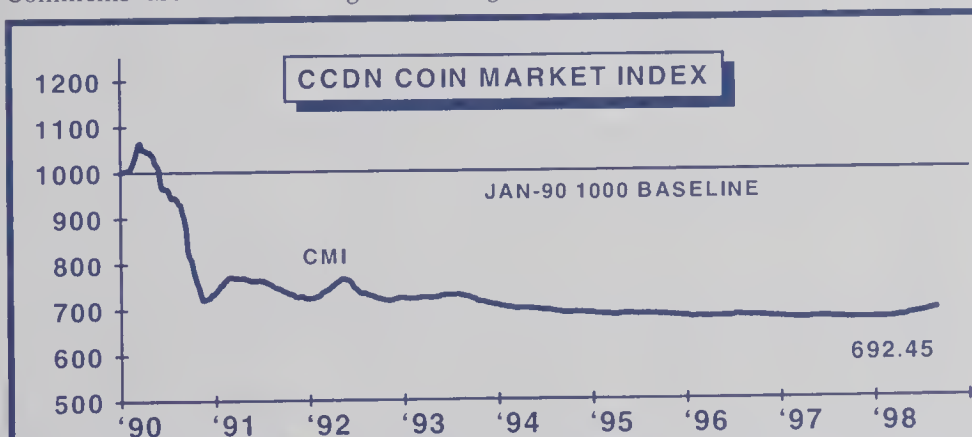

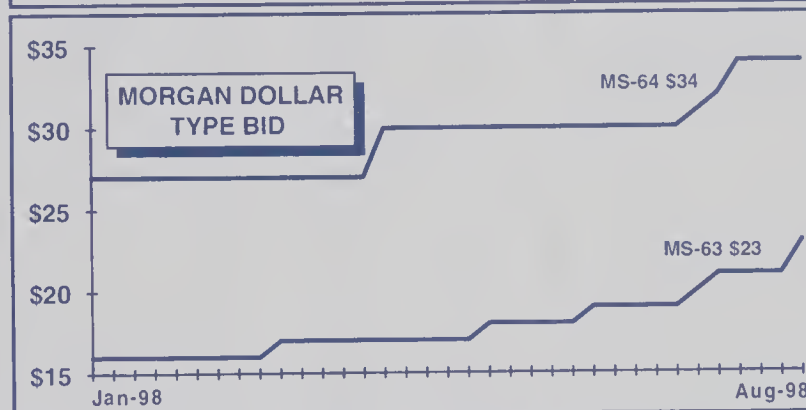

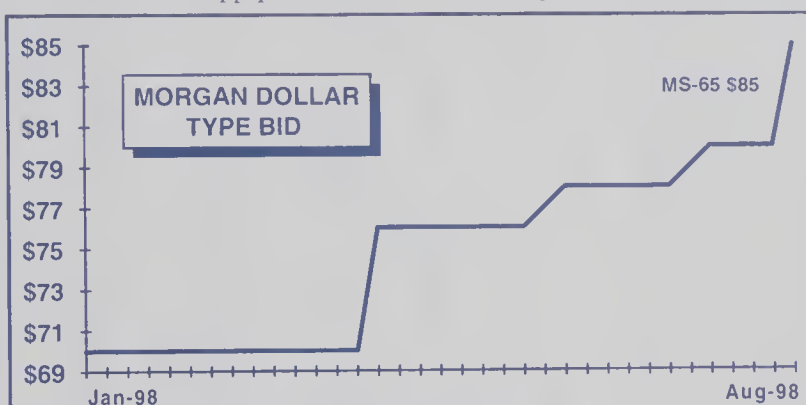

Morgan and Peace Dollars please step aside. Silver Commemoratives are quickly gaining respect that eluded them in past years. As the rare coin market turned bullish, the lackluster Commem series seemed to be left behind. Prices foundered and dealers were stuck with an oversupply of inventory of Commems. It appeared that there was a glut of these coins overhanging the market. Much of the available supply was in the upper Mint State conditions. This over supply did a good job holding down Commem prices and demand. Wow have times changed.

The sight-unseen market for Commemorative Quarters and Half Dollars is currently very strong. We have been monitoring the very beginnings of this rally during the past few months. Slowly, it has gained strength and vigor. Today, we are observing many plus signs in our Commem chart. Dealers are willing to increase Bid for these popular coins. Collectors are clamoring for Commems and dealers need to buy them to fill these demands. Of course some dealers are enjoying the fruits of their patience by selling a few attractive Commems that they bought when prices were lower. Let's take a look at some of the Commems that are attracting Bidders.

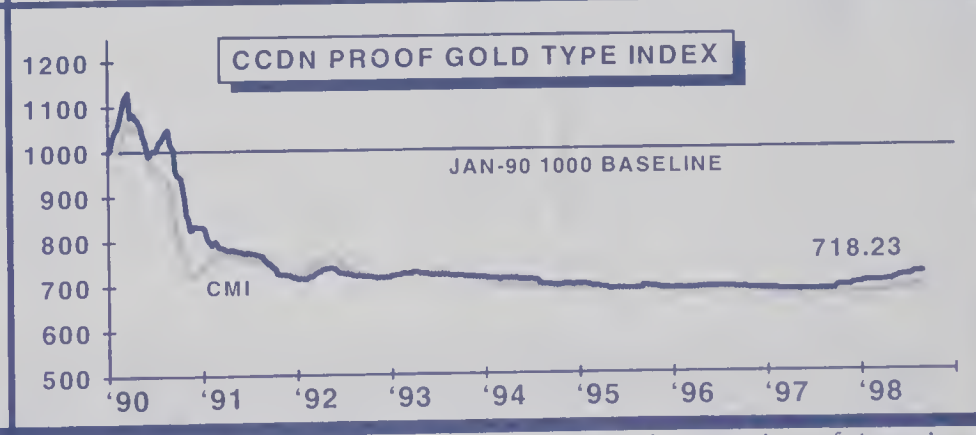

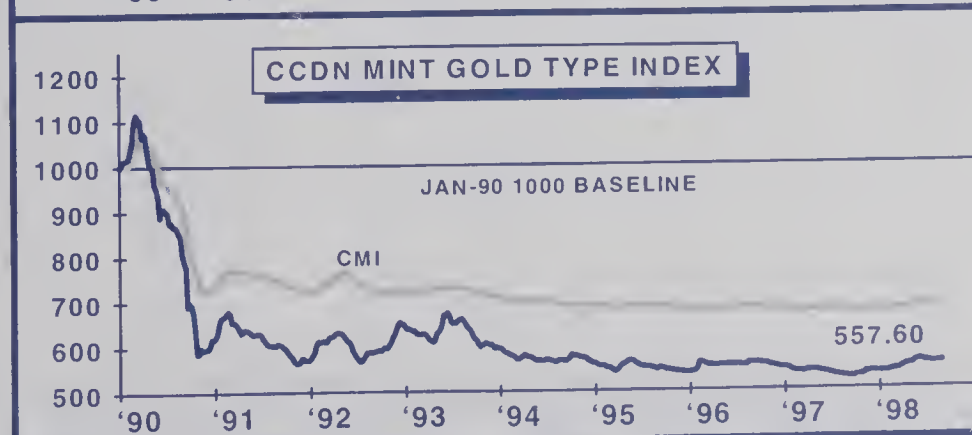

The 1936 Albany Half Dollar is wanted in MS66 and MS67. The MS65 Bid is now at \$244. There is also strength in MS66 where dealers are Bidding \$515. The 1935 Philadelphia, Denver and San Francisco Arkansas set took a jump in MS65 to \$480. It is easy to see why, when you realize that an MS66 set is Bid at \$2,000. Generally, Bids are increasing in MS65, MS66 and MS67 grades. The demand is in coins that are well struck. They also want Commems that are original and do not have the washed out look that comes from excessive dipping. Darkly toned Commems are not receiving the strong Bids.

However, attractively toned Commems that are totally original can receive exceptionally strong money. Many collectors like to add rainbow toned coins to their collections. Dealers also like to have a few rainbow toned coins in their inventory. We see the Bid increasing for Isabella Quarters in MS67. These Quarters are elusive in this high grade. Other Commems commanding interest include the 1936 Bridgeport, Connecticut Centennial; 1936 Delaware; 1936 Cleveland; 1936 Cincinnati Music Center; 1918 Lincoln Illinois Centennial; and the Oregon Trail Memorial series.

Even though Commems are catching fire, certified, common date Morgan Dollars continue to blaze and amaze dealers. The numbers do all the talking but a picture graphically depicts the sharp rise these coins have enjoyed throughout 1998. Keep in mind that these coins are being Bid sight-unseen by dealers. Dealers were Bidding \$70 for MS65 common date Morgans on Jan 2. On Aug 28 they are Bidding \$85, an increase of 21.4 percent. However even greater increases have been achieved by MS63 and MS64 common date Morgans. On Aug 28, MS64 and MS63 Dollars have increased 25.9 percent and 43.7 percent respectively since Jan. 2. These increases are for Morgan Dollars that are among the most common and available dates of the series. Most of the time, dealers are looking to purchase these dates in quantity. We know that there are a lot of common date Morgan Dollars so dealers should be able to satisfy the current demand. The most astounding aspect of the strength for common date 90 percent Silver Dollars is magnified when you look at Silver bullion. During the same period, Silver bullion decreased 18.5 percent from a spot price of \$6.20 per ounce the week of Jan 2 to \$5.05 per ounce on Aug 26.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market based on monitoring Low Asks or Last Trades from *wholesale* trading networks and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols. "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit, on a sight basis

PCGS DMP1 and NGC DPL B1 are for Fully Deep Mirror Proofs. Both are for PCGS PL and NGC PL. I will be hitting monthly in a supplemental inert CDN (Grayscale). Bids have always required fully transparent specimens.

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

YOU BE THE EXPERT

Learn how you can "Make The Grade" with *The Official Guide to Coin Grading and Counterfeit Detection*

PCGS set the highest standard in the industry for grading rare coins over the last twelve years. During these years of grading millions of coins, we learned that you—the collectors, dealers and general public—wanted more specific information about PCGS grading standards and counterfeit coins.

As an answer to your requests, PCGS brought the top numismatic and rare coin experts together and set a new standard in coin grading and counterfeit detection. Once again revolutionizing the rare coin industry, PCGS makes this information available to you in a newly released landmark reference book called *The Official Guide to Coin Grading and Counterfeit Detection*. This book provides an unparalleled standard of reference for established numismatists as well as for people just entering the coin world.

PCGS revolutionizes the current standards of coin grading with pioneering concepts, definitive grading parameters, and state-of-the-art technology. This book gives you precise descriptions of PCGS grading standards, including the first published grading standards for all eleven Mint State and Proof grades. You will also receive expert guidance on detecting counterfeit coins. The diagnostics in this section are easy to see and understand. The combination of the numismatic expertise along with detailed descriptions provide you with incomparable grading standards that are not subject to wide interpretation.

This landmark reference work is 324 pages and large format (8-1/2" x 11"). It contains an unprecedented 48 pages of spectacular full color illustrations and 547 black and white photographs, all of them produced by state-of-the-art digital imaging of coins from the Professional Coin Grading Service (PCGS) grading and counterfeit detection research archives.

Since it's what you know that really counts in coins, you can build your knowledge bank by ordering *The Official Guide to Coin Grading and Counterfeit Detection* today. This book, published by Random House, is available from PCGS by phone, mail order, or on the PCGS website at www.pcgsg.com.

You Don't Have to Let History Repeat Itself

THE BEGINNING

Three years ago or so I received a fax from a gentleman in the Southwest offering to purchase some Proof-68 Morgans I had recently acquired. This gentleman's story is worth telling since it probably applies to many of you who love collecting coins.

Tom was a man who loved collecting coins. He went through two very hair-raising experiences, but persisted nonetheless.

MISTAKE #1

Tom started his collecting by purchasing coins advertised as "Brilliant Uncirculated," assuming that coins would be what they claimed to be. He started out purchasing Morgan Dollars and after investing about \$50,000.00, started buying "Brilliant Uncirculated" gold coins. Once he had spent an additional \$30,000.00, he decided to have some of his coins checked by one of the major grading services. He first submitted seven (7) gold coins and found out that four (4) were counterfeit, two (2) were gradeable at less than MS-60 and only one (1) was as advertised. He then submitted a group of Morgan Dollars and found that, of that group, 10% would grade MS-60, 50% were gradeable at less than MS-60, and 40% of that group were ungradeable.

NARROW ESCAPE

Tom became upset. Tom Called his attorney, Tom got his \$80,000.00 back - only because the dealer had broken the law (selling counterfeit coins across state lines), and he was threatened with a call from the Attorney General's office.

Most people at this juncture would probably have thrown in the towel. Most people would have been thankful they got their money back and, in most instances, would have stayed as far away from numismatics as is humanly possible. Not Tom.

MISTAKE #2

Tom then decided to take his funds and reinvest them in CERTIFIED coins. Once again, he decided to Purchase Morgan Dollars, normally with a grade of MS-65 or higher. He thought he did his homework this time. Initially, he subscribed to the "Pop," reports and thoroughly checked prices with all available sources before he purchased. He was a tough negotiator and, in most instances, bought at or near "sheet." Once again, he purchased almost exclusively from one source. Guess what?

When he decided to sell some of his Morgan Dollars, the dealer suddenly had no interest. The "sheet" prices hadn't changed much. Yet Tom was not able to even get an offer on most coins, and when he did, the offer typically was 50% or less of what he had paid for the coin. What to do?

HISTORY LESSON

Tom had previously been heavily invested in another area of collectibles. During this phase of his collecting career, he first bought just about any item that fell into the category he was collecting. After a year or two, he ended up with 500 mediocre items that were at best resalable at what he had paid. A fellow collector, who has since become one of his dearest friends, advised him to consolidate his holdings into a few outstanding pieces. Tom followed his advice and within a year had turned those 500 mediocre items into 50 outstanding items through some astute sales and trades. Less than one year later the economy went into recession and Tom found out that he could, but did not, repurchase most of the mediocre items he once had for less than fifty cents on the dollar. He also found that his newly acquired items not only held their value, but some actually increased during this time. Ten years later Tom sold his collection. He had so many calls he could have easily sold each item five times. He got top dollar for top merchandise. The moral of this story is that people who have the money to purchase good merchandise will always have the money to purchase good merchandise. They are not as affected by the economy as is the average person. Further, since Tom's items were not easily replaceable, demand existed for these items in both good times and bad.

NEW BEGINNING

Falling back on his previous experience, Tom decided he needed to follow the same tactic with coins. That is what prompted his initial offer to me. After a number of faxes back and forth, we finally were able to talk on the phone. I told Tom my philosophy regarding coins. The "Box of 20" theory I have espoused in this publication on many occasions. It made sense to him since Tom had seen this same philosophy work in the past.

THE SOLUTION

However two problems still existed. Tom still had all of his Morgans, and had no idea how to go about disposing of these coins without getting absolutely massacred. Second, how on earth is Tom supposed to know what to pay for numismatic rarities when, despite his best efforts, he couldn't even purchase "stuff" at the right price. Enter Jay Parrino and The Mint...

The first problem was relatively easy to solve. I agreed to take all of Toms' Morgans in trade at a reasonable discount to "sheet."

The next issue led to a policy that puts Jay Parrino and The Mint in a class by itself. When I sell a coin I "put my money where my mouth is." I will guarantee you that I will repurchase any coin purchased from me at any time for 90% of the price you paid, adjusting for any change in the coin market (based on the CCDN index).

SCENARIO 1

Let's say that you purchased a coin from me on January 1, 1998, and one year later the coin market has risen 20%. I will buy your coin back at 110% of the price you paid, no questions asked.

SCENARIO 2

Let's say that you purchased a coin from me on January 1, 1998, and one year later the coin market has not changed. I will buy your coin back at 90% of the price you paid, no questions asked.

SCENARIO 3

Let's say that you purchased a coin from me on January 1, 1998, and one year later the coin market has dropped 10%. I will buy your coin back at 80% of the price you paid, no questions asked.

GRASP THE CONCEPT

For the very FIRST TIME a dealer is willing to firmly stand behind what he sells. Your collection takes on a liquidity heretofore unheard of in the annals of numismatics - and I want to help you get there by taking your "stuff" in trade.

SEIZE THE OPPORTUNITY

If your collection in worth \$25,000.00 or more, you need to give me a call. I love to talk about coins and want to help you build your collection, one coin at a time. I will give you top dollar for what you have in trade, and you will be on your way to building a totally liquid collection of numismatic treasures.

Don't delay, CALL ME today.

All prices are sight-unseen dealer-to-dealer Bids. Bid prices are for the most common date within each type. Bids listed for issues that trade infrequently are the last known.

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or Dealer sight-seen trades can be expected to occur at substantially higher levels in many cases.

For certified coins not listed in the *CCDn*, please refer to the *COIN DEALER* newsletter for current Bid levels.

WALKING LIBERTY HALVES

CCDA does not represent that it is possible to purchase selected coins at the bid prices. Certain coins with slight-seen trades can be expected to occur at substantially higher levels in many cases.

Each day hundreds of collectors and dealers decide which grading service to use for certifying their important coins.

More often they choose NGC.

For accurate and consistent grading choose the leader in third party certification. That's NGC.

For more information about NGC, including our innovative Photo Proof and Variety Plus services contact one of the 1,300-plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

DMPL Morgans Difficult To Locate Rare Date Dollars Slated For Auction

We are monitoring strong dealer interest for rare date, high-priced Morgan Dollars. This demand is for sight-unseen coins. However, we also realize that the market for sight-seen Dollars is equally strong, if not stronger. For this article, we will focus on the sight-unseen market for certified coins. Respectable increases have been forthcoming for sight-unseen Morgans. Their target is for the high quality rarities of the Morgan series. Therefore, dealers are increasing Bids for MS65 Deep Mirror Prooflike Dollars. Some dealers believe that many dates in the Dollar series are still undervalued. This is especially true when you consider buying Deep Mirror Prooflike examples. Dealers know that there is a strong collector base for these attractive cartwhchels in gem quality condition. They want gem condition because hairlines and other distracting marks are magnified when they appear on Deep Mirror Prooflike coins. Unfortunately, there are not enough of these scarce DMPL Dollars available to satisfy that demand. Consequently, dealers look to any avenue they can to obtain a few examples.

So, they have increase their Bid on the dealer electronic networks hoping to shake loose a few of these elusive rarities. Their main target is the more difficult to locate key and semi-key dates of the series. One dealer is willing to pay 80 percent of his sight-seen Bids for DMPL Dollars that are sight-unseen. Some of the better dates needed in Mint State 65DMPL include 1878 7/8 Tail Feathers; 1879-S Reverse of 1878; 1885-S; 1886-O; 1891-CC; 1893-O; 1894-S; 1896-S; 1900-S; 1901; 1903-S; and, 1921-D. The difficulty that dealers face is the low population of these dates. The **availability** of DMPL Morgan Dollars is the biggest problem. The chart shows the known population of Morgan Dollars graded MS65DMPL by NGC and PCGS. It also includes the combined total of coins slabbed by the two professional grading services. The actual number may be less when you consider that crossovers and re-submissions may have occurred.

The low numbers point to problems for dealers trying to acquire these rarities. A quick glance at the chart and you will easily realize why dealers are concerned. There is a difficult obstacle facing dealers today. It is easy to see the **extreme** rarity of these coins. Sure, the grading services have not graded all the

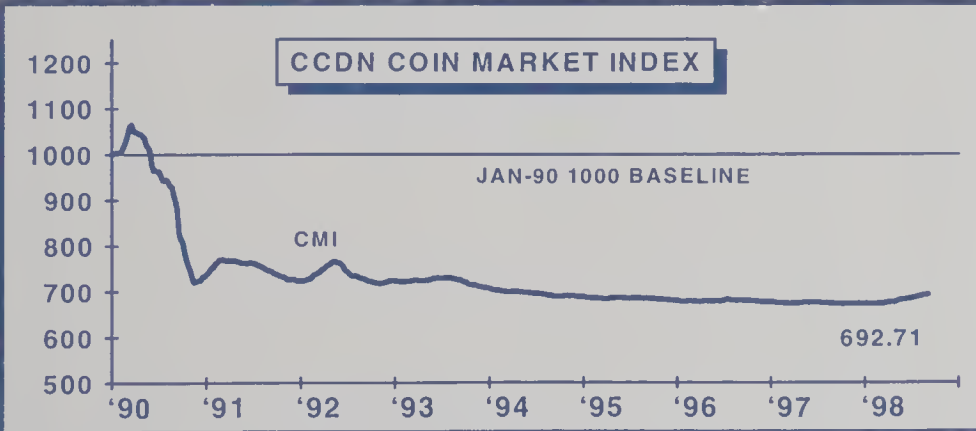

Morgan Dollars that's out there. However, the numbers are very compelling. Some of the dates listed indicate that no examples have been graded. Many others have populations below five coins. This is not enough to satisfy collector demand. This chart may change the thinking of collectors.

Some may decide to look for DMPL's in grades less than MS65. Also, you may find collectors willing to accept Prooflike examples instead of the more difficult and higher priced DMPL's.

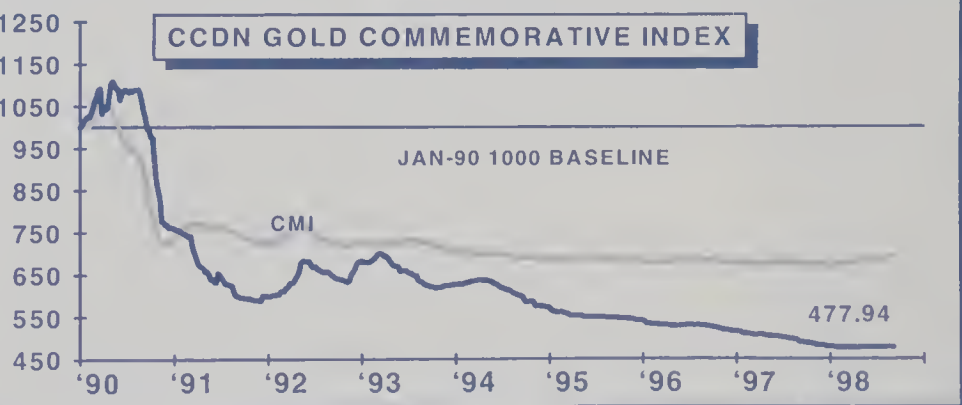

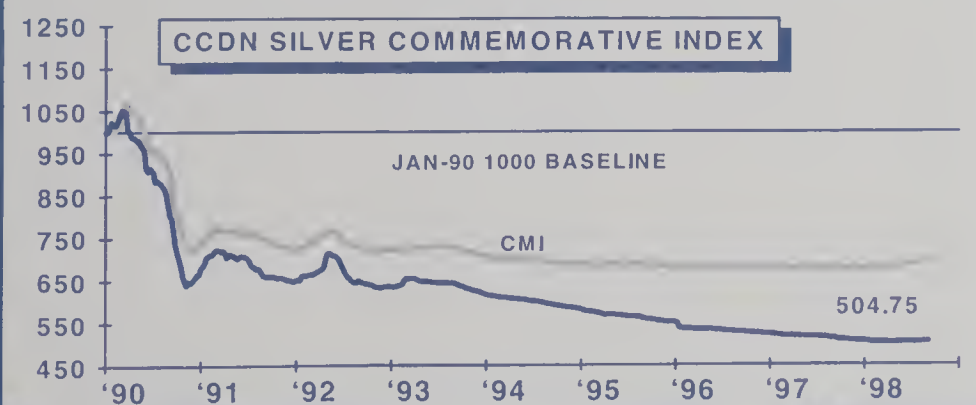

The Leonard J. Torok, M.D. collection along with some additional consignments will be sold September 14-15 at public auction. The sale by Bowers and Merena will take place in New York. Among the many highlights is a Liberty Seated Dollar collection. We have included some of the highlights.

NGC Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest viable bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

THE BIGGEST INNOVATION IN RARE COIN SALES SINCE THE INTRODUCTION OF THIRD-PARTY GRADING

LIQUIDITY REVOLUTIONIZES THE MARKETPLACE THE GAME HAS BEEN CHANGED FOREVER

1 Jay Parrino's The Mint, LLC revolutionizes the industry with a numismatic first - The Mint Repurchase Program. The concept is simple yet elegant. Offer only the very best numismatic material and be so sure of your product that you are willing to repurchase it at any time, for 90% of its value as determined by the CCDN index. In summary, liquidity and certainty. No unpleasant surprises, no commissions, no waiting for auction checks and no excuses when it comes time to sell. It is the 10% solution. It eliminates the common risks associated with overgraded coins, overpriced coins, ugly coins, "who cares" coins.

2 The Mint is willing to put its money where its mouth is. Jay Parrino, owner and Chief Executive Officer of Jay Parrino's The Mint, LLC, is one of the largest rare coins investors in the world. He strongly believes rare coins offer the ultimate combination of intrinsic value, portability, privacy, and a proven track record of price appreciation. He is so convinced of the future of RARE COINS that he is willing to work on a razor thin 10% profit margin.

3 Only PCGS or NGC certified coins, which have then been hand selected and approved by Jay, are eligible for The Mint Repurchase Program. The grading services guarantee authenticity and grade, while we assure eye appeal, saleability and liquidity. The coins, which shall be of only the highest quality, must meet all four prongs of our strict acquisition criteria. Each rare coin must be in Gem condition, truly rare, subject to strong demand and have superior eye appeal. Additionally, only preferred dates, varieties and types will be available. All coins for The Mint Repurchase Program will be selected at the sole discretion of The Mint with the proviso that purchasers can indicate their preference for eligible market segments such as 20th century type, Proof Gold, or classic rarities for example.

4 We agree to repurchase any coin we sell for the original sale price less ten percent (10%) subject to adjustment for fluctuating market conditions, if any. Specifically, the repurchase price may then be adjusted up or down depending on whether the "Index" has risen or fallen. The "Index" shall be defined as the *Certified Coin Dealer Newsletter* CCDN Coin Market Index. The *Certified Coin Dealer Newsletter* is an independent trade publication not affiliated with Jay Parrino's The Mint, LLC.

5 The Repurchase Program allows you to track your rare coins' value with almost the same degree of certainty you could track a stock or bond. You also have the comfort of knowing that if you decide to sell, you can liquidate your coins and receive payment in full within 30 days. In addition, The Mint Repurchase Program doesn't require that you sell the coins back to us, but it does mean you always have a ready, willing and able buyer. The decision on how and where to sell is yours and yours alone, but isn't it nice to know you have a safety net?

6 We can't insulate you from market risk but we can eliminate the risk of buying overgraded coins, overpriced coins or buying the right coins in the wrong grade.

7 If you purchased a \$10,000 coin from us today and were to sell it back to us tomorrow or five years from now, assuming the market remained unchanged, you would be able to cash out anytime for \$9,000.00. Your money is liquid. Your downside is limited to 10%. Your upside is, however, unlimited.

Repurchase Terms and Conditions

1. All coins selected for The Mint Repurchase Program are selected by The Mint in its sole discretion.
2. In the event you elect to exercise the repurchase option, you must notify The Mint, in writing, requesting the repurchase, along with your coin(s).
3. All coins to be repurchased must be shipped, fully insured, by Federal Express, U.S. Post Office Express Mail or Registered Mail to The Mint.
4. Coins must be returned undamaged and in their original NGC or PCGS holders.
5. No coins under \$1,000 will be eligible for The Mint Repurchase Program.
6. Coins must not have deteriorated due to improper storage or environmental damage.
7. The Mint Repurchase Program is not transferable from original purchaser.
8. If CCDN stops publishing its index, The Mint has the right to substitute a similar coin market index.

Type Coins Among The Leaders Auction Features Rare Date Gold

The sight-unseen market is alive. Dealers are bidding for quality coins for their customers. We have seen a considerable amount of interest for Type coins. Dealers tell us that many of their customers are working on Type sets. Collectors enjoy the diversity that is the product of a Type Set. There are many beautiful and unusual designs of U.S. coins. Type collectors like examples from the 18th, 19th and 20th century. The collector demand has fueled the dealer demand. Dealers need to find nice quality Type coins for their customers. They utilize many avenues at their disposal to satisfy their customer demand. Public auctions and coin shows are two events that help to supply their needs. However, the electronic dealer networks are very active today. We know that dealers are regularly posting sight-unseen Bids for coins. The Type market is one area that has been among the leaders in this bull market. The Type market is so large, encompassing many series and denominations, that we need to divide into smaller groups.

The Mint State Type segment is a large group of Uncirculated coins that examines Bids from copper through the Silver denominations. We have seen a considerable amount of activity and increases in this section of the Type market. In recent weeks, we have monitored increases in Draped Bust, Classic Head and Braided Hair Half Cents. Copper collectors are extremely interested in many aspects of the coins strike, color and variety. We have seen dealers trying to buy Uncirculated copper coins from MS61 through MS65. The heaviest demand appears to be in the MS63 and MS64 grading category. The preferred color is a pleasing light brown to red and brown. The Draped Bust design seems to be a favorite. There is also a significant demand for Braided Hair Large Cents in MS64 and MS65 Red. Indian Head Cents are active. Collectors are buying the 1-year Type 1859 issue. However, the 1860-1864 Copper-Nickel composition has also enjoyed collector attention.

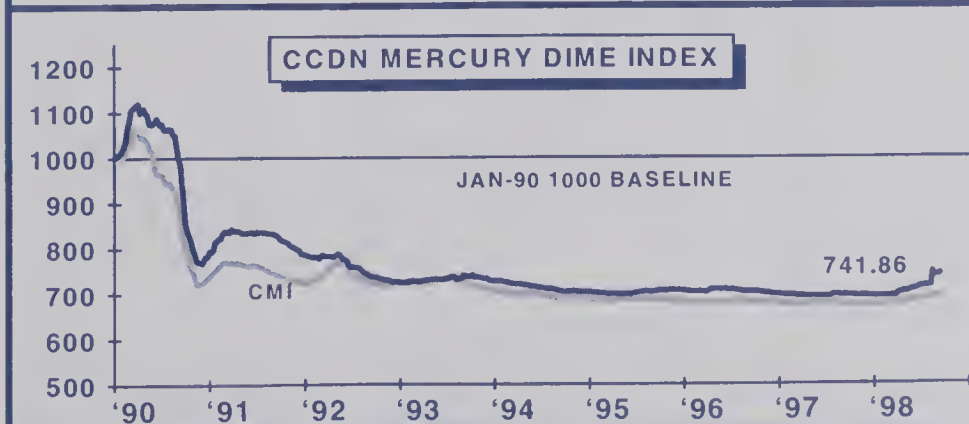

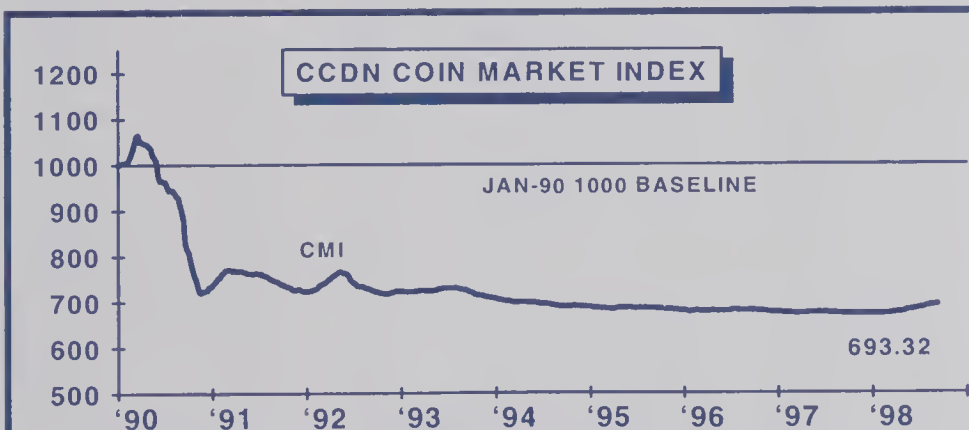

There are many series and denominations doing well today. We see 2-cent pieces, 3-cent Nickels, 3-cent Silver and Shield Nickels **with** and **without** Rays realizing increased Bids. Standing Liberty Quarters have increased in MS64 and MS65 condition. Dealers are willing to increase their sight-unseen Bids for Type coins because they have customers anxiously waiting to buy. The Trade Dollar

series has received more attention lately with increases in MS63 and MS64.

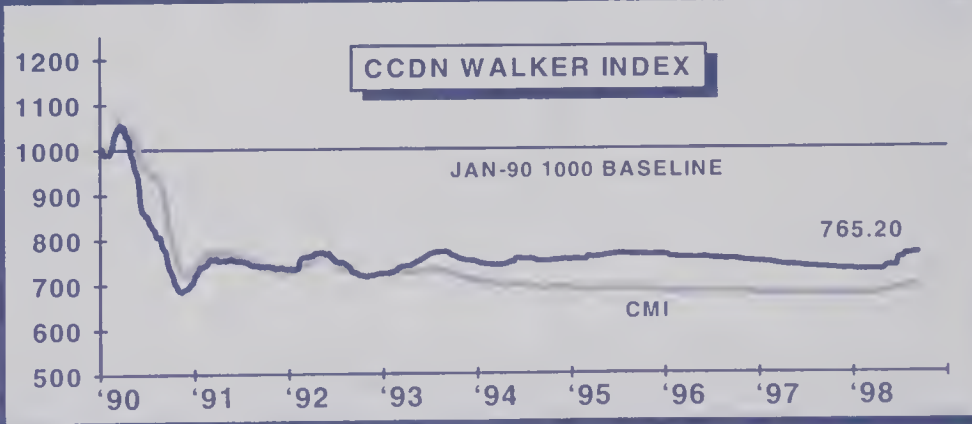

The Barber series of Dimes, Quarters and Half Dollars have always been popular with collectors. These three denominations have been increasing in MS63, MS64 and MS65 condition. Dealers have Bid for this design hoping to place a few with their customers. The Barber series offers dealers a large selection of common dates in affordable conditions. Many collectors want the first year of the design. Others will look to buy a slightly better date. However, most Type collectors want the highest grade they can afford. They are looking for coins that are well struck and have excellent eye appeal. Also when possible, they want evenly matched sets.

Superior will conduct a public auction Sept. 21-22 at their offices in Beverly Hills, CA. The 2,436 lot sale will feature a nice Half Cent and Large Cent collection. Many varieties are available. Also, rare date Gold will attract some attention. We have included some of the many certified highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In the cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective with less reflectivity than P.L. Dollars.
Bids for P.L.'s are usually much lower than for DMPL's, but command a premium for non-P.L. strikes.

VarietyPlus...

Consistent Grading Standards *plus* Accurate Attribution

Desirable NGC Attribution

Full, accurate attribution information is prominently displayed, so sellers get a more complete description and buyers a confident purchase.

Environmental Protection

The recognized leadership of NGC's safety holder is a great way to begin protecting your collection from many environmental hazards.

Consistent, Accurate Grading

Consistent, accurate grading, the hallmark of NGC certification, is appreciated and respected by thousands of dealers and collectors worldwide.

Peace of Mind

Security measures like our barcode, coin ID, tamper-evident and stackable holder, security hologram, and other measures provide greater security for your variety coins.

Precision Design

Our pliable, chemically inert inserts are designed to tolerances so precise that we must gently bend the insert to place your coin inside, snug and secure from rattling.

"I like NGC's variety attribution and grading service for 'Top 100' coins because my coins have the VAM variety and the 'Top 100' name right on the label. I feel confident my valued coins will be protected in NGC holders well into the future, and when it comes time to sell, I believe NGC VarietyPlus holders will attract a greater number of potential buyers."

Michael S. Fey, Ph.D.

co-author, *The Top 100 Morgan Dollar Varieties, The VAM Keys*

\$5 for NGC Attribution

The VarietyPlus fee is just \$20, including NGC grading and variety attribution in a 21-working-day turnaround. For coins valued over \$1,000, or for faster turnaround, select one of our quicker grading tiers and just add \$5 per coin for the VarietyPlus attribution.

VarietyPlus by NGC now certifies & grades all these varieties!

- Half cents by **Breen** half cent numbers (from his Half Cent Encyclopedia);
- Large cents by **Sheldon & Newcomb** numbers;
- Half dimes (1794-1837) by **Valentine** numbers;
- Dimes (1796-1837) by **John Reich** numbers;
- Quarter dollars (1796-1838) by **Browning** numbers;
- Half dollars (1794-1836) by **Overton** numbers;
- Silver dollars (1794-1804) by **Bowers/Borckardt** numbers;
- Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only)
- All varieties in **The Cherrypickers' Guide** and **The Cherrypickers' Top 150** (except ones designated by the authors as "low interest");
- All varieties in the **"Red Book"** (A Guide Book of United States Coins)

For more information about NGC, including our innovative PHOTO PROOF and VarietyPlus services, contact one of the 1,300-plus NGC dealers near you, or call **1-800-NGC-COIN (642-2646)**.

National Gold Exchange

“The Industry’s New Standard”

Why National Gold Exchange:

- ◆ We Stock Over \$12.5 Million Of Raw & Cert. Inventory
- ◆ Twelve Full-Time Professional Numismatists On Staff
- ◆ Leading Importers of U.S. & European Gold Coins
- ◆ We Are Aggressively Seeking New Customers
- ◆ Aggressive Financing & Terms Available
- ◆ Multi-Million Dollar Credit Facility
- ◆ Industry Leading Technology
- ◆ Two Way Market Makers

Long Beach Expo On The Horizon

Full Head Quarters Jump In Value

As the Long Beach Expo approaches, we see the interest level for sight-unseen coins continuing to increase. The signs of a strong market are evident. We are seeing a greater number of dealers posting more increased Bids for coins. Obviously they need these coins for their customers. Consequently, they are willing to pay more money to obtain these coins. One area of the market that has taken a huge jump is the Standing Liberty Quarter series. The most demand is for Quarters that contain a **Full Head**. We see dealers eagerly looking to buy MS64FH through MS67FH Standing Liberty Quarters. Incidentally, one dealer is willing to pay very strong money for select date's sight-unseen. He is also paying approximately 20 percent more for coin's sight-seen. Some of the dates needed in MS64FH include 1918/17-S; 1918-S; 1919-D; 1919-S; 1920-S; 1926-D; 1926-S; 1927-S; 1928-D; and, 1929-D. In MS-65FH some of the dates needed include 1917-S T1; 1918/17-S; 1919-D; 1919-S; 1920-S; 1926; 1926-D; 1926-S; 1927-D; and, 1927-S. Some of these dates are also in demand in MS66FH and MS67FH. As you scan these dates, you will quickly notice that they are all very scarce in Full Head. Dealers tell us that they have customers putting together complete sets of Standing Liberty Quarters by date. Some of these collectors are trying to obtain Full Head examples of each date. That is a very difficult task for a few ambitious collectors.

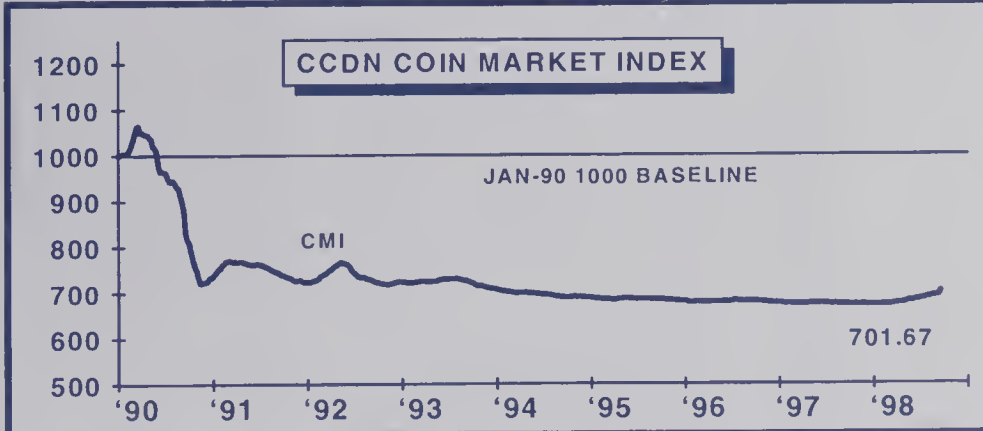

Gold coins are also in demand. As the price of Gold bullion moved off the recent bottom, we see interest perking up for Gold coins. The \$20 Saint-Gaudens series is moving higher in MS61 through MS66. Dealers are increasing their Bids for these coin's sight-unseen. The increases are most noticeable for the common dates of the series. Dates such as 1922; 1923; 1924; 1925; 1926; 1927; and 1928 have all increased. We do see some support for scarce dates, most are holding steady in the sight-unseen market. However, the 1907 **High Relief** is increasing in MS61; MS62; and, MS64 condition. Peace Dollars have displayed increasing activity in the sight-unseen market. We are seeing more plus signs throughout this popular 20th century series. The demand appears to be heaviest for coins grading MS63 through MS66. Buyers expect the Dollars to be average for the grade. If they receive an example that is well struck or brilliant white than they are pleasantly surprised.

Stack's auction in New York realized more than \$2 million on Sept 9-10. There was active Bidders on the floor as well as from the mail. Selections were from the Dr. Globus, C. Mihalyi and G. Gallagher collections. Buyers were not afraid to pay for the coins that they need the most. The following is a list of some of the many highlights from that sale.

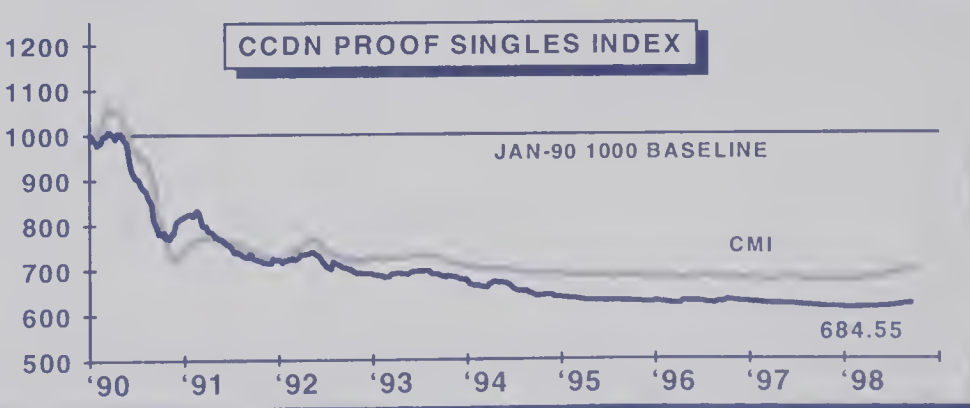

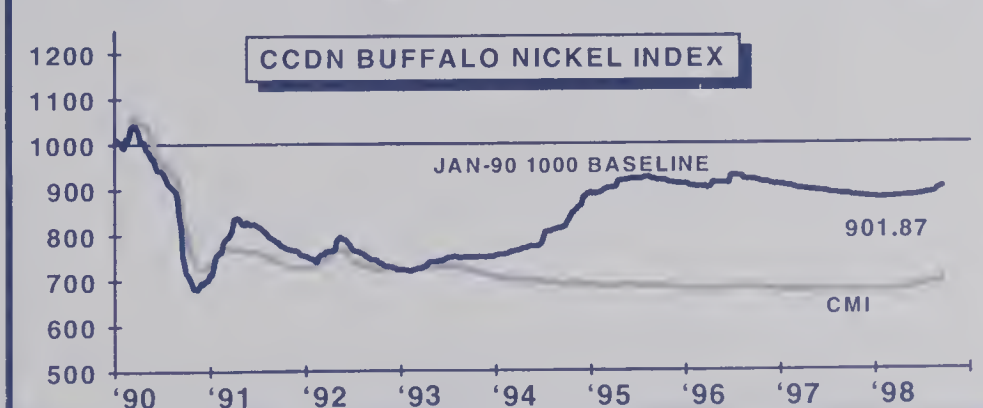

The Heritage Long Beach Signature auction will be held Sept 25-25 in California. It will feature the Andre Dawson Collection along with selections from the Ed Trompeter Estate. Sam Hunter, Hugh Courteol, Melvin Stark and Robert Louis also have coins consigned to this sale. The sale will total more than 2,500 lots and we have included some of the many highlights.

NGCNumismatic Guaranty Corporation of AmericaParsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

CIRCULATION & ADVERTISING Betty Morris

6 Months-\$65, 1 Year-\$117, 2 Years-\$193.

City _____ State _____ Zip _____

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

KINGSWOOD COIN AUCTIONS

Kingswood Coin Auctions' 7th sale is coming up in early October of 1998. There are many reasons why you'll want to give us a try.

Convenience—Kingswood's sales are telephone auctions. You can bid on Lot #1 and Lot #876 at the same time! In addition, all lots close at the same time, so you will never miss a coin due to time constraints. It's easy to budget, too, as you can always find out how many lots you're high bidder on. You never have to leave the comfort of your home or office to participate in a Kingswood sale.

Something For Everyone—The principals of Kingswood make certain that each sale brings you the most diverse offering of quality coins possible.

Over 80% of the coins in a Kingswood sale have an opening bid of \$200 or less. Many begin at \$100, and some at less than \$50.

There are also some of the most spectacular rarities offered anywhere! The October sale, for instance, includes the first Panama-Pacific set ever struck! It includes the finest known 1868 proof \$20 gold piece. It includes...well, you get the idea.

A Kingswood sale has something for everyone!

PCGS Grading—Every coin in a Kingswood sale is graded and authenticated by the Professional Coin Grading Service (PCGS), the largest and most respected coin grading service in the world.

Expert Cataloguing—Each Kingswood catalogue offers the coins in a clear, concise format. The coins are in "Red Book" order, making it easy to locate the lots that are

of interest to you. Many coins are given detailed descriptions, including the coin's history, pedigree information, or other items of interest to numismatists. Recognized rarities are frequently photographed in black and white, and the most exciting coins in the sale are color photographed on the front and back cover of the catalogue.

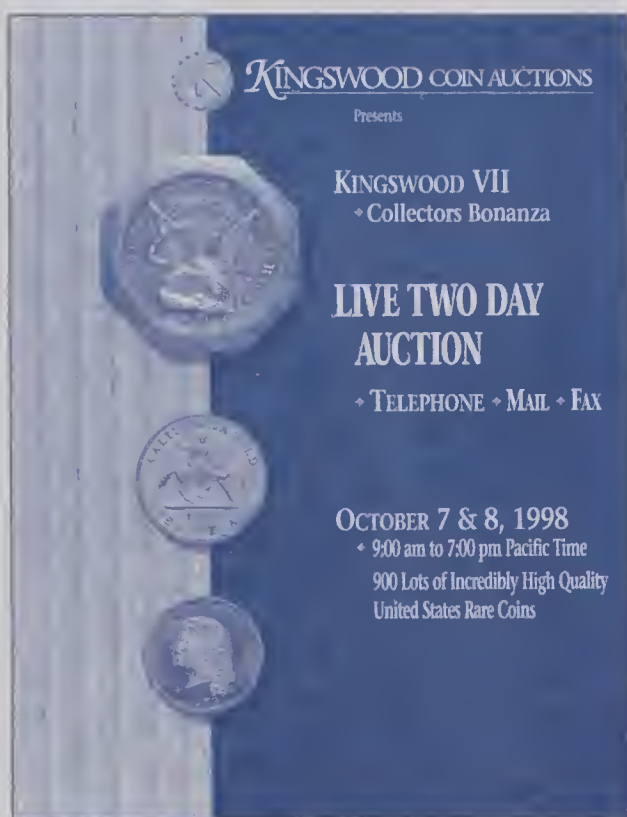

Experience—The principals of Kingswood Coin Auctions have over 100 years of combined numismatic experience dealing in the finest United States coins.

A Helpful, Courteous Staff—The Kingswood staff includes over a dozen well-trained and courteous personnel ready to make your auction experience a pleasant one. A recent survey of our clients showed that they loved the way they were treated at Kingswood.

It's Fun—Ask anyone who's ever participated in a Kingswood sale. There's all the excitement of a great coin auction without all of the hassles.

It's Innovative—Do you know what "Top All" bids are? How about "Customer Callbacks?" You'll quickly see that Kingswood makes it easier than ever to participate in a quality auction.

How Can You learn More?—Just call Kingswood at (888) 540-COIN. That's (888) 540-2646. Or write to Kingswood Coin Auctions at the address listed below. We look forward to hearing from you!

AND THE WINNER IS...

☆☆☆☆ For the "Book of the Year" from
the Numismatic Literary Guild

☆☆☆☆ For the "U.S. Coin Book of the
Year" from the Numismatic Literary Guild

☆☆☆☆ For the Robert Friedberg Award
from the Professional Numismatists Guild
to John Dannreuther

They're the Oscar, the Emmy, and the Grammy awards of numismatic books, and this year all three went to *The Official Guide to Coin Grading and Counterfeit Detection* from the Professional Coin Grading Service (PCGS). If you don't have your copy of this landmark book, here's what you're missing:

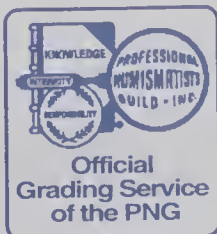

- ★ **Prize winning text**, written by John Dannreuther and other members of the PCGS staff. There are over 300 pages of detailed descriptions on how to grade every United States coin.
- ★ **Top quality photographs**, including 48 pages of full-color illustrations. This book not only tells you what to look for, it shows you!
- ★ **Expert explanations of all grades**. This is the first book available to publish professional grading standards for all eleven mint state grades, plus an equally comprehensive study of how proof coins are graded.
- ★ **A quality publication** in every way, published by House of Collectibles, a division of Random House. You'll definitely want to add this book to your permanent numismatic library.
- ★ **Free coin grading!** In the back of every book there's a coupon enabling you to submit one coin directly to PCGS for FREE grading. This \$30 value alone repays you for your cost of the grading guide.

Learn everything you wanted to know about grading U.S. coins and get one coin graded for free, all for only \$29.95 (plus shipping charges). Contact PCGS today to order *The Official Guide to Coin Grading and Counterfeit Detection* Now!

P.O. Box 9458, Newport Beach, CA 92658

The Coins Of 1804

1804 Bust Dollar

One of America's Most Famous Rarities. This Coin Needs No Introduction Except To Say It Is A Class Three PCGS PR58 Draped Bust Dollar. Pedigree: Amon Carter Collection. Price.....\$950,000

1804 Draped Bust 25C NGC AU55

This Coin Is A Pleasing
Problem Free AU Coin.
Pedigree: Eliasberg.
Price.....\$18,500

1804 Draped Bust 25C NGC MS63

This Is An Original Toned
Coin. Pedigree: Norweb
Collection.
Price.....\$70,000

1804 Draped Bust \$10 NGC MS63

Original Spot Free Surfaces,
Well Struck, And No Major
Adjustment Marks.
Price.....\$85,000

National Gold Exchange, Inc.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Dealers Attend Long Beach Expo

Rare Dates Shine At Auctions

The number of plus signs appearing in the Morgan Dollar series are decreasing. We have been watching the sight-unseen market intently as we approach the autumn season. We believe after many summer months of sustained increases the Dollar market for sight-unseen coins is **consolidating** at current levels. All financial markets are prone to profit taking from time to time. We even noticed some minus signs for common date MS63 Dollars. However, this does not mean that the market is in retreat. It also does not mean that dealers no longer need Dollars for their customers. We know that they do need rare coins. The rare coin market for Morgan Dollars is still vibrant at current levels. We know that many collectors are still very actively pursuing their needs to upgrade and fill in the missing gaps in their collections. Dealers still need coins for their inventories and customer's want lists. Collectors' wants are diversified so we will list a few of the popular areas. Dealers are looking to buy key and semi-key date Indian Head Cents; Lincoln Cents; Buffalo Nickels; Mercury Dimes; and, Walking Liberty Half Dollars. They are willing to pay strong money to buy specific dates. We see that they need these coins in quantities. This points to the fact that there are many collectors per dealer in need of specific dates. Dealers are looking to buy coins sight-unseen and sight-seen. In some cases, dealers are willing to pay as much as 80 percent of their sight-seen Bids for coins that are sight-unseen. This kind of support for the sight-unseen market helps dealers and collectors know the very bottom amount that their coin is worth.

The Long Beach Expo is underway with many dealers trying to buy coins that represent good value. This also is an opportunity to buy a few scarce dates for their customers. Early activity indicates that the demand for **quality rare dates** still command the greatest prices. This show is one of the largest shows held each year.

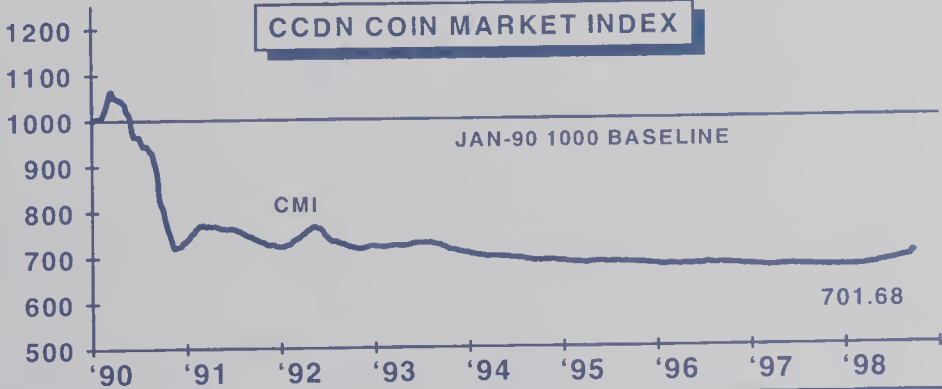

This is an active time of year for public auctions. The Bowers and Merena sale of the Leonard J. Torok, M.D. Collection and other consignments realized nearly \$1.8 million. The September 14-15 New York auction received a strong push from the Liberty Seated Dollar rarities from the Dr. Nathan Sonnheim collection. To the left are some of the many auction highlights.

An auction held by Superior September 21-22 realized approximately \$4.5 million. The auction was held in Beverly Hills, CA.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading network. All lists, coin values and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guarantee or that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

PCGS DMP1 and NGC D1 Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

IF GREEN (AS IN CASH) IS YOUR FAVORITE COLOR IN THE SPECTRUM . . .

Then **Spectrum Numismatics** is the rare coin company to see if you have coins to sell, a trade to make, a deal to finance, or a collection to buy that's momentarily beyond your means. Spectrum offers you:

*IMMEDIATE PAYMENT.

You get the money **now!** You can absolutely count on a bank wire or a same-day check if the transaction is done by mail. If we do a deal at a show, or at your office or ours, or at a financial institution, you'll receive your money on the spot. No transaction is too large for **Spectrum!**

*TOP PRICES.

Everyone can say it, but we're the ones who pay it. The largest price ever paid for a single coin was paid by **Spectrum**. The largest price ever paid for a private rare coin holding was paid by **Spectrum**. That includes **all** transactions in the history of numismatics through August, 1998. **All** of them.

*GENEROUS FINDER'S FEES.

In 1997 alone **Spectrum** paid \$3,065,845 in finder's fees and commissions. If you find a rare coin deal that's too large, too complicated, or one you don't want to get involved in for any legitimate reason, you don't have to leave the money on the table. Call **Spectrum!**

*FAIR TRADES.

Want to trade bullion for rare coins? How about rare coins for bullion? What about rare coins for other rare coins? Whatever your situation and needs, **Spectrum** is willing to work out a deal, and there's a high probability that we can get the deal done.

*MARKET KNOWLEDGE.

When you deal with **Spectrum**, you deal with numismatic professionals. We have the knowledge that covers the spectrum, whether it's a collection of early United States rarities, a hoard of pre-1950 20th century coins, or a large and diverse holding in all areas of the market. We are interested in buying. Period.

*FINANCING PACKAGES.

What does it take to get the deal done? Every situation seems to be unique in some way, and **Spectrum** has financing packages tailored to your needs.

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949) 955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the **King of Cash**.

"Great Site!"

"Great site! I visited every page and was very pleased. I especially liked the 'Did You Know?' selections."

Paul Simonetti, Heritage Rare Coin Galleries

"Valuable Tool"

"NGC's web site is a valuable tool for collectors. The wide range of resources and articles are certain to stimulate, inform, and educate. Great job!"

Kathleen Duncan, Pinnacle Rarities

"Bull's Eye!"

"NGC has hit the bull's eye with its web site! Their site is thoughtful, educational, and thoroughly enjoyable. Their attention to detail, particularly along the lines of consumer protection, is to be commended."

Frank Greenberg, Delaware Valley Rare Coin Company, Inc.

"First-Rate"

"The NGC web-site is a first-rate introduction to NGC and its services while showcasing the things that make rare coins an exciting hobby."

Keith M. Zaner, The Coin Dealer Newsletter

"Another Big Step"

"Your web site is another big step forward in accessible collector resources, superb images, and numismatic history, reflecting the quality we're accustomed to in NGC's grading and hobby services"

Anthony Swiatek, Minerva Coin and Jewelry Limited

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 40

October 2, 1998

Single copy price \$4.00

Collectors Boost Sight-Unseen Market Coiled Hair Stella Brings \$161,000

We have seen an increase in buying sentiments by dealers in the sight-unseen market. This exuberance is being expressed by their willingness to increase Bids for coins of many denominations. It is simply a continuation of the strong demand that we see in the sight-seen market. Still, the sight-unseen market has performed well this year. Dealers know that collector demand for rare coins has been solid throughout 1998. They tell us that buyers are willing to stretch their Bids in order to achieve success. This is true for many key and semi-key date coins of all series. Many scarce dates that appear infrequently are targeted by dealers. However, there are many common dates and varieties that have enjoyed increased demand and prices this year. Many of these common dates trade regularly in the sight-unseen market. Dealers continually post offers to buy specific dates and grades. When these Bids go unfulfilled, they try to entice sellers by increasing their Bid. We have watched this activity take place on the electronic dealer networks. We know that in some cases it has been paying off for dealers.

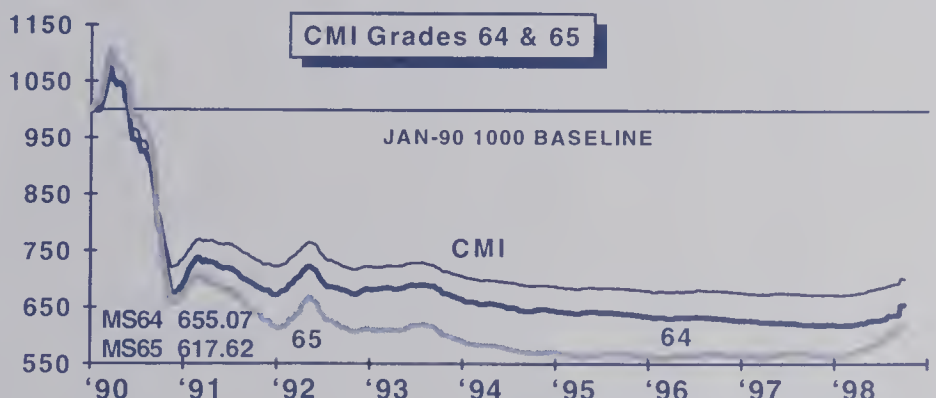

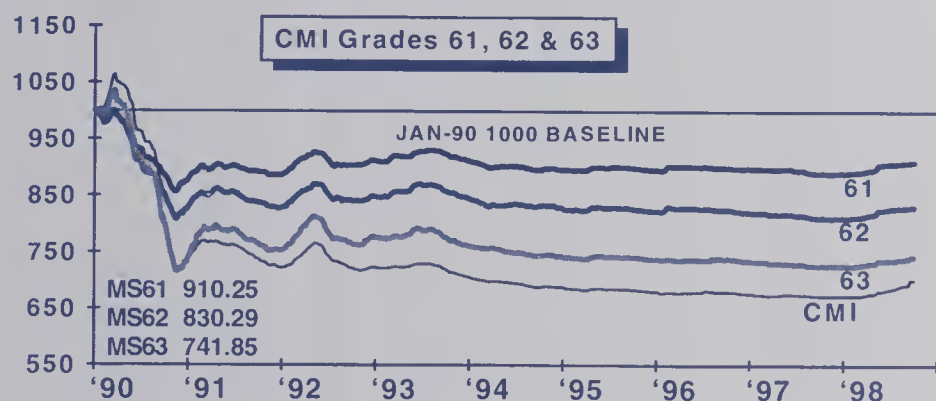

Interest in small Cents is very high. We have been monitoring dealer activity for Cents. They have been running long lists covering the dates they need in the grades they want. Flying Eagle Cents are demanded in all the circulated grades from Good through About Uncirculated. Dealers are looking for these Cents in quantities. They especially want VF and XF examples. These undoubtedly are earmarked for Type collectors. More ambitious collectors want Uncirculated Flying Eagle Cents. These are still affordable and available. Dealers have been placing Uncirculated Flying Eagle Cents with collectors. Indian Head Cents have attracted the collector eye for many years. Collectors have identified these Cents with the wild west and its truly American theme. Many scarce dates throughout the Indian Head Cent series make completing sets very challenging. A lot of these dates are tough to find even in circulated condition. Dealers look to buy these dates for inventory because they know how difficult it is to replace them or locate one. Many dates in the 1860s and 1870s are experiencing strong collector demand. Demand is strong for the initial year of the series, 1859. Besides being the first Indian Head Cent, it is a one-year Type. Key dates are always in favor. We see interest for the two San Francisco Mint Cents of the series, 1908-S and 1909-S.

Lincoln Cents have experienced strong dealer demand on the networks. Many dates from the 1909-1934 period are needed. Key dates are hot. The 1909-S VDB is steady in

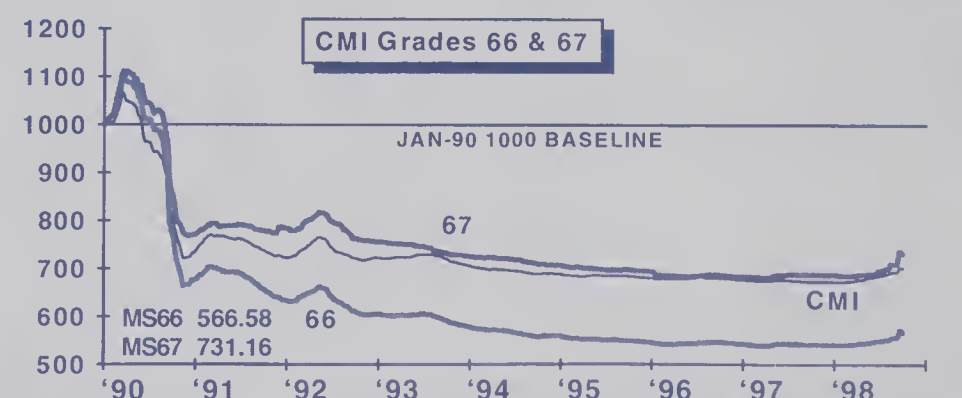

all circulated grades. Demand for scarce Denver and San Francisco Mint Lincoln Cents are being requested in quantity. There are many Lincoln Cent collectors trying to complete sets that they started many years ago. Baby Boomers that are now financially secure are returning to a hobby they began when they were younger. We know that collectors are willing to upgrade their sets. This attitude has helped to stimulate the rare coin market.

The Long Beach Sale featuring the Andre Dawson collection and Matte Proof Gold from the Estate of Ed Trompeter along with additional consignments brought more than \$6.3 million. The 2,575 lot auction was conducted Sept 24-25 by Heritage.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Consider sight-seen trades can be expected to occur at substantially higher levels in many cases.

"SEGS Revolutionizes Industry Standards For Coin Encapsulation and Certification"

Attention Collectors, Investors & Dealers:

SEGS offers a unique coin certification benefit above and beyond any other grading service. In addition to the standard industry label, we feature a "top label" on each and every coin capsule. Our advanced feature allows you to instantly find any coin you're searching for without removing all of your capsules from the storage box . . . it's "The Cat's Meow." This simple application relieves abrasions and scratches that occur from excessive handling. Unlike "Murphy's Law" . . . the observation that anything that can go wrong will go wrong . . . owning a spectacular SEGS (patent pending) capsule ends the perpetual search for one particular coin. No longer will you search endlessly . . . pulling each and every capsule out of the storage box. SEGS' "top label" identification places it right at your fingertips!

Combine this with our expert staff of consultants, confidential submittals, great looking holder, anonymity from SEGS' technical staff, and no tier pricing . . . SEGS will also, upon request, "showcase" the coin's reverse in the front viewing window of the capsule (3-legged 5¢, etc. now shown in the front window of the holder), varieties unlimited.

***PUT AN END TO THE WASTED HOURS YOU'VE SPENT SEARCHING THROUGH
COIN BOXES JUST TO FIND ONE CAPSULE!***

***SEGS' TOP LABEL LISTS ALL THE QUALIFYING INFORMATION YOU NEED TO ORGANIZE, CATEGORIZE
AND LOCATE EACH AND EVERY ENCAPSULATED COIN "INSTANTLY" EACH AND EVERY TIME!***

***TAKE ADVANTAGE OF SEGS' SPECIAL INTRODUCTORY PRICE OF ONLY \$8 FOR STANDARD SERVICE
(PER COIN, PLUS POSTAGE & INSURANCE).***

Early Gold, Washington Quarters In Demand Stack's Auction Offers Rare \$10 Coronet

We are still seeing strong activity in the sight-unseen market in early October. The demand for coins continues to be **impressive**. Dealers are looking to buy specific dates that remain unfulfilled on their customer's want lists. Therefore, dealers have continued to increase their Bids trying to shake some of these coins loose. Washington Quarters have been one of the laggards of the coin market. Yet, these past few months have been good for this series. Dealers have consistently increased their sight-unseen Bids for select dates from 1932-1940-D. Again this week, dealers have stepped up to the plate and posted strong offers, sight-unseen for Washington Quarters. Many dealers and collectors believe that these Better Date Washington Quarters have been undervalued. They may be correct. Dealers know that several of the early dates are especially difficult to locate in MS66 and better condition. Completing a high-grade collection of Washington Quarters is challenging because of the quantity of coins and the difficulty in locating each date in Gem Uncirculated. Also, dealers know that a lot of collectors want Proof dates, making the task even more difficult. This week, we see sight-unseen increases in the MS64, MS65 and MS66 category. Better Date Washington Quarters advancing includes 1932; 1932-D; 1932-S; 1934; 1934-D; 1935; 1935-D; 1935-S; 1936; 1936-D; 1936-S; 1937; 1937-D; 1937-S; 1938; 1938-S; 1939; 1939-D; 1939-S; and, 1940-D. These dates are not easily located in MS66 or better condition. The population numbers show a serious drop after MS65. The September 1998 PCGS Population Report lists 158 MS65 examples for 1932 but only 18 in MS66. Another example finds 378 MS65 1936-S Washington Quarters and only 43 in MS66. The key dates, 1932-D and 1932-S list MS65 examples at 20 and 41 respectively. However, there is only 1 recorded example each in MS66.

Gold is another area of the coin market is very strong. We have seen strong advances in **generic** Gold and **rare date** Gold in the sight-seen market. We have also been monitoring advances in the Mint State Gold Type and Proof Gold Type indexes in recent weeks. However, the current increases have not been as strong as we have seen in this week's sight-seen market. Still, one segment of the Gold market is doing very well. The sight-unseen market is experiencing strong increases for select Early Gold Type. A lot of dealer activity is noted among AU58

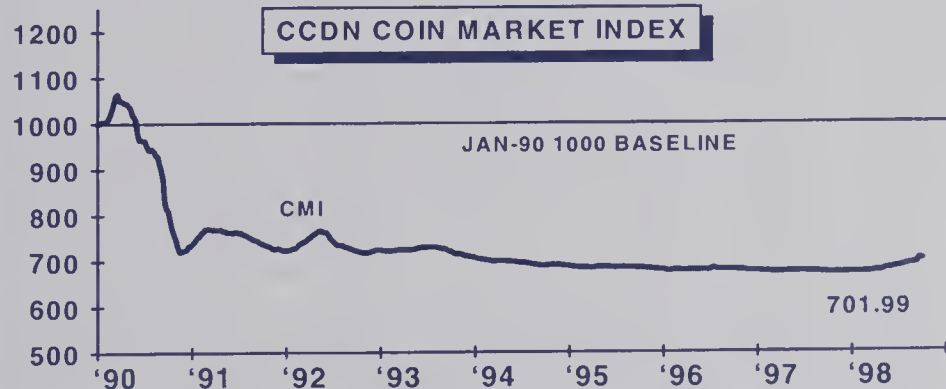

Type coins. These coins are considered sliders and in some cases preferred over low-grade Mint State examples. Specifically, dealers have posted strong increases for \$2.50 Capped Bust; \$2.50 Capped Head, Small Planchet; \$2.50 Classic Head; \$5 Capped Draped Bust; \$5 Capped Head, Small Planchet; and, \$10 Draped Bust, Heraldic Eagle. We also see nice increases for select Types in MS60, MS61, MS62 and MS63 grades.

Other areas doing well in the sight-unseen market include Silver and Gold Commemoratives; Prooflike Morgan Dollars; Morgan Dollars; Mint State Type; Proof Type; Mercury Dimes; and, Walking Liberty Half Dollars. Mint State Type is needed in MS63, MS64 and MS65 condition. The demand ranges from Half Cents through Trade Dollars. Apparently, there are many Type collectors working on sets. Dealers are trying to buy select dates for their customers. However, they do not mind adding many of these coins to their inventories.

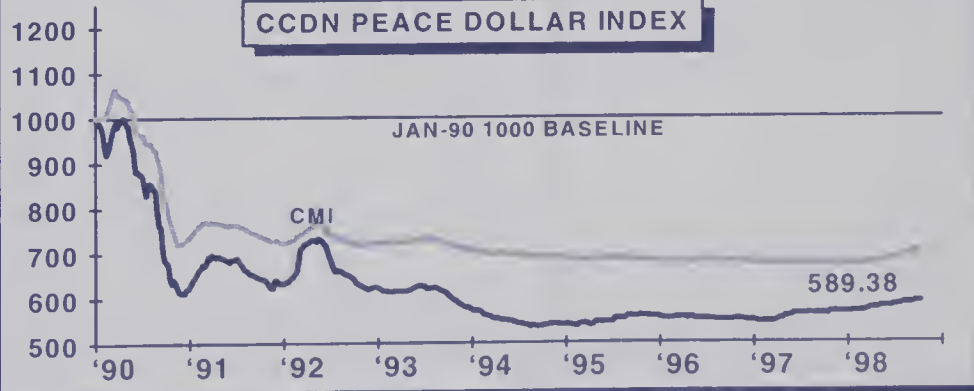

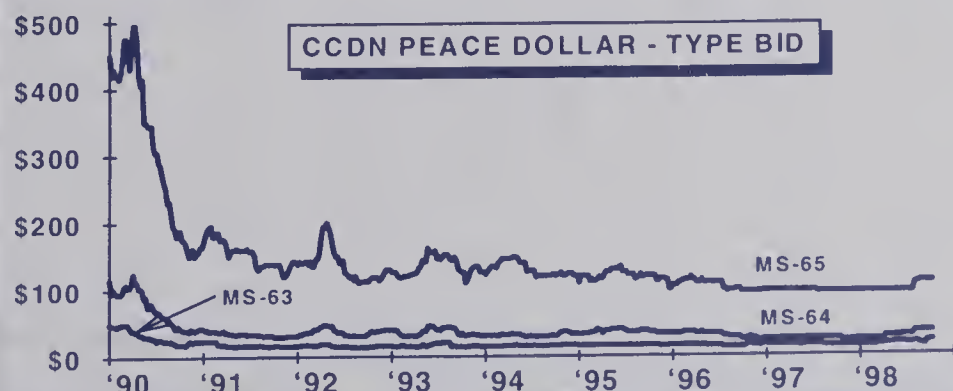

That is because they know that these coins are very popular and very salable at current levels.

Stack's will conduct an auction featuring the estate of Carl Zelson. The sale will be held October 20-21 in New York. It will contain 1,776 lots. We have listed a few of the many certified highlights.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

VarietyPlus...

Consistent Grading Standards *plus* Accurate Attribution

Desirable NGC Attribution

Full, accurate attribution information is prominently displayed, so sellers get a more complete description and buyers a confident purchase.

Peace of Mind

Security measures like our barcode, coin ID, tamper-evident and stackable holder, security hologram, and other measures provide greater security for your variety coins.

Environmental Protection

The recognized leadership of NGC's safety holder is a great way to begin protecting your collection from many environmental hazards.

Consistent, Accurate Grading

Consistent, accurate grading, the hallmark of NGC certification, is appreciated and respected by thousands of dealers and collectors worldwide.

Precision Design

Our pliable, chemically inert inserts are designed to tolerances so precise that we must gently bend the insert to place your coin inside, snug and secure from rattling.

\$5 for NGC Attribution

The VarietyPlus fee is just \$20, including NGC grading and variety attribution in a 21-working-day turnaround. For coins valued over \$1,000, or for faster turnaround, select one of our quicker grading tiers and just add \$5 per coin for the VarietyPlus attribution.

"I like NGC's variety attribution and grading service for 'Top 100' coins because my coins have the VAM variety and the 'Top 100' name right on the label. I feel confident my valued coins will be protected in NGC holders well into the future, and when it comes time to sell, I believe NGC VarietyPlus holders will attract a greater number of potential buyers."

Michael S. Fey, Ph.D.

co-author, *The Top 100 Morgan Dollar Varieties, The VAM Keys*

VarietyPlus by NGC now certifies & grades all these varieties!

- Half cents by **Breen** half cent numbers (from his Half Cent Encyclopedia);
- Large cents by **Sheldon & Newcomb** numbers;
- Half dimes (1794-1837) by **Valentine** numbers;
- Dimes (1796-1837) by **John Relch** numbers;
- Quarter dollars (1796-1838) by **Browning** numbers;
- Half dollars (1794-1836) by **Overton** numbers;
- Silver dollars (1794-1804) by **Bowers/Borckardt** numbers;
- Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only)
- All varieties in **The Cherrypickers' Gulde** and **The Cherrypickers' Top 150** (except ones designated by the authors as "low interest");
- All varieties in the **"Red Book"** (A Guide Book of United States Coins)

For more information about NGC, including our innovative PHOTO PROOF and VarietyPlus services, contact one of the 1,300-plus NGC dealers near you, or call **1-800-NGC-COIN (642-2646)**.

HOW TO GET THE CASH NOW!

The rare coin market performed very well in the past two years. Perhaps you've read about the many new price records set during the past few years. Perhaps you've attended recent rare coin auctions and witnessed for yourself the healthy prices that top quality U.S. coins now fetch. Perhaps you've attended a major coin show and noticed the hot and heavy action. The fact is that rare coins are selling very, very well. **THE BEST TIME TO SELL COINS IS WHEN YOU HAVE A WILLING BUYER.** And if you have rare coins that you've been thinking of selling, you now have a lot of willing buyers for those coins. Now is the time for you to get the cash!

The real question is where do you get the most cash. There is one firm that consistently pays the most for top quality pre-1950 U.S. rare coins. In the rare coin market, **Spectrum Numismatics** truly is the *King of Cash*. Here are the facts:

1. Last year, one firm in this country spent more money buying premier rare coins than any other rare coin firm. That firm was **Spectrum Numismatics**.
2. Last year, an 1804 Silver dollar sold at public auction for \$1,815,000, a new world's record for a rare coin. The buyer for the coin – **Spectrum Numismatics**.
3. Last year, **Spectrum Numismatics** paid \$3,065,845 in commissions and finder's fees to other dealers and individuals just to help **Spectrum Numismatics** buy the rare coins they needed!

Everybody says they pay top dollar, but the facts of the numismatic marketplace show that **Spectrum Numismatics** is the top buyer. Coin sellers, both dealers and collectors, are basically well informed. And these well informed sellers gravitate towards the highest buy prices. Coin sellers go where they can get the most cash for their coins. And most coin sellers realize they get the most cash for their coins from the rare coin market's *King of Cash*, **Spectrum Numismatics**.

Why does **Spectrum Numismatics** pay more than any other dealer for top quality pre-1950 U.S. rare coins? What's the catch? There's actually no catch at all, it's just a wise business decision. **Spectrum** is one of the largest coin dealerships in the world and has lots of coin hungry clients. **Spectrum** literally must either buy your coins or lose its clients. That's why **Spectrum** will pay outrageously high prices for your coins and that's why they make it so easy for you to get the cash.

IT'S EASY TO DO BUSINESS WITH THE *KING OF CASH*

If you have rare coins you want to sell and you want to sell them for absolutely top dollar, you'll be delighted to know how easy it is to do business with **Spectrum Numismatics**. You'll also be pleasantly surprised at the ultra quick turn around for your coin shipments and the swift **Spectrum** payment. And you can choose payment in either the form of either a **Spectrum** "Rocket" check or an immediate bank wire.

The time to get the cash is now. Call **Spectrum Numismatics** today. Call collect. Tell them you want to talk to the *King of Cash*.

AND THE WINNER IS...

☆☆☆☆ For the "Book of the Year" from the Numismatic Literary Guild

☆☆☆☆ For the "U.S. Coin Book of the Year" from the Numismatic Literary Guild

☆☆☆☆ For the Robert Friedberg Award from the Professional Numismatists Guild to John Dannreuther

They're the Oscar, the Emmy, and the Grammy awards of numismatic books, and this year all three went to *The Official Guide to Coin Grading and Counterfeit Detection* from the Professional Coin Grading Service (PCGS). If you don't have your copy of this landmark book, here's what you're missing:

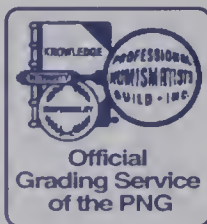

- ★ **Prize winning text**, written by John Dannreuther and other members of the PCGS staff. There are over 300 pages of detailed descriptions on how to grade every United States coin.
- ★ **Top quality photographs**, including 48 pages of full-color illustrations. This book not only tells you what to look for, it shows you!
- ★ **Expert explanations of all grades**. This is the first book available to publish professional grading standards for all eleven mint state grades, plus an equally comprehensive study of how proof coins are graded.
- ★ **A quality publication** in every way, published by House of Collectibles, a division of Random House. You'll definitely want to add this book to your permanent numismatic library.
- ★ **Free coin grading!** In the back of every book there's a coupon enabling you to submit one coin directly to PCGS for FREE grading. This \$30 value alone repays you for your cost of the grading guide.

Learn everything you wanted to know about grading U.S. coins and get one coin graded for free, all for only \$29.95 (plus shipping charges). Contact PCGS today to order *The Official Guide to Coin Grading and Counterfeit Detection* Now!

P.O. Box 9458, Newport Beach, CA 92658

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 42

October 16, 1998

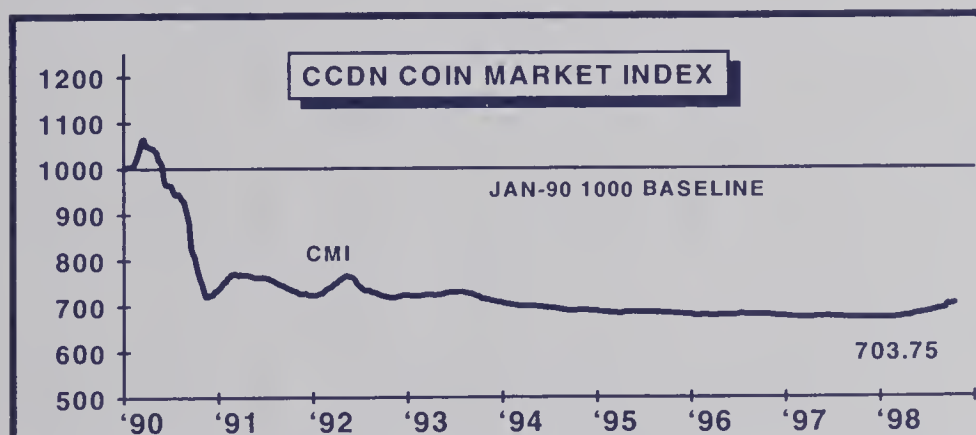

Single copy price \$4.00

Peace Dollars & Double Eagles In Demand Sight-Unseen Market Higher In October

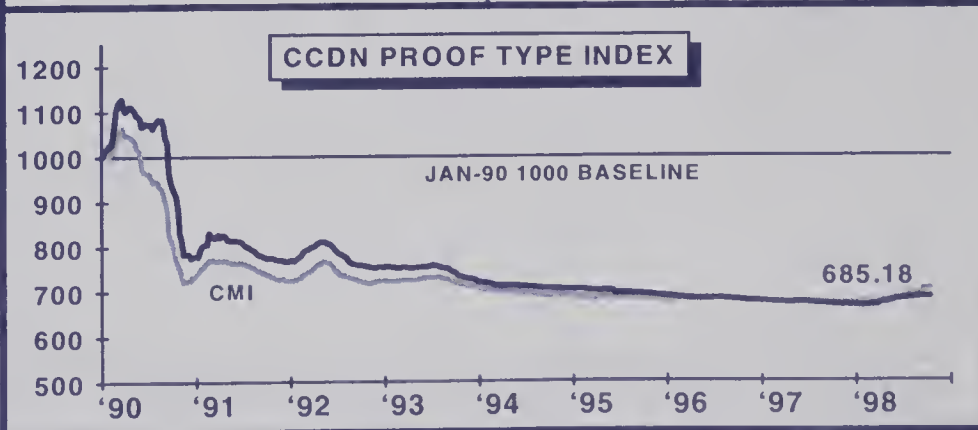

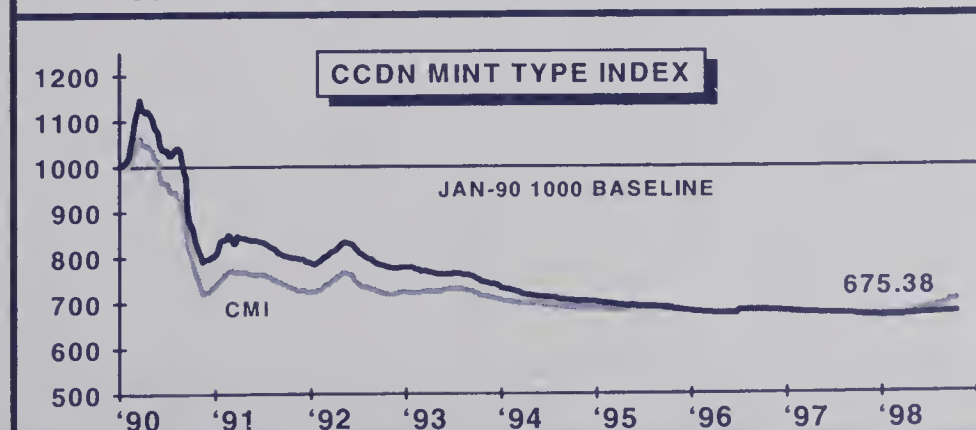

Dealers are looking more and more at Peace Dollars. The recent increases that we have seen throughout 1997 and 1998 in the Morgan Dollar series have caused Peace Dollars to look like bargains. Consequently, dealers have been willing to pay more to buy select Peace Dollars for their customers. We are seeing many increases in the sight-unseen Peace Dollar market. This scenario is true for both NGC and PCGS certified Dollars. Most of this week's activity is targeted in the MS63, MS64 and MS65 grades. Dealers believe that these grades currently represent **excellent** value. Some of the dates that are attracting dealers include 1921; 1923-D; 1923-S; 1924-S; 1925-S; 1926-D; 1926-S; 1928; 1934; 1934-D; and, 1935-S. We see that strong demand for these dates in MS64 condition may be fueled by collectors. The Peace Dollar series has been very popular with collectors. Completing a set of Peace Dollars is a lot less challenging and costly compared to completing a set of Morgan Dollars. For most collectors it is much more affordable. Also, they are able to complete the set in a relatively reasonable amount of time. For dealers, Bidding sight-unseen allows them to obtain specific dates for their customers. Dealers believe that this can be achieved efficiently and economically in the sight-unseen market.

However, dealers also continue to increase their Bids for Morgan Dollars. The general Dollar market is very healthy. We see increases in common date MS62 Morgan Dollars. These are attractive brilliant Uncirculated Dollars that are easily salable to collectors. Dealers are willing to pay \$19 for a silver Dollar that has been certified by either PCGS or NGC. Demand has also forced higher prices for MS64 and MS65 Morgans. We are even noticing some plus signs in the MS66 and MS67 grade category. Some of the many dates that dealers need for their customers and their inventories include 1878 7/8TF Strong Tail Feathers; 1878 7TF Reverse of 1879; 1880-CC Reverse of 1878; 1881; 1881-O; 1882-CC; 1885-S; 1889-O; 1891-CC; and, 1900-O/CC.

Generally, the rare coin market is doing very well. Dealers are very satisfied with its performance throughout 1998. Show attendance seems to be increasing and **optimism** is growing. All this optimism adds up to increases in many series and denominations. Gold is one of the market leaders today. Dealers are willing to pay strong money for certified and raw Mint State Gold Type. Dealers have readily increased their demand for \$20 Saint-Gaudens in MS61 through MS65 condition. Apparently, some investors in the financial markets are diversifying their portfolios by adding Gold. Often, the coins of choice are the double eagles. This is because they approach a full ounce of Gold and also offer some numismatic value. Currently, the premium being paid for common date \$20 Saints and Coronets is very high. This is true in the sight-seen market as well as the sight-unseen market. We have many plus signs throughout the Saint-Gaudens series. One dealer has increased the Bid for \$20 High Relief's to \$70,000. This amount is being offered **sight-unseen** for coins graded by either grading service. Also, the buyer needs three coins at this price level. Along with the common dates, some rare Saints have been increasing in value. Dealers are willing to pay more money because of their customer demand. The problem facing many dealers is availability. The scarce and rare dates are not as easily found. The price could increase before an example can be bought. Dealers have to be willing to pay more money or risk losing the deal. Dealers are successful when they retain their liquidity and they know their customer's ability to buy the coin at anytime. Some of the scarce dates from the \$20 Saint-Gaudens series displaying increases include 1908 With Motto; 1908-D No Motto; 1909-S; 1924-D; 1924-S; 1925-D; and 1926-S. Other series and segments of the market doing well include Standing Liberty Quarters, Mint State Type, Proof Type and Proof Gold Type. These are areas that collectors enjoy. It is no wonder that demand has increased for these coins. Dealers know that many of these coins offer collectors excellent value. This is especially true at today's attractive price levels.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

— ALL MAJOR CREDIT CARDS ACCEPTED —

Beauty is in the "eye" of the holder.

If you buy the coin, not just a holder then consider buying coins certified by the leading third party certification company. That's NGC.

Since its inception, NGC has urged the business and the hobby to "buy the coin" and not just what's on a holder. Why? Because, like you, we believe coins should be a passion as much as, or more than, a business.

NGC is committed to assuring that coins educated buyers most want to purchase are the coins in NGC holders. You buy NGC certified coins because you find the coins appealing. Then you have the added assurance that your instincts were right when you see the NGC certification, with its consistent and accurate grade.

NGC is the leading third-party grading service thanks to your support. And each day more collectors and dealers agree that one grading service continually offer the best overall value in products and services, while delivering a consistent and accurate grading standard they can count on.

coined at Salt Lake City from newly-mined California gold, this Mormon five-dollar piece, featuring the "all-seeing eye," is a rare uncirculated specimen, graded by NGC as MS-61.

www.NGCcoin.com

That's NGC.

Consistently grading more of the world's finest coins, like yours.

For more information about NGC, including our innovative PHOTO PROOF and VarietyPlus services, contact one of the 1,300-plus NGC dealers near you, or call 1-800-NGC-COIN (642-2646).

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XIII No. 43

October 23, 1998

Single copy price \$4.00

Sight-Unseen Market Strong Across-The-Board Demand, Activity Increasing During The Fall

We are experiencing a generally strong sight-unseen rare coin market. Activity on the electronic dealer networks has **reinforced** the notion that this market is doing very well. Dealers are mainly posting Bids that support or increase the current levels. The demand has spread throughout many sectors of the market. We see strength in virtually all the indices that we monitor each week. The Silver Commemoratives have been receiving solid Bidding since the first week in July. Dealers believe that Commems represent excellent value for their customers. They are also a popular item with collectors. Most important, they are found in high quality condition. These are a couple of reasons why these coins have become easy sellers. Dealers know that many collectors demand brilliant, white examples. They prefer the coins that exhibit superior eye appeal and luster. However, there are collectors that try to buy attractively toned Commems. They want coins that are original with rainbow toning. Gold Commems have not fared as well as the Silver Commems. We still see some weakness in this sector with decreases in MS65 thru MS67.

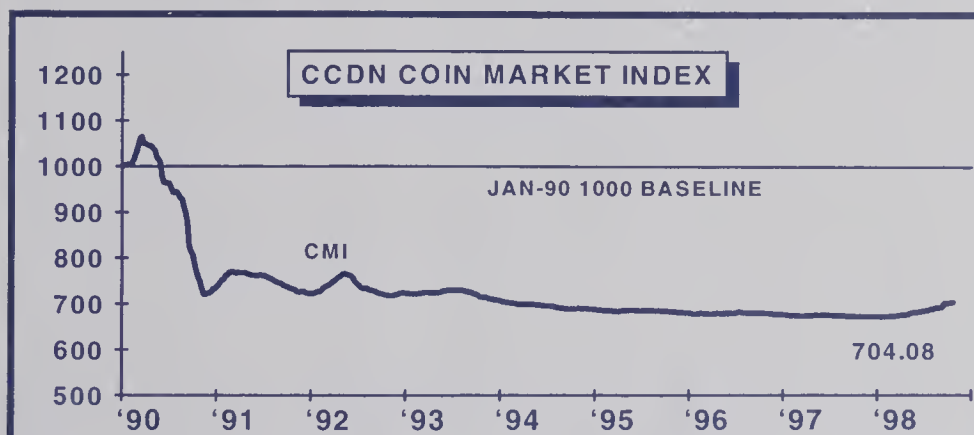

Morgan Dollars have been a steady performer throughout 1998. Demand has permeated all the grades of this popular series. We continue to see plus signs for Morgans in the sight-unseen market. Dealers are posting supporting and increasing Bids for key and semi-key dates. It is not only the common dates that have benefited this year. Dealers are in need of scarce dates for their customers and resort to the networks hoping to buy coins. Deep Mirror Prooflike Dollars are also in demand. Dealers have many customers building DMPL sets. The challenge facing collectors is great. However, a set of DMPL Dollars is something collectors could be very proud to own. The difficulty facing dealers is the availability of many dates throughout the series. We know that many dates are very difficult to locate, even in MS63DMPL.

Peace Dollars have been acting more favorably. We see that Bids have been forthcoming in this series. Although the interest in Peace Dollars is less than for Morgan Dollars, demand is increasing. Dealers are finding it necessary to increase their offers to obtain coins. Peace is **synonymous** with popularity.

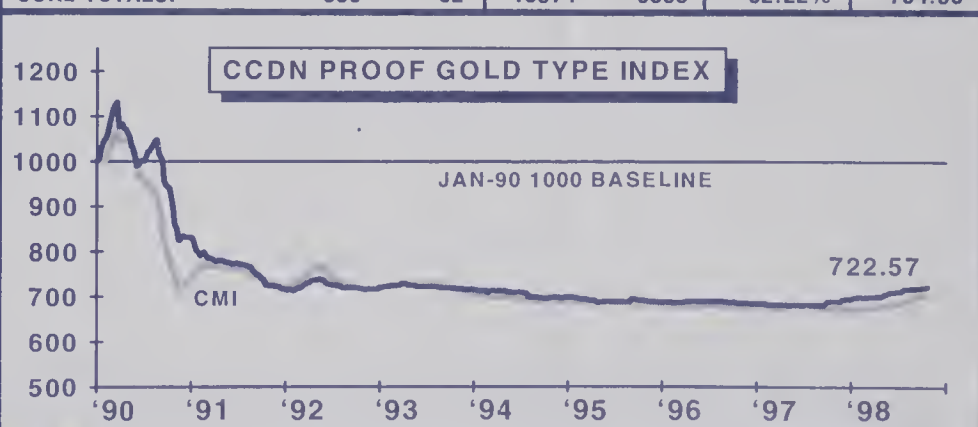

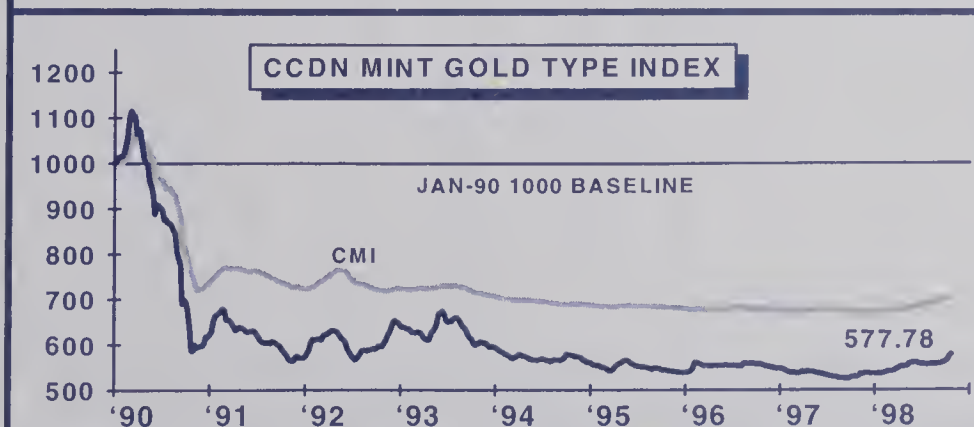

Collectors like the Peace Dollar set because it is easier to complete than the Morgan Dollars. However in MS64 and better condition, this set will offer many obstacles for collectors.

The Type market is very strong. This includes Mint State Type, Mint State Gold, Proof Type and Proof Gold Type. The cost of collecting by date can be astronomical. The sensible way for many is collecting or investing by Type. We see demand for Type coins to be across-the-board. The Bust and Liberty Seated designs continue to be popular. Dealers are looking to buy these coins whenever they can. Generally, MS63 and better are desired when it comes to the business strikes. Proof Type receives more interest at Proof 64 and better. We still see a bit more emphasis towards the larger denomination coins. Common date examples satisfy the collectors and the Type definition. Mint State Gold is experiencing very strong dealer demand. The premiums have jumped dramatically relative to Gold bullion. We see demand for circulated and Uncirculated Gold. Certified demand has jumped for coins grading MS61 and better. Double Eagles head the demand for Gold. Collectors/investors are buying common date \$20 Liberties and \$20 Saint-Gaudens for many reasons. **Diversifying** their portfolios is an important reason. This diversification is taking place by buying Gold in quantity. They feel more comfortable taking a position in numismatic Gold. This gives them the benefit of bullion and scarcity. Therefore, dealers are forced to increase Bid to obtain coins. Satisfying the current demand has put pressure on the available supply. Dealers say that the amount of Gold coming from Europe is dwindling. So, with demand increasing and supplies relatively constant, price has no choice. Consequently prices have been increasing.

Other areas that have realized increased prices in the sight-unseen market include Buffalo Nickels and Mercury Dimes. In these two series, dealers have specific dates and grades to buy for their customers. The needs are more specific because it is primarily a collector driven market. However, there are occasions when an investor looks to buy an exceptional quality key date. Still, the collector base provides excellent support for this segment of the market.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client on-sight sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin flows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ **\$7⁵⁰ PER COIN**

✓ **6-DAY SERVICE**

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CCDN does not represent that it is possible to purchase selected coins at their Bid levels. Considerable volatility in the market can be expected to occur, and sight-seen trades can be expected to occur at substantially higher levels in many cases.

PROOF SINGLES Bids for Lincoln Cents are for full-red specimens in PR64 and higher.

Bids for Lincoln Cents are for full-red specimens in PR64 and higher.

[illegible]

SINCE THE ANA SHOW, **LEGEND NUMISMATICS** HAS PURCHASED:

- The New England Collection of Trade Dollars. Included were the Norweb '84 and '85 specimens - both PCGS PR62.
- Eliasberg 1821 NGC PR67 and 1822 NGC PR68 Bust Quarters. These are the finest known!
- An 1804 \$1 PCGS PR58 - the Amon Carter specimen.
- Over two million dollars worth of choice and GEM PCGS/NGC rarities.

And we still need coins!

We are especially interested in:

- Finest graded PCGS/NGC PR Indian Cents (RD or RB).
- Finest graded PCGS/NGC PR Lincoln Cents (RD or RB).
- All white, rare date PCGS Morgans 63 and better.
- PCGS/NGC Ty I & TY II \$20 AU and higher.
- Monster colored Commems PCGS/NGC 65 and higher.
- All finest known PCGS MS Trade Dollars.

Give us a call and let us know what you have, Immediate funds available.

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XIII No. 44

October 30, 1998

Single copy price \$4.00

Stack's Auction Realized \$2.7 Million

Bowers Sale Offers Rarities

We are seeing strong demand for common date Morgan Dollars in the sight-unseen market. Dealers continue to increase their offers for NGC and PCGS Dollars in MS63, MS64 and MS65. Bid has climbed to \$87 in MS65 for either NGC or PCGS graded coins. Interest is also being seen among Carson City Dollars. However, the demand for this Western Mint is targeted at the MS61 thru MS63 grades. Dealers tell us that there are many collectors buying Morgan and Peace Dollars. Also, the Carson City Mint is very popular with the general population. The popularity of the Morgan Dollar series is still very strong. Collectors attempting to complete an Uncirculated set of Morgan Dollars may find the road financially challenging. High priced, key dates can be quite a tough obstacle for many collectors. For example: Dealers are asking approximately \$6,750 for an MS61 1889-CC. This is an important key date of the Carson City issues. Higher grades are infrequently available at much higher prices. Dealers tell us that for some of their customers price is no object. Unfortunately, they are unable to buy many of the dates that their customers want. Mainly, dealers face an availability problem. They find themselves competing in the marketplace with many other dealers. Often, their needs are very similar. Consequently, when a dealer finds a coin that he desperately needs the price may exceed expectations. When a rare date is on the auction block, a runaway price is always a strong possibility.

Mint State Gold Type has been found among the leaders of the sight-unseen market for several weeks. The strong demand for Gold has encouraged dealers to be more aggressive with their Bids. Although we continue to monitor strong supporting offers for Gold, the activity and vitality of this sector of the market appear to be decreasing. The pressure from Gold bullion failing to increase above the \$300 per ounce level may be influencing the market. Still, dealers tell

STACK'S DATE	DENOMINATION	GRADE	PRICE REALIZED

cluded a few of the certified examples from the 1,776 lot sale above.

Bowers and Merena will conduct an auction in Baltimore November 12-14. The sale will feature selections from Craig M. Morgan, M.D.; Stephen C. Leckar; Columbia and Time Capsule collections; and, the Great Lakes collection. In all, there are more than 2,500 lots and we have included some of the many certified highlights to the right.

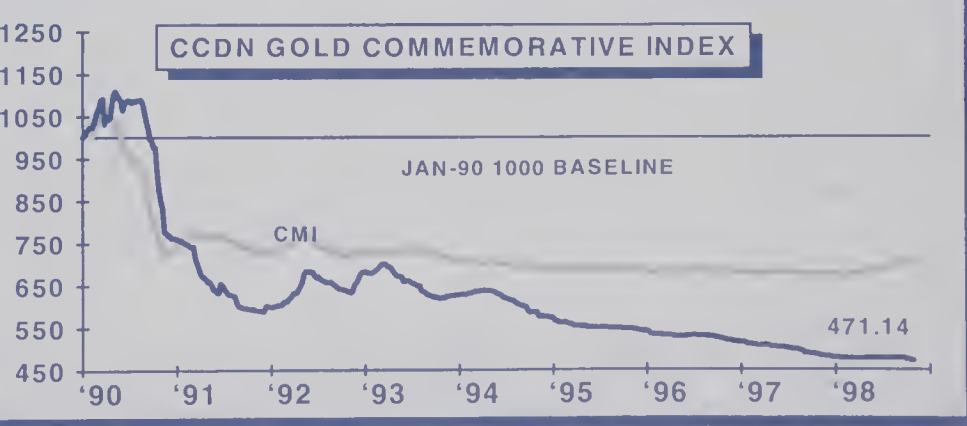

us that they have many customers looking to buy Gold for their collections or add them to their portfolios. Probably the strongest demand is seen for \$20 Liberty and Saint-Gaudens. These coins contain approximately 1-ounce of Gold. This makes them very versatile to buyers. It satisfies their need for bullion as well as benefiting from owning a numismatic coin.

Stack's realized \$2.7 million at their 63rd Anniversary Sale that featured the Estate of Carl Zelson. The auction was held in New York on October 20-21. Active and strong Bidding was seen for quality and rare date coins. There were many highlights and we have in-

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest rationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

UNITED STATES GOLD TYPE COINS

Lib

IF GREEN (AS IN CASH) IS YOUR FAVORITE COLOR IN THE SPECTRUM . . .

Then **Spectrum Numismatics** is the rare coin company to see if you have coins to sell, a trade to make, a deal to finance, or a collection to buy that's momentarily beyond your means. Spectrum offers you:

*IMMEDIATE PAYMENT.

You get the money **now!** You can absolutely count on a bank wire or a same-day check if the transaction is done by mail. If we do a deal at a show, or at your office or ours, or at a financial institution, you'll receive your money on the spot. No transaction is too large for **Spectrum!**

*TOP PRICES.

Everyone can say it, but we're the ones who pay it. The largest price ever paid for a single coin was paid by **Spectrum**. The largest price ever paid for a private rare coin holding was paid by **Spectrum**. That includes **all** transactions in the history of numismatics through August, 1998. **All** of them.

*GENEROUS FINDER'S FEES.

In 1997 alone **Spectrum** paid \$3,065,845 in finder's fees and commissions. If you find a rare coin deal that's too large, too complicated, or one you don't want to get involved in for any legitimate reason, you don't have to leave the money on the table. Call **Spectrum!**

*FAIR TRADES.

Want to trade bullion for rare coins? How about rare coins for bullion? What about rare coins for other rare coins? Whatever your situation and needs, **Spectrum** is willing to work out a deal, and there's a high probability that we can get the deal done.

*MARKET KNOWLEDGE.

When you deal with **Spectrum**, you deal with numismatic professionals. We have the knowledge that covers the spectrum, whether it's a collection of early United States rarities, a hoard of pre-1950 20th century coins, or a large and diverse holding in all areas of the market. We are interested in buying. Period.

*FINANCING PACKAGES.

What does it take to get the deal done? Every situation seems to be unique in some way, and **Spectrum** has financing packages tailored to your needs.

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949) 955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the *King of Cash*.

GOLDMUNZEN INTERNATIONAL RONALD J. GILLIO, INC.

Ronald J. Gillio Auctions / Gillio Coins Ltd. Hong Kong
Professional Numismatists

** Since 1961 **

Specializing in U.S. Gold: \$1 through \$20, 1795-1932, Common to Rare.

We are one of the largest importers of U.S. gold coins from Europe since 1961. We offer competitive prices on all U.S. gold, especially \$10's and \$20's, and we are a major producer of slabbed coins through PCGS and NGC.

Date: 10/27/98

Web: www.gillio.com • email: rjgillio@gte.net

Gold Spot: 293.60

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 45

November 6, 1998

Single copy price \$4.00

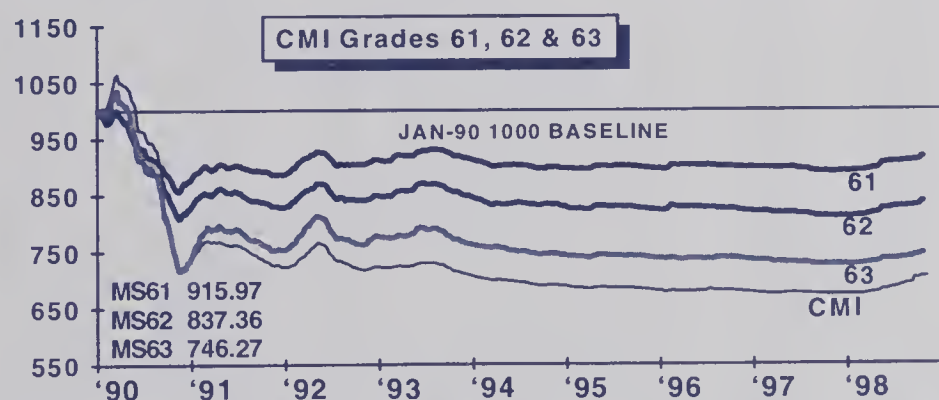

Sight-Unseen Market Selectively Strong Commems Command Respect

Strong activity continues to define the current sight-unseen rare coin market. Dealers are actively looking to buy coins for their customers. Collectors are getting more and more involved in their hobby today. Consequently, they are turning to dealers for assistance. Initially, dealers help them by offering advice, gained through experience. Each collector must have a clear direction before pursuing any goal. For example the care and presentation of each collection may need to be addressed. Astute dealers offer this information and answer other questions and concerns routinely. The collector base continues to expand. Dealers know that an important reason is related to the well being of this market. The market has enjoyed steady increases throughout 1998. Sharp or steady price increases mean that decisions need to be made quickly and accurately to be more effective. Delays could be costly. Dealers know that it takes time to buy specific coins. Often, when a much needed coin becomes available, the price may be a lot higher than it was originally estimated. Dealers know that buying coins that represent good value is very important. Therefore, dealers regularly offer their expertise to their customers. This helps them to determine whether or not a potential coin represents good value. The decision is weighed carefully against the current price for the coin and alternative choices. Consequently, dealers are always looking for quality and rare coins for their inventory. When a coin that, they believe, represents good value comes along, it is usually bought.

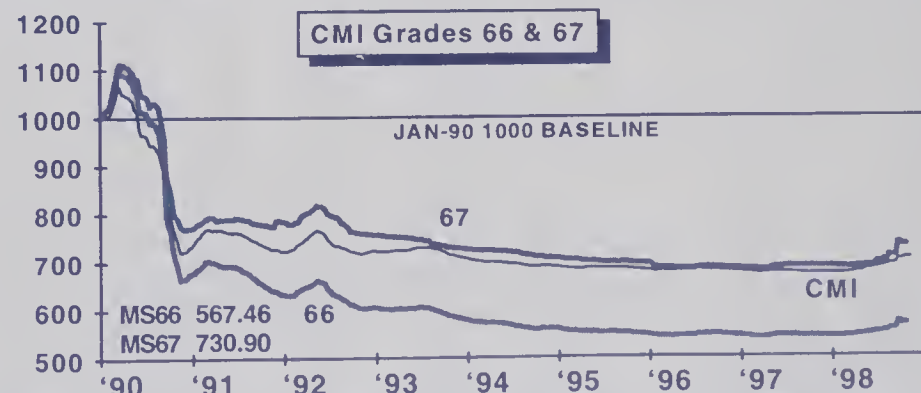

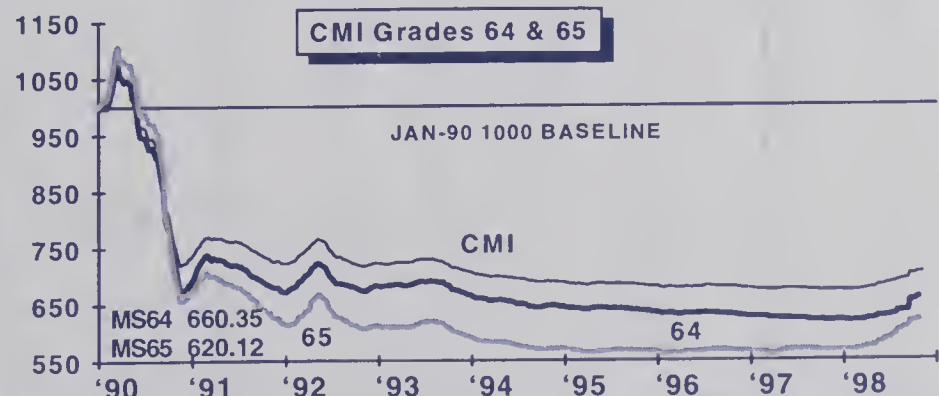

Dealers need to have a generous supply of these coins to offer their customers and potential new customers. Bidding for specific coins in the sight-unseen market is one avenue that dealer like to utilize. We have monitored the activity in this forum throughout the year. We have seen regular increases in many areas of the rare coin market. During the last month or so, Silver Commemoratives have been eagerly sought-after by dealers. Many dealers are looking to buy coins that range from \$200-\$2,000 or more. They are willing to accept coins that are brilliant white or have soft, natural toning. Coins that are originally colorfully toned find easy placements with customers. Moreover, a dealer is willing to buy a single coin or an entire collection.

Rare dates in quality condition are also sought-after in the sight-unseen market. We have monitored dealer Bids for scarce Standing Liberty Quarters. They want the better dates of the series in high grades. Generally, they are looking for MS64 thru MS67. However, they also want the well-struck Quarters that possess a Full Head. Many dates in the Standing Liberty Quarter series are available and affordable in the upper Mint State grading category. Consider what happens when a customer demands the coin to have a full strike. When a coin is demanded with a Full Head, the picture can change dramatically. Consequently, it is not unusual for dealers to pay very strong money for specific dates bearing the Full Head. Dealers tell us that they have many astute customers trying to buy these dates. These knowledgeable collectors are willing to pay for these dates. In some cases, collectors are working on high-grade sets of Quarters. They have the financial means to get the best. However, the availability of these dates makes it a very challenging endeavor. Some of the dates on many collector's wish lists, in MS65FH and better condition, include 1918-S, 1919-D, 1919-S, 1920-S, 1926-D, 1926-S, 1928-D and 1929-D.

Gold has been a big part of the sight-unseen market. These coins regularly trade, dealer-to-dealer, on a daily basis. This market is being fueled by collector and investor demand for numismatic coins. It is understandable that some diversification is taking place in portfolios. The volatile nature of today's financial markets makes the ownership of some Gold a necessity. The largest demand is targeting the double eagles. The need for Liberty's and Saint-Gaudens \$20 Gold pieces is great. Dealers tell us that their customers are looking for common dates in circulated and Uncirculated condition. Also, they want these coins in reasonable quantities. They prefer certified coins because of the protection they provide. Buyers feel more comfortable knowing that these coins have been declared genuine. Unfortunately, dealers are still finding it difficult locating enough coins to satisfy the demand. They want coins at a reasonable price for the quality.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Inventory Selections

LIBERTY NICKELS				
1902	PCGS Mint State-67	\$6,000	Finest Known. Population 1 - None better.	
1912-D	NGC Mint State-67	\$9,000	The Finest Known. Eye-appeal=10. Absolutely superb!	
1912-S	PCGS Mint State-65	\$4,000	Blazing white and beautifully struck. Exceptional!	
1913	NGC Proof-66	P.O.R.	Finest Known. Population 1 - None Better.	
1883 1912 Complete Set	NGC Proof-65	\$29,500	Perfectly match set. A great "put away" for the kids.	

SEATED LIBERTY HALF DIME				
1870-S	PCGS Mint State-63	P.O.R.	Unique! Mintage: 1	

DRAPED BUST, SMALL EAGLE DIMES				
1796	PCGS Mint State-67	\$195,000	Finest Known. Population 1 - None Better.	
1796	NGC Mint State-66	\$65,000	Beautiful brilliant white and highly attractive. Superb.	
1796	PCGS Mint State-65	\$55,000	Lightly toned, great strike. A "real" gem example.	
1797	NGC Mint State-66	\$125,000	Finest Known. Population 1 - None Better.	

SEATED LIBERTY DIME				
1876-CC	PCGS Proof-65	\$275,000	Unique! The only one ever graded.	

BARBER DIMES				
1894-S	NGC Proof-66	P.O.R.	Finest Known. Population 1 - None Better.	
1892-1916 Complete Set	NGC Proof-66 Cameo	\$55,000	All black and white matched cameo gems. Great set.	

MERCURY DIMES				
1916-D	NGC Mint State-66FB	\$50,000	Blinding white gem. Fully struck example of this "Key"	
1942/1	NGC Mint State-68	\$95,000	Finest Known. Population 1 - None Better.	
1942/1-D	PCGS Mint State-65FB	\$17,500	Original light golden tone. Fully struck and original.	

TWENTY CENT PIECES				
1876-CC	NGC Mint State-66+	\$395,000	Finest Known. Blazing white and fully struck!	
1876-CC	PCGS Mint State-66	\$350,000	Beautiful toned. Ex. Norweb Collection.	

DRAPED BUST QUARTER				
1827/3	PCGS Proof-66	\$550,000	Finest Known. Population 1 - None Better.	

SEATED LIBERTY QUARTER				
1842 Small Date	PCGS Proof-65	\$175,000	Finest Known. Population 1 - None Better.	

BARBER QUARTERS				
1896-S	NGC Mint State-67	\$90,000	Finest Known. Population 1 - None Better.	
1901-S	PCGS Mint State-67	\$125,000	Finest Known. Population 1 - None Better.	
1913-S	PCGS Mint State-67	\$40,000	Finest Known. Population 1 - None Better.	

STANDING LIBERTY QUARTERS				
1916	PCGS Mint State-65FH	\$25,000	Original with beautiful strike and amazing eye appeal.	
1918/7-S	NGC Mint State-67	\$225,000	Finest Known, Population 1 - None Better.	
1918/7-S	NGC Mint State-66	\$135,000	Blast white gem. Extremely bold overdate. A monster!	

SEATED LIBERTY HALF DOLLAR				
1839 No Drapery	PCGS Mint State-65	\$350,000	Finest Known. Population 1 - None Better.	

WALKING LIBERTY HALF DOLLARS				
1919-D	PCGS Mint State-65	\$95,000	Superb original gems. Great Strike. Great "Look."	
1921-S	PCGS Mint State-65	\$65,000	Original and extremely attractive. A "real" gem.	
1916-1947 Complete Set	PCGS Mint State-65	\$325,000	A 20 year project. All white or lightly tones gems. Super.	

SEATED LIBERTY DOLLARS				
1859 No Motto	NGC Proof-65	\$11,000	Original, lavender toned gem. Rare and in demand.	
1871 With Motto	PCGS Mint State-65	\$32,500	Blast white gem. Unbelievable eye-appeal. A monster!	

TRADE DOLLARS				
1880	NGC Proof-66	\$12,500	Black and white. Highly reflective cameo gem.	
1882	NGC Proof-66	\$12,500	Superb black and white cameo gem. Outstanding!	
1883	NGC Proof-66	\$12,500	Superb black and white cameo. Sensational coin.	
1884	NGC Proof-65	\$400,000	Blazing white cameo! Superb.	
1885	NGC Proof-66	P.O.R.	Finest Known. Population 1 - None Better.

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 46

November 13, 1998

Single copy price \$4.00

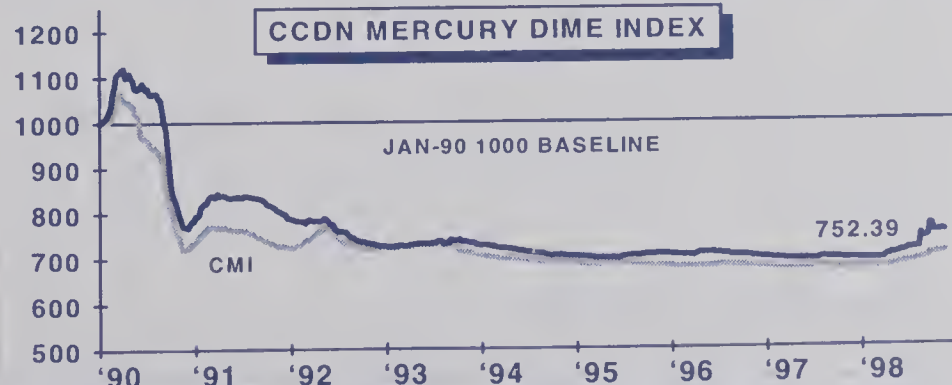

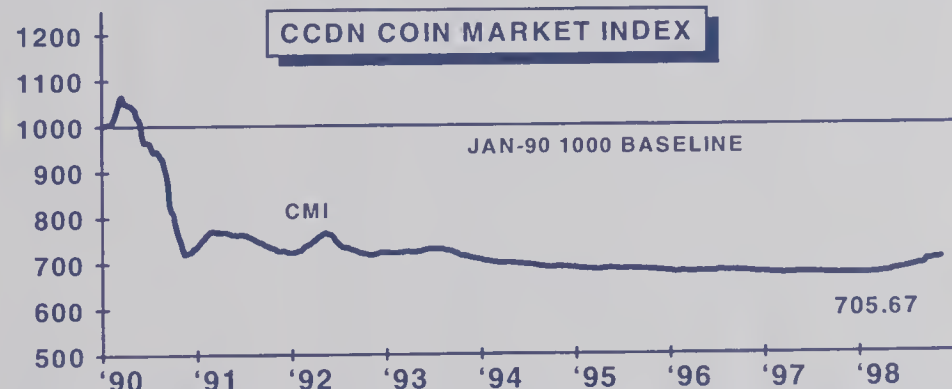

Popular Series Propel Sight-Unseen Market Silver Commems Still Strong

Demand for the 19th & 20th century "popular" series helps to keep the market rally in place this November. The sight-unseen rare coin market is steadily improving with each passing week. Dealers tell us that many of their customers are looking to buy coins from these series. These collectors are knowledgeable and relentless in their efforts to add coins to their collections. Consequently, dealers have been utilizing the electronic networks trying to buy and sell rare coins. When they offer to buy a coin sight-unseen, they have a better chance of acquiring material. They only care that the coin has been graded and certified by either NGC or PCGS. Obviously, Bids on a sight-unseen basis are more conservative than their sight-seen counterparts. Similarly, dealers expect to receive coins that are average for the grade. Often, these coins will do just fine. However, if a coin is considered to be above average for the grade then it's an added bonus.

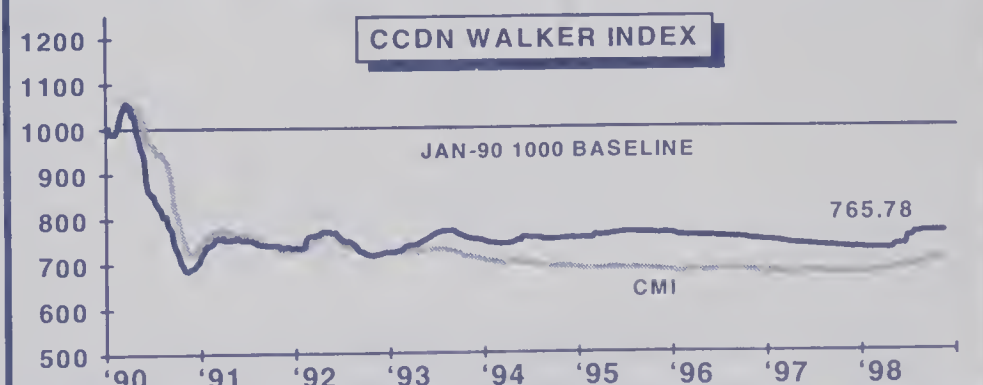

Some of the popular series needed by dealers include Indian Head Cents, Lincoln Cents, Buffalo Nickels, Mercury Dimes, Standing Liberty Quarters, Washington Quarters and Walking Liberty Half Dollars. **Morgan Dollars** has been a very strong leader among the popular series. Dealers know that there are many collectors still actively upgrading and working on the long running series. We know that many collectors are building high-grade circulated and Uncirculated sets. This long series is full of scarce and rare dates. The challenge is tremendous but so is the reward. Some collectors choose to complete the set, sell their set and then start a new set. Sometimes they want Brilliant Uncirculated, white Dollars. Other times they desire attractive, rainbow toned Morgans. We have seen the popularity and demand increase for Prooflike and Deep Mirror Prooflike Dollars throughout 1998. Collectors know that obtaining nice sets of DMPL and Prooflike Dollars is a very ambitious undertaking. Patience and good finances will be necessary if one is to be successful in this endeavor.

We have seen many popular series increasing in value in the sight-unseen market. Dealers are exploring all of their avenues hoping to buy coins for their customers. Increasing their Bid is one way to win some of these badly needed dates. We see that in some cases it has proved to be successful. **Silver Commemoratives** are one series that has not seen great demand early in the year but is doing very well today.

Lately, the Silver Commemorative series has been among the actively traded numismatic groups. Demand has pushed prices higher. Dealers are participating by increasing their Bid for many issues throughout the Commem listing. The middle Mint State grades appear to be receiving the bulk of the demand. We see a lot of MS64 thru MS66 coins increasing in value. The 1893 Isabella Quarter is in strong demand. Many collectors want this Commem because of its odd denomination. Most of the Silver Commems struck before 1955 were the Half Dollar denomination. The Isabella Quarter begins at nearly \$200 for a MS61 example. Moreover, collectors will need approximately \$600 to secure an example grading MS64. Dealers are currently Bidding between \$500-\$550 sight-unseen for this Commem. In MS65 the wholesale Bid crosses the \$2,000 level with MS67's over \$5,000. Another example of this kind of demand is seen for the 1900 Lafayette Dollar. The Quarter and Dollar denominations are unique to early Silver Commems. The Lafayette Dollar is a very difficult coin to find above MS64. The October NGC and PCGS Population Reports list a combined 659 pieces in MS64. The number really drops off in MS65 with a combined total of only 227. Therefore, it should come as no shock that Bid in MS65 is more than 3 times the MS64 Bid. Dealers have many customers interested in the Isabella Quarter and the Lafayette Dollar. Some of them are looking to upgrade their coins while others want to buy one for the first time. Dealers try to accommodate this demand by stocking these coins when they get the chance. Popular coins and scarce date coins never seem to stay in inventories for any length of time.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Have you been Cherrypicked?

Are you missing a desirable variety attribution for your certified coins?

Before VarietyPlus...

A very nice
type coin.

NGC's VarietyPlus grading tier certifies & grades all of these-varieties...

Half cents by Breen half cent numbers (from his *Half Cent Encyclopedia*) ❖ Large cents by Sheldon & Newcomb numbers ❖ Half dimes (1794-1837) by Valentine numbers ❖ Dimes (1796-1837) by John Reich numbers ❖ Quarter dollars (1796-1838) by Browning numbers ❖ Half dollars (1794-1836) by Overton numbers ❖ Silver dollars (1794-1804) by Bowers/Borckardt numbers ❖ Silver dollars (1878-1921) by VAM numbers (Top 100 varieties only) ❖ All varieties in *The Cherrypickers' Guide* and *The Cherrypickers' Top 150* (except ones designated by the authors as "low interest") ❖ All varieties in the "Red Book" (*A Guide Book of United States Coins*).

After VarietyPlus...

The same coin, a rare Browning-5 quarter, is highlighted for its rarity and desirability, thanks to VarietyPlus attribution. Bottom Line: An added value for collectors!

Are you missing a desirable variety attribution for your certified coins? Why not highlight this popular variety with-NGC's VarietyPlus tier, instead of leaving it off for the next dealer to discover? For only an extra \$5 per coin, you can have variety coins like this rare quarter attributed, graded, and encapsulated by NGC, the ANA's Official Grading Service and the consistent leader in third-party grading.

For more information about NGC's VarietyPlus grading tier, call

1-800-NGC-COIN

(1-800-642-2646).

HOW TO GET THE CASH NOW!

The rare coin market performed very well in the past two years. Perhaps you've read about the many new price records set during the past few years. Perhaps you've attended recent rare coin auctions and witnessed for yourself the healthy prices that top quality U.S. coins now fetch. Perhaps you've attended a major coin show and noticed the hot and heavy action. The fact is that rare coins are selling very, very well. **THE BEST TIME TO SELL COINS IS WHEN YOU HAVE A WILLING BUYER.** And if you have rare coins that you've been thinking of selling, you now have a lot of willing buyers for those coins. Now is the time for you to get the cash!

The real question is where do you get the most cash. There is one firm that consistently pays the most for top quality pre-1950 U.S. rare coins. In the rare coin market, **Spectrum Numismatics** truly is the *King of Cash*. Here are the facts:

1. Last year, one firm in this country spent more money buying premier rare coins than any other rare coin firm. That firm was **Spectrum Numismatics**.
2. Last year, an 1804 Silver dollar sold at public auction for \$1,815,000, a new world's record for a rare coin. The buyer for the coin – **Spectrum Numismatics**.
3. Last year, **Spectrum Numismatics** paid \$3,065,845 in commissions and finder's fees to other dealers and individuals just to help **Spectrum Numismatics** buy the rare coins they needed!

Everybody says they pay top dollar, but the facts of the numismatic marketplace show that **Spectrum Numismatics** is the top buyer. Coin sellers, both dealers and collectors, are basically well informed. And these well informed sellers gravitate towards the highest buy prices. Coin sellers go where they can get the most cash for their coins. And most coin sellers realize they get the most cash for their coins from the rare coin market's *King of Cash*, **Spectrum Numismatics**.

Why does **Spectrum Numismatics** pay more than any other dealer for top quality pre-1950 U.S. rare coins? What's the catch? There's actually no catch at all, it's just a wise business decision. **Spectrum** is one of the largest coin dealerships in the world and has lots of coin hungry clients. **Spectrum** literally must either buy your coins or lose its clients. That's why **Spectrum** will pay outrageously high prices for your coins and that's why they make it so easy for you to get the cash.

IT'S EASY TO DO BUSINESS WITH THE *KING OF CASH*

If you have rare coins you want to sell and you want to sell them for absolutely top dollar, you'll be delighted to know how easy it is to do business with **Spectrum Numismatics**. You'll also be pleasantly surprised at the ultra quick turn around for your coin shipments and the swift **Spectrum** payment. And you can choose payment in either the form of either a **Spectrum** "Rocket" check or an immediate bank wire.

The time to get the cash is now. **Call Spectrum Numismatics** today. Call collect. Tell them you want to talk to the *King of Cash*.

AND THE WINNER IS...

☆☆☆☆ For the "Book of the Year" from
the Numismatic Literary Guild

☆☆☆☆ For the "U.S. Coin Book of the
Year" from the Numismatic Literary Guild

☆☆☆☆ For the Robert Friedberg Award
from the Professional Numismatists Guild
to John Dannreuther

They're the Oscar, the Emmy, and the Grammy awards of numismatic books, and this year all three went to *The Official Guide to Coin Grading and Counterfeit Detection* from the Professional Coin Grading Service (PCGS). If you don't have your copy of this landmark book, here's what you're missing:

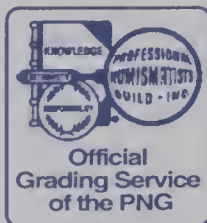

- ★ Prize winning text, written by John Dannreuther and other members of the PCGS staff. There are over 300 pages of detailed descriptions on how to grade every United States coin.
- ★ Top quality photographs, including 48 pages of full-color illustrations. This book not only tells you what to look for, it shows you!
- ★ Expert explanations of all grades. This is the first book available to publish professional grading standards for all eleven mint state grades, plus an equally comprehensive study of how proof coins are graded.
- ★ A quality publication in every way, published by House of Collectibles, a division of Random House. You'll definitely want to add this book to your permanent numismatic library.
- ★ Free coin grading! In the back of every book there's a coupon enabling you to submit one coin directly to PCGS for FREE grading. This \$30 value alone repays you for your cost of the grading guide.

Learn everything you wanted to know about grading U.S. coins and get one coin graded for free, all for only \$29.95 (plus shipping charges). Contact PCGS today to order *The Official Guide to Coin Grading and Counterfeit Detection* Now!

INVENTORY SELECTIONS

MORGAN DOLLARS

Including the famous Jack Lee Collection of Proof Morgan Dollars

Below you will find some of the greatest Morgan Silver Dollars in existence. Along with the spectacular Mint State pieces we acquired a few months ago, we just purchased his proof examples. The proofs and his Mint State pieces were the finest available. In many many cases, Mr. Lee would pay much more for the same coin in the same "Certified Grade" because of strike, luster, or better eye-appeal. These coins are very special and will be as highly sought after as his Mint State coins proved to be.

1879-CC		PCGS Mint State-65	\$17,500	White, boldly struck gem. Absolutely stunning!
1880-O		PCGS Mint State-65	\$16,500	Blast white gem! Amazingly well struck. Exceptional.
1884-S		PCGS Mint State-68	\$825,000	Finest Known. Population 1 - None Better.
1886-O		PCGS Mint State-67DMPL	\$750,000	Finest Known. Population 1 - None Better.
1889-CC		PCGS Mint State-68	\$1,250,000	Finest Known. Population 1 - None Better.
1889-CC		NGC Mint State-64PL	\$35,000	Blast white gem. Extremely high end. Rare & popular.
1890-CC		PCGS Mint State-65PL	\$7,000	White and boldly struck. Extremely nice.
1893-S		PCGS Mint State-67	\$1,150,000	Finest Known. Population 1 - None Better.
1895-O		PCGS Mint State-67	\$875,000	Finest Known. Population 1 - None Better.
1878	7 Feathers	NGC Proof-67	\$29,500	Ex: Jack Lee. "Eliasberg." Light original toning.
1878	8 Feathers	NGC Proof-67	\$45,000	Ex: Jack Lee. "Eliasberg." Superb original color. Finest.
1879		NGC Proof-68	\$29,500	Ex: Jack Lee. A total monster Black and White Cameo.
1880		PCGS Proof-68	\$29,500	Superb original rainbow color. A real looker.
1880		NGC Proof-67	\$12,500	Pure Black and White with extremely deep Cameo. Wow!
1881		NGC Proof-69	\$95,000	Simply the finest Morgan I have ever seen.
1881		NGC Proof-68	\$29,500	Ex: Jack Lee. A superb Black and White perfect Cameo.
1881		PCGS Proof-68	\$29,500	Ex: California Collection. The highest end of Proof-68."
1882		NGC Proof-68	\$29,500	Ex: Jack Lee. Dazzling Black and White Cameo.
1882		NGC Proof-67	\$12,500	Superb deep Cameo, Flashy and basically as made.
1887		PCGS Proof-68	\$29,500	Original steel blue and scarlet rose fading to white.Wow.
1887		NGC Proof-67	\$12,500	Ex: Jack Lee. Black and White. Superb "Look."
1888		PCGS Proof-66	\$15,000	Startling Black and White Cameo. Superb "Look."
1889		NGC Proof-67	\$15,000	Ex: Jack Lee. Black and White Deep Cameo-effect.
1890		PCGS Proof-68	\$29,500	Monster Black and White Cameo. Ex: California Collection.
1891		PCGS Proof-68	\$29,500	Ex: California Collection. Lovely color to white centers.
1892		NGC Proof-68	\$29,500	Ex: Jack Lee. Perfect Black and White Cameo.
1894		NGC Proof-68	\$32,500	Ex: Jack Lee. Original lightly toned Cameo gem!
1895		NGC Proof-68	\$100,000	Ex: Jack Lee. The ultimate "Look." A real Moose.
1896		NGC Proof-68	\$29,500	Ex: Jack Lee. Superb Black and White Cameo.
1897		NGC Proof-68	\$29,500	Ex: Jack Lee. The most beautiful color imaginable. WOW.
1898		NGC Proof-68	\$29,500	Ex: Jack Lee. Lovely Black and White Cameo.
1900		NGC Proof-68	\$29,500	Ex: Jack Lee. Superb Black and White Cameo.
1901		NGC Proof-67	\$19,500	Ex: Jack Lee. A monster gorgeous toned gem. Special.
1902		NGC Proof-68	\$29,500	Ex: Jack Lee. Original Lightly toned gem. Tough Date.
1903		NGC Proof-68	\$29,500	Ex: Jack Lee. Original Lightly toned gem. Tough Date.
1904		NGC Proof-68	\$29,500	Ex: Jack Lee. Original Lightly toned gem. Tough Date.
1921	Chapman	PCGS Proof-66	\$90,000	Finest Known. Population 1 - None Better.

GOLD DOLLAR

1855	Type 2	PCGS Mint State-67	\$175,000	Finest example seen of this "Key" to the 12 Pc. Type Set.
------	--------	--------------------	-----------	---

QUARTER EAGLES

1911-D		NGC Mint State-65	\$50,000	Bright greenish gold gem. Totally spot-free. The "Key".
1914-D		PCGS Mint State -65	\$16,000	Lovely golden-orange gem. Another totally spot-free gem.

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 47

November 20, 1998

Single copy price \$4.00

Optimism Runs High In Sight-Unseen Market "C" And "D" Gold Strong At Auction

There appears to be plenty of optimism flowing in the rare coin market. These sentiments are being expressed by dealers and collector/investors. This **exuberance** has been taking place during November shows and public auctions. We also here the excitement from dealers that talk to us about the current state of the market. The November 13-15 Suburban Washington/Baltimore Convention reinforces the strength of the market. Dealers were pleased with the show. They were happy with the strong public attendance and interest in rare coins. However, many dealers traveled to Baltimore hoping to buy coins for their customers. Want lists have been growing because collectors/investors feel good about the economy and their **financial** position. They are more willing to treat themselves to rare coins. They are getting in touch with the hobby they enjoyed many years ago. Now, they are able and happy to buy some of the key and semi-key dates they had always wanted.

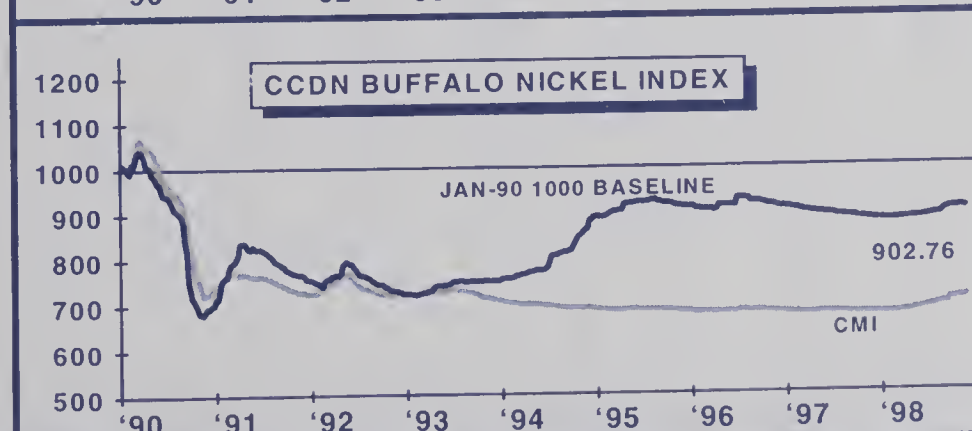

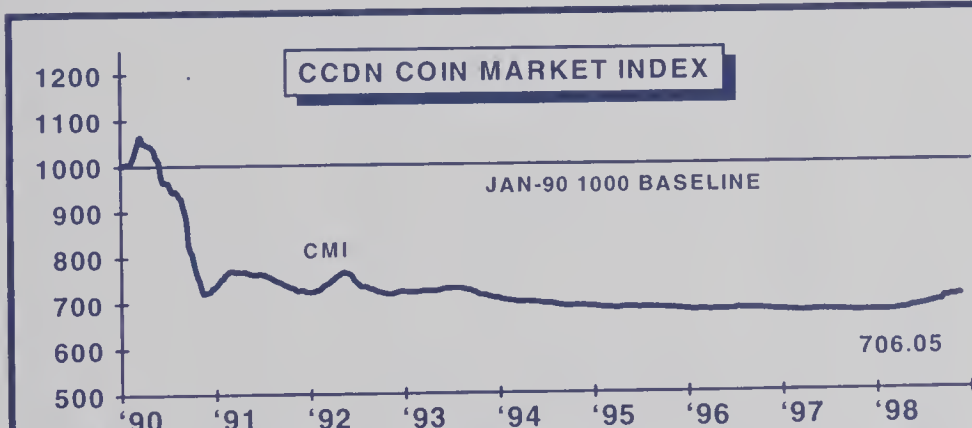

Dealers are benefiting from the growing demand and increasing customer base. They are also benefiting from the country's general good prosperity. These benefits are being explained by the strong supporting and increasing Bids. Some dealers continually increase the amount they are willing to pay for specific dates and denominations. They are hoping to buy some of these coins. We see that they are willing to increase their offers each week in an effort to be successful. Many of these Bids are being offered sight-unseen. Dealers need material and are willing to do whatever it takes to satisfy their customer's demand.

The demand in the sight-unseen market is strong. Actually, this demand is a spill-over from the sight-seen market. Dealers do have specific needs. Selectivity is important. Collectors of the 1990s are more knowledgeable today. They have a greater understanding about rare coins and they tend to specialize in areas that they like. Consequently, dealers need to **anticipate** their customer needs. They look to buy coins that they know will be very salable. Dealers assist their customers by directing them and helping them establish goals. Dealers may even suggest areas of the market that look attractive at current levels. Earlier this year, Commemoratives were extremely quiet. Prices were rather stagnant and they seemed to be out of favor. Now look at them! Dealers have told us that Commems were in demand at the Baltimore Show. We have

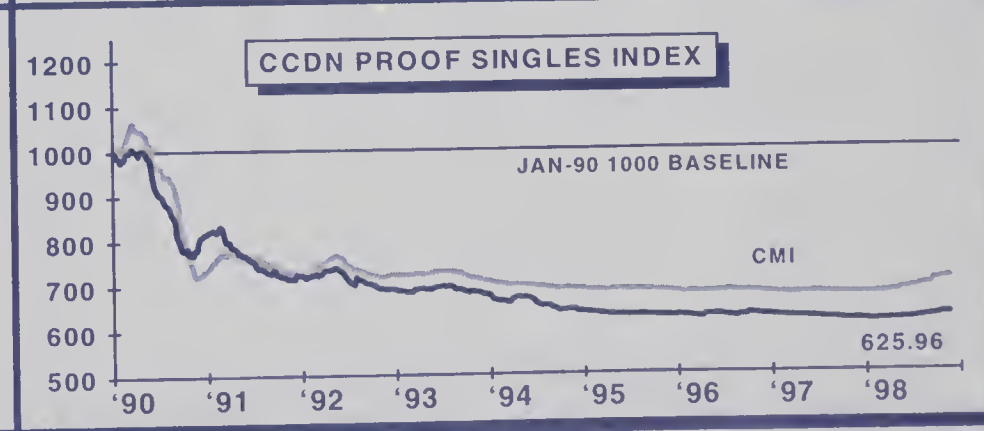

also seen strong increases taking place each week in the sight-unseen market. Collectors like Commemoratives because there is a lot of variety.

Certified Coins performed well in the Bowers and Merena auction held November 12-14 in Baltimore. The sale totaled more than \$6.322 million. This auction featured coins from the cabinets of Craig M. Morgan, M.D. and Stephan C. Leckar. It also included the Columbia, Time Capsule and Great Lakes Collections. An interesting offering of Charlotte and Dahlonga Mint Gold created **enthusiasm** from the Bidders. The sale had many highlights. We have included some of the certified examples.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity [including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices]. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

National Gold Exchange, Inc.

Wants To Be Your Wholesale U.S. & Foreign Coin Superstore

NGE sales exceeded **\$20,000,000.00** for the *MONTH* of October. National Gold Exchange is one of the few dealers that stock coins. When we list a coin for sale it is part of our extensive 12 Million Dollar *Physical* Inventory!

- Proof & Bu U.S. Gold
- Morgan & Peace Dollars
- Dated U.S. Gold
- Foreign Gold

NGE also stocks a large inventory of rare U.S. coins. Highlights of sold coins in October include:

- | | |
|--------------------------------|-----------------------------|
| ● 1879 Coiled Hair Stella PF66 | ● 1798 \$5 MS63 Large Eagle |
| ● 1885 \$20 Liberty PF66 NGC | ● 1904 \$2.5 Liberty MS68 |
| ● High Relief MS67 | ● 1854-S \$20 Liberty MS65 |

Whether You Are Buying Or Selling
National Gold Exchange Wants To Be
Your *Wholesale Coin Superstore*.

ICG APPROVED FOR TRADING BY THE CERTIFIED COIN EXCHANGE (CCE)

ATC

THE LEADER IN
TRADING
SYSTEMS

August 21, 1998

Mr. Keith Love
Independent Coin Grading Company
7901 E. Belleview Ave. #50
Englewood, CO 80111

Dear Keith,

The Certified Coin Exchange is pleased to announce that it has accepted ICG graded coins for sight-unseen trading.

We believe that the reputation of the management and grading staff at ICG, as well as the enthusiastic support that has been expressed to us by the CCE Member Firms, are strong indicators that the ICG will be a successful grading service on the Certified Coin Exchange.

Ronald A. Brandow, President

**ICG Keeps Piling Up

7901 E. Belleview Avenue,
Suite 50 Englewood, CO 80111

ICG Guarantee

ICG guarantees that all coins submitted to its grading service will be handled and graded with the highest standards of professionalism and integrity. Any Customer may resubmit any coin for review of the grade assigned by ICG if such Customer believes that such coin has been overgraded by ICG. If the coin submitted for review by a Customer receives a lower grade under ICG's internal review practices than the grade originally assigned, ICG shall, at ICG's option, either (a) replace the coin or (b) pay any difference between the current fair market value of such coin at the newly established grade and the current fair market value of the grade originally assigned to such coin. The fair market value shall be determined solely by ICG. From time to time, ICG will receive certain Pedigree Coins, Important Rarities or coins where the identity of the owner has been well publicized or well known throughout the numismatic community. Although ICG may be able to assume the identity of such owners, ICG reserves the right to grade such coins under ICG's standard practices. This ICG Guarantee shall not apply to: (a) any clerical error with respect to the description or grade of the coin which would be reasonably noticed upon inspection; (b) any copper coins submitted due to their particular susceptibility to oxidation; (c) any coins subjected to improper storage conditions (extreme temperatures or extreme conditions) and (d) any coins not encapsulated by ICG.

Please do not send coins until you receive your Submission Kit!

Have you been Cherrypicked?

Are you missing a desirable variety attribution for your certified coins?

Before VarietyPlus...

A very nice
type coin.

NGC's VarietyPlus grading tier certifies & grades all of these-varieties...

Half cents by **Breen** half cent numbers (from his *Half Cent Encyclopedia*) ❖ Large cents by **Sheldon & Newcomb** numbers ❖ Half dimes (1794-1837) by **Valentine** numbers ❖ Dimes (1796-1837) by **John Reich** numbers ❖ Quarter dollars (1796-1838) by **Browning** numbers ❖ Half dollars (1794-1836) by **Overton** numbers ❖ Silver dollars (1794-1804) by **Bowers/Borckardt** numbers ❖ Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only) ❖ All varieties in *The Cherrypickers' Guide* and *The Cherrypickers' Top 150* (except ones designated by the authors as "low interest") ❖ All varieties in the "Red Book" (*A Guide Book of United States Coins*).

After VarietyPlus...

The same coin, a rare **Browning-5** quarter, is highlighted for its rarity and desirability, thanks to **VarietyPlus** attribution. Bottom Line: An added value for collectors!

Are you missing a desirable variety attribution for your certified coins? Why not highlight this popular variety with-NGC's VarietyPlus tier, instead of leaving it off for the next dealer to discover? For only an extra \$5 per coin, you can have variety coins like this rare quarter attributed, graded, and encapsulated by NGC, the ANA's Official Grading Service and the consistent leader in third-party grading.

For more information about NGC's VarietyPlus grading tier, call

Demand Is Strong For Proof Gold, Morgan Dollars Sight-Unseen Market Remains Active

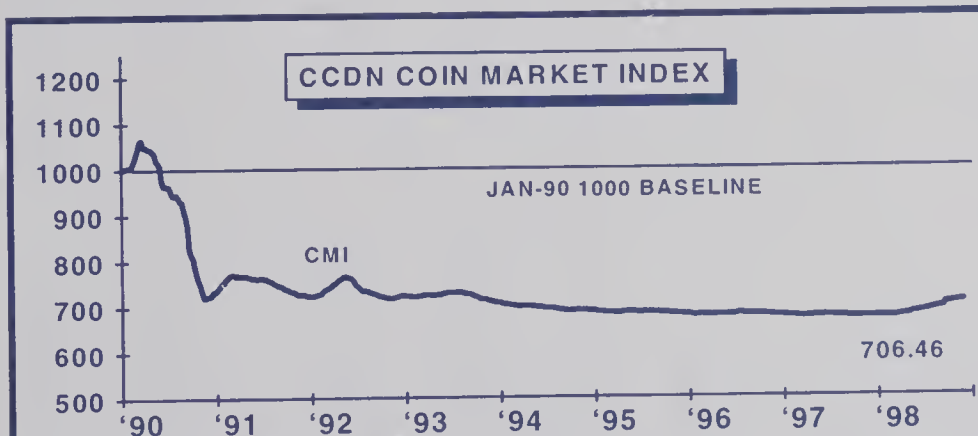

The sight-unseen market for certified rare coins is very sound. Dealer Bidding on the electronic networks is spread across many series and denominations. Their demand, at times this year, has seemed to be almost insatiable. Dealers have found a strong need to buy coins in quantity as well as quality. Dealers are looking for specific dates and Types. Ultimately they just need more material. It has been a difficult task for dealers trying to keep pace with demand. They also want to place coins with their customers in a timely fashion. The problem is that the collector base is expanding and the supply of coins is decreasing. Dealers tell us that **new** people are entering the hobby. A major factor for this surge has come via the **Internet**. This vehicle has allowed individuals to search for numismatic and hobby information. They may just want to know about a coin that they inherited. Some have examples of odd denominations or partial sets that began years ago. Now, feeling more financially secure, they are willing to continue their collections. These potential collectors begin to review various rare coin web-sites. If the experience is enjoyable, then the person may begin his coin collecting journey. If not, the sale of that coin or set of coins into the market is imminent. Dealers tell us that more people are beginning or rekindling their collections every day.

Interest in rare coins is running high. Amazingly, it is doing so in the face of stagnant precious metal prices and virtually no inflation. However, the strong economy, and prospects for this scenario to continue, have given collector/investors the ability to easily get on board. The recent series of Federal Reserve interest rate cuts have given added support to all this new optimism. It has brought the stock market to a record high. In turn, these investors are willing to buy more rare coins. For some, it means buying rare coins for the first time. That is one of the reasons why Proof Gold, Proof Type, Mint State Type, Morgan Dollars, Peace Dollars and Silver Commemoratives have been jumping in value. We still see these rare coin

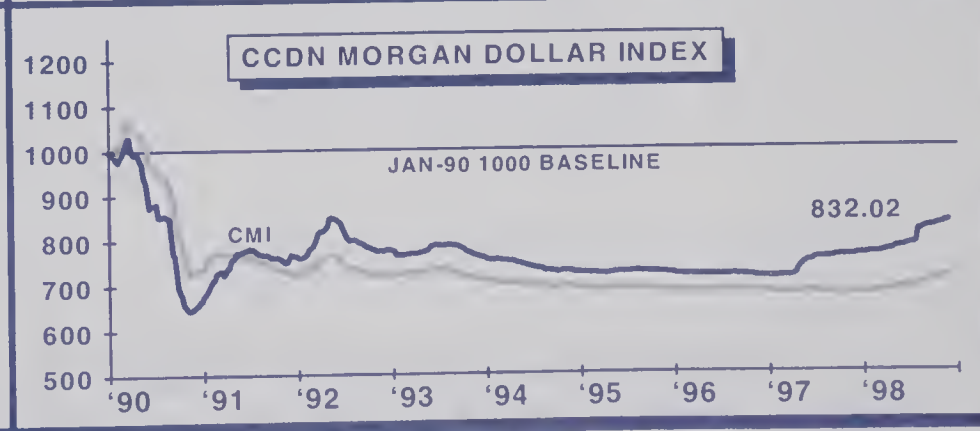

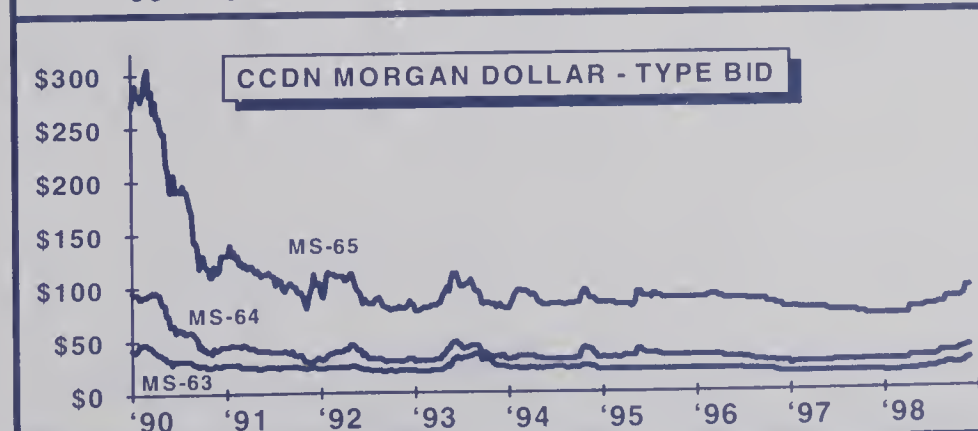

groups displaying many more plus signs than minus signs each week. The dealers are Bidding, sight-unseen for quantities of these coins. They are looking for specific dates and grades to satisfy their customer want lists. It is important to keep in mind that a Bid does not always mean that there is a transaction taking place. Also, dealers may need several coins at each Bid level. Consequently, dealers need to increase their Bids until their demand is fully satisfied.

We have seen this kind of activity taking place in the Morgan Dollar series throughout much of 1998. Dealers have many customers looking to buy Dollars for their collections. We know that there are many different ways to collect Morgan Dollars. Collecting by date and Mint is very popular. Collectors are fond of the "Old West" and its American themes. That is why the Carson City Mint coins are extremely popular. Many collectors choose to collect the entire group of "CC" Dollars. This was further enhanced when the General Services Administration sold a number of Carson City Mint Morgan Dollars. They began their sales in 1968 by selling Silver to the general public. By 1972, the sales expanded to include Carson City Mint Dollars. The first sale proved to be so successful that the GSA conducted another in 1980. Most of the Carson City Dollars that were sold from the Treasury were in Uncirculated condition. The majority were dated 1882-1884. The popularity of these coins then is still in evidence today. The sight-unseen market is alive for Carson City Dollars. Dealers buy and sell GSA Dollars every day. Prices for GSA Dollars and slabbed Carson City Dollars have increased this year.

The Proof Gold market has been **hot** the last several weeks. Dealers tell us they have many customer requests for all denominations of Proof Gold. The largest portion of this demand is looking for Proof 64 and better coins. However, attractive Proof 63 Gold is also being bought at strong levels. If Proof Gold is realizing strong demand, then the general rare coin market must be doing OK. This is very true today.

NGC

Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin show and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the week prior to publication (week old); "**m**" - Lowest asking price during the previous three weeks (month old); "**t**" - Trade during the most recent month; "**lm**" - Lowest asking price appearing last month; "**lt**" Trade appearing last month; "**ot**" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

IF GREEN (AS IN CASH) IS YOUR FAVORITE COLOR IN THE SPECTRUM . . .

Then Spectrum Numismatics is the rare coin company to see if you have coins to sell, a trade to make, a deal to finance, or a collection to buy that's momentarily beyond your means. Spectrum offers you:

*IMMEDIATE PAYMENT.

You get the money **now!** You can absolutely count on a bank wire or a same-day check if the transaction is done by mail. If we do a deal at a show, or at your office or ours, or at a financial institution, you'll receive your money on the spot. No transaction is too large for **Spectrum!**

*TOP PRICES.

Everyone can say it, but we're the ones who pay it. The largest price ever paid for a single coin was paid by **Spectrum**. The largest price ever paid for a private rare coin holding was paid by **Spectrum**. That includes **all** transactions in the history of numismatics through August, 1998. **All** of them.

*GENEROUS FINDER'S FEES.

In 1997 alone **Spectrum** paid \$3,065,845 in finder's fees and commissions. If you find a rare coin deal that's too large, too complicated, or one you don't want to get involved in for any legitimate reason, you don't have to leave the money on the table. Call **Spectrum!**

*FAIR TRADES.

Want to trade bullion for rare coins? How about rare coins for bullion? What about rare coins for other rare coins? Whatever your situation and needs, **Spectrum** is willing to work out a deal, and there's a high probability that we can get the deal done.

*MARKET KNOWLEDGE.

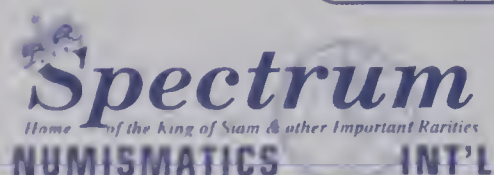

When you deal with **Spectrum**, you deal with numismatic professionals. We have the knowledge that covers the spectrum, whether it's a collection of early United States rarities, a hoard of pre-1950 20th century coins, or a large and diverse holding in all areas of the market. We are interested in buying. Period.

*FINANCING PACKAGES.

What does it take to get the deal done? Every situation seems to be unique in some way, and **Spectrum** has financing packages tailored to your needs.

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949) 955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the *King of Cash*.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

December 4, 1998

Single copy price \$4.00

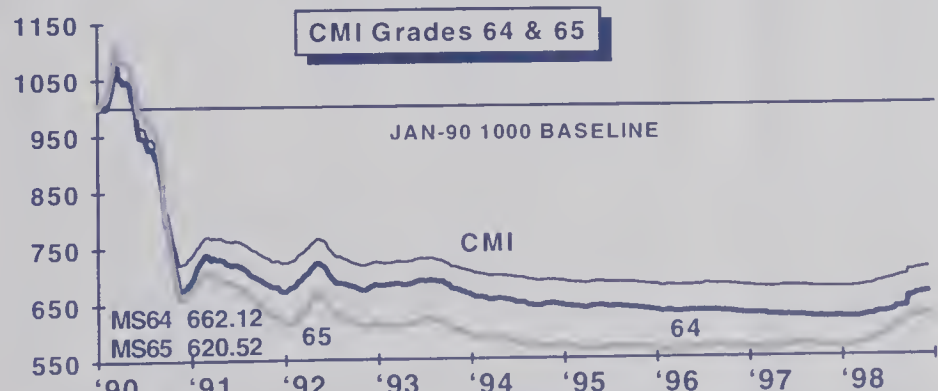

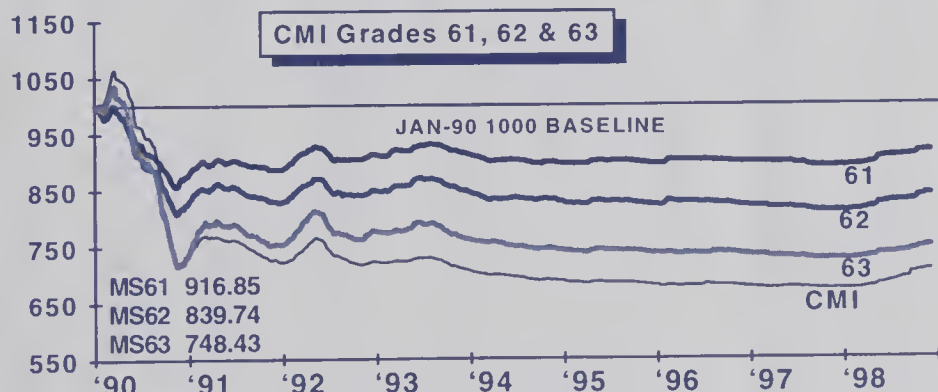

Sight-Unseen Market Solid Commems, Buffaloes Receive Attention

We see that the sight-unseen market for rare coins is still attracting many dealers. Dealers find the sight-unseen market an easy way to obtain certain dates and other material. Dealers weigh the risks carefully before Bidding. Even so, they believe that the **reward** is worth the risk. The strong rare coin market provides the fuel dealers need. Collectors are actively buying rare coins, enjoying the prosperity that exists in the economy. However, collectors never seem to have enough time to accomplish all their goals. Consequently, collectors give their lists of dates wanted to their favorite dealers. This gives them an advantage in their endeavor. They are looking for specific dates for their collection. Dealers help them by accomplishing their needs quicker than if they did it themselves. Also, a dealer can help them buy the right coin. They can have another opinion about the coin's condition and scarcity. Naturally, we see that the popular series are being targeted by these new and longtime collectors.

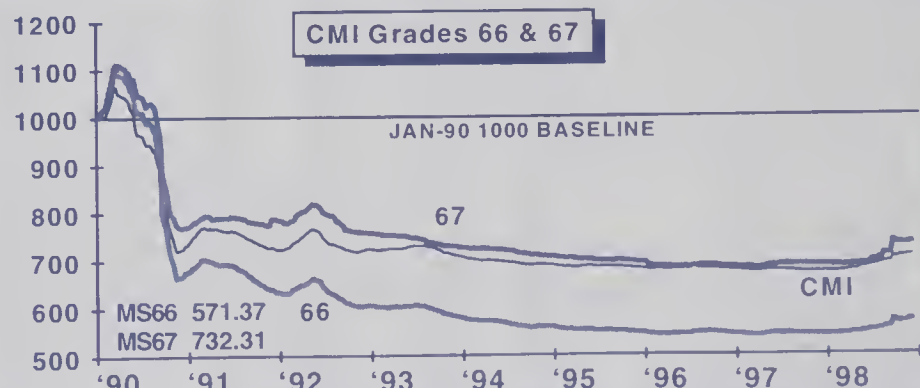

Buffalo Nickels have been a longtime favorite of many collectors. We see dealers increasing their Bid for select Buffalo Nickels. They are willing to buy Buffalo Nickels, **sight-unseen** for their customers. Dealers know that many dates in the series may be softly struck. They know what to expect and are willing to accept many coins in the sight-unseen market. The demand is strong enough for dealers to generate some generous offers to buy. We see strong Bidding for coins throughout the 1920s and 1930s. Also, the initial year of the series, 1913, has attracted a considerable amount of dealer interest. This date is available in Type 1 and Type 2. Obviously it is an excellent Type coin. Beyond that, the collector demand is strong for the **scarce** Denver and San Francisco Mint examples of each Type.

Again this week, we see that there is a number of plus signs in the Silver Commemorative series. Dealers are trying to accumulate these coins for their inventory and fill their customer want lists. Demand is being concentrated for coins at the **top end** of the Mint State category. Dealers are looking to buy MS65 and better Commems. Some of the Commemorative Half Dollars needed include the 1936-S San Francisco-Oakland Bay Bridge; 1925-S California Diamond Jubilee; 1924 Huguenot-Walloon Tercentenary; the Oregon Trail Memorial coins; and, the 1936 Lynchburg, Va., Sesquicentennial. Dealers are looking for well struck coins that possess nice eye appeal. Collectors are looking for Commems with "**flash**" and/or coins that have attractive, original toning. Gold Commemoratives are attracting only moderate demand. However, it is not uncommon for an excellent quality specimen to command strong money.

Walking Liberty Half Dollars are stronger than they appear. This is true even though there are not that many plus signs appearing each week. We know that dealers are out there looking to buy scarce and common date Walkers. They are looking to buy brilliant white coins that are well struck. However, dealers have been very picky because their customers are looking for exceptional quality examples. They want coins with eye appeal and are willing to pay strong money for them. Consequently, darkly toned or weakly struck specimens are being heavily discounted. Demand is strong for the keys. Collectors want the early dates from 1916 thru 1933-S. Many of these are quite rare in MS65 and better condition. However, Mint State examples of these dates are available through patience. Generally, a public auction will be an excellent source for the really tough dates. We are referring to dates such as 1916-S; 1917-D Reverse; 1917-S Obverse; 1918-D; 1919; 1919-D; 1919-S; 1920-D; 1921; 1921-D; and, 1921-S.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

ICG APPROVED FOR TRADING BY THE CERTIFIED COIN EXCHANGE (CCE)

ATC

THE LEADER IN
TRADING
SYSTEMS

August 21, 1998

Mr. Keith Love
Independent Coin Grading Company
7901 E. Belleview Ave. #50
Englewood, CO 80111

Dear Keith,

The Certified Coin Exchange is pleased to announce that it has accepted ICG graded coins for sight-unseen trading.

We believe that the reputation of the management and grading staff at ICG, as well as the enthusiastic support that has been expressed to us by the CCE Member Firms, are strong indicators that the ICG will be a successful grading service on the Certified Coin Exchange.

Ronald A. Brandow, President

Suite 50 Englewood, CO 80111

ICG Guarantee

ICG guarantees that all coins submitted to its grading service will be handled and graded with the highest standards of professionalism and integrity. Any Customer may resubmit any coin for review of the grade assigned by ICG if such Customer believes that such coin has been overgraded by ICG. If the coin submitted for review by a Customer receives a lower grade under ICG's internal review practices than the grade originally assigned, ICG shall, at ICG's option, either (a) replace the coin or (b) pay any difference between the current fair market value of such coin at the newly established grade and the current fair market value of the grade originally assigned to such coin. The fair market value shall be determined solely by ICG. From time to time, ICG will receive certain Pedigree Coins, Important Rarities or coins where the identity of the owner has been well publicized or well known throughout the numismatic community. Although ICG may be able to assume the identity of such owners, ICG reserves the right to grade such coins under ICG's standard practices. This ICG Guarantee shall not apply to: (a) any clerical error with respect to the description or grade of the coin which would be reasonably noticed upon inspection; (b) any copper coins submitted due to their particular susceptibility to oxidation; (c) any coins subjected to improper storage conditions (extreme temperatures or extreme conditions) and (d) any coins not encapsulated by ICG.

Please do not send coins until you receive your Submission Kit!

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XIII No. 50

December 11, 1998

Single copy price \$4.00

Expectations Running High For FUN Show Rare Gold To Appear At Auction

Demand for coins in the sight-seen market continues to spill over to the sight-unseen side of the equation. We see dealers increasing their willingness to buy rare coins, sight-unseen, by utilizing the electronic dealer networks. The demand is created by collectors and investors trying to buy coins for their collections and portfolios. Supplying this demand with rare coins is very satisfactory for dealers. The main reason is that they need to increase their turnover rate if their business is to be more successful. Coins in inventory that are **stagnant** are considered non-productive. However, there are other concerns. Replacing rare date coins that have been placed with a collector is a constant battle. The cost to repurchase a rare date is difficult to evaluate. Nevertheless, if a coin has been sitting in inventory for a considerable amount of time, then it should be discounted. Customers appreciate inventories that are kept fresh.

One way for dealers to overhaul or improve their inventory is by attending the 44th Annual Florida United Numismatists Convention and Show in Orlando. The January 7-10, 4-day FUN Show will feature a public auction by Heritage. It also provides many activities and club meetings. Dealers appreciate an opportunity to examine the inventories of other dealers. Also, the usually strong public and collector attendance are welcome because they bring coins to buy and sell. FUN is a major coin show. It is also thought to be a **bellwether** show. Often, dealers look to the results of this winter show to help them determine the market direction for the new year. We hear that dealers are currently optimistic about the market and its immediate future. Consequently, the expectations of this FUN Show are high.

The sight-unseen market continues to attract strong Bidders. We see some interest for Prooflike Morgan Dollars. Dealers are looking to buy common date, Prooflike Dollars for their customers. We see that the demand is for MS64PL and MS65PL coins. In some cases, quantities of each grade are needed. Scarce date Prooflike Morgan Dollars are quiet although the rarity and demand for many of these dates are evident. Another area that has been doing well in the sight-unseen rare coin market is early Gold Type. Interest for early Gold is very strong in the sight-seen market. We see this strength spilling over to the sight-unseen market.

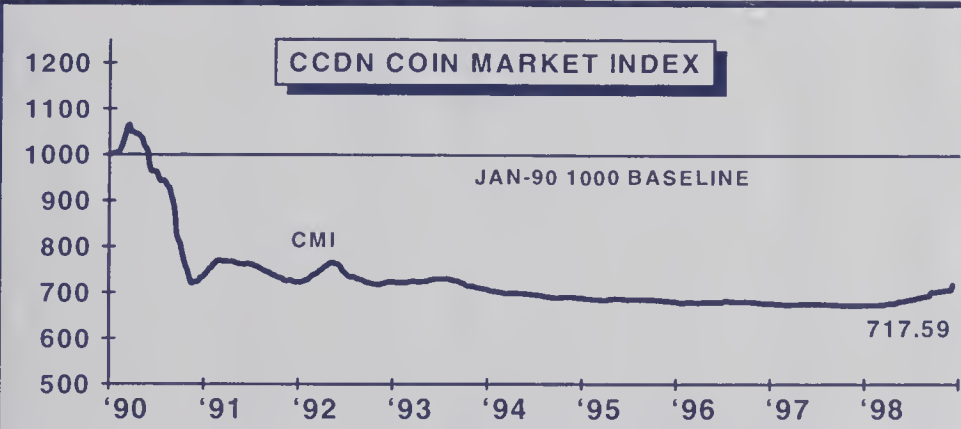

Dealers are increasing their sight-unseen Bids for AU58 and better early Gold Type. Some Types and denominations performing well include the 1829-34 \$2.50 Capped Head, Small Planchet coins in grades ranging from AU58 thru MS63. We also see a great deal of interest for 1834-39 \$2.50 Classic Head Gold in the same grades. We see even greater demand taking place for early \$5 and \$10 Gold. Increases are occurring in Draped Bust, Heraldic Eagle \$5 Gold. Bids are up in MS61 and MS62. Demand is also affecting Bids for early \$10 Gold. Increases are seen for examples grading MS60 thru MS62.

Washington Quarters are holding steady after strong increases. We see many supporting Bids from dealers at current levels for coins grading MS64 thru MS66. The key and semi-key date Washington Quarters are especially realizing strong demand. From Cents to Gold, the sight-unseen market is strong. Matte Proof Lincoln Cents are in strong demand. The population numbers are small, and some

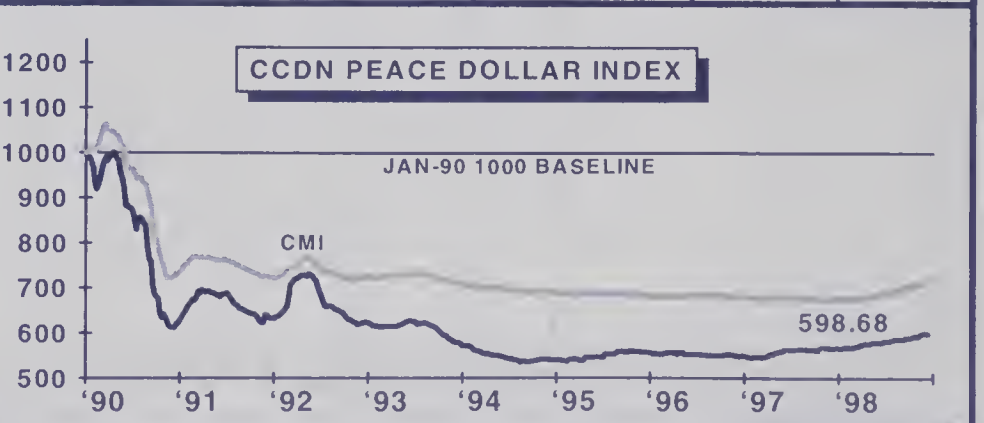

dealers are trying to find high-quality, full Red Cents. The Matte Proof 65R and better Lincoln Cents needed include the rare 1909 VDB; 1912; 1915; and, 1916.

Sotheby's will conduct an auction featuring many rare coins. The Coins and Banknotes, 607 lot sale will be held in New York on December 19. Some of the certified rare coin highlights are listed.

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Parsippany, NJ (973) 984-6222

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

"Quality will be remembered, long after price is forgotten"

AND THE WINNER IS...

☆☆☆☆ For the "Book of the Year" from
the Numismatic Literary Guild

☆☆☆☆ For the "U.S. Coin Book of the
Year" from the Numismatic Literary Guild

☆☆☆☆ For the Robert Friedberg Award
from the Professional Numismatists Guild
to John Dannreuther

They're the Oscar, the Emmy, and the Grammy awards of numismatic books, and this year all three went to *The Official Guide to Coin Grading and Counterfeit Detection* from the Professional Coin Grading Service (PCGS). If you don't have your copy of this landmark book, here's what you're missing:

- ★ Prize winning text, written by John Dannreuther and other members of the PCGS staff. There are over 300 pages of detailed descriptions on how to grade every United States coin.
- ★ Top quality photographs, including 48 pages of full-color illustrations. This book not only tells you what to look for, it shows you!
- ★ Expert explanations of all grades. This is the first book available to publish professional grading standards for all eleven mint state grades, plus an equally comprehensive study of how proof coins are graded.
- ★ A quality publication in every way, published by House of Collectibles, a division of Random House. You'll definitely want to add this book to your permanent numismatic library.
- ★ Free coin grading! In the back of every book there's a coupon enabling you to submit one coin directly to PCGS for FREE grading. This \$30 value alone repays you for your cost of the grading guide.

Learn everything you wanted to know about grading U.S. coins and get one coin graded for free, all for only \$29.95 (plus shipping charges). Contact PCGS today to order *The Official Guide to Coin Grading and Counterfeit Detection* Now!

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep mirror Prooflike.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

IF GREEN (AS IN CASH) IS YOUR FAVORITE COLOR IN THE SPECTRUM . . .

Then Spectrum Numismatics is the rare coin company to see if you have coins to sell, a trade to make, a deal to finance, or a collection to buy that's momentarily beyond your means. Spectrum offers you:

*IMMEDIATE PAYMENT.

You get the money **now!** You can absolutely count on a bank wire or a same-day check if the transaction is done by mail. If we do a deal at a show, or at your office or ours, or at a financial institution, you'll receive your money on the spot. No transaction is too large for **Spectrum!**

*TOP PRICES.

Everyone can say it, but we're the ones who pay it. The largest price ever paid for a single coin was paid by **Spectrum**. The largest price ever paid for a private rare coin holding was paid by **Spectrum**. That includes **all** transactions in the history of numismatics through August, 1998. **All** of them.

*GENEROUS FINDER'S FEES.

In 1997 alone **Spectrum** paid \$3,065,845 in finder's fees and commissions. If you find a rare coin deal that's too large, too complicated, or one you don't want to get involved in for any legitimate reason, you don't have to leave the money on the table. Call **Spectrum!**

*FAIR TRADES.

Want to trade bullion for rare coins? How about rare coins for bullion? What about rare coins for other rare coins? Whatever your situation and needs, **Spectrum** is willing to work out a deal, and there's a high probability that we can get the deal done.

*MARKET KNOWLEDGE.

When you deal with **Spectrum**, you deal with numismatic professionals. We have the knowledge that covers the spectrum, whether it's a collection of early United States rarities, a hoard of pre-1950 20th century coins, or a large and diverse holding in all areas of the market. We are interested in buying. Period.

*FINANCING PACKAGES.

What does it take to get the deal done? Every situation seems to be unique in some way, and **Spectrum** has financing packages tailored to your needs.

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949) 955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the *King of Cash*.

Have you been Cherrypicked?

Are you missing a desirable variety attribution for your certified coins?

Before VarietyPlus...

A very nice
type coin.

NGC's VarietyPlus grading tier certifies & grades all of these-varieties...

Half cents by **Breen** half cent numbers (from his *Half Cent Encyclopedia*) ❖ Large cents by **Sheldon & Newcomb** numbers ❖ Half dimes (1794-1837) by **Valentine** numbers ❖ Dimes (1796-1837) by **John Reich** numbers ❖ Quarter dollars (1796-1838) by **Browning** numbers ❖ Half dollars (1794-1836) by **Overton** numbers ❖ Silver dollars (1794-1804) by **Bowers/Borckardt** numbers ❖ Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only) ❖ All varieties in *The Cherrypickers' Guide* and *The Cherrypickers' Top 150* (except ones designated by the authors as "low interest") ❖ All varieties in the "Red Book" (*A Guide Book of United States Coins*).

After VarietyPlus...

The same coin, a rare **Browning-5** quarter, is highlighted for its rarity and desirability, thanks to **VarietyPlus** attribution. Bottom Line: An added value for collectors!

Are you missing a desirable variety attribution for your certified coins? Why not highlight this popular variety with-NGC's VarietyPlus tier, instead of leaving it off for the next dealer to discover? For only an extra \$5 per coin, you can have variety coins like this rare quarter attributed, graded, and encapsulated by NGC, the ANA's Official Grading Service and the consistent leader in third-party grading.

For more information about NGC's VarietyPlus grading tier, call

1-800-NGC-COIN

(1-800-642-2646).

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIII No. 51

December 18, 1998

Single copy price \$4.00

Sight-Unseen Market Active At Year End Happy Holidays — Last Issue For 1998

Activity in the sight-unseen market is ending the year with a flurry. We see a considerable amount of dealer interest for certified rare coins. The trust in these encapsulated coins allows dealers to Bid sight-unseen, on coins they need for their customers. It also allows them to buy coins for their inventories. Demand is evident for select dates of all series and denominations. We see activity in Copper, Copper-Nickel, Silver and Gold. Collectors are adding to their already long list of dates wanted. Dealers are trying to satisfy this demand by exploring all avenues to locate specific dates. The electronic dealer network is an important part of the equation. Dealers are trying to force the tough dates out by increasing their Bid levels. Many of these dates may be locked in collections. Collectors often take these coins off the market for an indefinite period of time. Usually, the intent is not to sell them. However, if the price offered is unusually strong or unexpected, then sometimes they are willing to sell a few of these coins. Other times, it does not matter.

One segment of the market that is realizing strong, **jump** Bids is Standing Liberty Quarters. We see that many key and semi-key dates of this short series have experienced sharply increased sight-unseen Bids. Many of the better dates may be few and far between in the upper Mint State grades. This is especially true for those dealers trying to find Full Head examples. Some of these dates in the upper grades may not exist. Sometimes a date in a specific grade may be thought of as unknown, even by the experts, until it surfaces one day. Dealers can only hope that their needs become fulfilled. It is important because they have customers putting together collections. These collectors entrusted them with their wish lists. Dealers try to accommodate their customers.

Another area of the sight-unseen market that is highly volatile is \$20 Saint-Gaudens. This series has proved to be very popular among collectors. In part, many collectors and dealers alike believe that the Saint-Gaudens design is among the most beautiful of all United States coins. A greater attraction to collectors is the extreme challenge involved with completing this series. The fact that the \$20 Saint-Gaudens is composed of nearly a full ounce of pure Gold also helps to **perpetuate** its popularity. Dealers tell us that many of their customers own Saints. The serious minded collectors/investors are attempting to complete Saint collections. The parameters for completing a collection of Saints are determined by the individual. Dealers often assist

these collectors by helping them to establish a reasonable goal. This goal is based on the amount of time it takes to complete as well as their available finances. It is easy to see why collecting rare coins has become a versatile and enjoyable hobby.

The Rarities Sale will take place January 5-6 in Orlando, Florida. This auction is being conducted by Bowers and Merena and will feature many certified rare coins. We have listed a few of the highlights above:

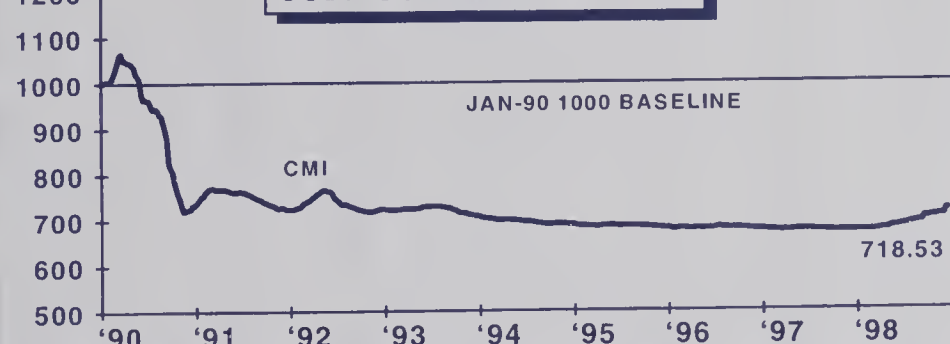

Stack's will conduct a public auction of Americana Colonial and Federal Coins, Medals and Currency. The sale will be held January 12-13 in New York City. A few of the many certified highlights include:

BOWERS AND MERENA

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

WALKING LIBERTY HALVES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Have you been Cherrypicked?

Are you missing a desirable variety attribution for your certified coins?

Before VarietyPlus...

A very nice
type coin.

NGC's VarietyPlus grading tier certifies & grades all of these-varieties...

Half cents by **Breen** half cent numbers (from his *Half Cent Encyclopedia*) ❖ Large cents by **Sheldon & Newcomb** numbers ❖ Half dimes (1794-1837) by **Valentine** numbers ❖ Dimes (1796-1837) by **John Reich** numbers ❖ Quarter dollars (1796-1838) by **Browning** numbers ❖ Half dollars (1794-1836) by **Overton** numbers ❖ Silver dollars (1794-1804) by **Bowers/Borckardt** numbers ❖ Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only) ❖ All varieties in *The Cherrypickers' Guide* and *The Cherrypickers' Top 150* (except ones designated by the authors as "low interest") ❖ All varieties in the "Red Book" (*A Guide Book of United States Coins*).

After VarietyPlus...

The same coin, a rare **Browning-5** quarter, is highlighted for its rarity and desirability, thanks to **VarietyPlus** attribution. Bottom Line: An added value for collectors!

Are you missing a desirable variety attribution for your certified coins? Why not highlight this popular variety with-NGC's VarietyPlus tier, instead of leaving it off for the next dealer to discover? For only an extra \$5 per coin, you can have variety coins like this rare quarter attributed, graded, and encapsulated by NGC, the ANA's Official Grading Service and the consistent leader in third-party grading.

For more information about NGC's VarietyPlus grading tier, call

1-800-NGC-COIN
